Headache, Toothache, Rheumatic Pains, or Monthly Pains Vanish. Don't suffer with pain. Take the little wonder Pain Tablet, Nox-a-Pain. Price: 25c, 50c, 75c, \$1.00. Sold at the Goldfields Drug Store.

News and Notes of Timmins Girl Guides

Plans Made at Last Meeting for the Hike on May 24th. No Regular Meeting Next Friday Night.

(P.L.—J.L.)
The weekly meeting of the Timmins Girl Guides was held on Friday evening. Inspection was taken by Captain Cranston and the marks were read out by Lieutenant Habb.

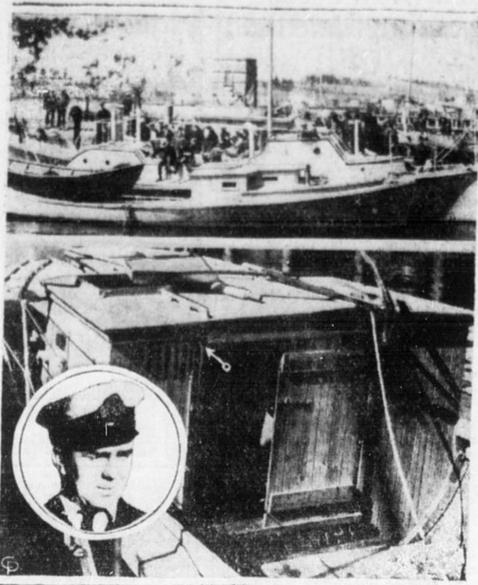

riage Test.
A circle was formed for Campfire. Plans for the hike on the 24th of May were made. The girls will all assemble at Central School at 10 a.m. in full uniform and they are to bring their own lunch. This hike will take the place of the usual meeting and consequently there will be no meeting on Friday evening. The Guides are asked to bring their Morse signalling flags and other equipment.

JAMAICA TO MAKE GIFT TO DUKE AND DUCHESS OF KENT

Jamaica's Legislature has voted the sum of \$1,000 to be used in preparing an album of beauty spots in the colony framed in silver and turquoise as a wedding gift for the Duke and Duchess of Kent. Prince George and Princess Marina spent about a month as tourists at Montego Bay, well-known resort, while they were on their honeymoon tour of the West Indies a few months ago.

Kitchener Record.—Ever mindful of the cause of his people His Majesty said during his Empire address: "In the midst of these days of rejoicing I grieve to think of my people who still are without work. I hope that during this jubilee year all who can will do their utmost to find them work and bring them hope." Concurred effort should be put forth to carry out that thoughtful exhortation.

One Killed as R.C.M.P. Chase Rum Ship

While R.C.M.P. gave chase to rum ship at Lunenburg, N.S., William Tanner was shot and killed by Captain Kelly (inset) of the police cutter Acadia. Top photo shows rum runner (foreground), with the R.C.M.P. cutter. Below, the cabin of the rum ship where Tanner was killed in the gun fight. Officers contend they were firing at kegs and bullet ricocheted, killing Tanner.

Ford Restores the \$6 per Day Minimum

Important Announcement Yesterday by Ford Motor Company on Wage Rates in Canada.

The following telegraphic despatch received from East Windsor, Ont., yesterday explains itself and makes very pleasing reading. It appears to be another indication of the return of better times in Canada.

East Windsor, Ont., May 22nd, 1935: Mr. Wallace R. Campbell, president of the Ford Motor Company of Canada, Limited, made the following statement to-day:—

"Ford Motor Company of Canada Limited, effective to-day restores the \$6 minimum wage, in a return to the Ford wage level of 1929.

We believe this to be a constructive move and in full accord with Ford policies of labour relationships. We hope thereby, so far as our company is able, to improve purchasing power and thus to increase industrial production generally by stabilizing labour employment and further re-establishing labour income.

