

Announcers for General Motors Hockey Broadcasts

VOICES COAST-TO-COAST NETWORK WILL HEAR EACH SATURDAY EVENING Here are the men whose voices will be heard at the microphone in the General Motors Hockey Broadcasts from Maple Leaf Gardens, Toronto, during the coming season. Left to right, Foster Hewitt, ace play-by-play announcer; Bobbie Hewittson, referee and writer who will be summarist between periods; Bob McIntyre, commercial announcer; and John Holden, master of ceremonies.

Rocky Ramore Land Brings Big Figures

Settlers have Vision of Wealth as Companies and Syndicates Bid for Properties, Says Toronto Paper.

"Rocky and scrubby farm lands, which could not be sold a year ago for \$500 are today being optioned at sums ranging anywhere from \$50,000 to \$300,000 at Ramore, Ontario, 30 miles from the Kirkland Lake gold field," the Toronto Mail and Empire says in a copyrighted story Monday. "Scattered through Playfair, Gurbord, McCann, Hislop and Bowman townships, big companies, like Hollinger, Noranda, Smelters, and others are pushing development plans on recently acquired or optioned properties. "Farmers in the district are today in possession of more money than some of them ever even heard of, and still more is in prospect for them. The present boom is not of the gold rush type, but is rather a steady influx of the bigger companies, who are buying up old farm lands at fabulous prices. One man has refused \$65,000 for a farm he could not sell for \$500 two years ago, and another has signed an option agreement which netted him \$12,000 cash as the first payment and which will bring him an additional \$250,000 before the option runs out in a year's time.

"Reports of sensational assays from the area are common, it being reported that Noranda has struck \$100 ore on its options. Other of the major companies report strikes of equal or greater value. "In the heart of all the excitement lies the little town of Ramore. A neat Roman Catholic church with its adjacent parish house, two general stores, two gas stations, two little hotels and a score or so of houses make up the settlement. It lies right along the T. & N. O. Railway, its main street paralleling the right of way. "But prominent at the side of the road is a tiny building bearing a huge sign, "Central Ramore townsite," see Jack Leleiver, Lots for Sale." And into this tiny office is pouring a stream of mail from North Bay, Cochrane, Rouyn, Montreal, Toronto and other points asking for information about the new town. "Watch Ramore grow from now on" is the slogan of this North Land town."

"Annual Meeting Ladies' Section Timmins Golf Club Notices have been sent out informing members that the annual meeting of the Ladies' Section of the Timmins Golf Club will be held on Wednesday, Nov. 14th, at 3 p.m., at the Hollinger Lodge. Members are asked to make a special effort to be present at this meeting as there are special matters to be taken up and the largest possible attendance is accordingly desired.

"Thieves Steal Motor Car of Quintuplets' Doctor The automobile that has carried Dr. A. R. Dafeo on his daily visits to the famous Dionne quintuplets, was stolen during the night, the doctor found on Tuesday of this week when he went to his garage. The doctor reported the theft to North Bay police who issued instructions to officers to watch for a blue coupe bearing license plates D-70. Meanwhile the physician to the infants, who reached the age of 23 weeks and one day, chartered another car and went to the Dafeo hospital.

"TO DISCUSS PATRONAGE AT LIBERAL CAUCUS, NOV. 20TH According to Toronto despatches this morning there will be a lively time at the coming Liberal caucus at Toronto this month. Patronage will form the chief topic for discussion, it is said. This is likely true, but it is not the fact that all the Liberals in the North are howling because more Conservatives are not being fired. The fact is that the average Liberal is not worrying about any such thing in this North. He is more interested in seeing that everything goes along well with the public being served in the best possible way. There are job-hunters here, as elsewhere, but to say that they are as bad as in some other section is to misrepresent the North.

"High-grade Samples from Week's Run of the Press Renfrew Mercury:—That new device which throws a speaker's voice half-a-mile would be in greater demand if it had an attachment to throw the long-winded speaker so far. Powassan News:—Parry Sound, our district town, is at least holding its own in the matter of population. We note that there is an increase of two over last year. Sudbury Star:—Did that aviator who carried the elephant from New York to St. Louis know what it was, or did it go as mail, completely covered with a postage stamp? Carleton Place Canadian:—The town of Orillia is taking the right stand. Charges of non-support will face men on relief in that town who refuse to work. The families of the men will be cared for by the Welfare Board and the charge will be pressed against the men who will face fines of \$50 or six months in jail. Tweed News:—You think men are stronger than women? Then show us a man who can cook a meal with two babies under foot without going crazy. Detroit News:—Jack Kearns says that the one thing to remember about fighting is to fight with intelligence. But it can't always be done. Sometimes you can't find a smaller man.

117 in Toronto Charged with Short-Weighting

According to Toronto despatches, a special court will be held at Toronto Friday at which 117 cases will be heard against storekeepers alleged to have been defrauding their customers by short weights. Informations were laid against the 117 storekeepers by Sutherland Cuddy, inspector of weights and measures. No judge has been appointed yet to conduct the court. Laying of information against the accused storekeepers followed an address Monday night by H. H. Stevens, former Minister of Trade and Commerce, and chairman of the Parliamentary Mass Buying Committee, who charged Toronto store operators with cheating their customers of small amounts through dishonestly adjusted scales giving short weight.

