Pass By-law for High School in Tisdale

Special Meeting Held at South Porcupine by Council on Saturday. Meeting of South Porcupine Ratepayers Wednesday. Other South Porcupine News.

South Porcupine, Ont., May 2nd, 1934. Special to The Advance.

A special council meeting was called on Saturday afternoon for the purpose of giving third reading to By-law No. 416 which had been approved by the Minister of Education, thereby establishing a High School district in Tisdale. The first meeting of the board appointed, took place in the town hall on Tuesday afternoon.

A ratepayers' meeting, at which the matter is to be discussed is called for this (Wednesday) evening in the Continuation School. There seems to be a doubt in the minds of some, concerning the position of the South Porcupine ratepayers with regard to the proposed High School in Schumacher, which will no doubt be cleared up at the meeting.

The twenty-years debentures on our present Continuation School are up in 1944—half having been paid.

It seems therefore, that consideration must be given to this question from the viewpoint of the South Porcupine ratepayer, and a clear statement made to him as to the ratio of taxes to be paid in each section. A full account of this meeting will be given next week.

Harold Michaelson is home for the summer from Queen's University.

Mr. McCann, who last season played hockey on the Noranda team, has taken up residence in South Porcupine.

The next item of social activity in our calendar is to be the big bazaar put on in the Oddfellows hall for three days in May (10th, 11th and 12th)—under the auspices of the Catholic Women's League.

The C.G.I.T. girls (seniors) were taken in a body by Mrs. Purdy and Mrs. F. C. Evans to see the picture "Little Women" in Timmins last Thursday night. This Saturday both branches will attend the rally in Timmins.

Miss K. Page, R.N., from Severn is visiting at the home of Mr. and Mrs. Thomson. We are pleased to report Mrs. Thompson progressing well after the two setbacks she had after her operation.

Mrs. Hill is recovering well from an operation in the Presbyterian hospital. Mr. Emil Haino, of Port Arthur, has taken over the management of the Workers' Co-operative Store in town. The May-Day Finn parade was a very tame affair here, some women took part—and over a hundred marched round town and back to the red Finn hall, but there was no spectacular demonstration.

Mr. Joseph Herdman, nephew of Mrs. S. A. Jones, spent the winter in Toronto, and a week with his aunt on his way home to Dehden, Sask.

Floods have been causing some consternation here this week. A few cellars have been flooded, and on Monday the water from the bush couldn't get away fast enough and flooded part of Main street, but subsided before evening. Railroad street, of course is under water and the railway track between here and the Dome siding on Monday night was under water about a foot. The passengers from the evening (8 p.m.) train were transferred from South End to Timmins by specially chartered buses, causing about thirty minutes delay. Section men worked all night on the track—two carloads of rock from the Hollinger mine being brought in to build up under the tracks which had been washed away by the floods. The water came up very quickly but has subsided again almost as quickly and to-day the regular train service is on as usual.

Mr. J. Cooke, who has been visiting his daughter, Mrs. R. Cameron, left on Saturday for his home in Toronto.

Mrs. Cameron accompanied him. Mr. Jack McInnis is progressing favourably in St. Mary's hospital, Timmins, after an operation.

Mr. "Red" McArthur, who played on our Senior hockey team this winter, left on Monday for Sudbury. He will play for the Frodo Mine next year.

Mrs. H. Chevrier left on Monday for Noranda, where Harry will soon follow, he having been scheduled to play for Noranda (hockey) next season.

On Tuesday evening the Rebekahs put on their usual May Day dance in the High School hall. The attendance was not as great as usual, but the crowd had a merry time, and the orchestra under Ben Scholtz was untiring in its efforts to please. A bridge and euchre party took place before the dance. For euchre the successful ladies were:—1st, Mrs. Furrell; 2nd, Mrs. H. Montrose; 3rd, Mrs. Starling. For men, 1st, Mr. William Miller; 2nd, H. Montrose; 3rd, John Costain. In bridge Miss L. Niemi took first honours. Mrs. Wilson Raynor, second; and Mrs. Pyke, third. Mr. J. Pecore got the highest score for gentlemen; Mr. H. Hall, second; and Mr. Wilson Raynor, third.

