New Syndicate Plans Reorganize Abitibi

Work Now in Progress on Arrangements to Provide New Capital Needed by Paper Co.

A despatch from Montreal this week says that reorganization of Abitibi Paper and Paper may be put forward by a syndicate including a number of prominent Ontario business men, if present events develop along anticipated lines.

Affairs of the company, as well as of Price Bros. and Co., Great Lakes Paper and Ontario and Minnesota—all newspaper companies which have gone into bankruptcy—have been studied at one time or another by more than one group. Certain legal obstacles have been in the way of reorganizing the Ontario companies, but with those now out of the way it is possible to carry out financial changes and thus put them back in a solvent condition.

Abitibi went into bankruptcy in September, 1932, when G. T. Clarkson, of Toronto, was put in control.

Since then the receiver and manager has made several changes with a view to strengthening the company's position. But the great deal that remains to be done in re-establishing the company can only be accomplished with additional working capital.

In order to secure the latter it is necessary to form a syndicate to underwrite whatever new securities it is planned to issue. To this end a number of well-known financiers and businessmen in Ontario have tentatively agreed to co-operate in a scheme to rehabilitate Abitibi.

Particulars as to the personnel of the committee are not available but will probably be made known when plans are further advanced.

St. Catharines Standard: It assuredly is no time for hair-splitting on Provincial and Federal rights when the grim spectre of mob law is hovering over this country.

Talk of New Building for South End Hospital

Reports of New Wing Not Confirmed by Authorities. Discussion on Advisability of New Building. Other Items of Interest from South Porcupine and the Dome.

South Porcupine, Ont., July 17th. Special to The Advance.

It has been felt for some time in the town that our local hospital is becoming too small to handle the number of cases that are daily being brought for attention. Rumor that a new wing is to be added however, lacks confirmation from the authorities. Something is in the air, though, and discussions as to the advisability of a new building in the north end of the town are being held. We are given to understand that our Councillor George Helmer, has offered ground for such a building, should the necessary steps be taken for its erection. Something definite is to be given the public before long on this point, but just at present, the proposition is in the balance. Due credit must be given for the amount of good that has been done by the Presbyterian Missionary hospital which we now have. Only those who lived in the camp years ago can thoroughly appreciate what a boon and a blessing our hospital has been. Still "the world do move," and South Porcupine's population is growing, so the question of hospital accommodation is one that makes itself felt. When the matter is settled, we have assurance that The Advance will be given full and definite particulars.

Mrs. Gordon Browne is holidaying in Brantford.

Mr. G. Trueblood has motored back from London and Toronto where he has been spending his holidays, and brought back with him Mrs. Carlson and Corinne, and Mrs. G. Johns and Frances.

Mrs. H. Hall and Jimmy are leaving on Monday for a vacation in Muskoka, Toronto, London, Cleveland and points south.

Mrs. Neelands, of Cobalt, has been the guest of Mrs. Kemsley at the Dome over the week-end.

Mr. and Mrs. Herrington have moved to Timmins from Connaught Hill.

Messrs J. Arthur, Alan Mulligan, and Harvey Mills, of Noranda, have been visiting at the home of Mr. and Mrs. Haneberry. Mrs. Mulligan's holiday here was marred by the news conveyed by telegram on Tuesday that his cousin, Earle McLellan, a boy of sixteen, was run down by a car at Copperhill and killed instantly.

It was too bad that so few people heard the concert given by Miss Estari Hukari in the United Church here on Tuesday night. Those who attended say that the lady has a rarely beautiful and well-trained mezzo-soprano voice. Although she sang mostly in the Finnish tongue, part of her programme was intelligible to the English speaking part of the audience, a number by Tschalkowsky, one by Bach and Handel's "Angels Ever Bright and Fair" being rendered in English. Her manner is quiet and prepossessing and her personality is pleasingly felt. She is making a tour of the North, from Massachusetts, having given concerts in Toronto, Kirkland Lake and Timmins. She is going back by way of the "So."

Miss Mary McIntosh is holidaying in Halleybury, from whence she will join the C.G.I.T. Camp Lorraine on Lake Temagami.

Miss Beatrice M. Smith left on Tuesday for a month's vacation in Toronto.

