

## South African Veterans Hold Re-Union in North

Notable Event at Kirkland Lake Last Week. A. C. Brown Timmings, one of the Speakers. Max Smith, of South Porcupine, Among Veterans Present at Event.

The annual re-union of the Northern Ontario District of the South African War Veterans took place at the headquarters of the Legion hall, Kirkland Lake, on Saturday of last week, June 1st.

Programmes and menus printed for the occasion show a large number of South African veterans in this North. The programmes for Saturday give the South African War Veterans in the North as follows:—

- Veterans of South African War 1899 to 1902**
- Timmings—A. C. Brown, D. C. Cotcher, South Porcupine—H. A. McDougall, Max Smith.
- Kirkland Lake—Gen. A. E. Smith, D.S.O.; Jerry Smith, E. Conway, L. A. Roy, J. Harris, H. Hill, T. Callaghan, Wm. Duncan, R. S. Simmons, Wm. Sutherland, Wm. Gowans, Geo. McGraw, A. Fulton, P. Johannes, H. Harris, W. H. Grice, S. Grice, H. Trulove. Cobalt—E. J. Holland, V.C.; R. J. Bird, Wm. O'Flynn, W. J. Ferguson, J. Hubbard.
- Englehart—J. Paterson, W. Lowes, S. J. Spencer, W. H. Parsons, Sam McCracken, Geo. Smith.
- Costello—Wm. Both, A. E. Blackey, Cochrane—R. Homer, J. MacKay, Kapuskasing—Major Moir.
- Porcupine Junction—F. P. Knapp, Chaput-Hughes—H. Kinnesborough, Swastika—F. Miles.
- Haileybury—J. Farmer.

Krugersdorf—J. Ludgate, New Liskeard—W. L. Kenseit, Sessekinika—Isaac Shea, Bourkes—Chas. B. Morgan, Dome Mines—A. Dowsett, Green Stabellie, P.Q.—H. E. Larkin, Others included in the Northern Ontario District of South African War Veterans are—D. Turnbull, Ottawa; Bob Neale, Grimsby; Col. W. L. Lawless, London; Joe Porry, P. Bernmer, J. W. Louitwaite, W. S. Raven, J. W. Axe, F. J. Godfrey, A. R. Holt, P. E. Hill, Col. J. E. Straight, Col. W. H. Scarth, Major Howard Smith, Geo. Simmons.

**Saturday's Event**

On Saturday last for the re-union the veterans were met by Jerry Smith, of Kirkland Lake, who was largely responsible for bringing about the gathering. After all had assembled at the Wright House, Kirkland Lake (headquarters of the Canadian Legion British Empire Service League) and the men had been fitted with berets, Gen. A. E. Swift, D.S.O., called the parade to attention. It was noted that these veterans were wearing their South African decorations and in a great many cases the Great War medals as well.

Escorted by the Boy Scouts with colours, and the Kirkland Lake band, the veterans marched to the War Memorial where General Swift placed a wreath in memory and respect to all the late comrades.

Standing at attention the bugler (Jerry Smith) sounded the "Last Post," followed by the old regimental call and "Lights Out." This ceremony was very impressive.

The parade marched back to the Legion hall where a banquet and entertainment had been prepared. Gen. Swift was chairman. There was only one guest of honour, R. J. Carter, reeve of the Township of Teck.

### Programme at Banquet

The printed programmes showed the following members below a picture of the flag:— Chairman, Gen. A. E. Swift, D.S.O. Speech by Major H. A. McDougall. Speech by A. C. Brown. Habitant reading, by Major E. J. Holland, V.C. Speech, Reeve R. J. Carter, Kirkland Lake. Speech, Wm. Gowans. Speech, Major Moir.

Among the speakers for the evening the principal address was made by Reeve Carter, whose gifted Irish address made a big hit with the gathering.

After a happy time in reminiscences and the recounting of old times and old days, the evening was brought to a close by the impressive singing of "God Save the King."

**Those Present**

The following is a list of those present, with the regiment to which they belonged at the time of the South African War:— Present address, Kirkland Lake:— General A. E. Swift, D.S.O., and T. J. C. Smith, 14th Hussars; M. Harris, Imp. Light Horse; H. Truelufe, Page's Light Horse; P. Johannes, S. Grice, W. Sutherland, P. H. Callaghan, King's Royal Rifles; E. Conway, R.A.M.C.; W. H. Grice, Brabant's Horse.

Present address, Cochrane:—Major J. MacKay.

Timmings:—A. C. Brown, Canadian M. Rifles.