The official visit of Mrs. Crumb, of Ingersoll P.D.S., District Deputy of the Rebekah Lodge, was marked last Friday by a very good attendance. Mrs. Gibbons, P.D.S., was presented with a Past District Deputy's jewel. A social evening at which many Oddfellows were present finished the activities. During her stay in camp Mrs. Crumb was the guest of Mrs. Libby, Dume Extension.

Mrs. Rudkin, of Dome Extension, entertained several of her friends on Saturday on the occasion of the third anniversary of her wedding. A nice lamp was presented as a memento of the occasion.

Born—At the Dome Mines on Sunday, April 29th, to Mr. and Mrs. P. Raymond—a daughter.

Play by Girl Guides to be Held Next Week

"A Happy Surprise" to be Presented May 10th and 11th. Camp-fire Set, with Songs and Dancing as Prelude to Event.

The Timmins Girl Guides, sponsored by the Timmins Golden Chapter I.O.D.E., will present the attractive 3-act play, "A Happy Surprise," on Thursday and Friday evenings of next week, May 10th and 11th, in St. Anthony's hall, Timmins. The play to be given these two nights will prove, indeed, a happy surprise, and all will enjoy the event. The play is being directed by Percy Shippam who has a number of successes to his credit as a director both in the North and in Toronto.

In addition to the play there will be a prelude—a campfire scene—in which all the girls of the Timmins Girl Guides will take part. There will be singing and dancing numbers and this part of the programme is sure to win popular approval. Miss Margaret Easton is directing the dancing in connection with the event, and she will also give a special dance herself in costume. Mrs. J. W. Faithful and Mrs. J. A. Theriault are looking after the singing and other musical numbers so there is full assurance that these numbers will all be well presented and pleasing. Rehearsals for the three-act play and for the singing and dancing numbers have been carried on faithfully and well and those who have had the pleasure of seeing the girls at work agree that the event on Thursday and Friday evenings of next week will be worth several times the charge made for admission.

Mark May 10th and 11th or both to be reserved for this event in St. Anthony's hall, and also note that the event on each night will commence sharp at 8:15 p.m.

Mrs. T. M. White, of Kirkland Lake, spent the week-end at the home of her parents, Mr. and Mrs. G. A. Macdonald.

Minister of Mines to Open Big Fair Here

Hon. Chas. McCrea to be in Timmins for Official Opening 25th Anniversary Fair. Hon. W. A. Gordon Also Expected for the Occasion.

On May 23rd, the official opening of the Mines-Manufacturers-Merchants Fair to celebrate the 25th anniversary of the Porcupine gold mines, it is expected that Hon. Chas. McCrea will be present to officially open the event. Other distinguished guests are also expected on that day, among them being Hon. W. A. Gordon, Minister of Mines, in the Dominion Government.

In the evening of May 23rd a mammoth banquet will be held at the Empire hotel in honour of the Ministers of Mines, and of the original prospectors of 1909, many of whom are coming here for the occasion. Mine officials and prominent business and professional men of the Porcupine and the North will also attend this event.

This great day will mark the opening of what is expected to be the biggest event ever held in the history of the North. It will be a big home-coming for the original Porcupinians.

Each and every day from May 23rd to June 6th will be a big day packed full of fun and excitement. Everyone will throw worries and cares to the winds and enjoy this remarkable fair.

Every day will bring new and interesting contests with many eager participants taking an active part.

The mines are having large, interesting and educational exhibits that have never before been shown here.

The manufacturers are demonstrating how their products are manufactured and made ready for the market.

The merchants in town are preparing great sensational sales for the benefit of the visitors.

For the entertainment of the visitors the fair grounds will hold many attractions. The twin Ferris-wheel will be a spectacle of beauty as well as afford much pleasure and enjoyment for the public. The Merry Mix-up will bring much laughter. The Merry-Go-Round will please the youngsters.

Then there will be many novel and interesting side-shows, and don't forget the spectacular circus acts. The aerial trapeze acts will thrill you with their breath-taking feats, as the artists swing through the air flitting with death.

It is impossible to put in words just what surprises are in store for you. You cannot miss these two weeks of gala celebration.

