**Wedding Reception to Mr. and Mrs. M. Shinehoft**

A wedding reception was given in honour of Mr. and Mrs. M. Shinehoft in the Hebrew Congregational hall on Cedar street on Sunday evening, Jan. 28th. There were about 250 guests present. Dancing was enjoyed before

the gathering dispersed in the morning hours. Other special features of the event were brief but appropriate addresses by Mr. Sam Bucovsky and Mr. Whitney. Mr. Bucovsky referred to the lives and prospects of the young couple and wished them the very best of fortune and happiness. Mr. Whitney referred particularly to the valuable services given by the bride on the staff of the Woolworth store and the esteem in which she was held and the good wishes extended to the young couple. There were many beautiful and valuable gifts given to the young couple, while they were fairly dressed with good wishes from all present. Lunch was served at one o'clock, this being followed by a further pleasant hour of social enjoyment.

Boston Herald:—Uncle Sam would have one less thing to worry about, if folks on the other side of the Atlantic would take his surplus flour as willingly as they took his surplus dough.

**Timmins Kiwanians Down in San Antonio, Texas**

A letter from Kiwanian Vice Woodbury, now at San Antonio, Texas, says in part:—Took Arch Gillies around on the course while he was visiting us last week, and he was not up to par. We alternated strokes on the 18-hole round, and because of his work, I failed of my customary minus one hundred. The lions roaring at the Park Cave unsettled Arch and he dubbed some of his approaches, especially when they were in the direction of the Cave. Enclosed in the letter is a copy of The San Antonio Kiwanian, "issued weekly in the interests of Kiwanis Club of San Antonio." The issue is dated Friday, Feb. 2nd. One of the items in the issue reads:—"We've adopted Vince Woodbury as a winter member of our club, so we can't call him a visiting Kiwanian any more. He had as his guest last week Arch Gillies, vice-president of the Timmins Club."

**Ontario House Now in Regular Session**

Lieut. Governor Speaks of Legislation to be Considered, Notable Work by Welfare Department, Assistance Given to Agriculture

Special weekly letters to The Advance on things in the Ontario Legislature.

Surrounded by British parliamentary tradition and procedure, the fifth and last session of the fifteenth legislature of the province was opened on Wednesday afternoon last week by the Hon. Herbert A. Bruce, Lieutenant-Governor. Crowded galleries witnessed the historic ceremony, the floor of the chamber being crowded with beautifully powdered women. For the first time in the history of the legislature the opening ceremony was broadcast.

From former years, the ceremony was changed on one respect, his honour escorting Mrs. Bruce to the chamber, whereas in former years, both his Honour and Mrs. Bruce were escorted by Premier George S. Henry. The Prime Minister followed immediately behind the Lieutenant-Governor and Mrs. Bruce who were accompanied by representative aides from the militia regiments.

Several important pieces of legislation were forecast in the Speech in opening the session of the Legislature and Purchases Relief Act, to give further assistance to those who find themselves in financial difficulties; supervision of lumbering operations and living conditions in lumbering camps;

legislation to provide for publication and registration of rates for bus and truck transportation; provincial control of the distribution of milk, coupled with compulsory pasteurization by municipalities; and certain regulations as to the inspection and grading of agricultural products under the department of agriculture.

An indication was given by His Honour that work on the construction and maintenance of highways will be undertaken during the coming season on a larger scale than prevailed last year, with a view to providing a greater field for employment. Special aid to counties and townships by the Federal and provincial governments toward labour costs in such construction will be continued as in former years.

His Honour referred to the loss of several members of the Assembly since the last session, there having been five up until the opening, and six with the death of Dr. George V. Harcourt, Conservative member for Parry Sound.

"As a people, we are encouraged by the progress now being made toward the recovery of business and industry," said Dr. Bruce. "I trust that this tendency will be continued at an accelerated rate and that the time is not far distant when our country will again be well on the road to enduring prosperity."

