Pleasing Musical Event by Welsh Miners' Choir

Some of the Choral Numbers were Outstanding. Solo Numbers Also of Special Merit. Piano Solos by Mrs. Boutin and Vocal Solos by Mrs. Lisles won Much Appreciation.

The concert given in the Oddfellows' hall on Monday evening by the Welsh Miners' Choir was one of both interest and merit. The attendance was not as large as the excellence of the musical programme merited, but those present were certainly appreciative and enthusiastic and were completely pleased with the whole programme. G. A. MacDonald, one of the honorary presidents of the choir, acted as chairman for the evening.

The Welsh Miners' Choir includes a number of excellent voices and is well balanced and harmonious. The choir under the gifted leadership of Ron Jones is making constant progress and perfecting its technique. All were well pleased Monday evening with the skill and effectiveness with which the choir presented a number of selections of varied character, some of them very difficult numbers. Each selection was ably given and the choir's part in the programme was a very creditable one.

The chorus, "Crossing the Plain," especially showed the results of combining good training and direction with good voices and musical talent. Other selections given by the choir included: "Comrades," "In Absence," "The Jolly Roger," "Stars of the Night," "Juanita," "John Peel," "Soldiers' Chorus." All were rendered with understanding as well as correct musical interpretation.

In addition to the selections by the choir, members of the organization added to the interest of the evening by vocal solos, all of these numbers being worthy of special note. Tommy Williams, tenor, sang "An Old Fashioned House in an Old Fashioned Town," and won very insistent encore.

There seemed to be decided disposition to encore the responding number, "Friend of Mine" was the first number given by Alf. Bellamy, baritone, and he, too, won enthusiastic recall. His second number was appreciated as fully as his first fine effort. Tal Bevan's sympathetic rendition of "Drink to Me Only With Thine Eyes" was so much appreciated that an encore was necessary to meet the popular demand.

There was equal favour for the number given in response to the demand for an encore. Tommy Brain's tenor voice and expressive interpretation of solo numbers pleased the audience and earned insistent call for encore. The solo, "In the Garden of Your Heart," was given very effective interpretation by Ron Jones, and like the other artists on the programme he was enthusiastically encored.

Among the most popular numbers on the evening's excellent programme

were the piano solos by Mrs. Boutin and the vocal solos by Mrs. Lisles. Mrs. Boutin is a particularly gifted pianist and her talented presentation of varied numbers won very hearty approval. Mrs. Lisles has a sweet soprano voice and her solos were very pleasingly presented.

Both the chairman and Jack Thomas, president of the choir, spoke on the excellence of the evening's programme. Thanks were expressed to the audience for its appreciation, to the choir and its leader for the merit of the programme presented, and especially to Mrs. Boutin and Mrs. Lisles for their generous contribution to the evening's pleasure.

Accompaniments for the various choral numbers were played by A. Garaway, pianist, while for the soloists Ron Jones presided at the piano, with Mrs. Boutin playing for the solos of Mrs. Lisles.

A very happy evening for music-lovers was concluded with the choir leading in the singing of "God Save the King."

Death of A. Johnson Monday Afternoon

One of the Most Popular
Foremen at the Hollinger
Passes. Ill for about Six
Months. Funeral Yesterday.

Pioneer of Cobalt mines and pioneer of two great Porcupine mines, C. A. Johnson, one of the most popular foremen at the Hollinger mine, died at his home, 52 Balsam street south, on Monday afternoon after an illness of six months.

Mining was one of the joys of his life—he grieved when he learned just six months ago that he would never go into a mine again. As a currier he made a host of good friends at the Timmins club. He was enthusiastic in these two great interests in his life and he made a success of both.

He helped to sink the first shaft at the McIntyre mine in 1911 in the days when there was no railway. He walked into the young camp to take his first job there. At Hollinger mine he found his life's work. He stayed with them through 20 years, with the exception of a short time in the West, and he rose to be a shift boss, then a foreman. Genuinely interested in his job of mining, he was willing and anxious to talk the "game" over with his friends.

The large number of beautiful flowers that were sent to his home before the funeral on Wednesday showed how highly respected he was by the men at the mine and by the citizens of Timmins. The service was held at the United Church, Rev. Bruce Millar officiating. The pall bearers were Dan McInnis, Wm. McDermott, Ed. Nord, Geo. Jones, Jas. Douglas and Geo. Pond. Burial was at the Timmins cemetery.

His wife and two children, Ralph and Irene, survive him, as well as his father, G. T. Johnson, of Verner; four brothers, one of whom, Godfrey, lives in Kirkland Lake; and five sisters, living in United States and Canadian cities.

New Treatment Likely to Help Eye Muscle Trouble

Richard Mullen, son of Mr. and Mrs. R. W. Mullen, 115 Maple street south, returned from Toronto last night while in the city Richard took special treatment for an unusual trouble from which he has suffered for some time. The medical name for the disease is myasthenia, and it may be described as paralysis of the muscles of the lids of the eyes. It is a comparatively rare disease and very difficult to treat. Special study of the disease has been made at the Hospital for Sick Children at Toronto, where Dr. Hylands and Dr. W. W. Barraclough, neurological specialist and consultant at the Hospital for Sick Children have given it very special study. Recently in England a new method of treatment has been used with notable success. This was by the use of prostagmin, used with success by Dr. Mary B. Walker, of Greenwich, England, who found it a very beneficial treatment in the case of muscle trouble. Dr. Hylands has used it successfully in Toronto, and gave a treatment to Richard Mullen this week. Richard felt the improvement in marked way though its effect was not permanent. Continued treatment, however, is hoped to achieve permanent results. Prostagmin is obtainable in England in tablet form now and in this form is found more efficacious. It is intended to continue the treatments here under local medical care, and all will hope that Richard will soon find complete cure.

Both Mr. and Mrs. Faithful left here immediately on receipt of a message last week saying that Mrs. Foster was seriously ill. The funeral was held on Sunday.

Mrs. Faithful will remain in Corning for some weeks but her husband returned to Timmins Tuesday night.

Tests Made of New Schumacher Truck

F. E. Thompson Conducted
Tests of New Apparatus
Last Night. Results of
Test Favourable.

Official tests of the new Schumacher fire truck were held on the McIntyre bridge across Pearl lake last night at about 7.30. Pumping water from the lake, nine feet below the level at which

the truck was, the pumper delivered 430 to 440 gallons a minute on two outlets. Inch and an eighth nozzle was used. The streams of water were capable of reaching a height of about 60 feet.

A large turnout of Schumacher citizens and boys watched the new outfit in action. Chief Chas. Jucksch expressed himself as well satisfied with the test. Fred Thompson of New Liskeard, secretary of the Temiskaming Firemen's Association, was in Schumacher to see the pumper and test it with exact gauges.
