Middle School Exams at South Porcupine H. S.

One Group Passed on 91 per cent of Their Papers: Some Students Take Middle School Papers in Addition to Upper School Papers. Winners of Proficiency Prizes.

The following are the results of the Upper School examinations for the South Porcupine High School:—

B. Ceconi: Eng. Lit. II; Geom. II; Trig. II; Phys. C; French Auth. C; Fr. Comp. I.

C. Schmelz: Eng. Lit. C; Trig. II; Fr. Comp. C.

B. Clark: Geom. III; Trig. II; Phys. I; Fr. Auth. C; Fr. Comp. C.

F. Jakes: Geom. I; Trig. I; Phys. II; Chem. III.

M. DeRosa: Eng. Comp. II; Eng. Lit. I; Trig. II; Phys. III; Fr. Auth. I; Fr. Comp. I.

B. Gallagher: Eng. Comp. II; Eng. Lit. I; Trig. I; Fr. Auth. II; Fr. Comp. II.

E. Luhta: Eng. Comp. C; Eng. Lit. C; Trig. C; Phys. II; Chem. II.

M. King: Eng. Comp. I; Eng. Lit. I; Mod. Hist. C; Geom. I; Trig. I; Phys. I; Chem. I; Lat. Auth. II; Lat. Comp. II.

M. St. Paul: Mod. Hist. I; Trig. II; Phys. C.

I. Kaufman: Eng. Comp. C; Mod. Hist. II; Geom. I; Trig. I; Phys. II.

W. Fera: Eng. Comp. II; Mod. Hist. C; F. St. Paul: Eng. Lit. C; Mod. Hist. C; P. Cunningham: Eng. Comp. C; Eng. Lit. C.

E. Cole: Eng. Lit. C; Eng. Comp. C; J. Armstrong: Eng. Comp. II; Eng. Lit. II.

The first group were regular Upper School students enrolled on the Form 4 register. This group passed on 91 per cent. of their papers. The following have secured complete graduation for entrance to Normal School or entrance to university: Reginald Clark, Mary King, Marie St. Paul, Ilean Kaufman.

The following students in addition to the Upper School papers which they secured have also passed on the number of Middle School papers indicated after each name: C. Schmelz, 3; M. Derosa, 3; B. Gallagher, 3; F. St. Paul, 1; P. Cunningham, 4; E. Luhta, 1; M. St. Paul, 2; W. Fera, 4; E. Cole, 8; J. Armstrong, 1.

The second group were middle school students trying upper school papers. Taking all students into consideration—the regular upper school and in ad-

dition the middle school students trying upper school papers—the percentage of passes was 87.

The following students have been promoted from Middle to Upper School: Fred Andrews, one year in the Middle School, having secured 9 papers; Emily Cole, second year Middle School, secured complete pass matriculation; Orry Costain, second year Middle School, secured complete pass matriculation without Latin; Patrick Cunningham, second year, secured complete pass matriculation without Latin Comp.; Edgar Donnelly; W. Fera lacks only Latin; Catherine Foster, first year Middle School, secured nine papers; Robert Gallagher, first year Middle School, secured nine papers; Beatrice Smith, first year middle school, secured nine papers; Frances St. Paul.

The winners of the Middle and Upper School proficiency prizes are as follows:

Middle School: Emily Cole, secured an average of second-class honours trying eight papers.

Upper School: Madeline Derosa, secured an average of second-class honours on six papers of the Upper School in addition to three seconds, to complete her Junior matriculation. This makes 18 papers that Madeline has secured in two years.

Form I, Lower School: Albert Keates with an average of 87 per cent. for 36 tests.

Form II, Lower School: Betty Jordan with an average of 91 per cent. for 36 tests.

Simpson Scholarship, valued at \$100, for nine papers in the Upper School, all passed and tried in any one year. Miss Mary King with five first-class honours, two seconds, and two credits.

The following have secured complete Upper School graduation in five years of High School tuition: Reg. Clark, Marie St. Paul, Ilean Kaufman.

The principal desires to express his sincere good wishes to those who are graduating and will not return to the S.P.H.S. next year. We hope for them the same success in the future that they have given to their school by industry, integrity and perseverance. To those who have won the proficiency prizes which will be presented at the next regular commencement exercises we wish to offer congratulations and continued success. To all the students of the Middle and Upper School who have passed to secure such a splendid standard of results for the S.P.H.S. we offer our heartiest good wishes for a continuation of such results and a maintenance of the same esprit de corps that predominated during 1934-1935. In no small measure, the staff, consisting of Miss MacPhail, Miss Lucas and Mr. J. D. Thomson, were responsible in leading the students to the results obtained. To them the principal expresses his congratulations.

In the following papers of the departmental examinations all students were successful:—Middle School: Eng. Comp., Eng. Lit., Can. Hist., Chem., Fr. Auth., Upper School: Mod. Hist., Geom., Trig., Chem., Lat. Auth., Lat. Comp.

There was but one failure in each of the following:—Middle School: Alg., Geom., Phys., Lat. Auth.; Lat. Comp., Fr. Comp., Upper School: Eng. Lit., Phys., Fr. Auth., Fr. Comp.—F. Purdy, principal.

Kiwanis Club May do Much to Benefit Country

Lieutenant-Governor of Kiwanis Club on Official Visit Here Speaks of the Possibilities of This Country and Suggests the Part Service Clubs May Play in its Development.

