Large Increase in Number of Phones

Northern Telephone Co. now has 696 More Phones than a Year Ago. Other Details.

The annual report of the Northern Telephone Company shows notable increase in the business of the company the number of phones in use growing by nearly 700 during the year. In long distance calls there was also a large increase in the year as compared with the previous year. The receipts for the year, dividends paid, and other details, are equally pleasing. It may be noted further that the service given by the system may also be classed as very satisfactory. The following summary of the annual report as given by The New Liskeard Speaker will be of general interest:

"Shareholders of the Northern Telephone Company will read with satisfaction the 30th Annual Statement of their company. The report, which was mailed some days ago to all shareholders on record, gives complete details of receipts and expenditures for the year as well as a comparative growth of business during the past year over the preceding one. The statement shows the company had 6601 telephones in use at Dec. 31, being 696 more telephones than at the beginning of the year. The greatest gains were made in Kirkland Lake and Swastika, Timmins and Schumacher, and Noranda and Rouyn. Matachewan, of the smaller exchanges, almost doubled its number of phones, jumping from nine on January 1st to 17 on December 31st. Long distance calls on the company's lines showed a large gain. During 1933 there were 159,047 such calls, as against 144,883 in 1934, or an increase of 35,836 calls. Long distance calls on connecting lines were also away up, being an increase of 24,085 over the preceding year. Calls from pay stations show an increase of 17,277.

Gold at New All-time High at London, Eng.

The revenue account shows that the company's gross revenue was up \$32,412.10 over that of 1933. During the year, as previously reported in our columns, a new large switchboard and central office equipment was installed in Kirkland Lake and the offices remodelled. Larger switchboards were installed at South Porcupine and Matachewan, and the one at Noranda enlarged. A switchboard was also installed at Senneterre and the service extended to the Matheson-Ramore section. An addition was also made to the head office building. Dividends totalling 8 per cent. were paid during the year, as against 7 1-2 per cent. last year."

Present Price of Gold may be Forerunner of Important Changes in European Monetary Policy.

A new all-time high in the price of gold on the London exchange was reached on Saturday when the figure of 143 shillings, 11 pence was reached. This, translated in Canadian currency, without regard for the fractional exchange that is altered day by day, amounts to approximately \$35.04 per ounce.

In some financial circles this is taken to mean that London considers that there is reasonable doubt as to the ability of France and other European nations to remain on the gold standard. Should they be forced off, the reaction would probably be to raise the price of gold still further, it is said.

Miss Doris Patriquin was well enough after her operation for appendicitis to be able to leave St. Mary's hospital last week and return home where she is convalescing. It will be some time, however, before she will be sufficiently recovered to resume her duties as nurse at the hospital.

LOCALS

The regular meeting of the Timmins town council will be held on Wednesday afternoon, Feb. 27th, commencing at 4 p.m.

Born—At St. Mary's hospital, Timmins, on Wednesday, Feb. 20th, 1935, to Mr. and Mrs. R. P. Francis,—a son.

Miss Jean Scott, returned on Sunday from a two week's holiday spent in Toronto, Ottawa, Montreal and other points south.

Halleybury is staging a big carnival at the arena there on Friday evening of this week, the event being jointly sponsored by the curling club, the Rotary Club and the hockey club.

Alf. W. Snow, popular old-time resident of Timmins, well-known for his singing ability, returned on Wednesday evening from a trip to his native Cornwall.

Dr. S. L. Honey, A. G. Carson, W. S. Jamieson and W. W. Tanner, visited Kirkland Lake on Saturday to play a friendly game of curling with a Kirkland rink picked by Dr. McBain. The Timmins curlers lost to the Kirkland Lake rink.

The annual meeting of the Timmins Building Company will be held in the Oddfellows' hall on Monday evening of next week, March 4th. The Timmins Building Co. was organized some years ago to build and maintain the Oddfellows' hall.

Geo. White, well known and popular here for several years, left on Saturday for the South to take in a trip to Bermuda. He does not intend to return to Timmins, but will likely take a trip to the Old Land after his visit to the South. For a number of years he has worked in the mines of the district and has had wide circles of friends here, all

Three Black Bears Shot Near Timmins

Three black bears, two of them cubs weighing about 60 pounds each and the other a large mother bear, have been shot in the vicinity of Timmins during the past few days.

The mother of the two cubs was killed on Thursday as was one of the cubs and the other cub was shot Friday morning by Lucien H. Barette. Mr. Barette told The Advance that Joe Lefebvre and P. Martin had killed the other two the day previous.

The young one brought to town by Mr. Barette was a beautiful animal, jet black and in fine condition. The cub was standing up on its hind legs when a bullet from a 30-30 pierced the back. Mr. Barette, who lives at 115 1/2 Pine street, north, was out in the bush Friday morning cutting wood when he saw the young bear. By noon it was stretched out on a pile of wood in the front yard and crowds of boys and girls on their way to school stopped to look. Mr. Barette and his friends had a busy half hour answering questions.

Jet black bears such as these are not common in this territory although they have been seen a few times. As a general rule they do little harm and have been seldom known to attack anyone.

