## Gives Quintuplets Chance to Survive

Dr. Alan Brown, Noted Child Specialist, Warns Against Busybodies Interfering with the Five Youngsters at Corbeil.

Dr. Alan Brown, internationally-known child specialist, last week examined the Dionne quintuplets and said he felt that "if the present careful supervision without interference from busybodies is continued, they have a very excellent chance for survival."

Dr. Brown, professor of diseases of children at the University of Toronto, and physician-in-chief at the Hospital for Sick Children, Toronto, visited the Dionne farm home when Dr. A. R. Dafoe, family physician, made his regular visit.

Dr. Brown paid high tribute to the work of Dr. Dafoe, nurses and Red Cross. On return to the office of Dr. Dafoe, the Toronto specialist issued the following statement:

"I have this day examined the Dionne infants and find them doing as well as if they had been in the most up-to-date hospital."

"By this I mean Dr. Dafoe surrounded himself with all necessities and materials required to handle the situation."

"In doing this so well, he made a lasting tribute to the Canadian medical profession."

"One of the most important points in dealing with small infants is to have careful nursing, and these babies have had the very best, which is a feather in the cap of our Canadian nurses."

"Last, but not least, is the contribution made by the Red Cross under the able supervision of Mr. W. H. Alderson and Dr. Fred Routley. Construction of incubators made by their organization meets all scientific needs of premature infants."

"I also feel if the present careful supervision without interference from busybodies is continued, they have a very excellent chance for survival."

The payroll at Kirkland Lake each pay day is estimated at \$333,750.00 or \$667,500.00 per month. All the Kirkland Lake mines pay on the same days the 10th and 25th of each month. Most of the Porcupine mines also pay on the 10th and 25th, while the Hollinger pays on every second Tuesday. Reference a couple of weeks ago in The Advance to the odd fact that for the time in a considerable while the Hollinger and other pay days fell on the same date and meant the paying out in the camp of over \$400,000.00 in the one day gave use of much discussion about pay days in the North.

## McIntyre Football Team win from Dome

Thursday Evening's Schedule Match with the Dome at McIntyre's Home Grounds Proved a Bonnie Battle.

In the schedule match between McIntyre and Dome football teams played at the McIntyre grounds at Schumacher on Thursday evening last, McIntyre made a nice win after a good battle, the score being McIntyre 2, Dome 1. The McIntyres put up a fine game once they got rightly going but against a team of the calibre of the Dome it is not idle to say that the issue was in doubt until the final whistle.

The following were the teams, officials, etc.:

Dome Mines—Goal, Baxter; backs, McWhinnie and Maguire; half-backs, Cockburn, Crawford, and Joe White; forwards, Galbraith, Chambers, White, Rodgers and McCurdy; spare, Foster, replaced Galbraith.

McIntyre—Goal, Brockbank; backs, McAdam and Hampton; half-backs, Mair, Clulow and Morrison; forwards, C. Dawson, Searle, Brown, Hendry and Walsh; spare, J. Dawson, replaced Brown.

Referee, Pat Larmer; linesmen, Frank Willis and Art Stanlake.

The first half of the match did not show very strenuous football and about 35 minutes passed before there was really anything doing. Then Mair took a free kick and sent in a high one of fierce speed that was headed in by Brown. This score encouraged the McIntyres to renewed effort and though the Dome met the onslaught with their usual courage and resource, this half was McIntyre's. Just before the whistle, Mair scored on another long drive, making it McIntyre, 2, Dome, 0.

If play did not live up in the first half until the period was well along, it was certainly heads-up football from beginning to end of the second half. McIntyre seemed determined to hold the lead, while Dome was equally strenuous in attempting to reverse the score. W. White, after some good play all by himself, got in alone and scored for the Dome. Then Dome went out stronger than ever in effort to pick up another to even the score and another to get ahead. The efforts of the Dome were frustrated in this by the McIntyre, but it certainly made great football and the football enthusiasts felt they had the worth of their money all right in the second half. There was action and interest all through the second half but no more scoring, and the final count was McIntyre, 2, Dome, 1.

## PLANES ASSIST WORK IN KEEFER TOWNSHIP AREA

The value of the air service to the North is proven again by recent experience in Keefe township. There has recently been considerable activity in Keefe, where between 25 and 30 claims have been staked in the past few weeks. A large number of men are doing assessment work in Keefe, which is some 30 miles southwest of Timmins. Here is where the plane service comes in. The trip, which ordinarily would take a day and a half, can be made by plane in less than half an hour. Prospectors and mining men find this service of notable advantage to them.

