## Strict Enforcement of the Traffic Laws

Provincial Police Also to Give Special Attention to Enforcing Safety Rules.

In Timmins recently there has been frequent comment about the absence of any serious auto accidents in the town limits. This is undoubtedly due to the strict enforcement of the safety rules by the police here. The Timmins police has been unpopular, perhaps, on occasion for checking up on traffic, but their work in this line has borne wonderful results. There is no doubt but that the strictness of the police has avoided scores of accidents of serious type in town. There have been plenty of accidents in the district, however. It is only fair to add that the majority of the accidents in the district are due chiefly to the bad condition of the roads. The "back road" is in such condition that the wonder is that there are not more accidents. It may be added that provincial police are also working to enforce the safety rules with the idea of avoiding auto accidents. There are new amendments to the traffic laws that are being given special attention. These may be summarized as follows:—

Where glass is broken in a car it must be replaced with safety glass.

All cars now operating not considered safe by the provincial police are to be removed until put into good condition.

All persons owning garages, parking lots or spaces and used car lots must have a license.

All garages must report accidents where the cars are brought to the garage and in no case must the car involved in a serious accident be taken away until the police arrive.

All bicycles must have a light on the front and a reflector on the rear and a white strip two inches wide and 10 inches long painted on the rear mud-gard.

Commercial vehicles must have their load distributed so that none of it will fall off.

Commercial vehicles parked or disabled on the highways at night must have lights or flares placed 100 feet on each side of the vehicle.

No car shall be left parked on any highway unattended.

If a judgment is obtained as a result of any suit for damages arising out of an accident, the license of the person will be suspended until such judgment is paid.

Glaring headlights are to be checked; 32 candle power bulbs are not allowed.

## Information About the Barnes Circus

Arrived This Morning. Some of the Big Features. Leaving at Midnight for Kirkland Lake.

ARRIVAL.—Aboard special steel railroad equipment over the T. & N. O. railroad, early Thursday morning from Haileybury.

FEATURES.—Great Bernetti Family, Italian equestrians; Mabel Stark, queen of tiger trainers; Captain Terrell Jacobs, and 90 forest-bred lions; The Dazzling Burbans; The Wattieres Troupe; Escalante Family, acrobats and aerialists, and immense spectacle, "The Fiesta of the Rio Grande."

SHOW GROUNDS.—Ball Park, Today.

TICKETS.—On sale beginning at 9:00 a.m. to 5 p.m. at Burke's Drug Store, admission, and individual numbered grandstand chairs. Same price as at show grounds. White wagon open continuously at the show grounds, for purchase of reserved seats. Red wagon opens at the show grounds for sale of general admission tickets, simultaneously with the big show doors.

DEPARTURE.—Via T. & N. O. railroad at midnight for Kirkland Lake, where circus exhibits Friday, July 12th.

NOTE.—There will be no street parade. None has been given since 1923.

## Urge Appointment of Senator for North

President of Associated Boards Calls Attention of Premier Bennett to Resolution of Board.

Noting the list of appointments to be made by the Bennett Government as published in the newspapers, W. O. Langdon, president of the Northern Ontario Associated Boards of Trade, this week recalled the fact that a number of Senators were to be appointed for Ontario and that there was a resolution passed some time ago by the Northern Ontario Associated Boards of Trade urging the appointment of at least one Senator to represent the North Land. Having hunted up the resolution Mr. Langdon recalled some of the discussion when the resolution was before the Associated Boards. It was pointed out that though the North was a very important section of the province and of special value to Canada, there had never been a Senator for this area. The needs of the North are apparent and the necessity for keeping these needs before the public is equally evident. On the other hand the value of the North to the people in general is so great as to make any effort on behalf of the North well worth while.

After considering the question from all angles Mr. Langdon wrote to Hon. Mr. Bennett, enclosing the resolution previously sent him and also outlining again the reasons why there should be a Senator from the North to keep Ottawa in the closest touch with the North, its needs and possibilities.

## Lancashire Club to Hold Annual Picnic, July 14th

The Lancashire Club are holding their annual picnic in Golden City Sunday, July 14th. All members are requested to meet at the Hollinger hall at 11 a.m., weather permitting.

Mr. Cope spoke briefly on the Union Jack and the British Empire, having particular reference to the magnificent support shown throughout the Empire in the recent celebration of the King's Silver Jubilee. He remarked that if all the King's subjects were to pass before Buckingham palace at the rate

of 100 per minute, it would take 27 years to complete the review.

Mr. Cope had been introduced by Kiwanian V. Woodbury and President Arch. Gillies tendered the thanks of the club for the instructive and interesting talk. Mr. Cope was accompanied to Timmins by M. Whity of Iroquois Falls. Other guests were Col. Mac Lang, chairman of the T. & N. O. Railway Commission, and Walter E. Lee of Toronto.

Boys' Work Well Begun

Chairman of the boys' work committee, Kiwanian McSlely, reported

that the sports supervisor was now engaged in instruction in games and

hobbies.

Kiwanian Feldman reported that the boys' potato club was going along steadily and that some of the plots are now ready for hoeing.

## B. L. Cope Speaks on the Art of Public Speaking

Kiwanis Club Finds Much of Interest and Information in Address to Club on Monday. Good Beginning Report-

ed on Work for Boys.

Timmins Kiwanians learned a lot on

Monday about "The Art of Public Speaking," from B. L. Cope, of the Abitibi Pulp and Paper Company, who

was a guest at the luncheon.

Be explicit in the outline of the subject, the speaker advised, giving examples of how some men insist on being vague. Definitions must be distinct and pronunciation correct if one wishes to be a successful public speaker, he said. Where terms relating to an industry, hobby, profession or any other undertaking must be used, those terms should be well reviewed by the speaker to be sure of their correctness, he advised.

Position on the platform, and poise

are two other important features that require thought, practice and consideration from those who appear on the public platform, Mr. Cope reminded them. The development of the voice

so that it is clear, words well rounded out, and has a sufficient range to reach to all parts of the average hall is another important feature.

## Vocabulary Important

Although Shakespeare had perhaps the greatest vocabulary of any known man, the average man of today has a normal vocabulary of 5,000 words, which properly used and well distributed throughout an address, is sufficient for most purposes, the speaker told them.

Mr. Cope spoke briefly on the Union

Jack and the British Empire, having

particular reference to the magnificent

support shown throughout the Empire

in the recent celebration of the King's

Silver Jubilee. He remarked that if
