

How to Make Vegetable Dinner a Real Success

Combine Vegetables of Different Textures if you Want a Tasty Plate. Here are Suggestions for Three Different Dinners.

(By Edith M. Barber)

flowers, buttered and slipped into the broiler a moment. The result of this varied treatment of the vegetable is most appetizing.

At another restaurant, a broiled vegetable dinner is famous. Mushroom caps, tomato halves, celery stalks and sweet potatoes are arranged in individual oval casseroles. The sweet potatoes have undoubtedly been parboiled before being arranged in the dish. Butter is generously spread over the vegetables and they are either baked in a hot oven or broiled under a law flame. Sometimes stalks or canned asparagus are substituted for the celery.

A good combination of the inexpensive vegetables and canned vegetables can be made to advantage also. Place a mound or mold of rice in the centre of the plate and garnish with a round of pimento. Surround with glazed onions, sautéed parsnips, buttered oyster plant, buttered lima beans (canned) and spinach (canned or fresh).

Glazed Onions

Peel onions and cook in a small amount of water with a dash of sugar and salt in a heavy covered utensil until tender. When tender place in a saucepan with two tablespoons of sugar and two tablespoons of butter. Cook over a low fire until sugar is melted. Baste with the syrup and serve.

Hollandaise Sauce

2 cup butter
2 egg yolks
1 tablespoon lemon juice or vinegar
1-4 teaspoon salt
Few grains cayenne
Divide the butter into two pieces, put one piece in a saucepan with the yolks of eggs and lemon juice, hold the saucepan over a larger one containing boiling water, stir constantly until the butter is melted, then add the second piece of butter and stir until it thickens. Remove from the fire, season with salt and cayenne and serve at once.

Canada Lumberman:—Records show that the only criminal offence consists in being too poor to hire the right lawyers.

John McLeod Passes Aged Eighty-four

Well-Known and Popular Prospector Here Since 1906. Had Wide Circles of Friends.

John McLeod, well-known and esteemed pioneer prospector of this part of the North, died at St. Mary's hospital, Timmins, about 3 p.m. on Saturday at the age of 84 years. He had been ill only about ten days, the condition of his heart causing the trouble. Until a very short time before his death, he was active and able and in physique and health of mind and body could easily have passed for a man 20 or 30 years younger. Last summer at the time of the celebration of the 25th anniversary of the Porcupine mines he met Noah A. Timmins, Hon. Wesley Gordon, Hon. Chas. McCreay and others here and had a very happy time recalling old times in this country. His memory was retentive and as he had been all over the world and had many exciting and unusual experiences, he was a very interesting conversationalist. A true Highland gentleman, he made friends wherever he was known and in the passing of John McLeod the North is left the poorer.

The late John McLeod came to the North as early as 1906 and did prospecting work for N. A. Timmins. In 1907 he came to the Night Hawk area where he later staked a number of claims, some of which will some day prove of outstanding value. He had great belief in the Night Hawk area as a gold field and retained this firm faith to the day of his death. His judgment will yet be justified in full.

The late John McLeod was born in the Isle of Skye and came to Canada at an early age. As a young man he worked on C.P.R. construction, and was in the West before the Riel Rebellion. On the visit of the Marquis of Lorne, the then Governor-General, to the Canadian West, John McLeod was chosen as one of the canoe men for the trip over the famous Dawson route.

John McLeod lived a full, a long and an adventurous life. He was of the British pioneering spirit and did much to open new country in Canada. He was widely known and all who knew him will regret his passing. He was a Highland Scot, "talking the two talks," and proud of his descent and lineage. In his effects was found a Caledonian Society of Timmins button, there being

Fruit-a-tives Gave Veteran Quick Relief From Constipation

Isaac P. Booth, 70 Wayland Ave., Toronto, relates in a sworn statement how Fruit-a-tives gave him quick relief from constipation and rheumatism brought on by military service. "So that everyone can be sure of the truth, he told his experience under oath before a notary. Mr. Booth says, "I was greatly bothered with constipation brought on by military service. I tried Fruit-a-tives and they gave quick relief and now keep me regular. I also suffered from rheumatism. Since I have used Fruit-a-tives, it does not bother me any more unless I take foolish chances in wet or cold weather."

Copy of Mr. Booth's complete sworn statement will be sent on request. Write Fruit-a-tives Limited, Ottawa, Canada.

