ing the child to express himself as early as possible in the life of the church.

Mrs. Macdonald gave three short readings on the subjects, "Foundation" and "Building."

Mrs. Drew and Mrs. Milne sang very sweetly, "Softly and Tenderly Jesus is Calling."

The installation of officers for the year 1934 was conducted by the Rev. Bruce Millar, Timmins, and the Rev. Murray Tait, Schumacher. Mr. Tait's address and charge to the officers was taken from Paul's Second Letter to Timothy, 2nd chapter and 10th verse:—"Study to show thyself approved of God! A workman that needeth not to be ashamed, rightly dividing the word of truth!" Mr. Tait closed the service with prayer and benediction.

Evening Session

The evening service was open to the public. It commenced with the "theme song," followed by the devotional period taken by the Timmins Auxiliary. Mr. Millar led in prayer and Mrs. Jackson, second vice-president, of Timmins, gave the consecration prayer for the offering.

Mrs. P. H. Carson sang effectively, "Yet He Knows."

Mrs. Campion, from Toronto, spoke on "The Girl," emphasizing the need for sympathetic co-operation and understanding leadership for young girls.

Leaders, who by example and teaching, point girls early in life to seek high ideals and lofty aspirations.

Mrs. Young, president of Toronto Conference Branch, spoke very fully on the W.M.S., and its chief objective of raising the spiritual life of the women and children of the church, especially teaching them to pray. Reference was made to the work of the W.M.S. in the church, in the hospitals and in the missionary schools. She reminded her audience of the hospitals at Matheson and at Hearst, supported by the Woman's Missionary Society of the United Church of Canada. Mrs. Young spoke very understandingly of

affairs in the foreign field, teaching particularly on the deep faith of the Korean Christians and their deep poverty.

Presentation to Miss Campbell

A very pleasing feature of the evening was the presentation of an address of appreciation and a gift of money to Miss Campbell, the Deaconess, who is leaving Timmins this coming month on furlough. Miss Campbell will not return to resume work in Timmins. All who know her esteem her very highly for her beautiful, cheerful disposition, and regret her loss.

Mrs. Young closed the evening session with prayer and the benediction.

The success of the musical features of the sessions was much enhanced by the talented work of Mrs. J. W. Faithful as accompanist.

Much appreciation was expressed by the visitors and delegates for the hospitality shown by the Timmins Auxiliary, and for the luncheon and dinner served in the church hall.

Annual Meeting Next Year at Matheson.

The next annual meeting of the Presbyterian W.M.S. will be held in Matheson next summer.

Officers for the Year 1934 of the Cochrane Presbyterian W.M.S.

President—Mrs. Monck, Timmins.
1st vice-president—Mrs. Millar, Timmins.
2nd vice-president—Mrs. McCartney, Monteth.

Stewardship and Finance Secretary—Miss Smylie, Matheson.
Literature Secretary—Mrs. Weagar, Cochrane.
Missionary Monthly Secretary—Mrs. Millar, Timmins.
Publicity Secretary—Mrs. Macdonald, Timmins.

Sweatshop Methods Disclosed at Ottawa

"Almost Unbelievable" Is Comment of Chairman Stevens on Conditions Said to Exist in Quebec Province in Making of Clothing

The parliamentary committee appointed to investigate mass buying and alleged unethical conditions in industry in Canada is continuing its sessions at Ottawa, and disclosures are being made from day to day, some of these being very startling. Last week investigation was being carried on in regard to the clothing industry, and some of the disclosures made are certainly sensational and likely to rouse very general protest. Families working very hard at their homes and making 50 cents per day at tailoring pants are among the unusual disclosures made.

One despatch from Ottawa says that a picture of men and women and children working in their own homes on cheap clothing in the province of Quebec was painted on Thursday of last week to the parliamentary committee investigating mass buying. The disclosures were made by J. G. Glasco, an investigating auditor. In some of the disclosures there has been a fairly general tendency to ask for suspension of opinion until all the facts are known. In this particular case it would seem that the auditor's statement gives all the information available and that information is not flattering to anybody.

"This is almost unbelievable," said Chairman H. H. Stevens, when the auditor told of clothing contractors in Montreal trucking cloth and thread into the country, there to be sewed into clothing at starvation rates. Whole families would work, receiving 60 cents a dozen for sewing men's pants and, in addition, buying the thread from the contractor, who received it free from the manufacturer.

The auditor told of visiting one farm house 25 or 30 miles from Montreal where four families worked together on clothing. In the daytime, the women worked the machines, sewing the pieces together, putting in the pockets, and attaching buttons. At night, the men pressed the finished garments.

The joint output for the four families was from 2 1/2 to 3 dozen pants daily for which they received, without considering cost of thread, from \$140 to \$180. Each family would receive less than 50 cents for the long day's work.

"We are back in medieval times," commented Sam Factor (Lib., Toronto), adding that the whole clothing industry in Canada was being ruined by such conditions.

Sweatshop labour and home-work conditions had grown in the last four or five years, the chairman said, aggravated by the demand for cheap clothing for department store bargain days and mail order catalogues.