Style Show & Dance Proved Big Success

Event on Friday last at Riverside Pavilion Attracted Big Crowd and was Very Interesting and Enjoyable.

The style show and dance held under the auspices of the Canadian Legion at the Riverside pavilion last Friday evening was a big success. There was a very large crowd and all enjoyed every minute of the event.

The style show portion of the evening was an elaborate affair, from a feminine point of view. All the very latest creations were shown and described in detail. The bathing suits came in for close attention on the part of all. This summer will see some stunning suits on the local beaches judging by those displayed last Friday.

Al Pierini and his Vagabond Kings added again to their laurels and gave generously of their talent, both for the dancing and the style show.

Mr. Thoms, of the Riverside pavilion, and Mr. Ellices of the Smart Set Dress Shop were the managers of the big show.

Leghorn Hen Gives 'Two-in-One' Sample

Large Egg Laid Last Week by Local Hen Found to Contain Normal Sized Egg Inside. New Sort of Shell Game.

V. W. Baker, of the Pincroft Poultry Farm, Hayden Mine, Timmins, brought in to The Advance Office this week an unusual sort of egg laid by one of his Leghorn hens. In the first place the egg is of unusual size for one laid by a Leghorn, being 8 1/2 inches in circumference the long way and 7 1/2 inches around the other way. On account of its size Mr. Baker decided to preserve the egg as a curiosity and so tapped it with the intention of draining it and keeping the shell. When attempt was made to blow the egg, however, it was found that there was something heavy inside the shell after the white of the egg had been drained off. A hole made at the top of the egg showed that inside the shell there was another perfectly formed egg with a hard shell. The inside egg was about the normal size laid by Leghorn hens. Thus the egg that seemed to be a curiosity on account of its size proved to be a double curiosity on account of the fact that it was in reality two eggs in one. The inner egg seemed to be normal in size and with normal shell. The big outer egg did lack a yolk, but otherwise it seemed all right, except that in place of the yolk there was another hard-shell egg.

The "two-in-one" egg was laid on April 24th, 1934. It is worthy of mention in "Believe it or Not." Seeing is believing, they say, and accordingly The Advance has to admit believing for the egg, or double egg, or the "two-in-one" was seen quite plainly by broad daylight and without recourse to the fruit of the permit.

Louis Torchia, who was recently stricken suddenly with appendicitis and was operated upon at St. Mary's hospital, is sufficiently recovered to be out of the hospital and able to be around again.

