More Accommodation at St. Mary's Hospital Now

Sisters Give up Sleeping Quarters to Add to Accommodation for Patients, Pending Building of Nurses' Residence. Superior General and Provincial Superior Visit Hospital.

Owing to the increasing population of Timmins, the Sisters of St. Mary's hospital have been unable to meet all the demands for hospitalization during the past few years and during the last winter in particular. This condition has continued, despite the addition of extra beds from time to time.

During the visit here recently of Reverend Mother Praxede of Providence, Superior General of the Community of Sisters of Providence, Montreal, special arrangements were made to increase the capacity of the present hospital. This was made possible through the Sisters of the hospital giving up their sleeping quarters now situated on the third floor. These are to be converted into new rooms for patients and will extend the hospital's capacity by more than 15 beds.

The Sisters will be obliged to use the rooms located over the laundry for their sleeping quarters temporarily.

These rooms were not intended for that purpose but owing to present circumstances they have been forced into use until such time as a nurses' residence can be built, at which time proper sleeping quarters will be available. It is hoped that the nurses' residence will be built in the near future.

Reverend Mother Praxede has had extensive experience in hospital work, having been associated in that work for more than 40 years. There are some four thousand members under her charge.

The Order of Sisters of Providence is a large one with approximately 110 institutions including hospitals, orphanages, schools and academies scattered all over Canada and the United States.

She was accompanied to Timmins by Reverend Mother Felicite, Provincial Superior, also of Montreal.

Notable Programme for Dance Recital

Children's Dress Ball Tonight and To-morrow Night to be Pleasing Event.

The dance recital and children's dress ball by the pupils of Miss Margaret Easton promises to be an event of outstanding interest and one that will be thoroughly enjoyed by all attending. The event is to be held in the Masonic hall, Timmins, to-night (Thursday) and to-morrow night (Friday) commencing at 8 p.m. Miss Margaret Easton, who is a very gifted dancer herself, has a large class of very graceful and promising pupils, and rehearsals show an unusual talent and skill in the little dancers. There have been several references in The Advance to this event, which is one of special interest and importance in several ways. Probably the rest of the story about this dance recital and dress ball can be best suggested by giving the programme as planned. The programme is outlined as follows:—

- Grand March.
- Highland Fling.
- Specialty Tap.
- Sword Dance.
- Sailors' Hornpipe.
- Flower Dance.
- Baby Tap.
- Irish Jig.
- Skirt Dance.
- Group Tap.
- Intermission.
- Floralora.
- Jarave Tapitio.
- Gavotte.
- Group Tap.
- Dutch Dance.
- Skirt Dance.
- Solo Tap.
- Foursome Reel.
- Grand March.
- God Save the King.

Those who enjoy dancing or like to see graceful and well-trained children should not miss this dance recital and children's dress ball in the Masonic hall, Thursday and Friday evenings of this week, June 6th and 7th, commencing at 8 p.m.

Changes Planned in the Northern Development Dept.

That Hon. Peter Heenan, Minister of Lands and Forests, is going to take a much more active part in the administration of that branch of his services, and concentrate on bringing the department up to a maximum degree of efficiency, was indicated at Toronto last week, according to despatches.

For some months, a great part of Mr. Heenan's time has been spent in ironing out the involved Trans-Canada highway tangle with the Dominion Government. With this arranged between White River and Schreiber by contract and a general plan of arterial road work now being possible, Mr. Heenan is to concentrate on improvements in the Department of Lands and Forests.

This will not involve any further changes in staff personnel, it was indicated. The likelihood appears to be that a Deputy Minister of Forestry will be brought in from outside the service.

There is considerable dissatisfaction with certain government policies. The recent reduction in pulpwood dues has not met with the success anticipated. The main difficulty appears to have been that from the moment the government cut the export fee, the American buyers promptly refused to pay the old price of over \$11 a cord and attempted to take advantage of the reduction.

Since Mr. Heenan did not see how this action on the part of the United States buyers could have the desired effect in Canada, he promptly refused official ratification to such orders, which under the regulations must first have departmental sanction.

What the T. & N. O. Means to the North

Another Interesting Article from the Recent Issue of The Porcupine Quill, High School Magazine.