"For the employees of this company on the wage rolls in East Windsor, Toronto, Montreal, Saint John, Winnipeg, Regina, Calgary and Vancouver, this means:—

1. Wages of all employees heretofore receiving the minimum wage of \$5 will be raised to \$6, an increase of 20 per cent.
 2. Employees in many of the wage brackets above the minimum will be given hourly rate advances of 5 cents.
 3. The new average wage rate will be considerably above \$6 a day.
 4. The new wage rates will affect approximately 6500 employees in the border cities, and 1200 in the other Ford branch cities, of the 7700 at present employed throughout the Dominion.
- "The first \$5 a day wage paid by Ford was made effective in the East Windsor plants in 1914, setting a new policy in Ford labour relations. The Ford \$6 wage rate was instituted in 1919 and remained in effect until after the depression had set in late in 1929. Then Ford increased its minimum wage to \$7 a day in an effort to stem the tide of depression by increasing purchasing power. This rate remained in effect until near the end of 1931 when

ORDER Today FROM Purdon & Laflamme

- Prunes, good size 2 lbs. 25c

circumstances forced a reduction of \$6, a rate which remained in effect for a year, and then to a minimum of \$4. The \$5 rate was restored in March, 1934."

Edward A. Blais to Leave Timmins for Iroquois Falls

Timmins loses a real baseball supporter in Edward A. Blais, manager of Dominion Stores here, who leaves for Iroquois Falls on June 3rd to manage the grocery department of the big Abitibi store in the paper town.

"Ted" has been with the local chain store since 1930 and he has been very active in baseball and other sports. As secretary of the Temiskaming Baseball League, he has rendered the sport great service. His attempts to put town league baseball on a good basis in Timmins have done much to revive in-

terest in the game here. He won't drop out of sport when he goes to the Falls, but it is likely that he will resign as secretary of the T.B.L. for he feels that secretary and president should be in the same town.

He leaves a large circle of friends behind him in Timmins but there's no doubt he'll have just as many after he's been in the Falls for a little while.

Waterloo Chronicle.—Discovery that annoyed women in a Soviet community kitchen put moth balls in each other's soup, indicates that communism has its limitations.

Now You Can Wear False Teeth With Real Comfort
FASTEETH, a new pleasant powder keeps teeth firmly set. Deodorizes. No gummy, gooey taste or feeling. To eat and laugh in comfort sprinkle a little FASTEETH on your plates. Get it today from your druggist. Send 10c for trial size to Fasteeth Ltd., Toronto.

Watching Experiment of T. & N. O. with Interest

Col. Mac Lang, chairman of the T. & N. O., has been authorized by the Ontario cabinet to proceed with his proposal for the development of the lignite deposits at Blacksmith Rapids, north of Cochrane. Col. Lang's idea was that the lignite could be treated for use as fuel by the railway and that industries in the North might also be able to make use of the fuel when treated. This would mean the development of a new and important industry for the North, with the consequent beneficial effect on the railway and the country. Commenting on the matter last week the North Bay Nugget had the following to say in an editorial article:—

"Col. Lang's experiment will be followed with interest. From the time the lignite fields came into prominence, varying opinions have been offered as to their commercial value. Some, possibly in the majority, maintained that development of this natural resource would prove highly successful. Others were skeptical, even going as far as to ridicule propositions to make a try at making the province independent in a fuel sense.

"Possibly the most convincing argument advanced in favor of mining and treating the substance was the finding of the Ontario Research Foundation that good fuel could be manufactured at a relatively low cost and in quantities to supply the industrial and domestic needs of the North, if not the entire province.

"The extensiveness of the Onakawana field, and the possibilities in an industrial sense, may be gauged from the fact that 125,000,000 tons have been proven by diamond drilling in an area of 13 square miles. This does not mean that when this huge quantity is dug out and treated that the fuel-making industry will be at an end. Rather, it is estimated that the substance can be mined for years and years and still show no sign of becoming exhausted.

"Industrial possibilities in the wake of the development of the lignite fields are difficult to even imagine. It may be found that this fuel can be supplied to plants at a price to warrant activity now shunned because of operation costs. It is even possible that electrical energy may, in some instances, have to take a back seat.

"The development scheme is to be launched under most favorable auspices. The government has indicated willingness to spend sufficient to carry out a reasonable experiment, and with Col. Lang's faith and optimism as the driving force, there isn't any doubt but that the worth of lignite as a fuel will be proved if it possesses the value it is believed to hold.

"Northerners will be solidly behind Colonel Lang in his effort. They know that he will make an earnest endeavour to settle once and for all the question, "Is the vast Onakawana lignite field possessed of any commercial worth?"

Port Arthur News Chronicle.—A salary of \$500 per year as a minimum for rural school teachers has been established. There is, besides, the possibility occasionally of marrying prosperous young farmers.

LAME BACK

Gin Pills give prompt relief from backache resulting from deranged kidneys. They soothe and heal irritated tissues and assist the kidneys in their function of eliminating poisonous waste matter from the system.