The auditor said there were from 150 to 200 clothing contractors in Montreal and sometimes sub-contractors. They had small plants of their own, receiving orders from larger manufacturers. In two shops examined, every woman received less than the minimum wages set by law.

Annual Meeting of Presbyterial W.M.S.
Interesting Event at United Church Timmins on Friday of Last Week. Presentation Made to Miss Campbell, Deaconess.

The eighth annual meeting of the Cochrane Presbyterial Woman's Missionary Society was held in the Timmins United Church on Friday of last week, June 22nd, and the following report of the event is provided by the publicity secretary:—

Morning Session

The morning session opened with the "theme song" "Crown Him Lord of All," followed by the devotional period taken by the Matheson Auxiliary.

There were four officers of the Toronto Conference Branch present as honoured guests. Six delegates from Hearst, four from Cochrane and four from Matheson were also among those at the three sessions.

Mrs. Macdonald welcomed the delegates.

Mrs. Mundy, of Hearst, replied to the words of welcome in a most appropriate and interesting way.

The reports by the secretary and the treasurer were comprehensive and most interesting.

The address by the president, Mrs. Monck, was full of cheer and courage, having for its inspiration the stirring verse:—
Be strong! We are not here to play.
To dream, to drift!
We have great things to do!
A load to lift!
Be strong!
Reports from the various auxiliaries for the past year were very cheering.

The session closed with the Mizpah benediction in unison.

Afternoon Session

The afternoon session opened with the "theme song."

Mrs. Pearson, of Toronto, spoke on the need for the "Missionary Monthly" in the homes of the W.M.S. members, and the advantages of a publicity secretary in each auxiliary to make known to the public the work and aims of the missionary organization.

Mrs. Relyea, from Toronto, spoke on "Sign Posts," dealing especially with a sympathetic and understanding teaching of the child in the home and in the church. She stressed the obligations of parents and teachers in assisting

ing the child to express himself as early as possible in the life of the church.

Mrs. Macdonald gave three short readings on the subjects, "Foundation" and "Building."

Mrs. Drew and Mrs. Milne sang very sweetly, "Softly and Tenderly Jesus is Calling."

The installation of officers for the year 1934 was conducted by the Rev. Bruce Millar, Timmins, and the Rev. Murray Tait, Schumacher. Mr. Tait's address and charge to the officers was taken from Paul's Second Letter to Timothy, 2nd chapter and 10th verse:—"Study to show thyself approved of God! Alleged Strike Leader Given Two Months' Term

Word from Rouyn on Friday was to the effect that Lloyd Nelson, alleged to be one of the leaders in causing the strike at Noranda Mines was sentenced at Rouyn to two months in jail for vagrancy. Nelson, who has been prominent in the Canadian Labour Defence League work, is said to have been one of the speakers at the final strike meeting that resulted in 300 underground workers walking out of the Noranda Mine. These men are now out of jobs and with no prospects of regular work, their jobs at the Noranda being filled and the leaders who got them into the trouble having moved on to try to cause similar trouble elsewhere. Nelson was arrested during the trouble and was unable apparently to show that he had any legitimate occupation and on the charge of vagrancy was given two months in jail.

Fines were also imposed on twelve other persons charged with being members of an unlawful assembly. One of these fines reached \$100 and costs. There were three women in the group of twelve who were fined.

Another group of 25 arrested during the trouble following the walkout were taken to Villa Marie, Quebec, to stand trial there. This group of 25 were transported by truck to face trial at Villa Marie.

It is worth noting that most of the so-called leaders doing the agitating do not go a second time to places in Quebec. Usually once is enough, and the next time effort is made to get local people to stand the brunt of any trouble that may be created.

Lachute Watchman:— Incidentally, in the distributing of worthwhile goods and services, the keynote to success is publicity—a factor in which the local newspaper office is ready to collaborate. Printer's ink accelerates progress, and wide-awake communities should use lots of it.

Cutting Ice on River in Matchewan Area

Prospectors Supply Restaurant with Needed Ice to Help Out in an Emergency. And the Month was June.

There are many stories told of North Land weather. For instance, there is the one about the year in which there was a fall of snow every single month, including June, July and August. But the strangest and the best weather story yet about the North is a true one. It proves again that truth is stranger than fiction. And much more interesting after all. That's why The Advance specializes in truth as news, so far as may be possible.

The story about the North's weather, however, is to the effect that ice was cut a few days ago on the Montreal river. The date of the ice-cutting was June 15th. The story connected with this ice-cutting goes about as follows: Mrs. Ada Wilson, of Kirkland Lake, recently opened a confectionery store and restaurant in Matchewan townsite. She has her cafe and store in a building owned by Councillor Alex Fraser, of Kirkland Lake, and though that cuts some ice, it does not solve the problem. Mrs. Wilson found the ice problem a serious one in the cafe business and mentioned the fact to a couple of prospectors who visited the store. She pointed out that ice was most expensive in Matchewan, when it could be secured, and sometimes it was impossible to get it at any price.