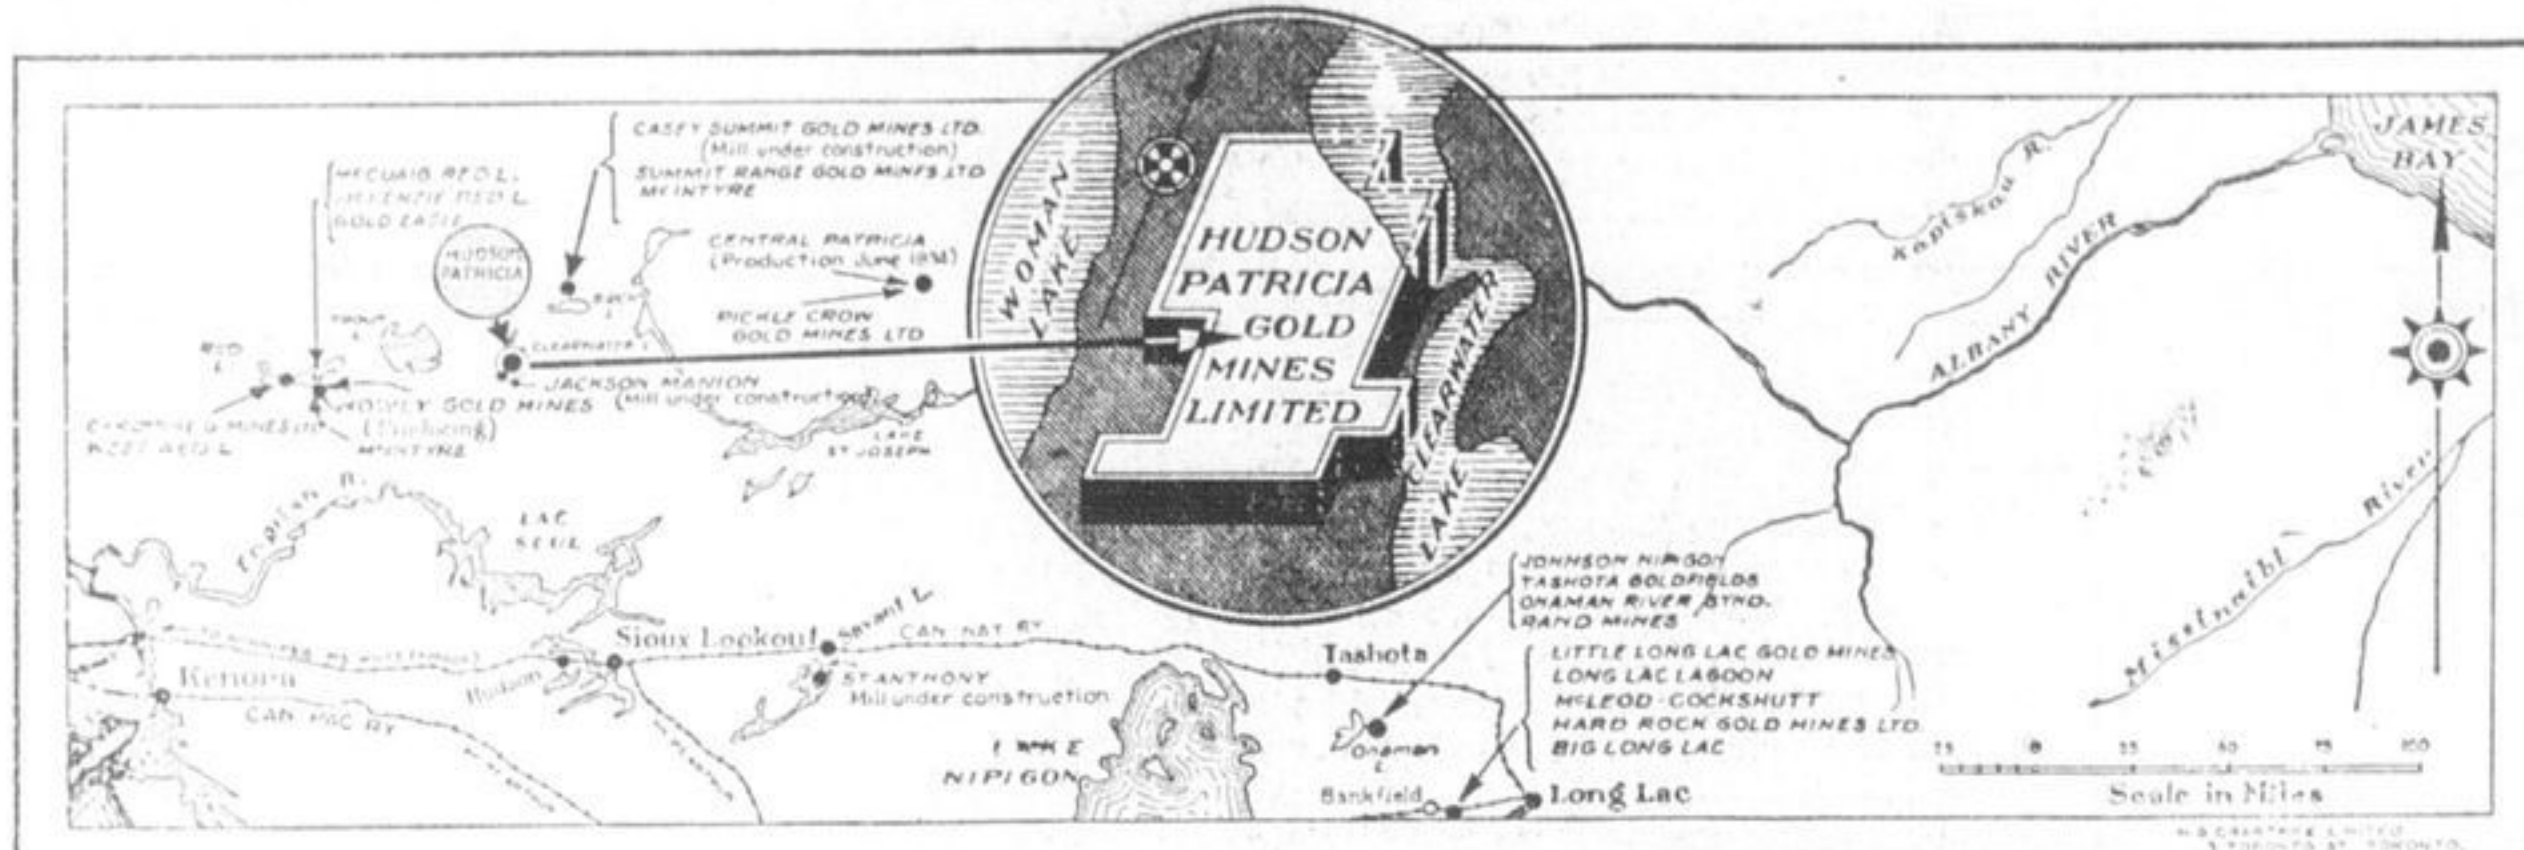

We Offer for Public Subscription

Subject to Allotment if Over-subscribed

500,000 SHARES of

Hudson-Patricia GOLD MINES LIMITED

NO PERSONAL LIABILITY

PATRICIA DISTRICT: The properties of the Hudson-Patricia Gold Mines, Ltd., lie in the heart of the Red Lake Mining Division of Northwestern Ontario, immediately adjoining Clearwater or Confederation Lake on the West and between that body of water and Wawan Lake. Neighbouring gold mines now producing or about to install milling machinery, include the famous HOWEY, JACKSON-MANION and CASEY SUMMIT, and at a not remote distance, the CENTRAL PATRICIA and PICKLE CROW properties.

PROPERTIES: The company's property comprises 26 patented claims covering about 1,140 acres, most of which are heavily mineralized and wooded and according to engineers' reports contain highly valuable gold ore deposits. A plentiful supply of timber is available for extension of existing mine workings and other needs in connection with active further development of the properties.

EXTRACTS FROM ENGINEERS' REPORTS: COLIN A. CAMPBELL, M.E., Superintendent of Barry Hollinger Mines, Ltd., in a letter under date of February 14, 1934, referring to the Hudson-Patricia Gold Mine Properties, wrote: "I have classed it as one of the major discoveries in the district—the present price of gold makes it a most attractive property."

From the report of JOHN C. ROGERS, Consulting Geologist and Mining Engineer, dated January 18, 1934: "As the property now stands, disregarding its No. 2 vein, and the Spence Vein for the present—although they are potential assets—its No. 1 vein has an average back of 70' vertical or 80 slope feet above the 86' level, and a