Returning Officers Named for Ridings

F. K. Ebbitt, Iroquois Falls, the Returning Officer for This Riding. J. D. Mackay, North Cochrane. Others for Ontario

Following the announcement that the Ontario provincial election would be held on Tuesday, June 19th, as announced in The Advance last week, there came the official announcement of officials in connection with the elections. From Toronto there came last week a list of the returning officers appointed for the various ridings in the province.

F. R. Ebbitt, Iroquois Falls, is the returning officer for this riding, North Cochrane.

J. D. Mackay, Cochrane, is the returning officer for North Cochrane.

George Caldwell, Haileybury, is the returning officer for Temiskaming.

The full list of returning officers or the province is as follows:—

Addington, L. B. Cronk, Parham; Algoma-Manitoulin, R. P. Scott, Blind River; Carleton, R. H. Moore, Richmond; Cochrane North, J. D. Mackay, Cochrane; Cochrane South, F. K. Ebbitt, Iroquois Falls; Glengarry, D. J. Cuthbert, Alexandria; Grenville-Dundas, William Timms, Inkerman; Hastings East, D. H. Morrison, Tweed; Hastings West, Dave Rollins, Belleville; Kingston, W. K. MacNee, Kingston; Lanark, Ben. Willis, Lanark; Leeds, J. S. Webster, Bellamy's; Nipissing, J. A. Allen, North Bay; Northumberland, A. D. Hall, Colborne; East Ontario, Lorenzo Lafleur, Ottawa; Parry Sound, Jack McCalfe, Burk's Falls; Peterboro, E. A. Hall, Peterboro; Prescott, Omer Laurin, Hawkesbury; Prince Edward-Lennox, E. H. Sills, Napanee; Renfrew North, Alex Morris, Pembroke; Renfrew South, D. W. Budd, Renfrew; Russell, Dr. J. C. Byers, Metairie; Stormont, J. M. Tobin, Cornwall; Sault Ste. Marie, A. R. Huggill, Sault Ste. Marie; Sudbury, A. J. Manly, Sudbury; Temiskaming, George Caldwell, Haileybury.

FISH STORY SEASON THIS YEAR STARTED AT SUDBURY

A despatch from Sudbury says:—The season's record catch of fish to date goes to Harold Graham, Dr. H. C. Nash, J. Newburn and Sam Rothschild who between them hauled in over 300 pounds of smelt at one sitting at Sprague. They filled up three sacks with the fish. "We could have taken 20 sacksful if we had wanted to," said Harold Graham. "The stream was full of them. You could put your hand in and pull them out."

MILL AT ST. ANTHONY'S MINE GIVING ENTIRE SATISFACTION

A new 125-ton mill of St. Anthony's Gold Mines Limited has been placed in operation the Northern Miner learns, and initial reports from the property state that the equipment is giving entire satisfaction. Mill feed is coming up from the dump at present, pending the completion of the dewatering of the mine. The company is currently employing 77 men. Within a short time an active program of underground exploration and development will be in progress.

Standing of the Parties at Dissolution of House

While the present provincial election campaign will be a comparatively short one, it promises to be a lively one in most ridings of the province. The announcement made last week allowed 34 days before the election. The law as at present calls for at least 32 days, which leaves a margin of two days above the legal minimum. The reduction of the time for the continuance of the campaign will be recognized as a good thing for the candidates, the parties and the voters alike. The long-drawn-out election campaigns are not of any general advantage. Some facts and figures in regard to the election may not be out of place. The public generally will be interested in the following details:—

Table with 2 columns: Party and Seats. Conservatives (Gov't) 84, Liberals 15, Progressives 5, Labor 1, United Farmers of Ontario 1, Vacant 6, Total 112.

In the general elections, however, balloting will be for only 90 seats, the Redistribution Act of 1933 having reduced the size of the chamber by 22 members.

The 18th Legislature was elected October 30th, 1929, when the Government of Hon. G. Howard Ferguson was returned to power. The result of that election was: Conservatives 91, Liberals 14, Progressive five, U.F.O. one, Labor one.

Premier Henry, who had been Minister of Highways, replaced Mr. Ferguson as Premier on December 15th, 1930, on the latter's appointment as Canadian High Commissioner in England.

The Cabinet, after the last elections, consisted of 11 members, but at present has only nine, two ministers having died. The reduced number will be continued if the Government is returned to power.