Another Rich Gold Strike Reported in Quebec Area

Word of a gold strike in Northern Quebec has been received by the Department of Mines at Quebec, it is announced. The find, made by John Waubanoon, Indian, is on Lac Madeleine, about 75 miles from Senneterre. The discovery, made towards the end of September, is claimed to be an important one as a number of fine samples of ore have been brought out. Already, mines department heads said, nearly 300 claims have been registered by prospectors in the district. Dr. G. S. Mackenzie, government geologist, is now on the ground making a study of the region around Lac Madeleine.

Hydro to Supply Power for Exploratory Work

Hollinger Gold Mines, Limited, has contracted with the Hydro-Electric Power Commission of Ontario for power to conduct exploratory work at the Ramore property in Hislop township, it was announced by T. Stewart Lyon, Chairman of the Commission, in a statement given out at Toronto on Tuesday of this week. Mr. Lyon stated that it was the first contract of its kind, and that it was hoped that it would be a field for power supply which would develop. "If the development is satisfactory," the Chairman said, "the Commission hopes to get the contract for the life of the mine."

Canada Lumberman:—Liberty does not consist in being allowed to be our worst, but the right to become our best. Toronto Globe:—Eight men have been shot in Russia for interfering with the grain programme. But even with the firing squad as a first aid to efficiency in agriculture, food stocks still fall short of the needs.

WELL-KNOWN BARRISTER MOVES OFFICE TO TIMMINS

John M. Greer, for many years practicing law in Cochrane, and for a number of years crown attorney for the District of Cochrane, has moved his offices from Cochrane to Timmins.

Cornish Social Club to Hold Dance on Nov. 14

The Cornish Social Club announce a dance event to be held in the Hollinger Recreation hall on Wednesday evening, next, Nov. 14th. It will be an old-time popular Cornish event, the kind that has been enjoyed so often by all in the past. There will be round and square dances, the music for the occasion being provided by the Gold Belt Rangers. Refreshments will be served. Everybody attending will be sure of a good time.

Says Hepburn Out of Luck in Regard to Gold Tax

A despatch from Ottawa on Tuesday this week says:—"The Dominion Government tax on increased value of gold did not impinge in any way upon the prerogative or rights of provincial governments, officials stated here to-day in commenting on the announcement of Premier Mitchell Hepburn of Ontario that he would attempt to secure a share of the tax for the province. "Mr. Hepburn was reported as about to request a share of this tax from the Federal Government. Officials here observed that the tax was a temporary measure, imposed last March for a period of one year only. It is not a tax upon the companies but on the gold and then only when the metal is selling at considerable advance over the standard price of \$20.67 an ounce. "Only a circumstance which neither the provincial government nor the company had any part in creating but which arose from conditions shared by the nation as a whole, made it possible to secure this form of revenue, officials stated. It was indicated that any effort to divert a share of the gold tax returns to provincial treasuries would fail. "Gold to-day was selling for \$34.44 per ounce. The tax is ten per cent. of the value but is not allowed to operate to bring the price to the producer below \$30 per ounce."

Powassan News:—It is cheaper to rent than to own a home, especially if you enjoy scratching matches on the wall and the like.

REVENUE HIGHER IN THE DEPARTMENT OF MINES

According to a despatch from Toronto yesterday, the Ontario Department of Mines shows an increased revenue for the fiscal year just ended of \$546,573 or 57.77 per cent. over 1933, according to a statement issued by Premier Hepburn on Tuesday. The total revenue for the year is \$1,487,295, while the expenditures are \$310,000. Expenses last year were \$307,000, thus a slight increase on the debit side is also shown. A feature of the statement indicates that another \$3,821,000 revenue would have been obtained if the department had been able to collect the tax on gold now alleged wrongfully taken by the Dominion Government.

Sudbury Star:—Traces of snow here and traces of snow there indicate Old Man Winter is beginning to kick over the traces.

Court of Revision of the Enumerators' Lists of Voters for the Dominion Elections A Court of Revision of the Lists for the Federal Election made by the Enumerators will be held in the TOWN HALL, TIMMINS on Friday and Saturday, November 9th and 10th from 9.00 a.m. to 9.00 p.m. each day F. C. IVY, Cochrane REGISTRAR OF ELECTORS, ELECTORAL DISTRICT OF COCHRANE

Timmins Representative for the N. O. H. A. Meeting

Chief Borland was last week elected to represent the Timmins and district hockey fans at the meeting of the N.O.H.A. on Saturday of this week. Until after the meeting on Saturday plans for hockey in Timmins and the Porcupine can not be definitely announced but after the meeting there will no doubt be interesting news in this connection. There is considerable enthusiasm for hockey here now and after the policy and plans of the N.O.H.A. are known there will be active steps taken for hockey in Timmins.