Mrs. A. Briden and son, Donald, left on Tuesday for a holiday in Kingston. Friends of Mrs. (Dr.) Barry are delighted to see her again back North from Toronto. She is staying for a few days with Mrs. J. Kinsman at the Dome.

Mrs. Hill, of Noranda, was a visitor recently at the home of Mrs. Haneberry.

Dorothy Andrews, of Dome Ex., celebrated her twelfth birthday on Friday, by entertaining 35 of her girl friends to a delightful birthday tea at her grandmother's home. All had a lovely time and Dorothy was the recipient of a number of nice gifts.

Mrs. George Fulton, of Hearst, with Mr. and Mrs. Woodworth, also of Hearst, spent the week-end at the home of Mrs. Starling.

Mrs. Forster, of Toronto, is visiting her sons and daughters in South Porcupine.

At the local police court on Tuesday, Fred Kingsbury, whose sentence was remanded from two previous sessions, received the term of 3 months hard labour. The case of the young girls involved in this, was held by the magistrate in camera, where, we understand, after receiving good advice from him they were allowed their freedom. Two speeders at this court, paid fines of \$10 each. For having liquor a man from Whitney was fined \$100 and costs.

Mr. and Mrs. Cooke and Miss Myrtle Cooke, of Toronto, are visiting their daughter, Mrs. Russ Cameron. They expect to stay a month.

Mrs. Asseline came back this week from Niagara Falls.

Mr. Cliff Jemmett, of New Liskeard, was renewing acquaintance in town this week.

Miss Jean Frisby, of New Liskeard, is visiting in town. She was the guest of Mrs. F. C. Evans on Tuesday.

Mrs. J. D. Thompson is visiting her parents Mr. and Mrs. Smith at Elmsted, Ont.

Mr. Clifford Sharpe and Mr. N. McGuire left this week to take up residence at Bristol, Ont.

Mr. C. Farrell, who has been residing in Shawville for the past two years, came back on Sunday for a visit. Wallace Bros. shows are in town. They are in a new location, and quite a good one. A splendid view of the lake and town can be had from the ferris wheel. They were given permis-

sion to camp in Huots' field on the highway.

Next Sunday a tennis tournament between the Dome and South Porcupine will take place at the Connaught Hill court. Singles, doubles and mixed doubles are to be played, starting at 2 p.m. A return invitation is to be extended by the Dome in the near future.

On Sunday last a Finnish Lutheran service was held in St. Paul's Anglican Church—the first of its kind held here. These services, in the Finnish tongue for Finnish Lutherans, will be held each Sunday at 10 a.m. The attendance on Sunday was gratifying. The pastor is sent by the American Missionary Society, and is likely to be a permanent resident. Other Finnish services of the United Church are being held also, but this is the first Lutheran service to our knowledge held here in the Finnish tongue.

Mrs. Woodall is spending some days at Forquus Junction.

Fraud Case Arises from Refrigerator

Electrician Arrested on Charge of Fraud After Fixing Electric Refrigerator. Out on \$200 Bail.

There will be an out-of-the-ordinary fraud case before the magistrate on Tuesday next. A local electrician was placed under arrest yesterday under a warrant sworn out by a local businessman who charged him with fraudulently securing the sum of \$75.00 by pretending that the coil and compressor of an electric refrigerator were worn out and useless. The accused was later released on \$200 bail. The case evidently arises from repairs made to an electric refrigerator and for this reason will have general interest.

There are a large number of electric refrigerators in town and it is not to be wondered at that they should occasionally need repairs after the guarantees are expired. Until the guarantees expire there is little difficulty about the matter of repairs as most firms have service men to look after this. When independent electricians are called in, however, the householder is not always so satisfied in his mind. On the one hand there is the explanation that his electric refrigerator has developed defective parts expensive to replace, and on the other is the natural objection to fear that the expert may be too expert in the wrong direction. Established firms are usually to be depended upon, however, and there may be nothing amiss with the service given by any. In any event there will be many in town and district who will watch this case with special interest.

Tagging in Toronto Leads to the Arrest of Fourteen

Fourteen men, said to have been collecting funds for the alleged hunger march to Ottawa were arrested in Toronto on Tuesday. Five of them were charged with vagrancy and nine with illegal soliciting of funds. All were released on \$200 bail each after spending nine hours in the cells. It is alleged that after being refused permission to hold a tag day in Toronto the "hunger marchers" defied the authorities by tagging and collecting funds. They did not get much money but that does not affect the question.