FRUIT-A-TIVES—25c and 50c EVERYWHERE

a time when he was a proud member of that organization. Among the surviving relatives are two brothers in the West, one brother living near McLeod, Alberta, and another (Norman) residing at Melville, Sask. The wife of Hon Chas. Dunn, of the Saskatchewan government, is a niece of the late Mr. McLeod. Hon. Mr. Dunn telephoned here on receipt of news of the death and arranged for the shipping of the body to Melville, Sask., for interment. Messrs. W. Mills, A. Sterling and other old friends of Mr. McLeod looked after the arrangements here and the body was shipped west on Sunday from S. T. Walker's undertaking parlours.

Municipal Board to Hold Session Here

To Consider Application for Issuing Debentures for Addition to Moneta School

It isn't so easy to issue debentures as it used to be, the town of Timmins discovered when application was made recently for permission to issue \$30,000 worth of debentures to finance the building of an addition to Moneta Public School.

Under new legislation passed at the last session of the provincial house, applications are now made to the Railway and Municipal Board, who consider all aspects of the case and if they deem the expenditure necessary and not too great a strain on the municipality's finances, give authority. Formerly, towns issued their debentures without consulting the government, unless they were to be guaranteed issues.

Timmins doesn't have to go to the Railway Board—the board comes here—and as announced in an official advertisement in this issue of The Advance, they are to be here on Wednesday, June 5th, at 9:30 a.m. They will sit in the council chamber at the town hall and will hear the application. This will be the first time for such a procedure in Timmins. The hearing is public.

No difficulty is anticipated in obtaining permission to float the loan, as the financial condition of Timmins is more solid than most other Ontario communities. The bonded debt of the town is less than a million dollars, whereas other communities, even smaller than Timmins have debts of two, three and four million dollars.

To Examine Recent Finds in Porcupine

Dr. M. E. Hurst to be on Geological Work in Porcupine Area This Summer

A despatch from Toronto says that Hon. Paul Leduc, minister of mines, announces an aggressive policy of field work for his geologists during the coming summer. Six parties will be sent out in fields where promising discoveries have been made during recent months.

In the Lake of the Woods area, Dr. J. E. Thomson will make a detailed geological survey of a section of the country on the north side of Whitefish Bay, Lake of the Woods.

In the Namewaminikan section or Sturgeon River area two parties, one under Dr. E. L. Bruce and the other under Dr. C. H. Laird, will be detailed mapping of an area lying east of Nipigon and north of the C.N.R., extending from Lake Nipigon to Atigogama Lake.

Dr. W. D. Harding will be in charge of a party making a detailed survey of an area lying south of Birch Island, Patricia district. This work will include a reconnaissance survey of the country lying between Birch Lake and the Cat River, Kawinogans area, mapped out by Dr. Harding last season.

Dr. E. S. Moore will make a detailed geological examination of Hyslop township and parts of the neighbouring townships of Guibord, Playfair, Cook and others.

Dr. M. E. Hurst will make an examination of recent developments in the Porcupine area in connection with a preparation of a report to include the latest information on the geology of this camp.

SIX MONTHS TERM GIVEN TO SNATCHER OF PURSE

Six months at hard labour was the sentence imposed recently at Halleybury by Judge Hartman on Philip Mercier, Kirkland Lake young man, convicted on a charge of robbery arising out of the theft of a woman's purse in the gold camp six months ago. A similar charge against Maurice Gaborou was dismissed by the court, while Lucien Dionne, the third member of the party and the man alleged to have actually stolen the purse and contents, disappeared after the affair, and has not since been located.

Boy Scouts in Timmins

Most of the Timmins troops are holding their weekly meetings in the form of hikes just now and it's a real pleasure to those who are sponsoring Scouting here, as well as the boys themselves, to see cooking and camp pitching going ahead efficiently and safely. The knowledge gained in expeditions of these kinds is never forgotten and is usually of value all through a man's life.

There is something really satisfying about being able to get along in the bush with the minimum of equipment. No well-trained Scout need fear very greatly being lost for a few hours in the bush. He knows what to do and if he follows the teaching of his Scoutmasters, he has a far better chance of coming out of an unfortunate bush experience unscathed than has an untrained brother.

