(Drama)

Evenings—7.00 p.m. (Continuous)
MATINEE DAILY—2.30 p.m.
Midnight Show Sunday 12.01 Midn.

JOHN BULL KNOWS THE WAY AND SHOWS THE WAY AS WELL

The Branford Expositor puts the matter in a brief paragraph as follows:—"The British Chancellor of the Exchequer, during the course of the submission of another balanced budget, was able to report that 80 per cent. of national prosperity had been regained. John Bull knows the way.

Not Much Interest to North at Present Time

An editorial note in The Kapuskasing Northern Tribune last week says:—"Arrangements have been made to carry a course in general education on Ontario radio stations, for the benefit of children in sparsely settled districts who cannot attend school. The idea is fine; but the district that needs such a service more than elsewhere is of course Northern Ontario, where radio reception is so rotten that the course cannot be taken advantage of even in minor degree. Will the well-meaning sponsors of these courses kindly tell the Canadian radio commission about this, and suggest the obvious remedy—which was promised several years ago?"

Are Only the Liberals Reckless on the Roads?

An editorial in last week's Mail and Empire says:—"The Queen's Park Government is running true to form. The first administration in Canada to apply the vicious spoils system and the guillotine to the civil service and to repudiate contractual obligations to investors, it is now carrying political patronage to extreme lengths. Yesterday's Liberal newspapers throughout the province carried a Department of Highways display advertisement cautioning motorists to be careful in driving. The advertisement was not offered to either of the Conservative newspapers published in Toronto or to the other leading Conservative newspapers throughout the province.

"The Government's action in the premises is distinctly contrary to that of preceding administrations. A press campaign directed to the reduction of motor accidents and fatalities was inaugurated by preceding Conservative administrations, but those administrations never thought of discriminating between Conservative and Liberal newspapers. Publications on both sides of politics were embraced in the humanitarian publicity effort. Former Cabinets were mainly concerned with stopping the slaughter. The present Queen's Park Ministers appear to have concentrated on the distribution of money paid into the treasury by all the people amongst its own partisan supporters.

"Their cynical disregard of the public welfare is emphasized by the fact that in one city not far from Toronto the Liberal paper got the advertisement and the Conservative paper did not, though the circulation of the latter is four times the former. This surely is Tammany Hall gone mad and the pork barrel to the nth degree. Never before in the history of Ontario have Cabinet Ministers had the effrontery to take money out of the public treasury and spend it exclusively on an "educational" campaign through party advertising mediums which reach only a minority of the populace. As Premier and Provincial Treasurer, Mitchell F. Hepburn is himself mainly to blame for this outrageous procedure.

He appears to have forgotten that, as there were not enough Liberals in Ontario to elect him to office, he owes his present position to the votes of tens of thousands of Conservatives. There is no gratitude in his nature. He seems to think that Conservative lives are not valuable and that only readers of Liberal newspapers should be warned against the dangers of motoring. But even here he is astray. It surely is conceivable that Conservative motorists, unwarned by advertisements which do not appear in papers which they read, may run over and injure or kill Liberals and the children of Liberals. However his action is regarded there is no denying the fact that the Premier is going from bad to worse, and that his course in regard to this particular "educational" campaign marks a further downward step in his career."

Radio Commission Should "Put up or Shut up" Now

The following is an editorial article in The New Liskeard Speaker last week, heading and all being given, the only omission being a part of an editorial article from The Cochrane Northland Post. The New Liskeard Speaker says:—"The above popular slang phrase expresses the opinion of not only the Cochrane Northland-Post, but of every user of a radio in Northern Ontario. Recently notices have been sent out by the Canadian Radio Commission to known radio owners in this part of the province—and, we expect, to users throughout Canada—requesting the annual two-dollar fee for the privilege of listening in on programmes supposed to be supplied by the said Canadian Radio Commission. Exceedingly bitter comments are to be heard on the street regarding this license, for alleged service rendered by the Commission, and, so far as this part of the North is concerned, "alleged" is about as near as it comes to our radio fans. Some say they will not pay the license fee unless under compulsion. Others have probably done so under protest, while we heard one man say he had not purchased a license for four years, didn't intend to, and we do not blame him. In these days of "repudiation," we do not know of any Government tax more worthy of being repudiated than the radio tax of two dollars for value not received.

