

Church Wedding at Schumacher Sunday

Miss Mary Drobrzenic and Mike Peconic United in Marriage. Other Items of News from Schumacher Correspondent.

Schumacher, March 13th, 1934. Special to The Advance. Mrs. S. O'Hara, who underwent an operation last week in St. Mary's hospital, is improving nicely.

Born—Thursday, March 8th, 1934, to Mr. and Mrs. Joe Cavallin, 69 Second avenue—a daughter.
The friends in town of Mr. and Mrs. William Dunn will regret to hear of Mrs. Dunn's death at the Toronto General hospital on March the 6th. Mr. and Mrs. Dunn lived in town several years before going to the Sheritt-Gordon Mines in Manitoba.
Mrs. Robinson and Mrs. Ashley visited friends in Timmins over the weekend.
Mrs. T. Lark is a patient in St. Mary's hospital where she underwent

an operation last week.
Mr. and Mrs. R. Todhunter are visiting in Toronto.
Married—Saturday evening at eight o'clock in the United Church by the Rev. M. Tait, Mrs. Ljubica Vijnich to Tom Dabonich.
A very pleasant evening was spent on Friday at the home of Rev. and Mrs. Tait, 36 Second avenue, when the Ladies' Association and friends gathered to shower them with kitchen utensils for their apartment. Mrs. Tait thanked the ladies, and served them a very nice lunch.

Mr. W. Mair is a patient in St. Mary's hospital.
A very pretty wedding took place on Sunday afternoon in the Catholic church when Mary, only daughter of Mr. and Mrs. Robert Drobrzenic, 46 Fourth avenue, was united in marriage to Mike Peconic. Father Gelinas officiated at the ceremony. The bride looked very pretty in her wedding gown of satin and lace, made on long lines, and flared long sleeves, and the bodice caught at the back with a large bow, matching shoes, hose and gloves. Her wedding veil of silk net was arranged

in urban style on the head. She carried a shawl bouquet of pink roses, lily-of-the-valley and fern. The bride was attended by the Misses B. and Arslia Stanich, gowned alike in pink satin and lace and wearing straw turbans, to match, and carrying pink roses and fern. The groom was supported by Joe Krsul and Tom Tomljanovich. After the ceremony a reception was held at the residence of the groom, 34 First avenue.

South Porcupine School Wins in Interscholastic Hockey

Continuation School at South End Defeats North Bay and Wins Right to Enter Provincial Play-Downs. Other Items of News from South Porcupine and the Dome.

South Porcupine, Ont., March 14th, 1934. Special to The Advance.

A bonspiel is to be held on Wednesday night at the curling rink, the prizes being four beautiful table lamps presented by Mr. Wm. Fairhurst. All rinks competing play four ends, and all will be played to a final the same night. The following are the skips of the rinks that will compete—B. Longworth, W. Fairhurst, H. Miller, J. Costain, W. D. Pearce, E. Cannon, W. Brooks, F. C. Evans, M. Smith, A. Patten, S. Sky.

Miss Marjorie Briden, of Halleybury, is visiting this week at the home of her brother, Mr. A. Briden, Connaught Hill. Mrs. Briden, who is in the Presbyterian hospital, is doing nicely after an appendicitis operation.

The monthly card party of the Rehokahs is postponed until further notice, this month.

The pupils of South Porcupine Continuation School are beaming this week. Their hockey team has obtained the right to enter Provincial Inter-scholastic play-downs by defeating North Bay Collegiate last Saturday night in a sudden-death game 4-1. Mr. Purdy, principal, received the news late last week that Halleybury rink would be available for Saturday and accordingly the team left on Saturday noon. The first period was slow owing to soft ice surface. Both teams playing safe there was no score. Midway through the second stanza, McLean and Cattarello broke from their own blue line and as they neared the defence McLean slipped a neat pass to Cattarello who made no mistake in netting the first counter for S.P.C.S. In the third period Morrison, left wing star of the North Bay team drove one past Wilson from far out to tie the game. The over-time started with hard checking but with less than 4 minutes to go Numella, the burly defence star of the S.P.C.S., broke loose, beating the two defence men and drove home the winning goal. One minute later Haneberry came into the clear with only Nickle to beat, and made no mistake. This put the game on ice, however Myers thought they should have it in the bag, so drove one just before the gong sounded, to make it 4-1. Cattarello was the star of the Porcupine team, while Morrison was the best for North Bay.