Sprinkling Track Ahead of Train, a New Feature

Some of the latest modes in summer styles for locomotives steamed out of the motive power shops of the Canadian National Railways at Montreal last week. To the practised eye of an admirer of mechanical beauty they were the "last word" in up-to-date equipment. Among the latest wrinkles which they carry are feed-water heaters, by which water is pre-heated before being fed into boilers; track sprinklers to lay the dust ahead of passenger cars; and smoke deflectors to keep smoke from blowing backward into the eyes of the crews and passengers. The work has been underway during the winter months in the various motive power shops of the National system and, in all, more than 200 locomotives have been equipped with these, and other modern appliances. All will be in active service within the next week, or so, in readiness for the active tourist season to commence.

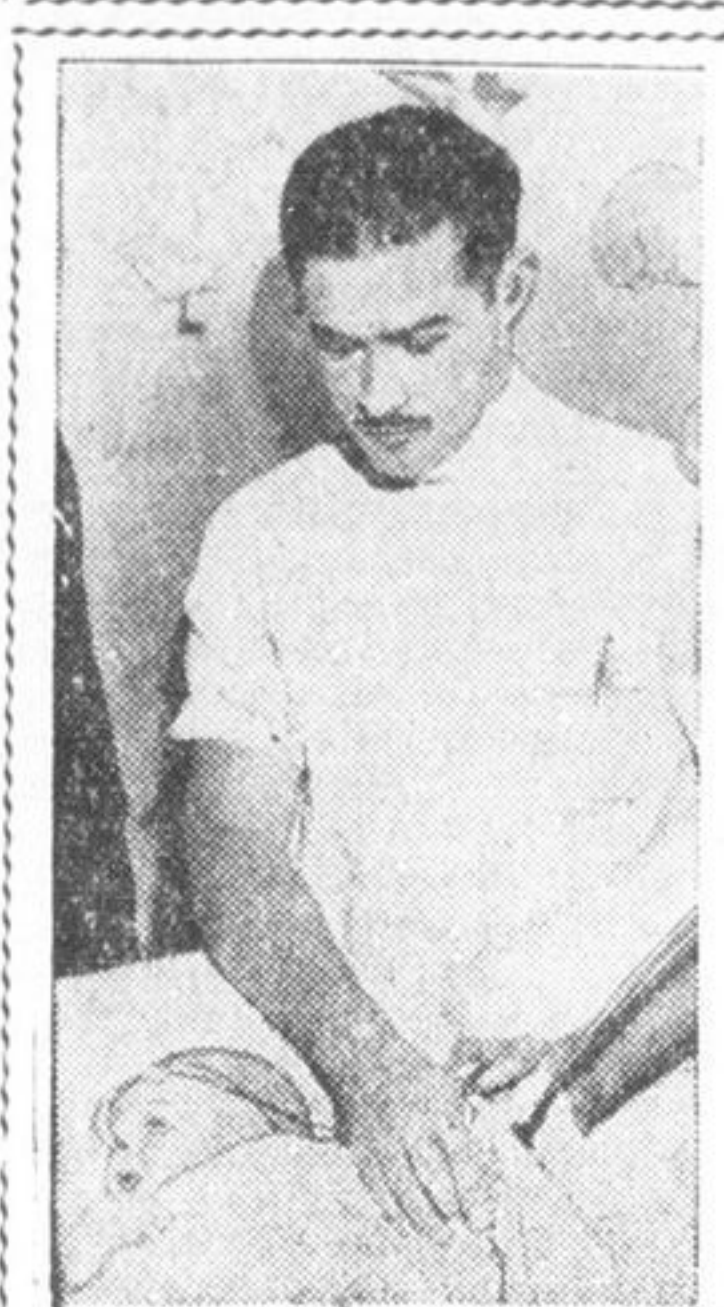

Hon. Chas. McCrea Chosen for the Seventh Time

At Sudbury last week Hon. Chas. McCrea was the unanimous choice of the Conservative party as candidate for the riding for the provincial elections. It was the seventh time that he has been similarly honoured. Hon. Mr. McCrea has served the public in the Ontario Legislature for 23 years. During that time he has been accorded two elections by acclamation.

There was an interesting incident at the nomination meeting at Sudbury last week. A gentleman who had inquired not wisely but too well was about to be ejected from the meeting as he persisted in making a noise and disturbing all near him. Officers took hold of the gentleman and were easing him towards the door. Then he had an inspiration. "Defend me, Charlie!" he cried. Hon. Mr. McCrea responded with a smile. "Just leave him alone," Mr. McCrea said, "he'll be all right. He is an old friend of mine." The crowd applauded. But the man returned to his disturbance too vociferously and continuously. Again the police sought to remove him. This time he instantly cried out: "Defend me, Charlie!" Again the Minister of Mines came to the defence of his old friend and induced the police to let him enjoy the meeting. While the audience was more or less disturbed by the noise of Hon. Mr. McCrea's friend, the Minister of Mines in his response to the call, "Defend me, Charlie," was much enjoyed by all present, who felt it was typical of Hon. Chas. McCrea.

