**Excellent Concert by Consumers Co-op.**

Large Audience Well Pleas- ed with Notable Pro- gramme Last Night in Parish Hall of the Church of Nativity.

A pleasing concert by the Consumers Co-operative was presented last night before a well filled hall in the base- ment of the Church of the Nativity. In addition to the programme an- nounced last week, several well ap- preciated numbers were added, chief among these being songs from "Scotty" Pollock of North Bay, whose humorous

Scottish presentations were, as usual, popular with young and old alike.

Consumers orchestra opened the programme with a group of three num- bers—"The Wizard March" (Arthur Daggett), "The Golden Nightengale Waltz" (Robert C. Boger) and "Dance of the Goblins" (H. Engelman). Con- ducted by K. Lindewell, the young or- chestra performed in good style and they show great promise.

C. M. Haapanen, in a short talk, "Facts of our Co-operative," showed how quick the growth of the move- ment in the Porcupine has been. Business in the original Timmins store became so heavy that two others, in Schumacher and South Porcupine, had to be opened.

"Romance," a tello solo played by Wallace Pospichil, was a beautiful number. The tone of the instrument under Mr. Pospichil's expert touch brought round after round of applause. Mrs. Dave Larcher accompanied at the piano.

Slovenian folk songs by Vincent and Angeline Paguchar added a touch of European flavour to the entertain- ment. Quite different from the music to which the Canadian ear has become accustomed, the Paguchar duet was a real treat.

DON'T FORGET!  
**Moose Charity CARNIVAL**  
TIMMINS SKATING RINK  
May 23 to 30

The "Joust" girls, favourably known on the Timmins stage for some time, performed two rhythmic "musical drills" that showed a vast amount of preparation and a real beauty of movement. The gracefulness of the numbers brought gasps and well-merited applause. Mrs. Dave Larcher played the piano accompaniment.

Two saxophone solos, "That Naughty Yodel" and "Laughing Gas," played by Eric Lindewell on a tenor instrument, made a pleasant musical interlude. Miss Lillian Hunt played piano accompaniment for the talented young musician.

Little Miss Grace Larcher, as the youngest performer of the evening, made a big hit with the audience with her singing.

B. Tenhunen in a short address "Why Co-operation," brought forward many good points of co-operative buy- ing. The elimination of profit, paid back to the consumers once during the year, he stressed.

"Sir Galahad March," "Dance of the Crickets," and "Danube Waves Waltz" were another group of numbers by the Consumers orchestra.

Six singers in a Slovenian group choir sang two more of the distinctive folk songs of their homeland.

The "Joust" Athletic Club girls in a "Tango" again pleased the audience with their well-performed dance.

Pat Larmer praised the co-operative system of buying and told from personal experience just why he believed in it and was enthusiastic over the results obtained.

A second tello solo by Wallace Pospichil brought the musical part of the entertainment to a close. Refresh- ments were served immediately after- wards.

The programme committee was Jack Mustato, C. M. Haapanen, B. Tenhunen and K. Lindewell. Hostesses for the evening were Mrs. P. Larmer, Mrs. J. A. McAlinden, Mrs. A. Malouin, Mrs. J. Wakeford, Mrs. J. Gagnon, Mrs. J. Mustato and Mrs. J. Howlett.

**Muskrat Found on Street One Evening**

Captured in front of Reed Block on Thursday Even- ing. Injured in the Chase and had to be Despatched.

Thursday evening a live muskrat was noticed sporting himself or herself on Pine Street south just in front of Lawrence's men's wear shop. The animal was noticed and a chase resulted in the capture of the muskrat, the animal being placed in a box and taken to the police station as lost from home. The police promised to make enquiries and find out where the muskrat came from—whether from the Mattagami river or one of the nearby lakes. In any event the animal had had a com- paratively long journey overland for a muskrat.

In the meantime, however, the police found that the animal was suffering from a fractured jaw and also a broken leg. Whether these were suffered in the chase made by some young man to capture the muskrat, or whether one of these injuries or both had been sustained before capture, and, perhaps responsible for the animal wandering from his natural habitat, is not cer- tain, but in any case it was found necessary to put the muskrat out of his suffering.

**KIRKLAND LAKE'S TAX RATES SET FOR THE PRESENT YEAR**

Kirkland Lake's tax rate for public school supporters was finally set at 56.56 mills by the Teek Township council last week, a reduction of 1.24 mills on the 1934 rate, separate school supporters being assessed 65.26 mills as against 74.7 last year, while the Swat- tika school district will pay 78.84 mills as against 71 last year.

**Boy Scouts in Timmins**

Scouting has sprung up suddenly in Timmins, so suddenly, in fact, that it would appear to the bystander that thus far the task has been an easy one. It is true that there has been a wonderful spirit of co-operation on the part of the local association, the group associations, the Scouters, the boys themselves and the parents. Few other communities in Canada have found that the thing rolled along so smoothly. But it has been by no means an easy task, nor is it anywhere nearly completed. The wonder of it is that Scouts have been able to accomplish so much in the very short time the majority of them have been mem- bers. The old clothes campaign that was carried to such a successful conclu- sion and the appearance of the Scouts on May 6th are two major accomplish- ments.

The phrase "Tenderfoot Scout" often appears in this column. The boys them- selves know what that means, but the general public has little idea of the work involved in the making of a Scout. Here, in brief form are the things a Scout must know, before becoming a Tender- foot:

"The Scout law and promise, and un- derstand their meanings."  
"The signs and salutes."  
"The composition and history of, and how to fly, the Union Jack."  
"Certain uses of the Scout staff."

"The following knots: reef, bend, clove hitch, bowline, turn turn and two half hitches, sheepshank, and understand their respective uses."