P.C.S.—Wilson, goal; McLean, Numella, defence; Cattarello, centre; Haneberry, Pelkie, wings; Myers, McKay, McIntosh, alternates.

N.B. Collegiate—Nickle, goal; Cummings, Hamby, defence; McKee, centre; Morrison, Stewart, wings; McPherson, Booth, Guinett, Bouauy, alternates.

Referee—Jack McCracken, Halleybury.

The team now is hoping that funds will be available for them to go to Toronto this week-end. The finals of the Eastern, Western, Central and Northern Associations will be played on Saturday in the Varsity arena.

Mr. and Mrs. D. Deacon arrived back in town from an extended visit to their daughter in Aurora this week. Mr. Deacon, we are glad to report, looks much better for his holiday. Mr. Ken Deacon, of Kirkland Lake, was a visitor at his parents' home this week-end.

Little Dorothy Couch, who has been quite sick after tonsil operation, is, we are pleased to learn, much better today.

Two of our most popular young people sprung a surprise on us this week, by announcing that their marriage had taken place in Timmins as far back as

December 29th. That does not prevent us, however, from extending to them our very best wishes for their future happiness. Miss Velma Arbour, who has been in the camp for ten years and is decidedly a very great favourite with everybody, is the daughter of Mrs. Garritz, of Kirkland Lake. Mr. James Fell, third son of Mr. and Mrs. John Fell, of the Dome Mines is also a very popular young man, best known as a hockey player and all-round athlete. With Father O'Gorman, of Timmins, to tie the knot these two young people, with Mr. and Mrs. Don Eames (sister) as witnesses on December 29th, entered upon the sea of matrimony, whereon we trust they will sail under fair skies with clear weather all the way. Congratulations.

We understand that the Welsh Glee Singers (choir) will take charge of the musical part of the service on Easter Sunday at the United Church.

Next Sunday, March 18th, some of the members of the Young People's Society will take entire charge of the evening service at the United Church.

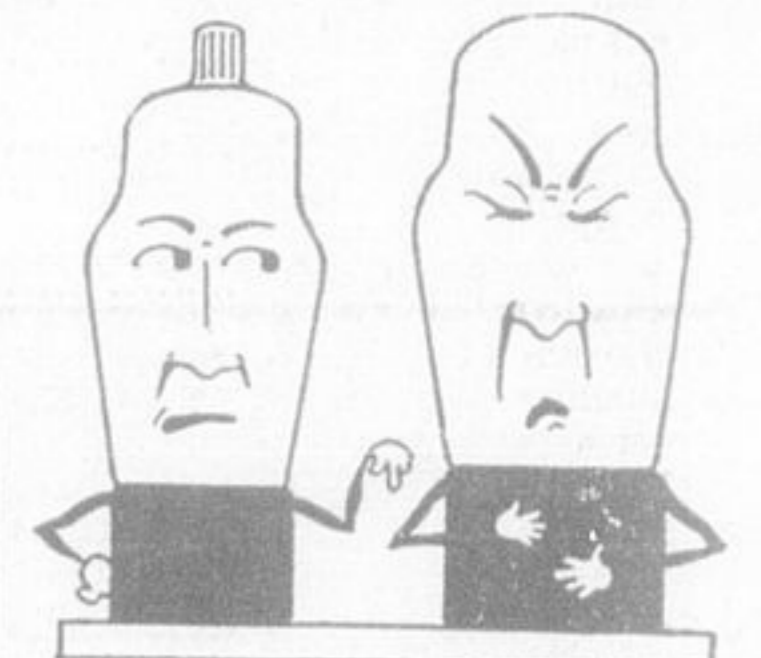

Mr. and Mrs. James Fell spent the week-end in Kirkland Lake visiting at the home of the bride's parents.

Last week we omitted to mention the doings of the bridge club. They met at the home of Mrs. Stan Pearce, and an extra table of guests was entertained. The prizes were won by—1st, Mrs. Cahill; 2nd, Mrs. Rapsey; 3rd, Mrs. Martin.

Mr. and Mrs. Sol. Sky returned from Toronto last Thursday. They report Mrs. C. Kavanagh as recovering nicely from her operation.

