**Kapuskasing Farm Weekly News Letter**

Dominion Experimental Farm at Kapuskasing Deals with the Matter of "Whitewashes." Also has Article on "Fattening-up Ration for Pigs."

The following is No. 43 of the series of weekly letters from the Kapuskasing Experimental Farm:—  
**Whitewashes**  
Whitewash has a wide application to farm use and deserves a much greater popularity than it at present enjoys. Its ingredients are inexpensive and readily obtained; it is not difficult to make and it is easy to apply it. In addition, it protects the surfaces to which it is applied, brightens up dark interiors and is sanitary.

Before you bring in the piglets or the cows into their winter quarters, why not make the job complete by giving your buildings a coat of whitewash.

The following formula may be of assistance:

1. Make a cream of one sack of hydrated lime and 8 gallons of water.
2. Slowly add one quart of crude carbolic acid, stirring vigorously. The quantity of acid may be doubled if desired.
3. Thin to a light consistency. This is used as a disinfectant wash but liable to rub. One gallon of whitewash will cover approximately 225 square feet of wood.

For outside work or buildings, trees and fences the following formula has been found very satisfactory:

1. Make a cream of one sack of hydrated lime and seven gallons of water.
2. Dissolve six pounds of salt in three

1. Sir Samuel Cunard, born at Halifax, Nova Scotia, in 1787, who in 1838 founded the Cunard Line.  
2. The new giant liner of Cunard White Star Limited, as she will look when completed. To be launched by Her Majesty the Queen at Clydebank on September 26th.  
3. The SS Britannia which, sailing on July 4th, 1840 from Liverpool to Halifax, inaugurated the continuous trans-Atlantic service of the Cunard Line, now merged in Cunard White Star Limited.

**TEN YEARS AGO IN TIMMINS**

From data in the Porcupine Advance Files.

The Advance noted ten years ago that the Hollinger's regular output was running about 5,000 tons per day then. "And we hope to keep it up," The Advance quoted the management as saying. A rich strike at the 800-foot level of the Schumacher property was also noted.

Sergt. Pascoe of the Dominion police visited Timmins ten years ago and took over some cases here of traffic in drugs unearthed by the local police.

While at work at the used lumber pile at the Hollinger ten years ago R. Fowler, formerly caretaker at the public school, slipped and fell with some lumber falling on him and injuring his back. He spent a few days in the hospital but made good recovery.

The building of a new and up-to-date theatre at Schumacher was commenced ten years ago by a company headed by Sol Shankman.

Work was commenced ten years ago on the building of the new curling rink for Timmins. Reports ten years ago were that the road from Timmins to Lac Seul Falls was not in good condition. One man travelling over from the Falls told The Advance that it was hard work to bring his auto through.

Ten years ago this time the surfacing was being done on the pavement on Pine street and Third avenue.

Cleophas Charette, a young man from Maniwaki, Quebec, who had been in Timmins only a few months, met death at McCheyne's mill on Sept. 22nd, 1924.

A belt split as the power was turned on and the young man was knocked against a post by the sweep of the broken belt. He struck his head against a post and suffered a broken neck and died twenty minutes after the accident. He was unmarried, with parents and other relatives residing at Maniwaki, Que., to which the body was sent for interment.

There was a busy but brief session of the town council ten years ago with one unpleasant interlude. Mr. Bartle-

man was present at the meeting and was rather angry in checking up the acting mayor, Councillor Longmore. He accused Mr. Longmore of saying that he (Mr. Bartleman) had made an affidavit in regard to certain matters before the Municipal Board. Mr. Longmore explained that what he had referred to was a letter over the signature of Mr. Bartleman. This was read, but Mr. Bartleman angrily interrupted to say that there had been an affidavit and it should be produced. Mr. Longmore asked Mr. Bartleman if he would make a different statement in a letter or application over his own signature than he would make in an affidavit. There was more heated argument afterwards. The argument made a break in a busy session of the council.

J. MacLean, of the Hollinger staff, won the handsome steel fishing rod given by the George Taylor Hardware for a speckled beauty, the trout weighing 4 1/2 lbs. W. Fiss came a mighty close second with a 4-lb. trout. Both the fish were caught in the Grassy River.

There were over fifty cases at Timmins police court ten years ago, which means a few more than this week and about the same as last week. However of the fifty charged ten years ago thirty-two were Chinamen who had been found gambling in a place on Spruce street. A couple of liquor cases were also on the docket with the rest of the cases varied but not serious.

