

J. A. Bradette Talks to Kiwanis on Patriotism

To be a Good Canadian Entails Being a Britisher, Says Member for Riding in Impressive Address. C. G. Williams to Guest Speaker at Kiwanis Next Week.

The Royal Family does much to strengthen the bond between the home-land and the dominions, Jos. A. Bradette, M.P., told the Kiwanis Club on Monday in an interesting and well-delivered address suited to the Jubilee celebration. To be a good Canadian entails being a good Britisher, and as a Britisher, a member of the British Empire must be loyal to all for which the Empire stands.

The influence of the British Empire has been and is so great that it must have been willed by God that it should steady the world in times of crisis, Mr. Bradette said. The largest the world has ever seen, it has representatives on all the seven seas and is still the empire on which the "sun never sets." In harmony with the ideal of true democracy, for which England has been so well known and to-day represents democracy at its highest point in history, the empire itself is bound by no military chains but remains as a unit for deeper, even more binding reasons.

The present royal family has seen the empire come through trying times

when other monarchies have been overthrown—the King himself has proved that he is capable of materially aiding the empire in times of stress. The Royal Family's influence on the empire has been a steady one, and through the empire, the whole world has felt its good effect.

Received Medal at Cochrane

While in Timmins, Mr. Bradette received word from Cochrane that he was to be a recipient of one of the official Jubilee medals. At the request of the mayor and citizens, he returned there immediately after his address here, to take part in the celebrations at the district town.

Guests at Monday's meeting included Father Theriault, R. Fisher, Morris Williams, Arch. Pierce and "Nick" Levansky.

Next week's guest speaker at the Kiwanis meeting will be C. G. Williams, now of Toronto, but one of the original members of the Timmins club. It is expected that his talk will be of great interest to the local members.

Mining Recorder for the Office at Haileybury

The following is from The Haileyburian of last week and refers to N. McAulay, who for twenty years has been on the job as mining recorder. The Haileyburian says:—

"N. McAulay, mining recorder for the Temiskaming Mining Division, will this month complete 20 years' service in the position. It was in May of 1915 that he was appointed recorder, succeeding the late Geo. T. Smith, who had carried on the work of the office since its opening in April, 1905, and who was appointed a member of the Ontario Liquor Commission when the latter body was formed. Mr. McAulay had been assistant to Mr. Smith for some time previous and was well versed in the work before taking over the direction of the office."

"During his two decades as mining recorder Mr. McAulay has handled a great number of transactions between the mining men of the district and the Department of Mines at Toronto. There have been years which saw great activity in the territory covered from the local office and several assistants were required. The opening of other offices to the north has since reduced the volume of business here, but still every year sees a large number of claims recorded and the office has its busy seasons. The Cobalt area was, of course, responsible for the opening of the recording office here and at one time the preponderance of mining lands in the Township of Coleman led to the provision of a sub-office at Cobalt. This was opened in May of 1906, with Thos. McArthur, now mining recorder at Sudbury in charge. It continued for about four years, after which the business was handled entirely from the

office in Haileybury.

"It is interesting to learn that Claim No. 1 is in the records of the Haileyburian Mining Recorder, staked on April 12th, 1905, and recorded on May 4th following, was not in the Cobalt area, but in the Township of Hudson.

"Mr. McAulay has maintained during his twenty years as recorder, the most cordial of relations with the prospectors and mining men generally. He has always taken a prominent part in public affairs as well and has served the town of Haileybury as Mayor on several occasions."

Communism Held up to Scorn at Sudbury Meeting

Scorning any policy of ignoring the Communist movement in Canada as "perhaps the better course for those who have to rely on everyone's support in business and in politics," Alderman J. F. Lemieux urged upon 400 anti-Communists of Finnish, Ukrainian and French-Canadian extraction, a determined opposition to the spread of "Red" propaganda, at a meeting in Ste. Anne's held at Sudbury last week.

The meeting was presided over by A. Gascon. The following speakers were heard: J. Morissette, J. F. F. Lemieux, Nichols, Stuss, A. Kauhanen and I. Peryma.

Although no action was taken by the meeting with a view to endorsing resolutions protesting against the spread of Communism in Canada, the feeling of the assembly was keen on the matter.

One of the most interesting speakers of the evening was I. Peryma, 163 Shaughnessy street, who as an enthusiastic follower of Communistic beliefs in 1930, decided to leave his job in the Coniston smelter and take his family to Russia to live. He spent most of his 18 months in Russia as a resident of Moscow but found conditions so discouraging that he decided to return to Canada.

"If the Russians who spread Communistic propaganda in Canada today had a chance to go to Russia, they would pray to the Canadian government to let them come back to Canada," the speaker averred.

Mr. Peryma declared that he found in Russia during his 18-month stay filthy conditions among starving families, misery in all walks and the positive failure of the Soviet plan. In its place had grown up a bourgeois system controlled by the leaders of the movement.

J. F. F. Lemieux in the course of his remarks, declared that he had no intention of praising the present economic system in Canada and stated that there was some reason for complaint. Canada, he averred, was built by capitalists and by Christians and for that reason it would reject Communism because there was nothing Canadian about Communism!

St. Thomas Times-Journal:—The remark by a Toronto professor that Edison was not the inventor of electric light may surprise a number of people, but that is quite true. The first electric lamp was produced by Sir Joseph Swan, who was born at Sunderland, England in 1828. He was a chemical engineer who first achieved success in improvements in photography. He made a carbon filament lamp as early as 1862, and in 1880 exhibited the first filament vacuum lamp.