Funeral on Monday of Merritt Taylor

Resident in Timmins for Nine Years. Many Years a Citizen of Sellwood, Ont. Death Much Regretted.

Funeral services for Merritt Taylor, who died last Friday after a short illness, were held from his home at 222 Birch Street, north, on Monday afternoon at 2.30, when a large number of his friends were present to pay their last respects. Rev. Bruce Millar conducted the ceremonies at the house and at the graveside in the Timmins cemetery.

Mr. Taylor, who was 75 years of age, had lived in Timmins since 1926, but had been in Northern Ontario for many years previous to that time, in Sellwood, near Sudbury. Born at Wallace, Ontario, he entered the contracting business early in life and was a successful builder. Most of his life he lived in Ontario except for a few years on the Pacific coast in the state of Washington. In Timmins he was well known and highly respected.

Pallbearers were:—George Kyle, W. Johnson, Wm. Johnson, P. Cotrell, Albert Atkins and R. Miner. In addition to his wife, formerly Miss Mary Montgomery, of Bracebridge, a family of seven survives. Mrs. A. H. Hawker, of Gravenhurst; Mrs. W. L. Hanson, of Sisco; Miss Caroline, of Timmins, and Miss Hope, of Dan, of Kirkland Lake, and Archie, of Schumacher, are the sons.

Floral tributes sent to the home included those from Mr. and Mrs. A. H. Hanson; Kirkland Lake Mixed Bowling League; Miss Mabel Collins, Kirkland Lake; J. Kramer; MacKenzie's Tea Room; Mr. and Mrs. W. Smith; Mr. and Mrs. I. F. Whitney; Mrs. Colborne; Mr. and Mrs. James Aspin, of Kirkland Lake; Mr. and Mrs. Thomas Lainsbury; Mrs. Glazier; the Macmillans and the Johnsons; Bob Miner; Mr. and Mrs. M. Shinehoff; the Woolworth staff, Timmins; H. A. Bridger; Woolworth Staff, Kirkland Lake; Mr. and Mrs. R. Vansickle; the Express Boys; Mrs. Dierk.

Propose Investigation in South Cochrane Riding

In a recent issue The Advance made reference to probable enquiry into affairs of the Northern Development Department in recent months, as said to be requested by John Rowlandson, M.P.P. In connection with this question, The North Bay Nugget published the following special despatch which it received from Kirkland Lake some days ago:—

"Charges which John Rowlandson, M.L.A., Porcupine Junction, has made against the Department of Northern Development in South Cochrane riding may possibly be investigated by a Royal Commission appointed by the Hepburn government. It was intimated at a district Liberal meeting in Ansonville, Official confirmation or denial of the possibility is expected within the next few weeks. Mr. Rowlandson has requested this. An Ontario government mine tax is hinted at in a resolution favoured by the meeting, which reads: "If a mine tax is collected by the Ontario government, a proportion of it should be returned to the municipality in which the mine is located, to apply to the cost of schools, hospitals and silicotic patients. A motion was introduced opposing the pollution of Kenogami and Seseekinika lakes by mining operations in and around them. Amendments in the T. & N. O. Railway Act are being asked, making the railroad responsible in case of accidents."

Toronto Mail and Empire.—Two stories in yesterday's paper suggest that even the old conception of death is no longer valid. One says that a discovery has been made whereby frozen animals are restored to life, and the other reports an Owen Sound child brought back to life after an adrenalin injection.

Not because our business is BAD but because our business is GOOD

We Announce:

A DRASTIC PRICE REDUCTION

FOR a number of years Ovaltine, the famous tonic food beverage, has been manufactured in Canada. An ever-increasing sale has developed in this country, and an ever-widening appreciation of its beneficial qualities, not only among Canadian physicians, dieticians and nurses but by the Canadian public at large. These developments have permitted certain reductions in the cost of manufacture and these savings will now be passed along to you.

Take Advantage of This Opportunity

Coming at a time like the present when Economy is the general watchword, these price reductions on Ovaltine will be more than welcome. They will enable people who have used Ovaltine for its health-restoring value in cases of underweight children, nervousness,

sleeplessness, convalescence and other such purposes to widen their use of Ovaltine so as to include it as a table beverage... a "pick-me-up" between meals... a "night-cap" at bed-time... a delicious beverage at any time or any season, either hot or cold.

Your druggist or grocer will supply you. On sale everywhere.