At a social evening held in the Baptist church ten years ago a presentation of a purse and an address was made to Mr. Boyter who had been assisting Rev. Mr. Hall in the work at Schumacher and Timmins. Refreshments were served during the evening and a general good time enjoyed.

Ten years ago some mischievous boys turned in a false fire alarm from Box 63. The lads were caught later and were impressed duly with the seriousness of their offence and the danger they had caused through their silliness. South Porcupine was very disgusted ten years ago with the condition of the trunk road through South Porcupine. The Advance correspondent suggested that as the government apparently paid no heed to protest the only thing to do was for the North to secede from the South, and then the wealth of the North could be used to develop this country.

A page in The Advance ten years ago was taken up with assessment and tax rate figures for the town from its establishment in 1912 to the year 1924. The general rate in 1912 was 20 mills, with 25 mills for 1924. In 1912 both public school and separate school had a rate of 5 mills. In 1924 this had grown to 22 and 23 mills respectively. An indication of the growth of the town ten years ago was shown by the fact that the population in 1923 was 7,725, while in 1924 it was 12,293.

Ten years ago Inspector Walter Moore of the provincial police, with headquarters at Halleybury was given much credit for his clever and patient work in securing the arrest of John Troit wanted for the murder of Chief of Police Joseph Truman at Thorold.

A very enjoyable dance under the auspices of the Girls' Auxiliary of St. Matthew's church was held in the Masonic hall ten years ago. The event was very successful in every way. Colombo's 7-piece orchestra provided the music. Refreshments were served and all had a very happy time.

Among the local and personal items in The Advance ten years ago were the following:—"At the Presbyterian manse Timmins, on Saturday of last week, Rev. J. D. Parks united in marriage Mr. B. G. Wilson, assistant postmaster, and Miss T. M. O'Brien. Recent presentations to the bride and groom indicated the regard in which they are held by wide circles of friends, and all will extend to Mr. and Mrs. B. G. Wilson the very sincerest good wishes." "Provincial Officer J. Kenny, South Porcupine, took a number of men and their guns in charge on Sunday. The men were later freed on bail but the guns were held. The men will face charges at police court this week for the carrying of guns on the Sabbath." "The S.A. held its annual Harvest services on Sunday with the Harvest Home at the hall Monday evening. The several services were largely attended and the good crowds had a good time." "Rev. J. D. Parks left on Monday to attend the meetings of the Toronto and Kingston Synod of the Pres-

byterian church." "Mr. Green, of Kitchener, is visiting his daughter, Mrs. J. D. Parks." "Mr. and Mrs. C. M. Auer left this week for the South for the winter." "Mrs. Cecil Knott left last week for North Bay, where she will visit her mother, Mrs. A. Walker." "Mrs. H. McCullough and Miss Maxwell left today for a visit to their home land, Scotland." "King's Dry Cleaning Service has a very attractive Ford truck for delivery service, the truck being in regular city style, suitable for this new city of the North." "Mr. and Mrs. W. A. Lawrence, of Montreal, spent the week-end in Timmins, the guests of Mr. and Mrs. F. J. Wolno. They were on their way home after spending their honeymoon at Prince Albert. Mrs. Lawrence is a sister of Mrs. F. J. Wolno. Mr. Lawrence is the assistant editor of The Montreal Star." "His many friends in the town and district are delighted to see Councillor F. M. Wallingford able to take up his usual public and personal activities after a few weeks in hospital at Ottawa. Mr. Wallingford had the misfortune some weeks ago to have an abscess on one of his eyes. At first it was feared that an operation would be necessary, but skilled medical treatment at Ottawa hospital overcame the trouble without the necessity for surgery. Mr. Wallingford is practically recovered now from the effects of the illness." "Mr. J. K. Moore is on a business trip to Montreal and other points south and east." "Mr. Geo. Campbell, of the Mattagamit district of the town, left last week for Winnipeg." "Mrs. F. Schneider, of Latchford, Ont., is visiting the home of Mr. R. Richardson." "Mr. H. C. Garner has been appointed secretary of the Timmins High School Board in succession to Mr. H. E. Montgomery, who has resigned." "Miss Elizabeth McCann, who during the summer months took a course at Toronto University, has received word that she succeeded with honours in all subjects." "Mr. A. T. Cringan, Mus. B., of Toronto, Provincial Inspector of Music for the Department of Education of Ontario was a visitor to the Timmins and Schumacher public schools last week." "Mr. Nelson Pinder, townsite agent for Rouyn, is at the Kingston hotel in the interests of the townsite. Mr. Pinder is known to many old-timers having been one of the pioneers in Golden City." "Mr. T. Danis, who was badly burned about the face and hands last week by the gas from the road oil container taking fire from a lighted match, is making satisfactory progress to recovery. His injuries are unusually painful but he is showing the right sort of brave spirit, and all will be pleased to know he is making good recovery." "Sunday afternoon the Salvation Army band favoured the patients in the hospital with a few selections in the front of the building. Although the S.A. band has only four instruments it provided the hospital patients Sunday with good music that was much appreciated. A couple of the patients in the hospital are members of the Army and to those especially the S.A. band's thoughtfulness was particularly pleasing."