The arrests were made at Riverdale park, Toronto, and although a large crowd of the hunger marchers milled around while the arrests were being made there was no particular disturbance because the "hunger marchers" believed that the authorities were all ready for them.

After all the talk about the matter the city of Toronto apparently gave the trekkers permission to parade on Tuesday. The presence of several hundred of the "hunger marchers" and the fact that they were organized apparently overawed the authorities. The parade was orderly enough, the "hunger marchers" apparently being satisfied with the fact that they had frightened the authorities into permitting the parade. The number turning out to parade, however, was very disappointing, not a quarter of the 2,000 registered joining the parade.

KIRKLAND LAKE MAN BITTEN ON THE HAND BY A SHEEP

The Northern News last week says:—"He's the kind of fellow who turns his hand to most anything and during his time in Height of Land country he has been out in the bush a lot, has shot a moose and a bear and taken all the chances there are to be taken with the wildest of animals. So it was with hesitancy that he admitted being attacked by an animal the other day. The reluctance was natural. This hunter of northern wild game was bitten by a sheep. He was doing a paint job at a house where a couple of caa-baas were tethered in the yard. It was a hot day and out of the kindness of his heart he carried some water to one of the animals. While he was setting the pail down the other one nipped him. So he's no follower of the S.P.C.A. any more."

Ohio State Journal.—Wearing of veils by Turkish women has been abolished by government decree. Only the homely women are objecting.

Quintuplets Never Seen Together Now

Sergt. Downey, of Ottawa, Gives Interesting Account of Visit to Corbeil Some Days Ago.

The following reference to the quintuplets would be of interest on its own account but will have double local interest in view of the fact that Sergt. Stephen Downey, of Ottawa, is the father of Constable John Downey, of the Timmins police force. The article is from The Ottawa Journal on Tuesday of this week, and reads as follows: "Visitors who go in scores to see the Dionne quintuplets are given every opportunity to see the babies, but they must not even attempt to photograph them, according to Sergeant Stephen Downey, of the police department, who has just returned from a motor trip through Northern Ontario.

"To see the babies, you stand up against a high fence of heavy wire which surrounds the Dafoe hospital," said Sergeant Downey. "Then the babies are carried out on the verandah by the nurses, one at a time, and held

up for the crowd to see. But you are warned that you must not take any snapshots of them."

"The interested audience never sees all five at once, until they are placed in their five perambulators on the verandah and then their faces cannot be seen, the sergeant stated.

"A provincial policeman has a busy time superintending the automobiles which travel to Corbeil from every part of Canada and the United States. An enterprising woman has opened up a refreshment stand and a splendid road provides an excellent route from Callander to Corbeil and the Dionne home two miles farther.

"Mr. and Mrs. Dionne are seldom seen and will not even go to the windows of their house across the road, I understand," Sergeant Downey said. "The crowds stand in front of the old house, which is covered with vines, hoping for a glimpse of the parents, but they never appear."

"Dr. Allan Roy Dafoe had quite a time walking through the throng of admirers on his way to the hospital Sergeant Downey continued. So eager were the spectators that some of them, apparently United States residents, rushed towards him and some of the women tried to kiss the physician."

This Man of Seventy Years Seems to be Ambitious

(Trenton Courier-Advocate)
An automobile salesman tells us that he ran into something rather unusual the other day and it wasn't so far from Trenton either. He met a man who has a 1924 car, mileage 5,000; he has \$62,000 in the bank, and at 70 years of age he is looking for a wife. A man in such circumstances can well afford a good helpmate, a car of the latest model and less money to worry about. Aside from all this, it must be admitted that he has ambitions that are worth consideration.

VULCANITE THICK-BUTT shingles

HERE is a shingle that gives extra value for your money. Thick-Butt construction gives added protection on the exposed portion—extra protection from wear and an additional guard against fire.

Thick-Butt construction combined with the fact that Black Slate shows through the cut-outs, gives unusually attractive color and shadow effects on the roof, and accentuates the massiveness of the shingle.

Made in attractive colors that offer wide variety from which to select the roof best suited to your home.