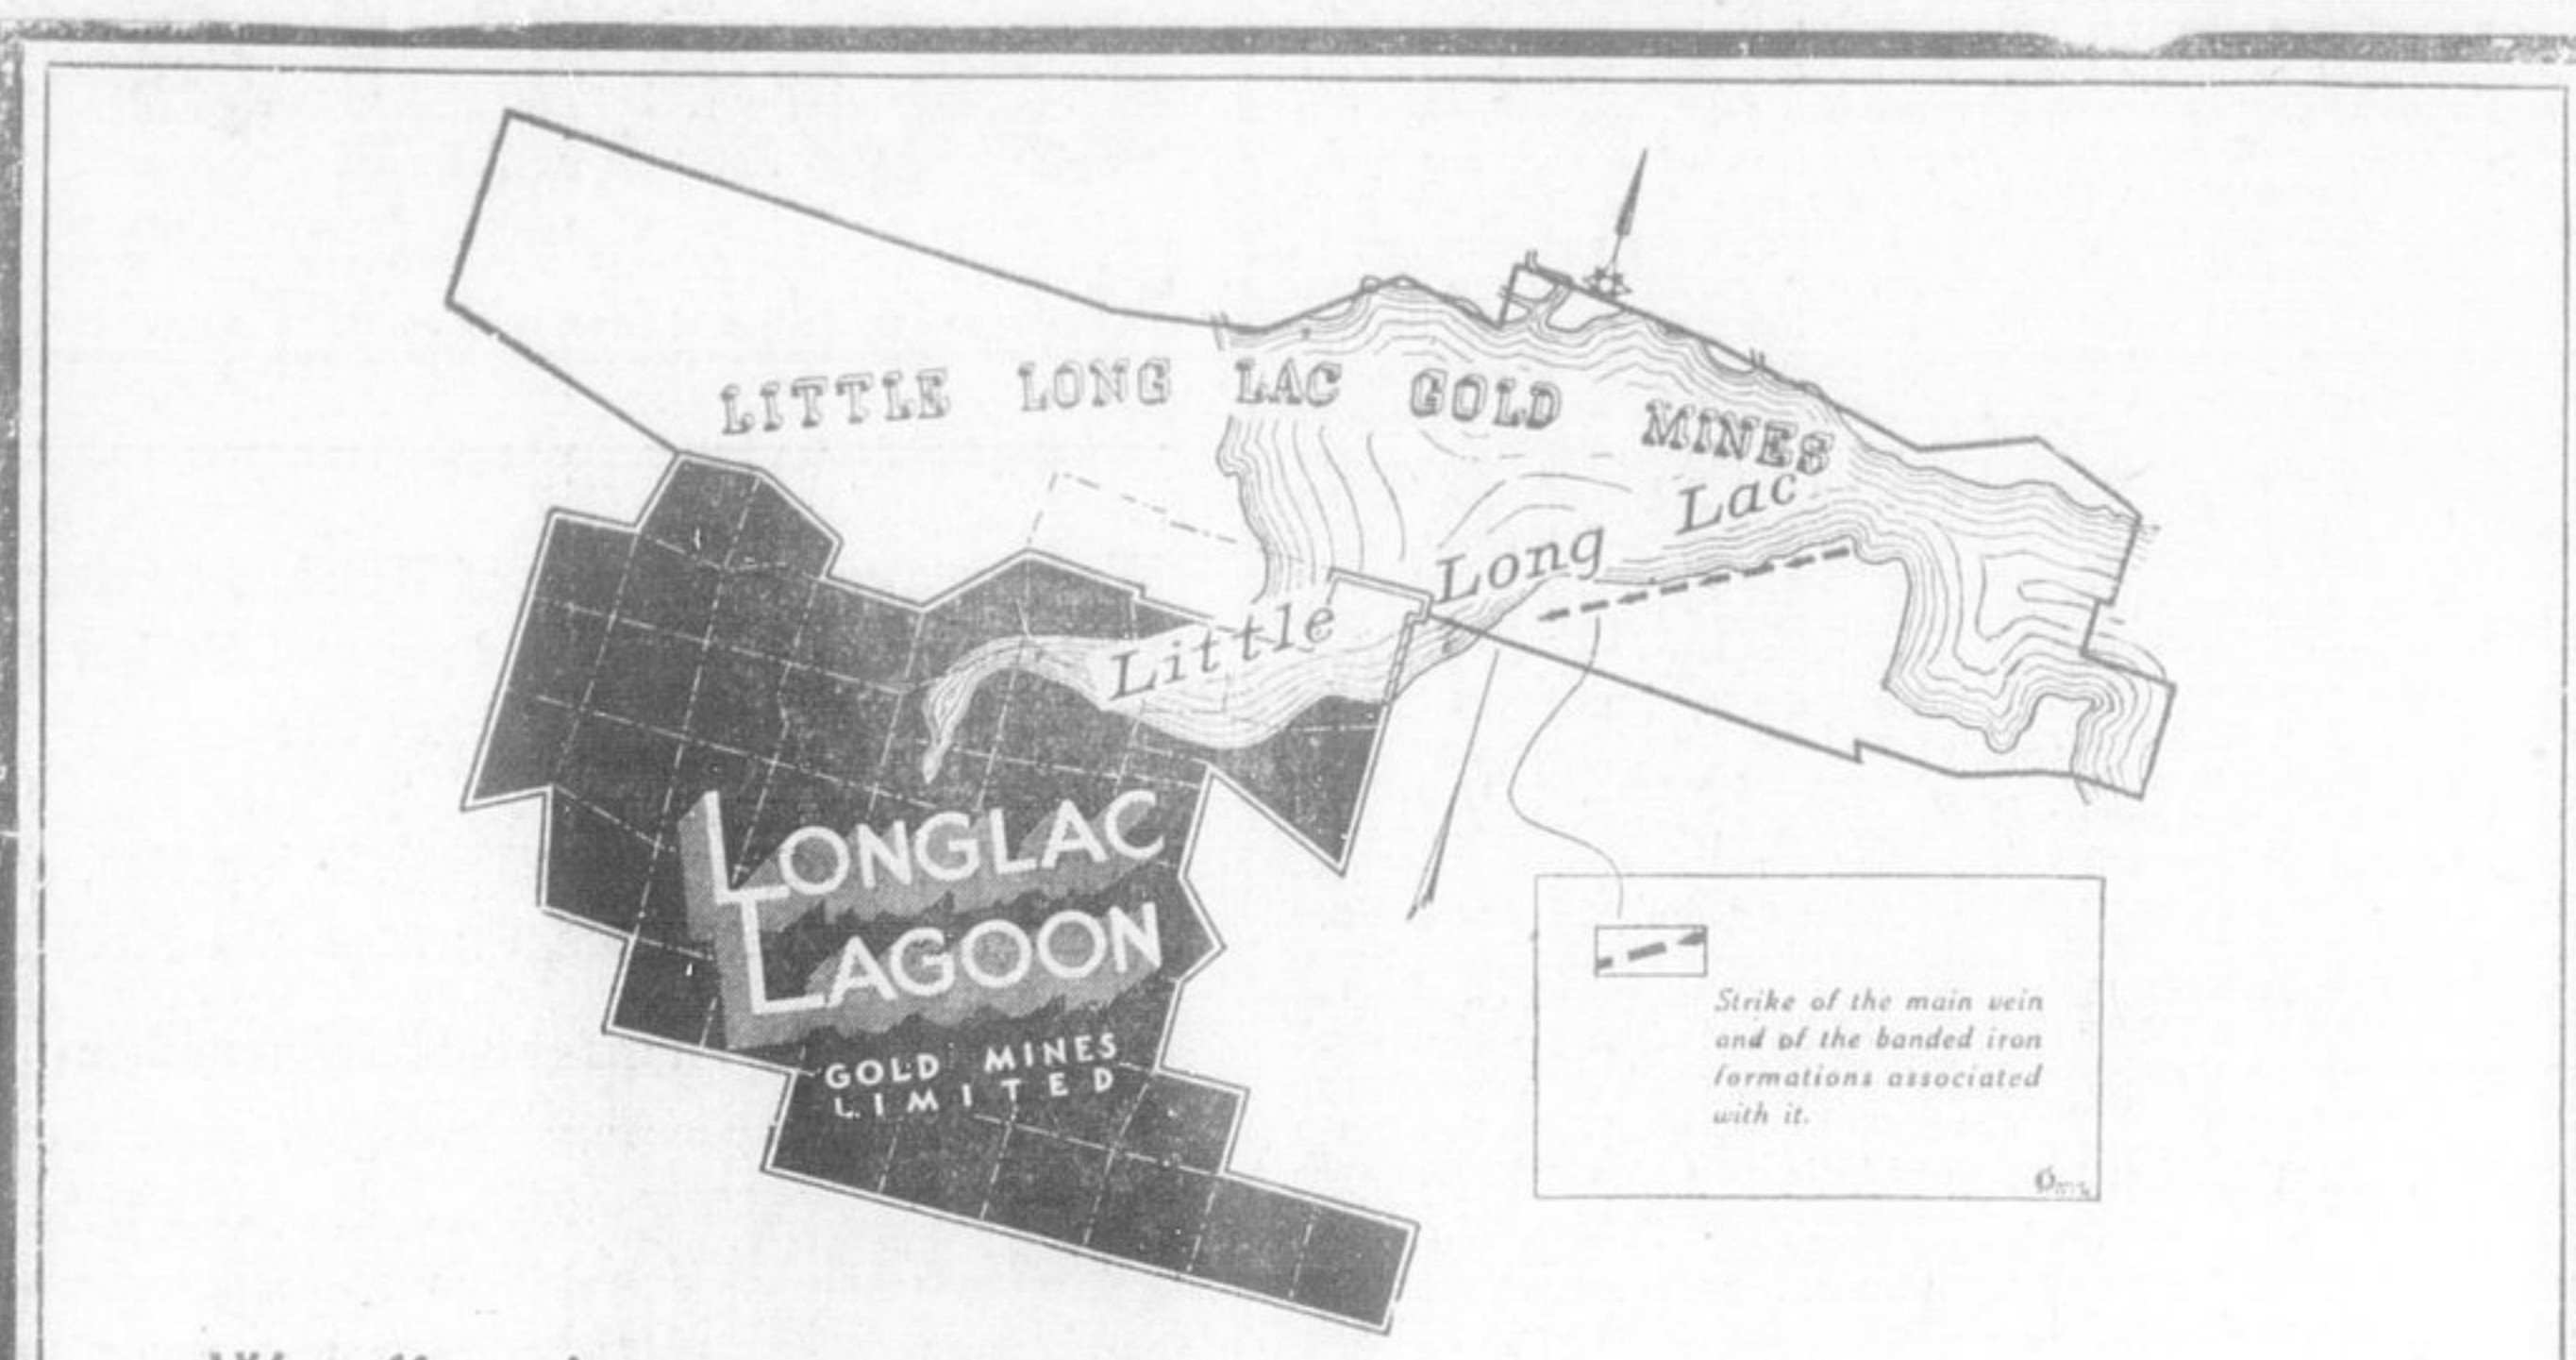

At the police court this week a local hotel-keeper was fined \$100.00 and costs for having liquor not acquired under his own individual permit. The downstairs part of his hotel is made public also. The case against Councillor Kerr whereby it was sought to prove that his seat on the 1934 Tisdale council was being occupied illegally was dismissed by Judge Caron with costs.

Durham Chronicle.—There's more truth than joke in the story that the wife, told by her husband that they must economize, said that this was what she was doing. She was buying everything on credit.

"Did you lay an egg?"
"Certainly not!"
"Then what are you cackling about?"
"My insides are all shot to pieces."
"Why isn't something done about it?"
"The owner of this radio thinks it's static."
"I guess that's why he doesn't pack us all into a free carrier carton and have us given a free test on the new Westinghouse Tube Checker."

- C. E. Hastings, B.A. Sc., Toronto, Engineer

Secretary Treasurer and Head Office:
John A. McFadyen, 85 Richmond St. W., Toronto, ELgin 6289

PROPERTIES—The properties are located in the Thunder Bay Mining division of Ontario and consist of 58 claims (approximately 2,500 acres) of which 49 adjoin the Little Long Lac Gold Mine to the south and west and 9 lie to the east of that mine. The Little Long Lac Gold Mine has opened up spectacular ore bodies and drifting at this mine is now proceeding in the direction of the Longlac Lagoon property with the ore getting richer as the drifts advance. It is believed that the Little Long Lac Mine and adjacent properties will establish a new gold camp of major importance. Thirty of the claims of Longlac Lagoon Gold Mines are owned outright and twenty-eight, known as the Johnson-Gillies group, are controlled on favorable terms under an option. The claims are well timbered and ample water is available from the western arm of Little Long Lac, which forms part of the property.