**Elect Officers for Timmins Welsh Choir**

First Meeting of the Season Held on Sept. 23rd. Will be on the Air on Sunday, Oct. 7th. Busy Season Expected.

All who noted the progress of the choir last season and enjoyed its good music will be interested to know that the first meeting of the Timmins Welsh Male Choir took place in the Oddfellows hall on Sunday, Sept. 23rd, when the following officers were elected for the season:—  
Chairman—J. Thomas.  
Vice-chairman—Mr. Spacey.  
Secretary—B. Saunders.  
Treasurer—H. Jones.  
Publicity and correspondence—A. G. Bellamy.

Members of the Timmins Welsh Male Choir should note that practices are held on Sundays at 3 p.m. in the Oddfellows hall. There are numerous calls for the choir's services and the season promises to be a very busy one. The Timmins Welsh Male Choir will give its first concert over the air on Sunday, Oct. 7th. Music lovers enjoyed the concerts given last season by the Welsh choir and will no doubt keep the date, Oct. 7th, in mind, and tune in on the programme. The programme will be an all-request one. Correspondence in regard to the Timmins Welsh Male Choir should be addressed to A. G. Bellamy, Box 1706, Timmins.

Guelph Mercury:—We trust the education the yacht races are providing the radio listeners in the matter of Genoa jibs and kindred matters may be of some use to them later in life.

**High-grade Samples from Week's Run of the Press**

North Bay Nugget:—Protactinium, a metal worth a million dollars an ounce, has been discovered. How long before Cecil B. DeMille will make a bathtub out of it?

Sudbury Star:—A Toronto editor has received a threatening letter demanding \$200,000. It is seldom that an editor has such a compliment as that paid him.

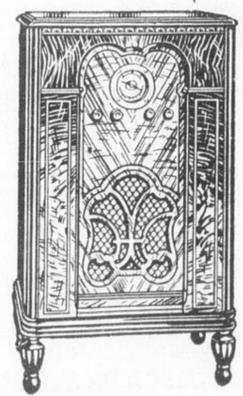

Ottawa Journal:—As a result of the Morro Castle disaster it is said that Congress may forbid the use of wood in the construction of similar luxury liners. British ships will still rely on their hearts of oak which are more important in a crisis than method of construction or mechanical equipment.

Sudbury Star:—Chicago people are looking ahead to a pleasant winter. They can sit around in the evenings and count up all the relatives they're going to get even with next summer for just dropping in on them while at the world's fair.

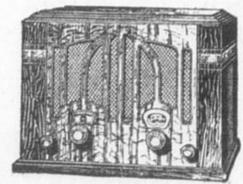

Toronto Mail and Empire:—By a poll of nearly two to one the State of Maine voted against prohibition, to which it had clung for generations. Thus the last vestige of the experiment, noble in purpose but disastrous in action, vanishes from the American scene.

Toronto Star:—Accurate statistics as to the number of Toronto high school girls who smoke seem unobtainable, much less the finer details as to how many smoke because they like it, how many because they think it is "the thing," and how many because they think the boys like it—which, curiously enough, quite a number of boys do not, although they smoke themselves.

**Radio Reception at its Best with a WESTINGHOUSE Radio Receiver**

Model 634 \$109.00

Model 44 \$40.00

Models and Price Range Makes Buying Easy

There is no need to wait longer to enjoy the best in radio. There is a Westinghouse Receiver at just the price you want to pay, ready to bring you the world's finest music, lectures, news reports, political speeches, weather reports, church services, comedy and market news. It is so easy to tune in the programmes you want, to bring in distant stations and broadcasts from famous stations overseas. Each Westinghouse receiver is a masterpiece of cabinet beauty and radio engineering.

Choose the one that meets your needs. Small down payment. Comfortable terms.

Other models at Attractive Low Prices.