Hon. Mr. McCrea made a notable address showing what the Government had done in the past few years for the benefit of the people. Some of the arguments of his critics he rightly termed "small town stuff," especially the song suggested by some of the Liberals—"Charlie doesn't live here any more."

Resurrection!

JOHN EDWARD DARCY three months old, of Jersey City, is shown recuperating after his round-trip to the Land of Eternity. The tot actually died through strangulation from convulsions. But prompt application of a lung motor and an injection of adrenalin by Dr. Gabriel Lull (above), brought life back into the little fellow.

Kirkland Welsh Glee Club Might be Called Jones Club

The number in the Porcupine Welsh Glee Party bearing the name of Jones has roused occasional comment as has also the number of those with the name of Williams. Compared to Kirkland Lake, however, it might be said that there is scarcely a Jones or a Williams here. Kirkland Lake also has its Welsh Glee Club and here is a list of its membership, not to include the director, Ernest Conway, A.T.C.M., A.V.C.M., or the conductor, T. Jones—Tom Bowman, Jim Brick, Bill Davies, Stanley Davies, Bill Davies, O. M. Griffiths, G. Griffiths, W. J. Jones, E. O. Jones, E. J. Jones, W. D. Jones, Henry Jones, G. E. Jones, Jack Jones, Bill Jones, W. T. Owens, Bill Thomas, Ivor Simms, Dick Williams, H. Williams, Lewis Williams, J. L. Hughes, D. Hughes.

This tabulates to nine by the name of Jones, three each for Williams and Davies, and two each answering to the cognomens of Griffiths and Hughes. In other words out of 24 voices nine are the voices of "Joneses." But if they are good as the Porcupine Welsh singers it will be considered all right anyway.

Perth Expositor:—The momentum of better times is increasing, and is being felt in new directions with every passing day.

Former Timmins Resident Dies Near Kirkland Lake

The Northern News last week had the following in regard to the recent death of Mrs. Paul Ness, formerly of Timmins:—

"Death" came with startling suddenness last Thursday afternoon to Mrs. Nora Ness, of the Goodfish settlement, who collapsed in her home and expired within a few minutes following a seizure. Mrs. Ness, a native of Norway, had been afflicted with nephritis for some time and while it was known that she was ailing her demise nevertheless came as a great shock to her friends. When she was stricken word was immediately despatched to Kirkland Lake for a physician, but when Dr. Kelly, local doctor, reached the Ness home, life had expired. Mrs. Ness was 58 years old. She had resided in the Kirkland camp for more than a year, coming here from Timmins. She had been married 23 years. Her husband, Paul, survives her. Funeral services for the late Mrs. Ness were held on Saturday morning last from O. J. Thorpe's undertaking parlours. The obsequies were conducted by Rev. Archie Gillies, pastor of the Trinity United church, and burial took place in the Kirkland cemetery."

Cobalt Claims Hon. Frank Latchford Owes Taxes

The Haileybury last week has the following:—"Chief Justice Latchford is claimed to be among the delinquent taxpayers in the town of Cobalt, and, at the meeting of the council there on Monday night it was decided to give His Lordship warning that if no settlement was arrived at within five days action will be taken to collect the amount which has accumulated over a period of years against some property he has held since the early days of the silver camp. The amount involved is around \$1,400, it is stated, and there have been negotiations recently between Jos. A. Legris, representing the municipality, and Justice Latchford's solicitors, looking towards a settlement, but these have not so far borne fruit. Hence the decision to press the matter. The council also decided to appeal the judgment handed down by Judge Hartman at the week-end by which Mrs. Bickell was awarded \$300 damages against the municipality for alleged wrongful seizure and sale of goods in her store. This decision was made on the advice of Mr. Legris. There will be no measure of daylight saving in Cobalt this summer, the council having voted solidly in favor of sticking to standard time at the same meeting. This is in line with the action of the Haileybury council last week, and so far there has been nothing heard from New Liskeard during the spring."

Life:—There was a bank failure in Scotland in 1878, and the Scotch people acted so nasty about it that there has been no bank failure since.

