Youngsters Had Big Time at Sixth Annual Dome Field Day

Merry-go-round a Big Feature. Had to be Closed at Times to Get Contestants for Events. Some Figures Regarding Event at the Dome. List of Prize Winners. Other Information About Field Day.

South Porcupine, July 11th, 1934. Special to The Advance.
Brief reference was made in The Advance last week to the sixth annual field day at the Dome for the Dome youngsters. Below will be found further particulars about the event, and also the list of prize winners:—
175 gallons of ice cream went into 10,000 cones.
125 gallons of lemonade used.
5000 Merry-Go-Round tickets were used.
The Conklin Shows set up their merry-go-round the preceding night and all was in readiness at 9.00 a.m. The children seemed to enjoy this treat most of all, and it was necessary at different intervals to close the merry-go-round entirely in order that sufficient contestants would assemble to put on the competition events.
The following committee men handled the different events in an able manner:—P. Millions, A. McGinn, R. Vokes and H. Libby in charge of the ice cream and lemonade booth; R. Richmond, in charge of the information bureau, including the giving out of all gift bags, prizes and lucky tickets; D. P. Eames, in charge of the girls' races; R. Mitchell, Sr., in charge of the boys' races; R. Countryman and D. M. Letterman, in charge of the Merry-go-round.
Special credit is due to Gordon Countryman for the efficient manner in which he handled a very difficult situation. There were 5000 merry-go-round tickets issued and it seemed that all the children wanted their six rides each at the same time. But when the ponies were all loaded the rest of the children were held back with a smile till the next time.
The treasurer, D. M. Letterman, announces that the expenditures were slightly in excess of the amount subscribed but this will be taken care of as the allotments come in each month. However the committee are of the opinion that a little more funds could be used to good advantage another year.
In the lucky draw prizes there are still two prizes that the holders of the winning tickets have not presented:
Ticket No. 47476, Ladies' second prize
Ticket No. 47442, Gents' third prize
Anyone holding these tickets will please present them at the Time Office and receive their prize.
Winners of the competition events are as follows:—

W. F. B. Cadman, of the Northern Ontario Power Co., head office at New Liskeard, was a visitor to Timmins last week.

Old-Time Resident of the North Re-visiting Here

W. G. Ferguson, recently of Smith's Falls, Ont., but years ago a prominent and popular resident of the North Land, is re-visiting town and is being very heartily greeted by other old-timers here. Mr. Ferguson founded The Nugget at Cobalt and was also connected with the early newspapers of the Porcupine Camp, being editor of The Advance for a time in its early days. Mr. Ferguson has not been in Timmins before the present visit since

the days 23 years ago when the Gold-fields hotel was in course of erection. Accordingly, he sees wonderful changes in the camp, and Timmins that he once knew has simply a place in the bush, he finds to-day a modern city that impresses him with its progress and stability. Although there have been so many changes in the physical appearance of the camp, everything being practically new to him, Mr. Ferguson has found hosts of old friends and old-timers still here and he is having a happy time recalling the days of long ago.

Officers of Paymaster Paying Visit to the Camp

A. S. Fuller, president, and E. H. Walker, vice-president, of the Paymaster Consolidated Mines Limited, together with other directors and officers, are on a visit to the camp and property this week. They are finding everything going along satisfactorily with a good force of men at work on the Paymaster properties and the chances excellent for success. It is understood that it is intended to reopen work at an early date on the

property of the Empire Gold Mines Limited. The same interests controlling the Paymaster property are behind the Empire Gold Mines Limited. The Empire Gold Mines Limited has a property on the outskirts of Timmins, this property being known as the White mine and previously having been operated under the name of the Whelpdale. H. B. Hatch, engineer and mining man who is in the camp this week in company with the Empire Gold Mines interests will look after the opening up and development of the Empire Gold, it is understood.

Mrs. Rose, of Toronto, is visiting her daughter, Mrs. Roy Asseltine. Mrs. Brerton, sister of Mrs. Asseltine and her two daughters, Misses Catherine and Jean Asseltine, are also up from Toronto the guests of Mrs. Asseltine.