South Porcupine:—Max Smith, Gordon Highlanders; W. F. Evans, Cape-town Horse.

Englehart:—Jas. Patterson, R.A.M.C.; S. J. Spencer, Grenadier Guards; S. McCracken, Second C.M.R.; W. Lowes, T. Mead, Imp. Light Horse.

Haileybury:—J. Farmer, Canadian Rifles; G. Mesepine. Sessekinika:—Isaac Shea, First C.M.R. Costello:—W. Both, Second Batt. North Staffordshire.

Porcupine Junction:—Frank J. Knapp, Buffs.

## For the Discussion of Abitibi Affairs

Protective Committee of the Preferred Shareholders Issues Statement Regarding Affairs.

The secretary of the protective committee of the preferred shareholders of Abitibi Power and Paper Company has sent out a notice to holders of the two preferred issues that the committee intends to function after June 10. That was the date fixed by the Deposit Agreement for all classes of bonds and preferred stock, and after that date the holders of such issues may withdraw their deposits if they see fit.

The Deposit Agreement, dated June 10, 1932, allowed three years during which to work out a solution of Abitibi's affairs, and the letter to the holders of preferred stock states, in part: "It has been the hope of the committee that it would have been possible before now to put before the depositors a plan for the re-organization of the company, but conditions in the newsprint industry have been, and continue to be, such as to render impracticable any re-organization."

The committee accordingly believes it is in the best interests of preferred shareholders that a protective committee should continue to function "in order to be in a position to take concerted action in the event of its becoming feasible and desirable to do so." So the committee advises holders of the preferred to leave their stock on deposit.

In the meantime, the bondholders' committee has called a meeting for Friday of this week "for the purpose of discussing the affairs of the Abitibi Power and Paper Company, and considering, and if thought advisable, passing a resolution appointing a committee to represent the bondholders in the receivership proceedings."

The Deposit Agreement extends to bondholders the right to withdraw their deposits after June 10, that being the same right extended to the holders of the preferred stock.

The latest report of the Abitibi Company... the third to be issued under receivership... covering the year ending December, 1934, did not suggest any definite hope of the company being lifted from receivership by earnings in the near future. Earnings for the year available for depreciation and bond interest were reported at \$95,927. That included the results of the Thunder Bay Paper Company, but not of the Provincial Paper and the G. H. Mead Company. Bond interest alone on Abitibi's \$48,267,000 of 5 per cent. bonds called for \$2,413,350, thus showing the extent to which operations fell short of meeting that account, without providing anything for depreciation.

The local street has been doing much gossiping as to the possible move on the part of the Manitoba Government with relation to the Manitoba Paper Company which has been idle for a considerable period. Recent news from Winnipeg suggested that the Provincial Government was active in negotiations which might result in the reopening of the mill. It is understood that the Manitoba Government feels that, if it had control of the Manitoba Paper Company and of the timber limits now in the hands of Abitibi in that province, it could work out a more promising future for that end of Abitibi's affairs. In that connection the visit of the Manitoba treasurer in the east did not pass without comment. Suggestion was that he was working towards the above object, that is, lifting the Manitoba Paper Company and the Manitoba timber limits out of Abitibi's control.

The latest reports on Manitoba Paper, showing conditions as of Dec. 31, indicated expenses of \$62,888 incurred in carrying the shut-down properties for the year, before providing for depreciation or bond interest. That, after an interest and discount adjustment reduced surplus from \$2,230,725 to \$2,167,941.

### Smooth Rock Falls has Mild Epidemic of Twins

It is difficult to know just the easiest, clearest and quickest way to say it, but the fact is that Smooth Rock Falls has had two sets of twins in the last few weeks. This may be termed a mild epidemic of twins, and yet may not be thought so mild in proportion to the comparatively small number of families at Smooth Rock Falls. Also it may not seem to be proper co-operation with Dr. Croll in his "Adopt-a-Baby Week." Even a member of the Hepburn government would scarcely have the nerve to ask a family with twins to adopt a baby. The first pair of twins was born to Mr. and Mrs. G. Crumb, and the second, within ten days, to Mr. and Mrs. Les. Barry. The air at Smooth Rock Falls should be sent to the provincial department at Toronto for analysis.

### Girl Hitch-Hikes from Aurora to See the Five

A girl 17 years of age started to walk from Aurora to Callander to see the quintuplets. She was given several rides along the route but had to do quite a bit of walking also. It was Tuesday afternoon of last week before she arrived at Callander, reaching the Dafoe hospital just before the broadcast at 5 p.m. Just as soon as the broadcast party was over the seventeen-year-old girl started to walk back to Aurora. The incident is just another proof of the fact that the quintuplets are of interest all over the country and are attracting unusual attention from the young and the older.