HISTORY—The Johnson-Gillies group were staked by Tom Johnson (staker of the Little Long Lac Gold Mine), Alec Gillies (co-staker of the Hollinger), Coniagas Mines Limited, and others, all of whom retain an interest. Shortly after they were staked Mr. Percy E. Hopkins (through whose efforts and geological insight the Little Long Lac Gold Mine came into existence) entered into negotiations to acquire them, and was instrumental in combining them into the group which now forms part of the extensive holdings controlled by Longlac Lagoon.

PERCY E. HOPKINS WRITES (in part)—
"A magnetometer survey has just been completed of the four northeast claims and this shows the magnetic iron formation bands to have the general east-west strikes and to be closely folded in places as on the adjoining properties. The largest porphyry dyke occurs near the centre of the group on claim 10115. It is upwards of 30 feet wide and traceable for a distance of 500 feet. One cross quartz vein a few inches wide in the porphyry contains several showings of gold. Ore developments to date at the Little Long Lac Gold Mine from the surface to the 450-ft. level are exceedingly encouraging. If this vein continues along its indicated strike it should cross the Longlac Lagoon's optional water claim 10600 some 7-8 of a mile to the west. The Mosher-Bobjo's last gold discovery lies approximately 1/4 of a mile from the Longlac Lagoon's east boundary. Where this vein should enter the latter's property the carbonate schist, quartz and pyrite yield gold on panning. A contract has been signed for 3,000 feet of diamond drilling to commence at once. The first two holes will crosscut the formation on claim 10600, which is on the strike of the Little Long Lac Gold Mine and Mosher veins. These holes will be 800 to 1,000 feet in length. Some drilling will also be done on claim 10115, where gold occurs in porphyry and low values in the adjoining schist."

DEVELOPMENTS—Operations at the Lagoon property commenced in the early summer of 1933 under the management of J. P. Flynn, Jr., Mining Engineer, were largely concentrated on carrying out the recommendations of Mr. Percy E. Hopkins. Mr. J. P. Nowlan, Geologist, was engaged to make a thorough geological survey of the property, while surface operations consisting of stripping, trenching and blasting of the various rock exposures were under way. Camps were built and all the necessary equipment and supplies shipped in. A topographical survey was conducted in order to establish the exact location of the boundary lines in this area, and as a result three important fractions were found open and staked. Operations to date have established a number of favorable factors, among which the following are especially significant:

- The continuation of the magnetic iron band formations, which are characteristic of this area and appear to be associated with the vein systems, has been proven by the magnetometer survey recently completed by Mr. J. P. Nowlan;
- Free gold was discovered by Tom Johnson on the east boundary of the property in line with the Mosher vein, where it dips under the lake. This showing will shortly be drilled.
- A wide porphyry dike has been opened up in a shear zone in the centre of the property for a distance of over 500 feet. Gold has been panned at numerous points along this zone, and conditions look very favorable for further development.

Numerous other interesting situations were opened up on the property and these will be further investigated in the coming season.

PLANS FOR DEVELOPMENT—Drilling has now been started by the Sudbury Diamond Drilling Company and it is intended to drill several thousand feet in order to test out the various showings at different depths and to determine the most favorable point for shaft sinking and underground operations. Arrangements have been made to place a second drill machine on the property in order to accelerate these results. Dr. Purse, Geologist, has been designated by Mr. Hopkins to supervise the drilling and to correlate results.

During the coming summer an extensive campaign of surface work is planned to open up those sections of the property that have so far received little attention. It is apparent that the general geology and structure of the Lagoon property is similar in all respects to that of the Little Long Lac mine, and that further development offers splendid prospects of locating profitable ore bodies.

Proceeds of this offering are adequate for all developments contemplated during the next few months, including the commencement of underground operations.

PRESENT OFFERING
300,000 Treasury Shares at 25c per share.