Build WE'LL HELP YOU You may never again be able to Build, Remodel or Repair for so little money. Of course we say "never again" with qualifications, but the chances are that we're right. From all indications it appears as if building material costs have reached bottom and we firmly believe the same to be true of labour costs. With both costs at their lowest in 20 years, now is the ideal time to remodel, repair or build . . . and save a sizeable amount. We carry in stock at all times a complete assortment of Building Supplies. Ask for our prices on Insul Board and Insul Bric Siding. Believes Lots More Mines in Porcupine

Old-Timer Advises Investment in Tisdale Township and Other Townships of the Porcupine Area, and Tells Why

In a letter issued last week H. A. Preston, old-timer of the North, and one of the first into the Porcupine area, writes of his belief and faith in the further greatness of the Porcupine area. At this time of the 25th anniversary of the discovery of the Porcupine gold mines the letter is particularly timely:—"Toronto is 100 years old and Porcupine 25 years old. Porcupine had done a tremendous lot to make Toronto grow fast. Twenty-four years ago all the Toronto papers were full of news about the world going to come to an end. But it did not and it is still going strong. To-day it's gold, gold, that men are after and millions of working people are buying gold shares. It was myself and my ideas that discovered the Dome Mine, the first real big one discovered in Ontario. Had my boss done as I wished we could have staked a lot of ground which to-day is Hollinger and McIntyre because one of my ideas was to examine around all the lakes in Tisdale township in which the Dome, Hollinger and McIntyre lie. I was told to shut up or I would go crazy talking so much. But, of course, lots of those who don't know anything about Porcupine in the year 1909 give the credit to someone else. I have a hundred dollars to bet against one cent that I am telling the truth. If it's big mines like the above ones that are wanted, I am sure there is no place better to look for them. Tisdale Township is the only township in Ontario that can boast of having big gold mines at both its east and west ends four miles apart. They are Dome at the east end and Hollinger, McIntyre and Vipond at the west end. They are all working eastward or northward. Tisdale has 36 square miles in it. So I am positive as I was in June, 1909, that there still are four or five more great gold mines in Tisdale Township between the present ones. The town of Schumacher is on top of the Hollinger and McIntyre and I really think there is a mine under the town of South Porcupine. Looking out of my window, I can see all the big boys and the more I look the more I feel sure there are others close by. Anyone with money to invest will, I am positive, make no mistake in taking a chance at the grounds between the big ones and all around Porcupine Lake where gold is to be found.

Can anyone tell me where there is a better place to look for big gold mines than in Tisdale Township—especially the land between the already big producers that has been idle for 15 to 20 years. Some of it has never been touched. And with the price of gold to-day it is well worth taking a chance. I am sure four or five men could not locate all the mines in Tisdale in a month. The McIntyre came near closing down, but now look at it under Mr. J. P. Bickell and its manager, R. J. Ennis. So I say take a lesson from McIntyre because there are others down deep somewhere near or around the present big ones. Tisdale Township is not alone either. There are Whitney, Shaw, Deloro and other townships adjoining it in which rich gold can be panned or seen. What engineers say doesn't go down below to see what is there and if gold can be seen or panned on the surface, why are there no chances of it down deep? Look at the Lake Shore Mine discovered by another Harry, whom they said was crazy like the Porcupine Harry was. Yes, all our great gold mines have been turned down by engineers and others, as was also Cobalt silver. If anyone blessed with such good eyesight that they could see all the gold 4,000 feet down in rock, Tom, Dick or Harry or anyone else would never get a chance to buy shares in it for it would be quickly gobbled up by millionaires. I think it will be wise for someone with lots of money to come to Tisdale and take a few days traveling around the township and sizing up the ground and then form a company to provide the money to work some of the good looking properties there to be seen. Make no mistake, you can't find a better place in Canada to get another big mine than in Tisdale Township and those adjoining it for it is here and at Kirkland Lake, only a short distance away, where all Canada's greatest gold mines are to-day. I have an idea someone is going to find another great mine in the Porcupine area before winter starts again. H. A. Preston.

HATTIE GOLD MINE WILL RE-OPEN NEAR MATHESON Preparations are now being made for the re-opening of the Coulson Consolidated Gold property just north of Paikiller Lake, in the Matheson area, formerly known as the Hattie mine. Some work was carried out on it last summer but previous to that no work had been done since 1926 although a caretaker has been continuously in charge. Laterals work from two shafts down to depths of 220 and 420 feet produced according to old records some good sections. Numerous vein outcrops show gold values sometimes of spectacular nature, says the Northern Miner.