Timmins Rugby Team out of Running in Poupore Cup

The High School Rugby team held a meeting this morning and agreed to withdraw their protest of yesterday's game at Kirkland. This surprise move leaves Timmins out of the running and they're through for the year. The Kirkland Lake team now meets the North Bay Collegiate Institute in the finals for the Poupore Cup at Kirkland Lake on Saturday.

Death of Lee Kucheran, Brilliant Young Student

There will be general regret at the death of Lee Kucheran, a brilliant student at the Timmins High School, and a young man popular with his fellow students. He had been suffering from heart trouble for some time past and passed away on Tuesday evening. He was 19 years of age. He had been attending high school for the past three years. The funeral took place this (Thursday) morning.

ALL REPORTED QUIET IN THE SAULT STE. MARIE AREA

Despatches this morning from Sault Ste. Marie say that enough quiet has been restored to warrant the leaving of the police to-day after being in the bush area for some time on account of agitated trouble among the workers. It is thought now that there will be no more violence. The workers in the bush are not only said to be ready to defend their right to work, but also they are ready to stand a siege if need be, having stocked up with provisions ready for such an eventuality.

TO RESTORE RAILWAYMEN'S PAY TO FORMER LEVELS

At a conference at Montreal last week it was decided to make gradual restoration of the last five per cent deduction in pay of railway workers. "The existing wage agreements will continue in force until the end of the year," the joint statement said, "but commencing January 1, 1935 the general scale of compensation will be revised so that deductions from compensation calculated on existing basic rates of pay will be 12 per cent, instead of 15 per cent, and on May 1 the general scale will again advance, reducing the total deduction to 10 per cent. Those who are now subject to a percentage deduction less than 15 per cent, will receive proportionate restoration. "There is an exception for some shop employees who are working on a reduced time basis by which such employees deduction of 10 per cent is reduced by drops of three per cent and two per cent January 1 and May 1, respectively."

G. B. NICHOLSON RETIRES FROM LUMBER ORGANIZATION

Announcement was made at Chapleau this week that George B. Nicholson, M.P., has severed his connection with the firm of Austin and Nicholson, Ltd., that a reorganization has taken place and the firm will hereafter be known as the Austin Lumber (Dalton) Limited, with head office at Nicholson. Following are the officers of the reorganized company, The president Allan McNeice Austin; vice-president, James William Austin; secretary-treasurer, Reginald Thrush. Mr. Nicholson who is member of parliament for Algoma East, stated that he is not retiring entirely from the lumber business, and may have an announcement to make within a few days.

Airplane Now Big Factor in Transportation Plans

More express is carried each year by Canadian Airways than by the United States domestic airlines, statistics revealed by the United States Chamber of Commerce show. During 1933, all internal airways in the United States earned 1,510,215 pounds, while during the same period Canadian Airways carried 2,522,233 pounds, and during the first nine months of 1934 express poundage carried by this company totalled 4,229,820 pounds. Factors that have influenced the adoption and rapid expansion of air transport in Northern Canada are (1) the topographical characteristics favouring air operations in both summer and winter, (2) the qualities of extreme mobility and speed possessed by the airplane whereby services can be instituted in immediate answer to demands for service, irrespective of the distance from established lines of communication, (3) the gold situation, which has resulted in unprecedented mining activity in territory almost totally devoid of ground transport. Mining development has outrun the facilities provided by surface transport in the last few years. This is well exemplified in Manitoba, where six out of the province's seven gold producers are located fifty to two hundred miles from the railroad. Never before in the history of air transportation in Canada have such loads been carried as were transported in the last three months. During one month alone—August, 1934—express carried by Canadian Airways almost equalled the total for the whole year of 1931. In 1931 the total express poundage was 764,499 pounds, and in the month of August, 1934, the total was 717,024 pounds. This shows very well the contribution being made by the airplane to the mining industry, for most of this express was carried to mining centres from air bases in Quebec, Ontario, Manitoba, Northern Alberta and British Columbia.

ANOTHER LITTLE WORD ABOUT THE DIONNE QUINTUPLETS

(From The North Bay Nugget) Dr. A. R. Dafeo has been attending babies since 1907, and admits that he has never seen more handsome mites than the Dionne quintuplets. Marie, being smaller, is the only one of the five now that can be named without considerable trouble, even by those in daily contact with the babes. Each of them has a double chin. "You sure have to look sideways at them now," said Dr. Dafeo, "and even when you do, you're often wrong." The doctor is anxious to secure necklaces for identification purposes. Names could be engraved on the lockets. The infants' brains are normally active, and they are bright in every way, according to the doctor. "When they wake up, they seldom cry," he said. "They just bounce up and down in their little cribs, and sometimes talk to themselves." The nurses and other members of the staff have become greatly attached to the little ones, and could not be persuaded to leave their present employment. An electric stove and other minor fixtures were installed in the hospital to-day, adding to the conveniences.

SCENE AT THE WOMEN'S NATIONAL GOLF CHAMPIONSHIPS Recovery programme was put into execution too late by Maureen Orcutt when she lost to Mrs. Carr Donner in extra hole of their Match in Women's National Golf Championships at Chestnut Hill, Pa. This was the scene as Maureen pitched from rough to tee on nineteenth hole to lose by one stroke.