"How to whip the end of a rope."  
He is then invested by his Scoutmaster and is entitled to wear the Scout badge and uniform.

It is easily seen from the above how much practical value Scout training has. There is not a boy in the North who cannot profit from most of these compar- atively simple tests. At a later date, these "Tenderfoot" tests will be dealt with more fully, but the outline is suffi- cient to indicate what a tremendous amount of teaching must have been done in Timmins during the past few months when literally hundreds of boys began to learn Scouting.

Mattagami troop, one of Timmins' newest, is already progressing beyond the stage where tenderfoot work only is taught. Although there are many to be invested yet, a good proportion of the boys are going on to "second class" work. What to do in the case of a broken leg was one of the lessons at the last meet- ing of the troop and the boys seemed to thoroughly enjoy the first aid job. They also formed a "Court of Honour," to administer the internal affairs of the troop. Troop leader, patrol leaders, Scoutmaster and assistants make up this court. There discipline is meted out, and im- portant troop plans formulated. The troop is to go on a hike this week.

**NOTED FERGUS PHYSICIAN DIED LAST NIGHT, AGED 87**

Dr. Abraham Groves, the first sur- geon on the continent to remove an appendix, and pioneer physician of Fergus, Ontario, died last night at the age of 87.

**Cars Badly Damaged in Crash on Hollinger Flats**

During the week-end there was a rather bad crash on the Hollinger flats when a car driven by Simon Kole side- swiped R. Powers' car. Kole admitted that his error in taking too much of the road was responsible for the acci- dent and he expressed his willingness to pay for the repairing of both cars. As both cars were considerably damaged the bill will not be a light one in this case.

**Italians Present Their Float to C.A.S. Children**

There must be much regret among those who spent time and effort and interest to build floats and designs such as were in the Silver Jubilee parade here a week ago to know that these beautiful floats after the event have to be torn down again and dismantled. The Italians, who had so notable an exhibit in the parade, did not intend simply to destroy the notable work they had created. Instead of tearing it down again after the parade, the Ital- ians are presenting the float complete to the Children's Shelter for the young- sters there to play with. No doubt it will be eventually destroyed, for every- body knows that the playthings of children do not last too long, but in the meantime it will give a great deal of pleasure to the youngsters. When the youngsters were asked if they would like it, their answer was very emphatic. Most of them had noticed it in the parade and could give a good descrip- tion of it. The float took the form of a boat and depicted the landing of John Cabot on this side of the ocean. The float is cleverly and strongly con- structed and it will make an ideal "playhouse" for the youngsters, all of whom appreciate the kindly thought of the Italians in making the disposi- tion they are doing of the John Cabot float.

**SILVER PLATE FLATWARE**

*tell you*

A Service for Six in the distinctive Andover Pattern in a smart lined tar- nish-proof case. Gracefully designed and fashioned by the master silver- smiths, Wm. A. Rogers. Knife blades of stainless Sheffield steel. A golden opportunity to buy silver at a very low price.

**Quality of Milk is More Important than Amount**

That Fact Is Essential Factor in Planning for Develop- ment and Growth of Children. Necessary Vitamins Found in Milk.

(By Edith M. Barber)

One of the most important contri- butions, perhaps the most important, made by any food is supplied by milk. The growth and development of chil- dren depend first of all upon this al- most complete food, which is adapted to their young digestions and which gives them not only muscle-building material but calcium and phosphorus for the development of bones and teeth. Some of the essential vitamins are also to be found in milk. Even after the body has finished growing, milk is necessary, particularly because of the calcium content with which few other foods are supplied.

Health, however, depends not only upon the amount of milk we take, but also upon the quality. The city which has a protected milk supply is fortunate. Milk bottled at the milk plant and kept cold while it is distributed has, of course, little opportunity to be attacked by germs to which milk is most susceptible. The protection of a milk supply, while costly, is necessary. Any increase in price, although con- sidered necessary in order to give the farmer a fair price for his milk, is unfortunate for families who have children and are of a limited income.

**Potatoes Au Gratin**  
1/2 pound cheese  
6 boiled potatoes  
2 tablespoons butter  
2 tablespoons flour  
1 teaspoon salt  
2 eggs milk  
Buttered crumbs  
Paprika (to taste)  
Cut cheese into small pieces. Pare potatoes and dice. Melt butter in a sauce pan. Stir in flour and salt. Add milk and cook until mixture thickens, stirring constantly. Add cheese and stir until melted. Place a layer of po- tatoes in buttered baking dish. Cover with one-half the sauce, and repeat. Sprinkle top with crumbs, dot with bits of cheese, add a dash of paprika.

and bake in moderately hot oven (375 deg. F.) until crumbs are brown.  
**Cream of Vegetable Soup**  
1/2 cup finely chopped turnip  
1/4 cup finely chopped onion  
1/2 cup finely chopped carrots  
1/2 cup finely chopped celery or celery tops  
4 tablespoons fat  
1 1/2 tablespoons flour  
Paprika  
Cook the finely chopped vegetables in the fat for ten minutes with con- stant stirring. Add the flour and stir until well blended. Add milk slowly to the vegetable mixture, stirring con- stantly, add the salt and cook for five minutes.

**Salmon Loaf**  
1 pound can salmon  
1 tablespoon lemon juice  
Cayenne  
1 teaspoon salt  
2 eggs  
3/4 cup chopped celery  
1 1/2 cups bread crumbs  
1/2 teaspoon baking powder  
1/2 cup evaporated milk  
1/2 cup liquid drained from salmon.  
Remove skin and bones from salmon and flake with a fork. Add remaining ingredients and shape into a loaf. Bake in an oiled baking dish in a moderate oven (350 deg. F.) until brown and firm. Garnish with parsley and serve with tomato cream sauce or with lem- on.
