IT RAINED GOLD IN INDIA; YOU MAY BELIEVE IT OR NOT

The world may talk of gold standards and gold hoarding but in India it has been raining gold. Outlying districts in which seismic disturbances were felt recently reported a shower of fine powdered gold and told stories of golden clouds of dust floating low over the countryside.

The secret of the color of the dust was revealed when scientists analyzed samples and discovered that the dust harboured fine particles of the precious metal. The dust clouds came as a result of the earth shocks which the scientists suggested forced into the air delicate particles from deep rock fissures.

RAILWAY, NEXT TO BED, IS SAFEST PLACE IN WORLD

In these days of scientific probing one can never tell just what peculiar phase of modern life will be analysed next. The latest case for scientific investigation has been the railway train. Investigators have discovered that the average fatalities on trains is one for each 739,018.537 miles travelled, proving conclusively, scientists found, that next to your bed the railways are the safest place in the world. Further research, according to the Statistical Bureau of the Canadian National System, shows that railway employees are one of the highest trained bodies of men in any industry and those in charge of the operation of trains are compelled to undergo medical examination at stated periods to insure their fitness to continue their duties.

Harry Byrne One of the Real Old-Timers Here

Names of old-timers of the Porcupine continue to come in, and The Advance wishes to thank all those who have been kind enough to assist in making the list as complete as possible. The Advance intends to publish later in the year a final list on which it is hoped to have all the names of the real pioneers of the Porcupine. Two partial lists have already been published and the readers of The Advance have added names and thus assisted in a material way in making the list as complete as possible. The interest taken by so many is very encouraging, and still more pleasing is the kindness of so many in helping in this matter.

One of the latest names to be added to the list is that of Harry Byrne, who will be remembered by all the old-timers. His daughter, Mrs. J. G. Johnson, now of New York, writes The Advance in part, as follows:—"I cannot resist telling you how much we enjoyed the recent copies of The Advance. We read every word regarding the 25th Anniversary celebration and found it very interesting. I was sorry, however, not to have seen my father, Harry Byrne, prospector, mentioned on the list. He was, if you can recall, one of the real old-timers, having been in there even previous to 1907. He went back later, in 1909. If you would care to add his name, we would appreciate it."

GOOD WORDS FOR NEW MEMBER FROM HIS OWN OLD HOME TOWN

The Powassan News last week says: "John Rowlandson, member-elect for South Cochrane, is a brother of Councillor Richard Rowlandson of Powassan, Reeve Thos. Rowlandson of Nipissan, Robert Rowlandson, and Emanuel Rowlandson, all men of high standing in this community. Mr. Rowlandson went north years ago, and became prominent as a pulpwood operator. We are convinced that he will make a very worthy representative for his riding, and The News joins with the many friends in this, his old home locality, in tendering heartiest congratulations."
