Kirkland Lake Aims to Cut Relief by July 15th

According to a decision of the Teck township council, direct relief for able-bodied men will be discontinued at Kirkland Lake after July 15th. This move is necessary to protect the taxpayers and the council feels that the men now on relief can get work if they want to and are not too "choosy" about it. Also the authorities at Kirkland Lake point to Haileybury, South Porcupine and other places where relief has been cut off. Also, reference might be made to a lot of other places where the men themselves have rustled jobs and got off relief on their own account. In referring to the matter The Northern News last week says: "Timmins has nothing like the number on relief that the township of Teck is obliged to care for, it is said, and yet Timmins has a population considerably larger than Kirkland Lake and Swastika combined."

Some Recipes for Pies and Puddings

Apricot Pie, Plum Pie, Custard Pie, Caramel Pie, Chocolate Pie, Butterscotch Pie, Butter-scotch Pudding

Here are some recipes for pies and puddings, or more exactly for some pies and one pudding — butterscotch pudding. The butterscotch pudding simply follows the butterscotch pie. As a preface to the recipe for the pie there is given a recipe for making "chopped paste," or as it is sometimes called, "chopped paste." These recipes may be worth clipping out and pasting in the cook's scrap book.

Quick Paste
3 1-2 cups pastry flour
1 1-4 teaspoons salt
1 cup shortening
Cold water

Sift and measure chilled flour. Re-sift with salt.
Cut cold fat into flour coarsely, using two knives or a pastry blender. Mix to a stiff dough with cold water. Wrap in waxed paper and chill.

Apricot Pie
1 pint stewed dried apricots
Few gratings lemon rind
1 1-2 tablespoons cornstarch
Pie crust

Line pie pan with pie crust. Heat fruit with lemon rind and thicken with cornstarch, smoothly mixed with an equal amount of cold water. Partly cool, pour into pie pan, put strips of pastry across top and bake 30 minutes in moderate oven.

Prune Pie
1-2 pound prunes
1-2 cup sugar
1 tablespoon lemon juice
2 teaspoons butter
1 tablespoon flour

Wash prunes, soak in water to cover. Cook below boiling point until soft; uncover to allow water to evaporate; remove stones, cut in pieces. Add sugar, lemon juice and 1 1-2 tablespoons prune water. Line pie plate with pastry and pour in the mixture. Dot with butter and dredge with flour. Cover with an upper crust and bake 30 to 35 minutes. Temperature 450 degrees F., reduce to 400 degrees.

Custard Pie
1 1-2 tablespoons flour
4 tablespoons sugar
1-3 teaspoon salt
2 eggs
2 cups scalded milk
1-2 teaspoon vanilla
Few grains of nutmeg

Plain Pastry
Mix flour, sugar, salt and well-beaten eggs together. Add scalded milk, vanilla and nutmeg. Line pie plate with plain pastry and pour in the custard mixture and bake in quick oven (425 degrees F.) 10 minutes. Reduce heat to 300 degrees F. and bake 20 minutes, or until custard is firm.

Caramel Pie
2 cups corn syrup
1-4 teaspoon vanilla
Few grains salt
2 eggs
Pie crust
2 tablespoons cornstarch
Line pie plate with crust. Beat egg yolks and add corn syrup, cornstarch and vanilla, mixed thoroughly. Fold in egg whites, stiffly beaten, and pour into pastry-lined plate. Place strips of pastry over top and bake from 25 to 30 minutes in an oven, 375 degrees.

Chocolate Pie
1 1-2 squares chocolate
1 2-3 cups scalded milk
2-3 cup powdered sugar
1-2 tablespoon corn starch
1-2 teaspoon vanilla
4 eggs
Pastry

Melt chocolate over hot water, then add hot milk and cook together till smooth. Add sugar sifted with cornstarch and stir constantly until mixture returns to the boiling point. Cool slightly, pour over 1 whole egg, 3 egg yolks slightly beaten, and 1-4 teaspoon vanilla. Pour into pastry-lined pie pan and bake in a hot oven (450 degrees F.) for 10 minutes and in a slow oven (320 degrees F.) for 30 minutes.

Date Pie
Wash 1 pound dates, and soak overnight; stew in some water until soft enough to rub through colander. Add 1 cup sour cream, 2 level teaspoons of butter, the yolks of 3 eggs, 1 teaspoon cinnamon, 1 teaspoon nutmeg, and a little salt. Bake in 1 crust. Make a meringue of whites of eggs, if liked.

Butterscotch Pie
4 tablespoons butter
3 tablespoons cornstarch
1 cup brown sugar
1-2 teaspoon salt
2 cups milk, scalded
3 yolks of eggs
3 teaspoons caramel

Cream butter; add cornstarch, salt and sugar mixed; add milk slowly and place over hot water; stir and cool until thick; cover, cook 20 minutes, stirring occasionally. Add yolks of eggs and cook until thick. Remove from heat and add caramel. Pour into a cooked shell; cover with a meringue.

Butterscotch Pudding
3-4 cup corn syrup
2 1-4 cups milk
1-3 teaspoon salt
6 tablespoons cornstarch
1-2 tablespoon butter
Scald corn syrup and milk. Add butter, salt and the cornstarch, mixed with an equal quantity of cold milk. Cook in a double boiler, stirring constantly until thickened, allowing at least 20 minutes. Add vanilla, chill and serve with cream.