"Last week the Cochrane Northland-Post gave further expression to the antagonistic feeling rapidly developing throughout the North in connection with the radio situation; and, the Commission should realize by this time that no "make-shift" arrangement will now satisfy the Northern people residing in that vast territory from the Twin Cities to the west to the immense mining areas of Northern Quebec, a territory which can never be successfully given radio service with any "make-shift" outfit. The Federal Government has taken millions of dollars out of Northern Ontario and Quebec and the least the Radio Commission can do is to see that some part of that vast sum comes back to add to the pleasures of those endeavoring to make a living in this vast Northland."

"The Kirkland Lake belt, with nine producing mines—Lake Shore, Wright-Hargreaves, Teck-Hughes, Sylvanite, Macassa, Kirkland Lake Gold, Toburn, McFay-Hall and Barry-Hollinger—continued to hold first place among the gold areas of the province, closely trailed however, by the Porcupine with eight producers—Hollinger, McIntyre, Dome, Coniaurum, Buffalo-Ankerite, Anglo-Huronian (Vipond), Paymaster and Marbuan.

780 Miles of Canada Highway Unfinished

Return Tabled at Ottawa Says Considerable Work Still to be Done in Ontario

About 700 miles of the Trans-Canada Highway remain to be built, according to a return tabled recently in the House of Commons. The gaps in the route exist in Ontario and British Columbia.

The highway, says the return, is a series of roads which in the main link up provincial routes. In Ontario are two uncompleted sections. One is from Schreiber easterly to White River, a distance of approximately 125 miles. This is all new work and is estimated to cost \$35,000 a mile.

From White River easterly to North Bay alternative routes have been suggested. On one, from Schreiber to North Bay, the province estimates a total cost of \$10,000,000. Surveys on the other have not yet been completed, and the approximate mileage and cost have not been ascertained.

In British Columbia a gap exists between the junction of the Canoe and Columbia Rivers and Goldstream for 35 miles, and from the Canoe River southward 16 miles. The average cost per mile of this portion is estimated at \$24,000 by contract, while the cost of bridging the Canoe River is given as \$45,000.

Short sections of the road have been built from Revelstoke to Goldstream, a distance of 60 miles. It is estimated that approximately \$18,000 a mile would be required to complete it over the whole length.

Pastor in Yukon Gold Rush Dead in Lowell, Mass.

A despatch from Vancouver says that on Sunday of this week Rev. George Pringle, of Vancouver, recalled the active life led by his brother, Dr. John Pringle, during the Klondike gold rush. Mr. Pringle is dead in Lowell, Mass.

"Although he was my brother and I am naturally prejudiced, I believe John was one of the finest men I ever met," Mr. Pringle said. "Powerfully built, extremely active and energetic, he was able to set a wonderful example for the men to whom he ministered in the wilderness.

"He ministered to the thousands of gold seekers who crowded the Teslin Trail during the Klondike rush of 1898 and remained with headquarters at Atlin, B.C., covering the trail in long marches for two years.

"He was known as the best dog musher in the Yukon. After two years, he went 400 miles down the Yukon River by canoe to Dawson. Here he ministered for eight years to the miners on the famous Bonanza and Eldorado Creeks. In 1908, he left the northland to take a post at Sidney, N. S."

Dr. Pringle is survived by seven sisters: Mrs. Alma McKendrick, Mrs. Louis Jordan, Mrs. W. Campbell and Miss L. I. Pringle, all of Vancouver; Mrs. Ruth Crozier and Mrs. Janet Cranston of Edmonton, and Mrs. W. Malcolm of Chetco, China. One brother, James Pringle, predeceased him.

Toronto Mail and Empire.—Trained auditors report no perceptible difference in the quality of the speeches delivered in the Legislature on ordinary days and yesterday when the speakers were half-awake.

Objective of \$2,400 Was Oversubscribed

Special Easter Subscriptions will Wipe out Debt at United Church. Attractive Services Sunday.