## Beer May be Sold in Small Centres Without Hotels

The announcement of the new Government's policy in regard to the sale of beer brought up the question at once as to what would be done in the case of centres that did not have hotels. The Sudbury Star and other newspapers in the North pointed out that the North had a number of centres without standard hotels but where there were many people gathered together who seemed to have as much right to a drink of beer as people in the larger towns and cities.

Word from Toronto is to the effect that the Liquor Control Board is considering the situation in respect of the beer and wine in Northern Ontario settlements.

The board will study the situation in small centres in Northern Ontario. It is not the intention of E. G. Odette to deprive labouring men, miners and lumbermen of their glass of beer just because they may happen to live in a community in which there is no hotel.

The aim of the board will be to provide a parlor wherever such is deemed necessary, if there is no hotel, to take care of the requirements of any particular districts, the premier said. "The government and the Liquor Control Board are not wedded to the present regulations," said Premier Hepburn. "They are a starting point. The pendulum may swing one way or another. The time may come when public demand will lead to the sale of beer in restaurants."

"One of the first problems of the board will be to determine how to deal with certain localities in Northern Ontario and even right here in Toronto. In many residential districts in this city there is no hotel for miles. Where such is the case good restaurants may be allowed to sell beer. That will be decided in the near future."

The Liquor Control Board will take up the question of small Northern Ontario communities which are deprived of a beer parlour through absence of a hotel just as soon as the present act is running smoothly.

A Ford coach, license No. KO-12, serial number CAS 6163 is reported as stolen from Kirkland Lake.

The "Eyes of the World" for his blind parents, Danny Gutilla, above, four-year-old son of Dr. and Mrs. Anthony Gutilla, of Bellefontaine, keeps his father and mother abreast of current news by reading to them from the daily newspapers, although it will be two years yet before he is concerned with school.

## NORTH BAY GIRLS HAVE DISTURBING EXPERIENCE

Two North Bay girls last week had an alarming experience that came close to being a serious affair for the man responsible. One of the girls, a Miss Trombley, living at Memorial Drive, thought she heard a noise in the bedroom during the night. She switched on the light to see what was going on and there was a man in the room with a handkerchief tied across his face to mask him. The young lady screamed, and received fair assistance in this line from her sister who was also in the room. The man fled, but the screams of two girls roused the father who got track of the intruder and thought he had him bottled up in the cellar of the house. The father called the police, but in the meantime the intruder got out of a cellar window and made his escape, though not without some danger, as the father sighted him and fired three shots at him, though none took effect. It is thought that the man's purpose in entering the house was to commit robbery, but if so he made a poor hand at the game and in addition gave the young ladies a great fright. The police and the father searched for hours but could find no clue to follow the intruder, though evidences of his presence were found in addition to the fact that the father had caught a fleeting glimpse of him twice, once when he ran to the cellar and the other time as he escaped from the house.

Toronto Mail and Empire:—A centenarian says that a man does not really begin to live until he is 100. The trick is to get started.

## KIRKLAND LAKE'S HOTEL ACCOMMODATION TAXED

There have been so many visitors this summer to Kirkland Lake that the Lake Shore town has found the hotel accommodation insufficient for the needs. All the hotels have been filled right along and tourists stopping at the town have had difficulty in securing places to sleep. The difficulty has been overcome for the time being in some cases by the visitors using their cars as bedrooms, while others have lain under the open sky, not actually to sleep, or even to rest, but to lie and curse the flies and the bugs and whatnot. The rush at the existing hotels in Kirkland Lake has revived the suggestion that what Kirkland Lake needs is a big hotel. In the way of stores and businesses Kirkland Lake, like Timmins, has too many in nearly every line, but though there are several hotels, there are no big ones and the accommodation is not in keeping with the demand.

## SECOND GOLD BRICK SHIPPED BY THE J.-M. CONSOLIDATED

The second gold brick shipped to the Canadian mint at Ottawa recently by the J. M. Consolidated Mines had an estimated value of \$2,800, according to official statement. In the two bricks shipped by this company since starting operations in May, about \$100 in silver has been found, it is stated.

The company reports new machinery has been purchased, and is on the way to the property. An official estimate states that from now on production will run at the rate of about \$11,000 a month, with milling costs and other expenses amounting to not more than \$8,000 monthly.

## HON. PETER HEENAN TO OPEN HIGHWAY AT NORTH BAY

Hon. Peter Heenan, Minister of Northern Development, will officiate at the formal opening of the east end entrance from the Trans-Canada highway to North Bay, the ceremony to take place on Saturday, Aug. 4th. Committees are being formed now to see after the entertainment and other features of the occasion, as North Bay plans to make it a big day. Reports are to the effect, however, that only \$50.00 is available for expenses in connection with the event, and if this is the case there will be a considerable handicap in having a big day, unless some other form of financing is adopted by those interested.

