Timmins Bowlers in Cochrane Tourney

Bring Back Pocket Knives as Prizes When Local Team Beats Cochrane and Kapuskasing.

Timmins bowlers carried away the honours at Cochrane last week-end when they defeated Cochrane and Kapuskasing teams in a tournament played on the smooth lawn in front of the court house.

M. B. Scott was the skip, W. Nicholson vice-skip, C. F. Huckerby and Mr. Goldie. The two Kapuskasing teams were drawn to play off while Timmins won from Cochrane, 16-14. E. J. MacVittie skipped the Cochrane team. Then in the finals when the Timmins team met the Kapuskasing team skippered by A. Husband, the score was 14-11 for Timmins.

Individual prizes brought back by the Timmins men were pocket knives. W. Whyte Jr. and R. Maxwell accompanied the Timmins team as substitutes.

High-Grade Samples from Week's Run of the Press

Sudbury Star:—Judge in West Virginia declares nurses are neglecting patients in order to play bridge. It's an old charge, that nurses hold too many hands.

St. Mary's Journal-Argus:—Thomson: "Yes, it was a wonderful party. Last thing I remember clearly was Bronson getting into Jones' grandfather clock and trying to telephone his wife."

Ottawa Journal:—A Hull woman with tiny feet may win free shoes for life. There should be a competition to do something for the man with the largest feet.

Blairmore Enterprise:—A newspaper heading read: "Tourist trips over the mountains." And Annie remarked: "The darn fool! He should have looked where he was going!"

Sudbury Star:—There are any number of willing applicants for the "share the wealth" plan, but a shocking shortage of those eager to join the "share the deficit" movement.

Toronto Mail and Empire:—The feat of flying an airplane continuously for 27 days does not prove anything that flapole sitters had not already demonstrated.

North Bay Nugget:—Thousands are travelling hundreds of miles daily to get a glimpse at the "Sweethearts of the World" . . . all of which means considerable new business for North Bay.

Toronto Mail and Empire:—The sad plight of the Scotch golfer who fortified himself copiously from a flask and made the worst score on record in the British open proves once more that not even a Scotchman can successfully mix business with pleasure.

Ottawa Journal:—Much is made of the fact that Mr. Bennett crossed the floor of the House and entered into a long conversation with Mr. King. More than likely they were discussing whether cucumbers or spinach or something agreed with them. Whispered conversations between statesmen are not always about grave matters of state.

Kirkland Lake Northern News:—At Essex Falls, N.J., they have issued an ordinance forbidding ducks, roosters and dogs to emit their customary noises between 10 a.m. and 6 p.m. Well, if they can do that in New Jersey, township council might do something about auto-horn tooters here.

Chatham News:—Arthur Evans, leader of the Vancouver relief camp strikers, has never been in a relief camp in his life. He is in the argument, not because he is anxious about the welfare of camp workers, but because he is interested in establishing Communism in Canada and he thinks this is his chance to help along the idea.

Stratford Beacon-Herald:—Postmasters in session at Belleville want greeting cards classed as first class mail. The person who sends out 100 at Christmas would then pay \$3 in postage instead of \$1. We wait eagerly for the report of some gathering where the question of raising more revenue does not come up to mar the proceedings.

Toronto Mail and Empire:—Now that it turns out that the Bennett Government did not issue an order forbidding citizens from giving assistance to the Regina strikers, a lot of the citizens will wish they hadn't been so prompt to contribute.

London Free Press:—Some wealthy Canadians are said to be preparing to leave the Dominion owing to excessive taxation. There is a stage in taxation where the higher the tax the less the return. Apparently we are reaching this stage in Canada.

Hamilton Spectator:—Tearing along the highway, taking chances, trusting to luck—that is the attitude that spells disaster for oneself and others. After all, what does this speed get the average driver except anxiety, even if he escapes more serious consequences?

Ottawa Journal:—Ancient Egypt, so we read, taxed the rich, but it hadn't reached that high peak of perfection seen in Saskatchewan where a man with an income of a million dollars would pay it all to the government—and still owe them \$102,000 on his year's operations.