Winners of Prizes in the Legion Draw

Mrs. Chulak, Wins Ford V-8 Car. A. Shields, Second Prize and K. Blanchard, Third. Announced at Stagette.

The fourth annual Stagette of the Canadian Legion, Timmins branch, given in the Hollinger Recreation hall on Saturday evening last, was an unqualified success. There was a large crowd present—crowded to the doors, in fact. And everyone had a good time and enjoyed the evening.

There was "Bingo" and other games and bazaar features, with chickens and hens as prizes and the sport being the best of any of these annual Legion Stagette successes. There will be a nice profit for the Legion relief fund from the event and from the draw.

Of course, the draw was a special item of interest. E. St. Pierre drew the tickets from the big drum to decide the winners. The following were the prize-winners and the prizes:—

First prize—Mrs. Chulak, 78 Maple Street, Timmins, Ford V-8 car. Won with ticket No. 306—a 24-cent ticket.

Second prize—A. Shields, 125 First Avenue, Schumacher, \$100 in cash. Won with ticket No. 110—a 52-cent ticket.

Third prize—Kenneth Blanchard, 59 Montgomery Avenue, Timmins, \$50 in cash. Won with ticket No. 174—a 10-cent ticket.

Ten Prizes of \$10.00 Each

Then there were ten prizes of \$10.00 each, won as follows:—

Gwen Bowen, Elm Street, Ticket No. 194—a 45-cent ticket.

D. Petrie, Wende Avenue, ticket 39—a 40-cent ticket.

A. G. Sillifant, Elm street—48-cent ticket.

J. Leroux, Timmins, Ont.—41-cent ticket.

A. C. Lacombe, Mountjoy street—13-cent ticket.

E. Thompson, Cedar street—47-cent ticket.

F. J. Hornby, Bannerman avenue, ticket No. 180—a 2-cent ticket.

O. L. Martel, Birch street, ticket No. 283—a 45-cent ticket.

L. Leo, Kirby avenue, ticket No. 288—a 30-cent ticket.

A. G. Arscott, Elm street, ticket No. 239—a 9-cent ticket.

In the list of prize winners above the ticket number given is that of the series. In each series there were 52 tickets running from 1 cent up.

Because of the interest in the winning tickets the cost of the ticket is noted, because the price also forms part of the number under the plan used. Of course, the price of the ticket does not mean that the prize was won only on the price of the ticket, as practically all of the prize winners purchased a number of tickets. Some of the prize winners had as high as 20 tickets. Some that did not win a prize had 50 or 60 tickets.

upon their national prosperity by their poverty in natural resources, continues Mr. Simonds. He does not attempt to prove that new wars have become inevitable, but points out that no viable system of organized peace can be founded upon the contemporary status quo of material inequality. The author charges that all the experiments in peace of the post-war period, since in effect, have undertaken not to remove, but to perpetuate the economic status quo, and have so far failed to shake the resolution of at least three great peoples to resort to violence rather than endure inequality.

The efforts of Great Britain and the United States in the pursuit of peace are criticized by the noted historian. He charges that all their proposals are doomed to failure.

"In effect, American and British efforts on behalf of world peace have amounted to no more than an effort to persuade peoples less happily situated than themselves that, however bad their material circumstances, war could only make these worse. They have thus invited all peoples to join them in a partnership to preserve peace, but leaving to the others the privilege of paying the cost.

Italy, Germany and Japan have rejected that invitation, actually in all three countries the children are being taught, almost in their cradles, that they were born to die in war, because for their nations, not war, but peace on existing terms constitutes the promise of ruin."

Here's Another Fake that Should be Guarded Against

There is always somebody resurrecting some old form of fake and trying it out as another "new" one. In this respect the newspapers do good service by mentioning the cases and so informing the public to guard against the crooks. It is worth reading good newspapers for this alone. Here is a scheme mentioned last week in The Huntingdon Gleaner. It may be tried with something else than a violin, but the game is there. The Gleaner tells the story as follows:—

"One day last week a district garage proprietor had occasion to serve a stranger and after his customer had departed noticed a violin, which had been left on the counter in the shop. A few minutes later another stranger entered and after looking around saw the instrument. This second man seemed very impressed with the instrument and after playing a few selections desired to buy it. His enthusiasm for the fiddle even went as high as \$100 cash, whereupon the proprietor agreed to sell, if the owner did not soon return. While the prospective purchaser went for a stroll the owner returned and at the urgent request of the garage owner agreed to sell for \$50. Naturally, then, the only thing the lucky purchaser had to do to make \$50 was to wait for his bidder to return. He's still waiting and has now come to the conclusion that he was "taken in." Yes, very nicely!"

In the list of prize winners above the ticket number given is that of the series. In each series there were 52 tickets running from 1 cent up.

Because of the interest in the winning tickets the cost of the ticket is noted, because the price also forms part of the number under the plan used. Of course, the price of the ticket does not mean that the prize was won only on the price of the ticket, as practically all of the prize winners purchased a number of tickets. Some of the prize winners had as high as 20 tickets. Some that did not win a prize had 50 or 60 tickets.

social institutions 1805.

"Never," says one of the Army pamphlets, "must the Army cease to care for homeless and helpless children."

"Never close the doors of its shelters."

"Never discontinue its service of reclamation."

"Always, you are earnestly asked to remember that the Army's programme has been continued through the years because friends have always given willing support."

"Please let your partnership in the Army's service be expressed this year in your most generous contribution," concludes the pamphlet.

Brockville Recorder:—Some of the new and better motion pictures are proving more valuable as box office attractions than their sexy predecessors ever thought of being. It has taken a long time to make producers realize that the public is even more willing to patronize clean films than it is to patronize dubious ones.