Pipe Band May Buy New Uniforms Soon

Successful Whist Drive Thursday Night Shows Good Support from Citizens of District.

Thirty-one tables in play at the Porcupine District Pipe Band's whist drive and dance held at the Hollinger hall on Thursday evening made the event a successful one both financially and socially.

Prizes won by those playing whist were:—Mrs. Jeanne Levert, complete set of cutlery; Mrs. G. Phillips, half tea set; Mrs. H. Rigg, half tea set; Frank Rankin, large table lamp; Mrs. Walkley, desk lamp; Miss Mavis James, half tea set.

Before refreshments were served Mr. Arnott, president of the pipe band, expressed the appreciation of the pipe band for the enthusiasm and support the band had received from all its patrons who have attended the whist drive and social evenings, also to those who assisted the band with direct contributions.

It is hoped that within the near future, perhaps within the next few weeks, there will be sufficient funds on hand to buy kilts for the members.

After refreshments had been served the floor was cleared for dancing which was enjoyed until 2 a.m. Miss Mazie Roberts, pianist; George Sutherland, banjoist; and Mr. Morris, violinist; supplied dance music.

In a note to The Advance, the secretary of the pipe band says:—"The entire personnel of the pipe band is extremely grateful to The Advance for the supporting enthusiasm, expressed within its columns from time to time, on behalf of the efforts being put forth by this new organization, towards having a well-equipped pipe band within the Porcupine district."

Semi-Weekly Review of News in General

Items of Interest from Far and Near. Special Notes on Happenings of the Day

Hon. Dr. Mahlon denied very emphatically that amalgamation of the railway systems was a policy of the government. He suggested rather that it was supported by some leading Liberals.

Secret agents are said to be very active at present in European countries and their activities are creating much annoyance.

Harold W. Vermilyea was adjudged competent to stand trial at Belleville on the charge of murdering his mother. The jury only took five minutes to reach this conviction, though a doctor and relatives of the family gave sworn testimony to the effect that he had mental peculiarities. The Vermilyea trial was resumed on Thursday after an adjournment for several days on account of the illness of some of the jurors.

Immorality within the walls of the Ontario hospital at Hamilton, is given as the reason for an investigation launched against the institution by the Hepburn Government.

In the House of Commons Hon. R. B. Bennett has introduced two bills by which it is hoped to establish a maximum 8-hour day, 48 hour week, and a statutory weekly day of rest in all industrial undertakings.

Annoyed by what they consider brusque and rude treatment given them at the Dafoe hospital where their five children are being cared for, Mr. and Mrs. Olivia Dionne are said to have taken definite legal steps to obtain parental control of their five little girls, and also a share of the money now held in trust for them.

A story published in most of the leading United States daily newspapers referring to six children being born at one birth created a little stir last week. The doctor credited with the story showed pictures of the six babies after they had lived in this world for eight days. Now it transpires that the picture was 30 years old as was also the story. None of the six children lived more than a few days. The sextuplets of the story were born all right according to the records, but it all happened thirty years or more ago.

A despatch from Burbank, California, on Saturday says:—Wiley Post, veteran skyways adventurer, took off in his monoplane, the Winnie Mae, today, on a projected seven-hour non-stop stratosphere flight for New York. On

Lived Here 12 Years Died on Friday Last

Funeral of Thomas Scott Held Yesterday at Church of Nativity. Former Worker at Hollinger Passes.

An underground worker at the Hollinger for 12 years until just a few months ago, Thomas Scott died on Friday following a short illness.

Although born in Pennsylvania 41 years ago, he was brought to a farm at Maynooth, Ontario, when a child. His parents lived there as did Mr. Scott until coming North. He visited Timmins in 1917 and worked here for a year then. In 1921 he brought his wife and family and had since been a respected citizen of the town and a popular worker at the Hollinger. He was employed there until quite recently. He had required medical attention for the past five years.

His wife, formerly Jane Gloster, of Maynooth, to whom he was married 21 years ago, and three children William, 14 years old, Lawrence, 11, and Gordon, nine, live at the home at 69 Kirby Ave. His mother, Mrs. Small; sister, Catherine; and brother, Michael, also live in Timmins. Thomas and Alex Scott are first cousins who make their home here. The funeral service was held yesterday at 2:30 from the Church of the Nativity, Father McManus officiating. A number of Mrs. Scott's relatives from southern Ontario, as well as those of Mr. Scott were at the home on Saturday and Sunday and many of them were at the church service. The pallbearers were Thomas and Alex Scott, Wilson Patterson, Martin, Stephen and William Gloster.

High mass was celebrated this morning at the Church of the Nativity.

Birmingham News:—It is estimated there are 45,000 song-writers in this country. No wonder it's so hard to get the nation in tune.

The Lion Was As Docile As A Lamb

Dr. W. A. Jaquiss, noted wild animal surgeon of Hollywood, Calif., keeps a sharp eye on Pal, 400-lb. 2-year-old African lion undergoing a blood transfusion for treatment of a peculiar malady. The operation, a rarity in wild animal care, was performed after numerous tests on the blood of various lions, with success. Dr. Jaquiss is aided by his assistants, James Cook and Lottie Powell.