Frood's Fine Chances for Dominion Football Cup

Among the paragraphs of sporting comment in The Sudbury Star last week was the following that will be of interest to football enthusiasts here: "Frood Mine are now the undisputed champions of the Northern Division in the Dominion Football Association's cup tie by a battling finish last night that netted them three goals in the second half of the second game after their four-goal first game lead had been wiped out. Frood have shown a spirit that won't be beaten all year, and it is this as much as their football ability that has carried them through. In the first half last night they were outplayed, and it looked as though their chance for going any further was over, but the old last-minute fight got them another win. Coupled with their fighting spirit is their youth that leaves them fresh and able to go at top speed when the older and more tricky veterans are gasping for breath. They have taken some bad bumpings by heavier and more rugged teams, but they come back for more all the time and always manage to walk off with a win. If the calibre of the football played in Toronto is any criterion of the teams they will be up against, the Frood have a big chance of making themselves the Dominion cup holders this year. Toronto Consols, the class in the Queen City, played North Bay over the week-end, and though they did look very classy and flashy, they managed to eke out no better than a 3-2 win over the C. P. entry from the Bay. The North Bay club hasn't won a game this year in the S.D.F.A., and have absolutely no chance of taking the Frood unless they show a startling reversal of form, which is more or less unlikely. There are more than the Consols to hurdle, but the Frood will have to bow to no one if they play the game they are capable of. Whether they win or lose, they are putting up a great game and deserve all the support that Sudbury can give them."

Gold's Open Letter to the Premier-Elect

Magazine of the North Tells New Premier That He Has the Chance of the Century to Adopt a Policy for the North

"Gold," the magazine of the North, addresses an open letter to Mr. Hepburn, the premier-elect of Ontario. It heads the letter, "Your Great Opportunity, Mr. Hepburn!" Here is the letter in full:—

In a veritable avalanche of votes on June 19, the people of Ontario cried aloud for men of action and vision to lead the way to recovery and sane government.

At the same time they placed in the hands of Premier-Elect Mitchell Hepburn and his followers an opportunity for service and progress which has greeted no other victorious Ontario party in 30 years.

Liberalism has a clean, white page and a mandate like Franklin D. Roosevelt holds.

That clean page extends not only across the older sections of Ontario, but into the far greater virgin areas of our North.

And it is in the North, from the Manitoba border across James Bay to the Quebec boundary, that the great hope of speedy restoration and sound development lies.

Agriculture and industry must have markets and orders. The North sends a constant stream of orders to the farm and the factory, which can be increased to a flood, providing that the pork barrel is smashed for good and the northern developer and pioneer given the measures of assistance he deserves.

While sane retrenchment must be a plank in the new government's policy, no negative policy will be ample for the needs of Northern Ontario. It is still New Ontario; its day has only commenced. The trail has been blazed and ways and means are apparent to all.

We believe Mitchell Hepburn is a man of vision—and a man of action.

He is fortunate in having the solid support of all the constituencies of the North. In the face of such support, the people will look to him for

public-spirited rather than partisan action.

And for a great constructive policy for the North, embracing mining, the tourist trade, water power, more pioneer roads, aviation as an aid to exploration, lumbering and fishing, with special attention to the support of the prospector and the pioneer worker and developer.

Mr. Hepburn is doubly fortunate in having about him men of the type of Arthur Slaght, K.C., Arthur Roebuck, K.C., M.P.P.-elect, Daniel W. Lang, K.C., who made such a splendid run in South York, and T. B. McQueen, K.C., who remembers the early days of Gowganda.

These men are all Northerners. They watched at close quarters the development of the North since the building of the T. & N. O. railway through the decision of the late Hon. G. W. Ross. Let them now vindicate the original policy of Northern development. They know the crying problems and great capacity for achievement of the northern people.

These men are outstanding and understanding thinkers regarding the North and for years they have been urging many needed reforms and positive policies.

We believe Mr. Hepburn and his lieutenants are big enough and far-sighted enough to formulate the greatest policy of northern development the North has ever had. They know what new mines mean to this province. They know that sane mining development will save the day for Ontario.

And we believe that they will recognize that Northern Ontario development offers an empire of constructive opportunity unparalleled in the world. The North is the biggest business Ontario has.

The North can lift Old Ontario and its people to great and universal prosperity and equality of opportunity.

Let this new, young government approach the northern job as though it had discovered a new continent of opportunity, teeming with new and unclaimed wealth; manned by the best brain and brains Canada possesses and ready to put its shoulder to the wheel with determination to make every citizen of Ontario look forward with reborn confidence to the new dawn for Ontario—and for Canada! The North calls for the best you

have, Mr. Hepburn! You will find everyone ready to help, including, we feel sure, the "finest Minister of Mines Ontario ever had"—the Hon. Charles McCrea.

And "Gold" is certain that this change in public thought as expressed in new government, will usher in the greatest era of progress, based on a fair deal to all, of which the North has ever dreamed!

Go ahead, Mr. Hepburn, Mr. Slaght, Mr. Roebuck, Mr. Lang—and you new northern members, with the youthful, hopeful, conquering outlook you have shown in your fight to lead the people!

Men Driving Cars for Years Without Permits

A check-up on motor car drivers by the provincial and municipal police at Kirkland Lake reveals the fact that many men have been driving motor cars for years without having driving

permits. The Northern News is inclined to think that this is a North Country custom. It isn't so far as Timmins and Tisdale are concerned. At any rate if there are drivers without permits it is because they have kept away from the remotest touch with accidents and all other sorts of motor trouble, for in every case here that the police touch upon the names, addresses, license number, permit and all other details are very painstakingly taken. Also the Timmins and Tisdale police and the provincial police here make a regular check-up every once in a while to see that licenses and permits in general are O.K. At Kirkland Lake recently, however, some men were discovered who had been driving cars for four or five years and yet had no driver's permit in that time. It would appear that in Kirkland Lake buying a driver's permit is as distasteful as paying for a radio license in Timmins.