An objective of \$2,400 in a special Easter offering was oversubscribed at the Timmins United Church on Sunday. The money will be used to completely clear off the remaining debt on the church.

So large were the crowds at Easter Sunday services that many had to be turned away for lack of accommodation. Both morning and evening services were marked by special music from the choir as well as instrumental offerings. The choir's rendition of Jackson's "Te Deum" in the morning and the "March to Calvary" for the evening were particularly beautiful. Gounod's "Ave Maria" was played as a "cello solo" by Walter Popple. "Berceuse de Jocelyn" was his evening solo. The playing of this talented artist was an outstanding feature of the music for the day. A trio, organ, violin and cello, played a prelude to the evening service, the Andante from the Reissiger trio.

Rev. Bruce Millar preached at both Easter services. His morning subject was "Christ Is Risen," and in the evening "If Christ Be Not Risen."

Easter Sunday school had an attendance of 457, an unusually large number.

Twenty-nine Mines on Production List

Ontario's Bullion Figures Drop a Little from Last Year for First Quarter.

For the first quarter of 1935, Ontario's 29 producing mines had an output of 488,277 ounces of gold and 72,841 ounces of silver from 1,649,431 tons of ore passed through their mills, the whole with a value of \$16,716,753, according to information contained in the March Gold Bulletin of the Ontario Department of Mines.

This mark is slightly lower than the production figure for the first quarter of 1934, comparison shows. In 1934 the first quarter figures were \$17,038,001, recovered from 1,500,386 tons of ore, or \$321,248 more than in 1935, although the total tonnage milled was not as great as in 1935.

In the two old established fields of the province, Kirkland Lake and the Porcupine, with 17 producing mines between them, production during the first quarter of the year showed a marked decline. In the two younger areas of the province, Matachewan and Northwestern Ontario, with 12 producers between them, production during the quarter showed a sharp rise.

The Kirkland Lake belt, with nine producing mines—Lake Shore, Wright-Hargreaves, Teck-Hughes, Sylvanite, Macassa, Kirkland Lake Gold, Toburn, McFay-Hall and Barry-Hollinger—continued to hold first place among the gold areas of the province, closely trailed however, by the Porcupine with eight producers—Hollinger, McIntyre, Dome, Coniaurum, Buffalo-Ankerite, Anglo-Huronian (Vipond), Paymaster and Marbuan.

Next in order among the producing fields is Northwestern Ontario, with nine mines—Hewey, Little Long Lac, Northern Empire, Central Patricia, St. Anthony, McMillan, Parkhill, Minot and J. M. Consolidated. Last in the rank of producers is Matachewan, with three mines—Young-Davidson, Ashley and Matachewan Consolidated.

The value of production in the Kirkland Lake mines for the quarter was \$7,843,745, compared to Porcupine's \$7,530,535. Both these figures show drops from the previous year.

Although production for the quarter declined, the month of March showed an increase over February. Bullion produced during the latter month was valued at \$5,801,989, an increase of \$465,620 over the February production figure of \$5,336,369. Tonnage also increased during March, from 513,429 during February to 567,816 during March.

Production By Fields

Production by gold mines in January, February and March, 1935, as reported to the Ontario Department of Mines, is shown below. All values are in Canadian funds.	Sources	Tons	Value
Porcupine Belt—			
January	320,676	\$2,461,881	
February	285,057	2,448,898	
March	316,822	2,619,756	
Kirkland Lake Belt—			
January	163,944	2,657,047	
February	149,449	2,475,278	
March	164,836	2,711,420	
Matachewan—			
January	20,964	97,016	
February	21,877	93,750	
March	23,752	105,058	
Northwestern Ontario—			
January	62,582	362,451	
February	57,056	318,442	
March	62,406	365,755	
Total for Ontario—			
January	568,176	5,578,395	
February	513,439	5,336,369	
March	567,816	5,801,989	

COST OF THE HAUPTMANN TRIAL TO THE COUNTRY

The state of New Jersey had appropriated \$50,000 to pay its share of the Hauptmann trial, but the bill was actually \$130,000. An estimate and the actual expenditure often bear about the same relationship as a ham sandwich and the whole pig.—From the St. Catharines Standard.