length of 190' average of surface on the 86' level, with a width of 2' 6" and an approximate value of \$15.00 per ton, with various sampling results. This value of \$15.00 is considered conservative, although a great variation is found in all sampling done, and bulk sampling would be the safest way to average this ore. Possibly bulk sampling would give a higher value. It now seems that the price of gold will be safely maintained at some point between \$33.00 and \$41.00 per ounce. At the lower figure this would give a value of the ore of \$25.50 per ton."

DEVELOPMENT: To date more than \$250,000 has been expended by the discoverers and operators in pursuing development work on the company's properties to overcome early hazards. This underwriting provides funds for the necessary further development work and for the installation of the mill. In addition to extensive surface prospecting, rich and sizable gold ore bodies have been uncovered and blocked out in the main ore zone. A two-compartment vertical shaft, designated as shaft No. 2 has been carried to a depth of 229 feet.

Monthly General Meeting of Legion Well Attended

There was a good attendance present for the monthly general meeting of the

Timmins branch of the Canadian Legion held in the Oddfellows' hall on Monday evening. The president, Austin Neame, was in the chair and carried through proceedings in his usual able way.

S. G. Fowler presented the auditor's report which showed the branch in a very favourable position. A summary of this report will be presented in next week's issue of The Advance. After a sing-song and a social hour in which

refreshments formed their due part, the meeting adjourned with the singing of the National Anthem.