These shares are offered to the public as a speculation. The possibilities of the property under intelligent development have already been demonstrated and are clearly set forth herein, but the shares should only be purchased by those who appreciate the risks inherent in mining developments of this nature. The subscription lists will definitely close on Monday, March 19th, 1934.

DEMONSTRATION, APRIL 2ND LIFE-SAVING (GIRL) GUARDS

Tickets are now on sale for a demonstration by the Life-saving (Girl) Guards in the Salvation Army hall, Fourth avenue, on Monday, April 2nd, at 8:00 p.m.

A. JARDINE SLIPS ON ICE AND BREAKS LEG, TUESDAY

When coming off shift at the Hollinger on Tuesday, Andrew Jardine had the ill-fortune to slip on some ice and break his leg. He was taken to the hospital where he is making progress to recovery.

CONSTABLE JACK GREGSON LEAVES TIMMINS FORCE

Last week Constable Jack Gregson who has been on the Timmins police force for about three years past, and who previous to coming to Canada served on the Liverpool city constabulary, resigned from the force here after a difference with the new chief of police. Constable Gregson took the matter before the police committee, but Chief Rich was evidently sustained in the matter as Constable Gregson is off the force. Only two of the 1933 force are now still on duty, these being Sergts C. Holley and R. Paul.

Only Two Fire Calls and One was a False Alarm

During the past week there were only two fire calls, and one of them was a false alarm.

On March 14th at 1 p.m. there was a telephone call to 56 Elm street, north, owned and occupied by T. Saari. It was a chimney fire and about \$15.00 damage was done to the beautifully furnished house. The loss was covered by insurance.

On the same day at 1:50 p.m. there was a false alarm from Box 63, corner of Mountjoy and Kirby.

LOCALS

S. G. Fowler is attending the Legion convention at Ottawa this week as representative of the Timmins branch.

Born—in Timmins, Ont., on Friday, March 9th, 1934, to Mr. and Mrs. Ken Fitzpatrick, Lake Shore Road—a son.

Mr. and Mrs. David Bough, left on Tuesday for Toronto, owing to the serious illness of Mr. Bough's father.

Mr. and Mrs. James Aspin of Kirkland Lake spent the week-end with Mrs. Aspin's parents, Mr. and Mrs. T. J. Lainsbury, Timmins.

Miss Julia Jemmett, of Orillia, returned home last week after being called here on account of the death and funeral of her father, the late John Jemmett.

Mrs. D. Martin is home again and is well on the road to recovery after her serious operation at St. Mary's hospital three weeks ago.

Friends in Timmins will be pleased to know that T. W. White, of Kirkland Lake, who has been seriously ill at St. Michael's hospital, Toronto, took a turn for the better on Friday of last week, and has been improving steadily since Word this morning from Toronto is that he is much better.

Sympathy will be extended from all to D. B. Curtis, in the recent death of his sister, Mrs. G. F. Spearin, who died at her home in Toronto. Mr. Curtis was at Georgetown, Ont., last week attending the funeral of his sister, Mrs. Spearin being buried at the old family town of Georgetown on Tuesday of last week.

The District Children's Aid this week received a very acceptable donation of \$78.80 from A. Laprairie, manager of the Timmins Charity Turkey Stag, this being the cheque received from the Treasury Dept. of the Ontario Government as a return of the amusement tax for the Charity Turkey Stag, the event being for charitable purposes.

High-grade Samples from Week's Run of the Press

Toronto Mail and Empire.—A Woodstock weather prophet says that there will be plenty of wind, rain and gales in March. He cannot lose out on that. No matter how few winds, rain and gales there are they will be plenty.

Brampton Conservator.—"We're marching up the steps of time, and this old world is growing better," wrote the poet. Whatever may be conditions in other countries there is no doubt about the truthfulness of the statement when applied to Canada. Improvement in every department of life is clear to everyone who will open his eyes.

Ottawa Journal.—The heating bill of the average Ottawa dwelling this winter will be from \$25 to \$50 above the average; it is estimated, with a proportional increase for larger buildings. Thus the thermometer is confirmed.

The New Yorker.—A doctor at a dinner took in as his partner a very gushing young lady. "Is it true, doctor," said she, "that you are a lay-killer?" "Madam," he replied, "I make no distinction between the sexes."