Relief employment payments by the Dominion and the provincial governments will be continued, the funds to be used in providing work in order that the distribution of direct relief may be gradually curtailed. Provincial governments are now planning greater uniformity of the company law which was discussed at the recent inter-provincial conference at Ottawa, while reference was made to the forthcoming centennial celebrations of the city of Toronto.

Touching on the work of the past year, His Honour said that it was gratifying to learn of the progress made in opening up and extending markets for the products of Ontario farms. Assistance given to the building of cold storage and central packing plants is enabling the farmer to place perishable products on the market to the best advantage. Co-operation has been arranged with the Federal Department of Agriculture to improve the quality of beef cattle and to increase the yield of dairy cows. Young people in the rural districts are taking a keen interest in the educational activities of the Ontario Department of Education, the attendance at the short courses in agriculture and home economics being the largest on record.

As an evidence of the trend of industry, the operations of the Hydro-Electric Commission afford valuable and reliable information, as in December the actual peak load, including secondary power, carried by the various systems reached the highest point in the history of the Commission. Rural services were extended last year by the addition of 2,300 customers, and further loans were made to farmers to enable them to install electrical equipment. No interruption has taken place in educational services, except where in a few remote localities schools have been closed on grounds of economy. Public interest continues to be manifested in the conservation and propagation of fish and game for which increased facilities have been provided. The federal authorities have assisted in the placing of large game in Northern Ontario, and plans to increase the consumption of Ontario fish are being developed.

The Welfare Department, His Honour pointed out, advanced the cause of social amelioration and enlisted co-operation in helpful work to a commendable degree. Increasing numbers of families have invoked the assistance of the Mothers' allowances and the Old Age pensions, and special attention has been required for the needs of ex-service men. The T. & N. O. Railway maintained its service during the past year with an operating surplus and present indications inspire full confidence in the future of this undertaking.

Dealing with the province's financial position, Dr. Bruce stated that public accounts will indicate the \$476,000 surplus for the last financial year, which he termed "a much better showing than was considered a year ago." As to the recent \$40,000,000 loan, Dr. Bruce said:—"By the prompt subscription of this loan, a notable demonstration of the financial strength of Ontario was afforded."

Moving and seconding the motion for adoption of the Speech from the Throne fell to the lot of two of the youngest members of the House in the persons of Arthur Ellis, South Ottawa, and Dr. H. J. Davis, East Elgin. Mr. Ellis scored the Liberals for having dismissed their former leader, W. E. N. Sinclair, K.C., but he offered Mr. Sinclair his admiration for having had the courage of his convictions in putting the welfare of the people ahead of his own political ambitions. Hydro critics, Mr. Ellis said, were still attacking the greatest asset of the province, but in dealing with a comparison of rates, he pointed to the greatly reduced cost of power to municipalities and rural sections than existed prior to adoption of Hydro.

Dr. Davis predicted that the grading of hogs would shortly be done as on the rail and not on the hoof. Many farmers felt, he said, that it was practically impossible to grade properly on the hoof and that there is no sufficient given for select hogs for the production risks the farmers take. He also advocated live grading of bacon before it reaches world markets, so that the farmer would be paid according to quality and would thus get the top price which is generally live to 20 shillings higher than the farmer usually gets.

Jackson (Missouri) News:—It is possible that the sun may explode and instantly destroy all the planets, asserts an astronomer. We plan to worry about this five or ten minutes some day, if we ever catch up worrying about so many things we already have to worry about.

**News and Notes of Timmins Girl Guides**

Last Week's Meeting of the Timmins Girl Guides. What Girl Guides Need to Know and Do to Qualify for Membership.

On Feb. 2nd another enjoyable meeting was held at the Central School auditorium.

We suppose those who follow up these articles each week would be interested in the things we have to know and do to become a real first-class guide. In order to obtain this position we first become second-class guides, and lastly, with a great deal of hard work, we receive our first-class badge.