Mrs. E. Dixon, R.N., and her sister-in-law, Miss M. Dixon, nurse-in-training, were forced to shorten their visit to Hartney, Man., Miss Dixon being stricken with an attack of appendicitis. Miss Dixon underwent an operation at St. Mary's hospital, Timmins, on Wednesday, and at the time of writing is doing quite nicely.

Miss Sonia Charron, Miss Irene Millette and Miss Lou Vaillancourt are making a Trans-Canada trip at present.

## Road Camps Closed Till Crops Attended

Hon. Peter Heenan, Minister of Northern Development, Releases 20,000 Settlers to Attend to Crops. To Resume in Month.

A despatch from Toronto last week says:—"Northern Ontario settlers camps, or settlers roadwork gangs as they are better known, have been temporarily closed down on orders of Hon. Peter Heenan, Minister of Northern Development. The reason given is that the men engaged therein may have the opportunity of proceeding with their haying and harvesting and generally safeguarding their crops against the possible loss that inattention at this time of the year might inflict."

"Some 20,000 men who are being paid for road labour at the rate of \$2 a day will, in so far as departmental expenditure is concerned, be laid off for at least a month, it is understood, but will be re-engaged when the harvest season is over. The action taken by Mr. Heenan's department in this connection is attributed, it is reported, to representations from the North that agricultural production might this year become a total loss unless adequate care is given."

"In a statement issued to the press last evening, following an all-day conference on the situation with departmental engineers, Mr. Heenan made it quite clear that the new shut-down order did not apply to the board camps of which there are some 60 scattered from east to west across Ontario on the Trans-Canada highway route and other trunk and colonization roads, and in which another 20,000 men are housed and employed at the present time."

"So far the Heppburn Government has given no consideration to policy in respect of the board camps' operation. Rumour has it that the camps will at least be operated until the end of the current fiscal year."

"Whether departmental retrenchment and rearrangement of the province's relief system as is reported to be contemplated will permit of further operation of these camps is a matter which rests entirely with the cabinet at Queen's Park."

## Gaelic Joke on Scottish Premier of Great Britain

In the very beginning of the visit to Canada on holiday of Premier Ramsay MacDonald and his daughter, Miss Isabel, there was a Gaelic joke and the premier of the Old Land thought the joke was on him. At Digby, Nova Scotia, Prime Minister Ramsay MacDonald was met and welcomed by Premier Angus Macdonald, of Nova Scotia. After chatting together for a minute or two, the two Macdonalds walked up the wharf together through the lines of cheering townsfolk, the despatches note. With Nova Scotia premier the British prime minister found common ground for conversation in the subject of Scotland and the Scottish people of Nova Scotia. And from the same topic they both drew a laugh at the expense of the distinguished visitor. As one Macdonald to another Premier Angus Macdonald was prepared to exchange pleasantries and greetings in the Gaelic language. But the provincial premier, who learned fluent Gaelic around his Cape Breton Island birthplace, found that the premier of Great Britain could not speak the mother tongue of his native Scotland.

## Timmins Golfers Draw in Iroquois Falls Event

Four members of the Timmins golf club visited Iroquois Falls last weekend for a match for the Moore Paint Co. trophy, and after eighteen holes the match was declared a draw, each side making two points. Cliff Oliver won from W. Laidlaw; Karl Eyre won from Clark Davis; W. A. Wookey won from W. Kishbaugh, and J. E. Ashton lost to H. Soderson.

## Porcupine Man Winner of the Firemen's Motor

The following from The Rouyn-Noranda Press last week:—"John Purvis, of South Porcupine, was the lucky winner of the Pontiac Sedan drawn for at Champlain Pavilion on Tuesday night in connection with the tournament held here on July 1st and 2nd by the Rouyn firemen. The drawing had been postponed from July 2nd because many of the tickets had not at that time been accounted for, and was held during the dance at the pavilion Tuesday night under the firemen's auspices. The drawing was well supervised by Fire Chief J. S. Thibault and a number of citizens, and the draw was made by F. E. Thompson, of New Liskeard, popular secretary of the Temiskaming District Firemen's Association. Twelve tickets were drawn at first, then six were drawn from the twelve, and finally the winning ticket, No. 7411 was drawn. A Laferte, Rouyn, with ticket No. 106 won the drawing for a Dominion tire. The dance was very largely attended and proved a very enjoyable function."

A moose attempted to dispute right of way with a C.P.R. freight train near Chapleau last week, but instead went under the wheels. The moose was killed and the freight delayed one hour.