Florida Times-Union:—The absent-minded professor used to be a joke. Now he is a government asset.

# Values THAT ARE REALLY WORTH WHILE!

## Specials for this Week-End

<b>SCOT TOWEL DEAL</b> 1 roll and 1 holder Both for <b>25c</b>	<b>Indian Tea</b> lb. <b>45c</b>
<b>COFFEE</b>	<b>Blend Tea</b> lb. <b>37c</b>
<b>Bokar</b> lb. <b>33c</b>	<b>Golden Corn</b> 17-oz 3 tins <b>27c</b>
<b>8 O'clock</b> lb. <b>29c</b>	<b>Pork &amp; Beans</b> 26-oz. 2 tins <b>21c</b>
<b>Red Circle</b> lb. <b>25c</b>	<b>Plums</b> 3 tins <b>25c</b>
<b>Peaches</b> Halves, 2's squat tin <b>18c</b>	<b>Salmon</b> 1/2's tin <b>18c</b> 1's tin <b>32c</b>
<b>Pep</b> package <b>11c</b>	<b>Creams</b> 2 lbs. <b>25c</b>
<b>Catsup</b> 12-oz. 2 bottles <b>25c</b>	<b>Cookies</b> 2 lb. <b>27c</b>
<b>Peaks</b> lb. <b>23c</b>	

### Week-End Meat and Fish Specials

Boneless Rolled <b>Veal Fillets</b> lb. <b>12c</b>	<b>Sliced Breakfast BACON</b> lb. <b>25c</b>
Long Clear Dry Salt <b>Bacon</b> lb. <b>19c</b>	<b>Lamb Fronts</b> lb. <b>10c</b>
<b>Blade Roast</b> lb. <b>14c</b>	<b>EXTRA SPECIAL Young Lamb Legs</b> lb. <b>20c</b>
<b>Short Rib Roast</b> lb. <b>15c</b>	
Fresh Yellowtail <b>Flounders</b> lb. <b>15c</b>	
Fresh Atlantic <b>Sea Herring</b> lb. <b>12c</b>	
Fresh Cod or Haddock <b>Fillets</b> lb. <b>18c</b>

### OVEN-FRESH FLAVOR-PERFECT

### New Form of House and Building Insulation

A late development in house and building insulation has been the introduction of insulation by reflection. The property possessed by bright metallic surfaces, of reflecting radiant heat has long been known, but early attempts to utilize this principle for insulation purposes met with failure due to the fact that the metals employed would not retain their bright surfaces for any appreciable time and the method of application was too awkward and costly for practical use.

Some ten years ago, two German scientists, Dr. Ernest Schmidt and Professor Edward Dyckerhoff, at the University of Munich conceived the idea of using brightly polished sheets of pure aluminum for insulating purposes. Pure aluminum, it is determined, had a very high reflective power which would be retained indefinitely and in addition could be easily and effectively installed. Considerable study and research resulted in the development of a highly efficient insulation which combined the high heat reflective value of pure aluminum with the low conductance of air spaces between the sheets.

Some of the advantages obtained by insulation by reflection for house and building purposes are of high insulating value, extremely low weight, long life, clean, odorless and vermin-proof qualities. Other features are fireproof, non-absorption of moisture, rapid fire preheating and low heating storage capacity.

In regard to Aluminum Foil insulation, D. N. McIntosh, of the Brantford roofing Co., Brantford, Ont., says that it can be installed at a reasonably low cost. No dirt or inconvenience is caused to the occupants of a house as the material takes up very little space and is free from dust. A workman can carry enough under his arm to insulate an average six-room house. In house and building construction aluminum foil insulation is installed between the studs in frame or brick veneer walls and between the roof rafters or ceiling joists over the second story. The foil is first crumpled to provide an expansive property and is then fastened to the sides of the studs, rafters or joists by fibre strips tacked in place. This insulation can also be installed in furrowed spaces between strapping on the inside of solid masonry. It can also be applied to the underside of flat roofs either of wood or concrete. Various special methods of installation have been worked out and the flexible nature of the material allows it to be readily adapted to the insulation of any structure. This insulation has been successfully used at high and low temperatures for other insulating problems in the transportation and industrial fields, for pipe lines, cold rooms, refrigerator cars, trucks, locomotive boilers, process tanks and equipment.