"Proficiency badges" occupy a large place in Scouting. They are neat circular cloth badges having on them the words "Boy Scouts" and an insignia denoting the particular craft, sport or learning for which they are given. Too often the supposition persists that proficiency badges are easily obtained. Here, for instance, are the things a Scout must do or know before being granted his "Camper" badge:

"Must have camped out a total of 30 nights either in bivouac or under canvas.

"Know the minimum requisites in kit, utensils, and rations required for seven boys for a week's camp in summer.

"Demonstrate what kit he would take on a hike or canoe trip by himself, and have taken part in a tramp, trek or canoe trip of not less than three-day duration, covering at least nine miles per day.

"Know how to select and lay out a camp for (1) patrol; (2) troop of 32 boys, making necessary kitchens, rubbish pits or incinerators, latrines, etc.

"Must have cooked 30 camp meals.

"Demonstrate how to pitch and strike a bell or other standard tent and carry out ordinary repairs to same.

"Demonstrate that he understands the use and care of an axe.

"Build a shelter for three Scouts, using only natural materials.

"Know the precautions to be taken against forest or prairie fires, or both.

"Know the precautions to be taken to avoid the danger of contaminated drinking water.

When the test is taken, it is not shrouded in any manner. A Scout who has his Camper badge really must accomplish all that is laid out above. As is easily seen, the conditions are not satisfied in any week or so of teaching.

The Camper badge is not the only

These modern rooms can be yours at very little expense. Don't tolerate old-fashioned plumbing any longer. Visit our showroom and see how modern a bathroom can be. We are now prepared to completely equip or renovate bathrooms including tile or imitation tile walls, floors and built-in fixtures. Prices gladly given and terms arranged.

one connected with the problem of looking after oneself in the bush. In fact, a majority of the Scout badges apply to out-of-door activities.

Excellent Weather Here Victoria Day

How the Day was Spent This Year by People of Timmins and District.

For the first time in many years, Victoria Day in Timmins was warm and cloudless. "Garden Day" would perhaps be as appropriate a name for the manner in which Timmins celebrated. Building lawns, planting seeds and shrubs, cleaning up, and laying out new beds seemed to be among the most popular activities.

The warm weather attracted many groups of men and women as well as children to the lakes and rivers of the district. Many a little camp fire blazed when Timmins people had their first real opportunity to pack some bacon and eggs for an outdoor meal.

Swimming in the Mattagami was a sport in which more than one young person took part. The water was cold but the hot sun made up for what the water lacked.

Fishing was another well patronized sport and although a few good catches were reported, most of the anglers found the sun too brilliant for ideal fishing conditions.

In the evening there were the usual

displays of fireworks emanating from all parts of the town. For a period of two or three hours, sky-rockets blazed against the dark sky.

Altogether, Timmins people thoroughly enjoyed themselves in a quiet enough way on the 1935 anniversary of the birth of Victoria.

Motor Cycle Trip Toronto to Timmins

"Scotty" Gibson Takes a Few Headers on the Journey but Says Generally it was All Right.

Leaving Toronto last Wednesday morning, "Scotty" Gibson, an ambitious young man, arrived in Timmins late the following day via motorcycle. Scotty says that up to North Bay it was a swell trip, but from there up the roads certainly weren't built for two-wheeled vehicles. He had one or two spills but no serious damage was done either to the driver or the machine. The cycle is a light British make. He's just up looking the North Country over and may or may not return to Toronto, he says.

London, England.—British amateur champion for the second successive year, his strangle-hold on world amateur golf more secure than ever, Lawson Little has returned to London for a month's relaxation before competing in the British open at Muirfield.

MEALS COOK Automatically...

with this marvellous New Hotpoint Range

- MODERN TABLE-TOP DESIGN • THRIFT COOKER
- HI-SPEED CALROD ELEMENTS • UTILITY DRAWER
- ALL-STEEL CONSTRUCTION • STAIN-RESISTING ENAMEL

Free yourself from tedious oven watching. Let this new Hotpoint Automatic Range be your kitchen maid—cook delicious meals in your absence—give you countless new hours of leisure. You simply adjust the Hotpoint control and forget about the next meal until ready to serve. No bustling, tasting or "peeking"; And Hotpoint flameless cookery is clean as sunshine. Speedy, too, for Hotpoint Calrod "cooks as fast as food will cook." Visit our local store and inspect the modern features of this Hotpoint "Electric Range of To-morrow."