Hamilton Spectator:—At Ottawa they are discussing plans to establish a new fuel industry in Canada, and it is reported that when the cabinet wanted to know why government aid was expected, the promoters chorused "For the love of peat!"

Stratford Beacon-Herald:—Peter Seath of Hamilton grove his car recklessly. He is spending ten days in jail and cannot drive again for six months. Which means that Peter may step on the gas again about the time they are taking the trimmings off the Christmas tree.

Second Tragedy Feared at Lake Temagami Now

The New Liskeard Speaker in its issue of Thursday of last week has the following:—

"The finding of an empty canoe and the sweater its occupant had been wearing when last seen, reported to the provincial police headquarters in Halleybury yesterday, is believed to indicate a second drowning accident in the Temagami Lake region within a week. Louis Gauthier, 16 year old Indian from Bear Island, is missing and is feared to have lost his life in the second fatality, while in the earlier tragedy search was still proceeding yesterday for the body of Bud Daoust, of Cleveland Heights, Ohio, drowned last week in Obabika Lake, when the canoe in which he and a companion upset.

"Information sent to Sergeant V. T. Reed, at police headquarters, from Constable Bert Braney, at Timagami, in the Gauthier case indicated that the youth had been missing since last Saturday. He is stated to have started out from his home at that time bound for Camp Chimo, his only companion in the canoe being his dog. This week, the dog, dripping water and tired, is said to have returned home alone, and a subsequent search instituted after the animal's arrival resulted in the finding of the canoe and sweater coat. There was no sign of Gauthier.

"Constable Braney, already out on the other fatality, was notified, and a party of ten men, in five boats, went out to search for the missing youth, although there was little to indicate where the apparent disaster and overturned canoe and its lone occupant. One theory is that the dog had upset the craft while moving about the canoe and that Gauthier had been unable to regain his hold of the boat, and there is a report to the effect that shouts had been heard on shore as if someone had been in difficulty on the water.

"Up to yesterday, searchers for the body of Daoust had gone unrewarded, and at the time the last report came in to police headquarters a plane and a dozen men were still keeping up the search. The water in which this canoe upset is reported as very deep, about 80 feet by sounding, and difficult was being encountered in the task. Daoust with another man named Joe Bascome, of St. Louis, had started out on a canoe trip through Northern Ontario. The canoe upset and, after hanging on to the upturned craft for a time, Daoust and Bascome started to swim to shore.

"Bascome made the trip safely but Daoust perished in the attempt. Last Thursday the survivor, naked and unable to obtain clothing, reached Temagami on foot to report the tragedy. He had trudged over fallen logs and rocks, had climbed high, dangerous trees and made his way over to portages before he was able to get out from the scene of the tragedy. Later, an airplane pilot located the canoe floating in the lake and efforts since then have been directed toward finding the body."

Cleveland Outfielder Badly Injured

A firecracker explosion which ripped Earl Averill's right hand at a picnic put him in a Cleveland hospital for a week and will keep him out of the Cleveland Indian line-up for three to six weeks. Averill suffered several lacerations on two of his fingers on his right hand and the bone of his right thumb was cracked when a firecracker he had ignited for his sons' entertainment exploded in his hand. His injury is regarded as a serious blow to Cleveland's pennant chances.

Discovery of Gas in Rouyn District is Now Discounted

(From the Rouyn Press)
The Rouyn Press learned this week of the staking for oil of 1,280 acres in Clerion township, some 30 miles south-east of Rouyn. Actually the stakers are inclined to believe they have made a discovery of natural gas, with coal also suggested as a possibility.

The ground was staked by Andy Morris and Joseph Benjamin, with whom are associated Andy Butko, Frank Jekenbenis and John Wasni. The circumstances as given to The Rouyn Press by Benjamin and Butko are that Morris, who was employed on a logging drive, noticed what he took to be a spring bubbling up from grey gravel and blue clay.