PURITY FLOUR

Your layer-cake for week-end entertainment! How you dislike leaving your baking to the last minute! You need not. Bake it two or three days ahead, if you like; it will be light and moist when served—if made with PURITY—the popular, all-purpose flour with the strength of Canada's best wheat in it. It conserves the moisture. Purity Flour goes farther than ordinary cake flour; seven-eighths of a cup of PURITY is equal to one full cup of most cake or pastry flours.

BEST FOR ALL YOUR BAKING

Shirley Temple Now Popular Favourite

Brief Sketch of the Charming Little Actress whose Work is Winning All Hearts.

Capacity houses at the Goldfields theatre on Friday and Saturday were again delighted with Shirley Temple in "Bright Eyes." The picture is considered by all to be one of the best offerings seen here for some time. All in the cast were specially good, one "cross little girl" being especially clever, but Shirley Temple by her charm and talent dominated the picture. "Bright Eyes" increased the interest in this remarkable little girl, and a few details about the little charmer may not be out of place.

A little more than a year ago executives at Fox Studio came across a talented actress, Shirley Temple, and placed her under contract. And little Shirley has led Fox out of the wilderness of red ink that had decorated the corporation's books for several years.

On Tuesday of this week Shirley was six years old. At this point some one should arise and say, "Little girl, you've had a busy year." In the space of 12 months she has made six pictures, all of which have smashed box office records around the country.

She ranks next to Will Rogers as the best money maker under Fox contract, eclipsing even Janet Gaynor and Warner Baxter. She was the eighth ranking box-office star last year, despite the fact that she didn't really get started until summer.

America's girl friend made her first hit with a bit in "Stand Up and Cheer." Winfield Sheehan, Fox production head, immediately placed her under contract at \$250 a week. After another small bit with Janet Gaynor in "Change of Heart," she was given a leading role in "Baby Take a Bow." Paramount borrowed Shirley for two pictures, "Now and Forever" and "Little Miss Marker."

Then she returned to Fox to film "Bright Eyes," "The Little Colonel" and "Our Little Girl," not yet released. Her next will be "Curly-Top" with John Boles.

Around the Fox lot, Shirley is known as "one-shot" Temple because she always is letter-perfect in her lines. Her mother, Mrs. George Temple, who is paid \$250 a week to be her teacher and manager, coaches her each morning in her dialogue.

Shirley has been in pictures since she was three and a half years old. She made a series of short comedies called "Baby Burlesks" before she went to Fox.

Every cent she makes goes into a trust fund established by her parents.

Timmins Young Man Wedded at Toronto

Pretty Easter Marriage Event on Saturday. Paul Grant Weds Miss Helen Margaret Denison.

Mr. and Mrs. Paul Grant, whose wedding on Saturday was one of the pretty Easter ceremonies in Toronto, should arrive in Timmins on May 6th, it is expected. Mr. Grant has been accountant at the Bank of Nova Scotia here for some time and is a popular member of the town's younger set.

Mrs. Grant was Helen Margaret Denison, daughter of Mrs. Hugh Denison and the late Hugh Denison, of Toronto. Mr. Grant is the son of Mrs. Henry O'Brien and the late Rev. James A. Grant, also of Toronto. Their marriage took place in Calvin Presbyterian Church, Toronto, Rev. Joseph Wasson officiating. The bride was given in marriage by her brother, Mr. Hugh Denison, and was attended by Miss Mae Denison and Miss Isabel Denison. Mr. John Grant, of Montreal, attended the groom.

A reception was held after the wedding at the home of the bride's mother, Mrs. O'Brien also receiving the guests.

St. Catharines Standard.—A naturalist declares that fish have no method of communication. We had noticed they do not respond to lines we drop them.

TOO MANY PLACES IN THE PROVINCE SELLING BEER
(Stratford Beacon-Herald)
There are 500 places in Ontario where beer is sold in premises which were not recognized as standard hotels on March 27, 1934. And that by the way is rather a wide departure from the Liquor Control Act as we used to know it.