In recent issues The Advance has been publishing articles from The Porcupine Quill with two reasons for this—first, for their undoubted interest to readers, and second, to indicate the special value and interest of the contents of The Porcupine Quill, the annual magazine issued by the pupils of the Timmins High and Vocational School. Below will be found another of the special articles in this year's issue of The Porcupine Quill. It may be added that The Porcupine Quill is on sale at local book stores and is more than worth the nominal price charged, either from the standpoint of interest or value. The article given herewith is as follows:—

What the Temiskaming and Northern Ontario Railway Means to the North (By Basil Howse)

Few people in Northern Ontario realize the immense value of the Temiskaming and Northern Ontario railway to the North. Most people, if they think of it at all, think of it as a joke: they have even originated the nickname, based on the initials: "Time No Object." Despite all this derision the T. and N. O. plays an important part in Northern life.

The service it gives to the mines alone is sufficient reason for praise. Almost every day in the week, mine machinery and supplies are brought in by freight. This machinery might be brought in by trucks, but trucks would take a longer time; and it would be an unsafe mode of transportation when dynamite and blasting caps were being shipped. The railway co-operates with the mines when serious accidents occur, such as the Hollinger disaster of 1928, when it rushed north a special train carrying rescue equipment. Without this

Timmins Kiwanis Issue Challenge to Kirkland

Invite Kirkland Lake Club to Come up Here Again for Golf Trophy. Kiwanis Boys' Potato Club Makes Good Progress. Interesting Meeting on Monday.

Timmins Kiwanis Club golfers issued an invitation to the Kirkland Lake club this week that they come up here some time soon and try to get back the Fulton trophy, now in the possession of the local club. The date has been left open until the other Kiwanis club replies.

Prospects of a golf match between the Kiwanians and Hollinger mine golfers seem bright but nothing definite has been done about that, either. The boys' work committee reported at the Monday meeting and told of the success to date with the Kiwanis Boys' Potato Club in which there are at present 19 members. A member of the Kiwanis Club is to be selected to act as

a sort of advisor to each boy. Most of these have now volunteered but there are still three or four needed. The committee reported that the field is now ready for planting and that so far, everything has gone just as planned. Some discussion was held about the method by which money to carry on the public service work of the Kiwanis would be raised this year, but no decision was made. It is not likely that the club will stage anything before early fall.

Next week it is expected that some of the entertainers, from the Conklin Shows will be guests at the luncheon. June 17th is past presidents' day and the programme will be in their charge.

Col. Mac Lang Hopeful About the Silver Camps

High optimism prevails in Cobalt and Gowganda for the future of the silver mining industry in the North, and preparations are going ahead for an intensely busy summer season in the area. Col. Mac Lang, chairman of the Temiskaming and Northern Ontario Railway, announced at North Bay last week.

"Gold mining is, of course, going ahead by leaps and bounds," Col. Lang stated, "and unless something very unexpected happens silver is in for one of the biggest years it has had since the bottom fell out of the silver market."

"Right now the old Morrison Mine at Gowganda is being dewatered and otherwise being made ready for production again. This mine was closed about five years ago when silver dropped below 35 cents an ounce, but now it is going to operate again," the colonel continued in optimistic vein, "and there are a number of other old properties coming back."

"Finances for silver development are available to-day, and it is surprising the number of options that have been taken out on Cobalt and Gowganda properties," Col. Lang stated.

Like a ghost coming back to life, is the stirring of the Cobalt camp, dormant now for many years. Names like Nipissing, Castle-Trethewey and others, that conjure up memories for old-timers are again being talked in financial circles, and many believe that the day is not far distant when they will again produce silver, not in the tremendous quantities of the past, perhaps, and not from the same fabulously rich ores, but in a steadier and more dependable fashion.

Traffic through the North generally is good, Col. Lang stated, with the major industries busy.

Bears Reported in the Matheson Area at Present

Reports from Matheson and district say that bears are unpleasantly plentiful in the area. Last year the same complaint was made. One despatch last week from Matheson says that bears are seen around the district in great numbers and farmers are annoyed by their presence in the barn yards. One woman and her 15-year-old daughter were coming towards home about dark when they saw a dark figure coming out of the forest and which they supposed was their dog coming to meet them, but proved to be a bear after them. In the race for home the woman fell and injured her knee. Her screams frightened the bear and it ambled off into the woods.