Scooping away the sand and gravel with his hand in order to take a drink, he muddied the water, and while waiting for it to clear, rolled a cigarette, lighted it and threw the match into the "water" which immediately burst into flame. After burning vigorously for six or seven minutes, all the while making a "buzzing" noise, the flames died out.

It was found that after a short space of time the "gas" in the form of bubbles in the water could be lighted again, after which it would burn for about the

same period as when first ignited, and this process could be repeated indefinitely.

A sample of the water was taken and sent to the National Research Council at Ottawa for analysis. A reply was received to the effect that the council does not undertake the analysis of water, the view being also expressed that an analysis would not likely prove of much value as no doubt the bubbles of gas which had been observed coming from the water were marsh gas or sulphuretted hydrogen arising from the decomposition of vegetable matter.

The stakers of the ground are indignant at the suggestion that it is marsh gas, pointing out that there is nothing in the way of marsh or musksg in the area.

Prominent local geologists with whom the Rouyn Press has discussed the possibility of finding natural gas in this area are inclined to scoff at the idea, pointing out that natural gas is not found in the pre-Cambrian rocks.

London Advertiser:—Good Canadians are sharply divided on questions of public policy, but one in respecting the office of Prime Minister and in spurning any man who hurls personal insults at its occupants. There are thousands of decent fellows in relief camps who repudiate Evans' claim to be their spokesman.

McIntyre Wins Again from Abitibi Team

Score Tied at Three-all, End of Seventh Inning. Malloy and Callery Pitch.

Tied at the end of the seventh at three-all, McIntyre's big ball team got down to hitting in the eighth to win from Abitibi on Saturday at Troquois Falls 6-3.

Malloy and Callery divided the game on the mound for McIntyre and Larroque pitched eight for Abitibi to McIntyre's one.

Most of the Abitibi's outs were made on snappy fielding, for only three McIntyre batters were struck out by the two pitchers. Malloy had five strikeouts in his five innings and Callery had four in the rest of the game. Just two men were walked, one by Larroque and the other by McArthur.

Prime Minister Honours Centenarian

Born two years before the great Queen Victoria ascended the throne of Britain, Thomas Scantlebury, now resident in the Protestant Home for Aged, Ottawa, celebrated the 100th anniversary of his birth in Cornwall, England. Prime Minister Bennett, Sir George H. Perley, Mayor Nolan of Ottawa and a large gathering of friends joined in congratulating Mr. Scantlebury on his birthday. The centenarian cut a large birthday cake with 100 candles on it. His clear features indicates the good health he enjoys, and as he has been a labourer all his life, he affords another striking example of the old claim that: "hard work never killed anybody." Mr. Scantlebury is shown here with Prime Minister Bennett.

Chambers-Wagar to be Battery in To-day's Game

This afternoon, the Porkies, victors on Friday at South End, will meet Hollinger at the local ball park in what should be a good game. So far, Holly has taken Porcupine twice and has lost to them only the once. But the Porkies are better now than they were at the first of the season.

Chambers will pitch for Hollinger this afternoon and Wagar will catch. A. K. Matson, manager, announced today.

Lady Golfers to Play Qualifying Round

Eighteen Hole Games This Friday Will Precede Club Championship Matches.

Winners in the putting competition in the ladies' section at the golf club last Friday were: First flight, Mrs. A. S. Forster; second, flight, Mrs. J. P. Burke; third flight, Mrs. Stephenson.

Friday of this week a large number of the members of the ladies' section are expected to turn out for the qualifying round for the club championship. It is an 18-hole game.

After the luncheon on Friday, it was decided that luncheons will be held at the clubhouse every Friday until the end of the season, so successful was last week's. Reservations should be made in advance if at all possible.

At least one more of the Monday night bridges will be played at the clubhouse next Monday (July 15). In the past they have not been well attended as they might have been, but since there have been other important attractions on previous nights, it was felt by those attending the meeting that a further trial should be given.