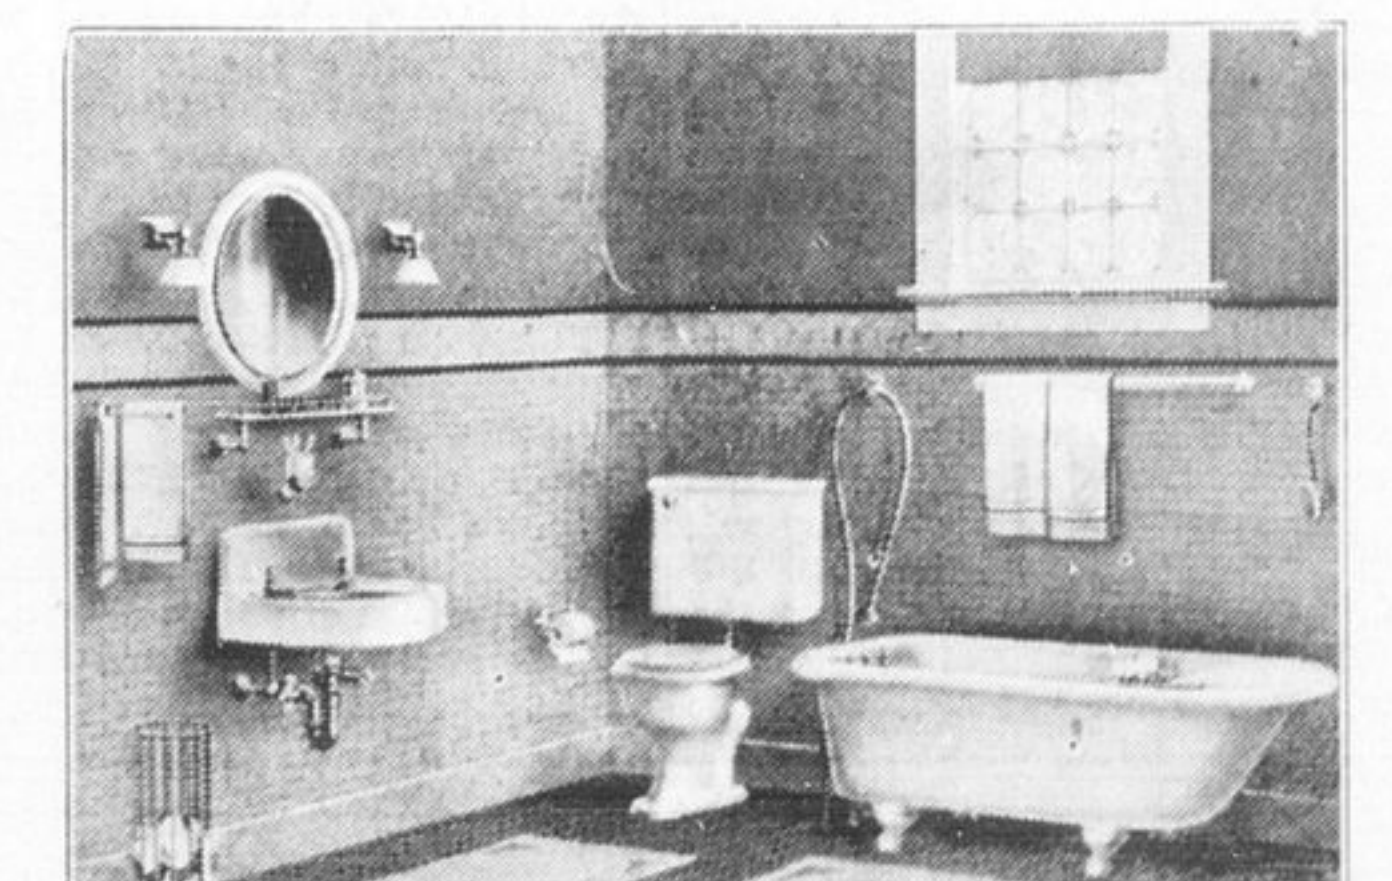

"You want some ice?" the prospectors asked. "Well, we have a mine of it. We can get you all the ice you need. It isn't far away either."

The lady thought the prospectors were having some fun at her expense, but she soon found out that when prospectors tell you they'll do something, they can be depended upon to do it. Soon they were back at the store with some of the most beautiful ice that anyone could desire. It was clear as crystal and apparently only freshly cut. "Here's your ice, lady," said the prospectors.

Then explanations were made. While exploring the river not far from the Matchewan townsite the prospectors had discovered a large natural cave; running right in from the river. Protected from sun and rain and wind, the ice formed in this cave in the winter time was kept in its natural state for months. With this knowledge in mind the prospectors were safe in promising a supply of ice and able to easily carry out their promise. They estimated that there was fully a ton of good ice in the cave.

According to an editorial note in The Cochrane Northland Post last week the formal opening of the Cochrane Memorial Park has been called off for this year. If this is correct, it will mean the changing of the Timmins civic holiday set for August 4th this year so as to allow citizens of Timmins to join with the people of the rest of the district in helping Cochrane celebrate the opening of its new park. As August 4th is a Saturday the choice of this day as civic holiday has met with some objection from business men and others in Timmins.