Before we are enrolled as tenderfoots we must know the following things:—

- (1) The Guide Law which is taken from the 10 laws of chivalry used by the knights of old.
  - (2) The Threefold Promise which is to promise on our honour to do our best to do our duty to God and the King and to help other people at all times and to obey the Guide Laws.
  - (3) The signs and salute.
  - (4) Must understand the composition of the Union Jack and the proper way to fly it.
  - (5) Must be able to tie four of the following knots and know their uses: reef, sheet bend, clove hitch, bowline, fisherman's, and sheepshank.
  - (6) Must have a month's attendance.
- Having learned this the girls are enrolled in the presence of Company into the sisterhood of the guides.
- The above article of how a girl may become a real first-class guide will be continued in next week's issue.

North Bay Nugget:—A Dutch auction, we read, is the reverse of the usual procedure. The auctioneer offers an article for sale at a high price and keeps reducing the price until a purchaser puts up his hand. Now, we didn't know they had had a depression in Holland all the time.

**Simple Rules prevent INDIGESTION**

Eat in moderation, work and sleep with windows open, take daily exercise in the fresh air, not forgetting recreation. Do not worry. Go to bed in decent time, and enjoy a sparkling glass of Andrew's Liver Salt once or twice each week.

These simple, sensible rules should keep you free from indigestion and the headache and body weariness that go hand in hand with this disorder. They will help you to become really healthy and stay healthy, for the very natural reason:

Even though you may be regular in your habits, you may be the unconscious victim of incomplete elimination. Thousands of people suffer from periodic headaches and digestive trouble because they do not realize that regularity alone does not indicate complete functioning of the eliminative organs.

The Andrew's Health Rules do assure this complete functioning. Follow them faithfully. Go to bed early to-night after a refreshing, sparkling glass of Andrew's Liver Salt, or take your Andrew's first thing in the morning. Then eat good food to insure regularity, head-aches, and body weariness, for Andrew's helps Nature to purify and invigorate the whole system. All druggists sell Andrew's—25c and 50c in tin—75c for the new, large bottle. Sole Agents: John A. Huxton Co., Ltd., Toronto.

**Mr. and Mrs. G. W. Quantz, Liskeard, Married 50 Years**

A despatch this week from New Liskeard says:—"Mr. and Mrs. G. W. Quantz, who came to their north country home from Newmarket in the days when the nearest post office was 11 miles distant and when it was necessary to travel 19 miles to Thornloe to get supplies, have just celebrated their golden wedding at their farm residence in Cane township, where they have lived half of their married life. With them were their son, E. D. Quantz, Kirkland Lake; their daughter, Mrs. W. C. Johnston, with her husband and two sons, and E. D. Doan, of North Bay, a brother of Mrs. Quantz. A feature of the celebration was a message of greeting from the bridesmaid and groomsmen of 50 years ago, Mr. and Mrs. J. D. Quantz, of Penhold, Alta, the latter being a sister of the bride. Mr. Quantz is 75 years old and his wife three years his junior, and both are in good health. When they came north in 1909 there was no road through to Elk Lake and the nearest post office was at McCool, 11 miles from the Quantz homestead. Later, an office was opened at Mountain Chutes and mail was brought up the Montreal river by boat, but in winter the settlers had to drive nearly 20 miles to Thornloe for supplies. The opening of the Elk Lake branch of the T. & N. O. brought the railway through this section of Temiskaming."

Lindsay Post—A case that will undoubtedly be watched with great interest concerns the writ that has been served on four members of the Mariposa Council for 1933 to recover \$50 each that they voted themselves as a bonus, in addition to their regular seasonal allowances, at the end of last year.

**COAL!**

Now is the time to fill your bin

We have a complete stock of Welsh, American and Canadian Coal in Lump, Egg and Stoker Sizes. Also Canadian Coke