Sad Death Last Week of Little Noreen Hardy

There will be the sincerest sympathy extended to Mr. and Mrs. W. D. Hardy, of New Liskeard, in the death on Wednesday last of their little daughter, Noreen, two years old. The child had undergone an operation for appendicitis the previous Sunday and failed to survive the after-effects of the operation. W. D. Hardy, the father of the little girl thus passing away, is the auditor for the Northern Canada Power Company, and was formerly a popular resident of Timmins, being the oldest son of Mr. and Mrs. Thos. Hardy. Mrs. W. D. Hardy is also a former resident of Timmins, being a daughter of Mr. and Mrs. Joseph Morgan of town.

Empires Win 8 to 5 in W.S.A. Exhibition

W.S.A. Shows Improvement in Practice Tilt at Ball Park Friday.

An improved W.S.A. team lost out by only three runs to the unbeaten Empires in an exhibition girls' softball game on Friday night at the ball park when a small crowd saw the best game of the year.

Had not the Empires taken full advantage of an inning when the W.S.A. went "up in the air," the result might have been different. The final score was 8-5.

Empires held the lead all the way, taking two in the first inning when E. Thompson and I. Salley scored. Mrs. Thompson made another in the second before the first W.S.A. run was scored by Denisavitch. W. S. A. scored two more in the fifth Denisavitch and Bronco to tie the score. Empires went on a scoring tear and made five to fifth to give them the game. I. Price, L. Stewart, cf.; M. Dubeau, c.; Colbourne and L. Larsen c-ming home. W. S. A. made an effort to equal again in the sixth when Delinckuk and J. Essen tallied, but the Empires tightened down then and held them there scoreless in the seventh.

Empires—C. Colbourne, p.; E. Larsen, c.; J. Beaulne, lb.; A. Lukon, 2b.; E. Thompson, 3b.; I. Price, ss.; I. Salley, lf.; L. Stewart, cf.; M. Dubeau, rf.; M. Borland, cf.; Fassano, rf.; B. Hawse, p. W. S. A. Denisavitch, p.; J. Essen, c.; Gronco, lb.; Denisavitch, 2b.; Delinckuk, 3b.; Barliko, ss.; Delinckuk, lf.; Ploplis, cf.; Aiderchuk, rf.

J. Essen, W.S.A. catcher made few of the long hits of the game in the sixth when she lifted a three-bagger. C. Colbourne registered two strike outs and allowed no walks. B. Hawse struck out four and walked 2. Denisavitch, for W. S. A. got three strike out and allowed four walks. Delinckuk and Barliko of W.S.A. made the only double play of the evening.

To-night Empires go to Schumacher to meet the Excelsiors.

Today is the last possible for registration of players under the N.O.W.S. A. rules and although all teams had not turned in a complete list at the end of last week, it was expected they would before this afternoon.

STEARNS GOOD REPORTED AS CONTINUING TO IMPROVE

The condition of Stearns Good, who was injured in an auto accident near Ottawa a few weeks ago, continues to improve, according to reports from Ottawa.

Legion Picture, "Lest We Forget," Impressive One

The motion picture, "Lest We Forget," shown last week at the Goldfields theatre, and also at Schumacher and South Porcupine this week, proved one of the best war pictures ever shown in Canada. Returned men agree that it is true to life in every way and gives an impressive picture of Canada's part in the great war. The picture was shown here under the joint auspices of the theatres and the Canadian Legion, Timmins Branch No. 88.

Old Home Week Baby 1925 To Visit North Bay in Aug.

The Nugget last week says:—"During Old Home Week in August of this year, North Bay will have as a visitor the first child born in the city during Old Home Week in 1925—Mildred Doucette, now living at Nellie Lake, near Porcupine Junction on the T. & N. O. Railway.

Mayor W. G. Bullbrook received a letter in which the ten-year-old girl told him of her plans to visit the city, and in his reply the mayor assured her that arrangements would be made to fittingly observe her birthday. It has been suggested that some fitting memento be presented to the first child born in the city during Old Home Week, 1935, August 4 to 10."

Detroit Free Press:—The shortest headline that told all is still the one placed over a New York account of Thaw's escape from Matteawan: "Nut Bolts."