"You have a great country, a wonderful country. It's yours. Look after it." That, in short, was the message T. Waldon Thomson, lieutenant-governor of this Kiwanis district, brought to local Kiwanians on Friday at the luncheon meeting. Mr. Thomson is a member of the Owen Sound Club, and on this, his first visit to the North, he found much to amaze him. He did not confine his remarks to the North alone, but in a very brief form, gave the club some idea of the immensity of Canada, and what great undertakings there are to be begun yet. The part Kiwanis can play in the development was stressed.

Canada, the second largest nation in the world, has a population of only two and a half per square mile, whereas the United States has 38 people per square mile. The comparatively small knowledge most Canadians have of their country was remarked on by the speaker. The diversification of industry, climate, people and their needs makes government and tariffs a problem that has not yet been solved even though some of the best economists in the country have attacked it, said Mr. Thomson.

Will Be Interested in Agriculture
"You may not be so much interested in agriculture as we are farther south, but you're going to be interested in it—this country is just opening up," said the speaker. He had heard with pleasure that the Timmins club had begun a potato club, and he outlined the effect of a similar move in Owen Sound. In previous years it had been impossible to make up a carload of any one grade or variety of potatoes. "You know," he said, "there are as many varieties of potatoes as there are rheumatism cures." The club sponsored a potato club, and chose Dooleys as the variety. The idea spread until now about 90 per cent. of the potatoes grown in Owen Sound are Dooleys and no difficulty is found in marketing the crop in larger centres and at a good price.

Loose Big Market?
He told of an Old Ontario boy who is now well-known internationally, who criticized the Ontario farmer for allowing a large market to slip away from him. The case of Denmark was cited, where forced by a government co-operative scheme, every farmer does his own grading. Should anything be found amiss, that farmer is refused permission to export. In this way, the Denmark standard is widely accepted throughout the British Isles. It is in this kind of work that Kiwanis can be

of great aid to Canada, said Mr. Thomson.

A huge coking development somewhere on Lake Erie or Lake Ontario through which eastern coal will be shipped to Ontario and the by-products of the coking process made to pay the freight, is one of the great developments to which the country may look forward within a few years, the speaker said. About \$125,000,000 would thus be kept in Canada and a tremendous internal trade created as well.

Impressed by Huge Investment
"I was never so thunderstruck in my life," he said, "as with the investments in the mining industry here. It's amazing to people from the South who have not realized what is going on. What an opportunity you have in watching the development of your country." He had heard much of the good work of the Kiwanis through the regular reports of the secretary, "Scotty" Wilson, and he complimented the club highly on having such an excellent officer.

The Union Jack should be displayed to a greater extent throughout Canada, said the lieutenant-governor. The Kiwanis should take an active part in the encouragement of flying the national colours as a patriotic symbol. Mr. Thomson also brought to the local club several suggestions for activities of a social and community sort. He was introduced by the president, Arch Gillies, who, at the conclusion of the address, conveyed the appreciation of the club to their visitor.

A number of tonsil cases will be paid for by the Kiwanis club. The parents of the children could not afford even the four or five dollars charged for accommodation at the hospital in the Timmins clinic's annual tonsil-removing drive, under which the surgeons give their services. Seventy-five children had been treated this year, Dr. Moore explained, after examination by the town nurse and physicians.

E. H. King, Frank Feldman, Dr. S. L. Honey, Tom Glaister and Geo. Drew offered their cars to transport the Boy Scouts from Nellie Lake to Timmins on Saturday, after their two weeks' holiday. John Dalton donated a bus to bring back 25 of the boys.

"The potato crop is the nicest in the country," said Frank Feldman, in charge of the potato club committee.

To-day's Kiwanis Club meeting was held in the Grand hotel, Third avenue, at the invitation of Kiwanian Sam Bucovetsky.

Visitor on Friday was Sam Hackley, of Rochester.

Dangerous Fire Stopped at South End Last Week

Specially Creditable Showing Made by the Pupils of the Schumacher High School at the Recent Departmental Examinations. Note the Number Securing First and Second Class Honours.

South Porcupine, Ont., Special to The Advance Aug. 17th, 1935.

Mr. and Mrs. John Costain left on Saturday by car for Kemptonville to visit their daughter, Mrs. Frisby.

Mr. George Starling went for his vacation on Saturday, visiting various places down south.

Mr. and Mrs. Harry Gilham, of the Dome left on Sunday by motor for Toronto where they will stay for two weeks. They were accompanied by Mr. and Mrs. George Chambers, also of the Dome, who are visiting Mrs. Chambers' mother in Hamilton.

Mrs. Archie Briden and son, Donald, returned to town on Saturday. They have been spending the summer with Mrs. Briden's mother and sisters in Kingston.

We hear Mrs. Booker, of Dome Lake is quite seriously ill in the Porcupine Presbyterian hospital.

Mrs. V. G. Hills and daughter, Hazel, of Connaught Hill, left on Sunday for a visit to Hamilton.

Mrs. D. Clay, Mrs. H. Dixon and Mr. and Mrs. J. Hobbs and family, who have been visiting Mr. and Mrs. V. Hills returned to Hamilton on Sunday.

Mr. Jim Lonigan returned this week from a trip that took in Buffalo and Detroit, among other places visited.

Mrs. F. Ostrom and children are camping this week in Golden City.

Mr. Edgar Donnellan, who is a nephew of Mr. T. Cahill, left this week for Pembroke. He spent the last winter in South Porcupine where he attended High School.

Mr. and Mrs. Redden and son, of London, Ont., are visiting at the home of Mr. and Mrs. W. Farren, of Connaught Hill.

A fire occurred on Wednesday afternoon at the dairy owned by Mr. T. Cahill. The feed room and a shed adjoining and between seven and eight tons of hay were completely destroyed. The place was well alight when the fire department received the phone alarm. But in around three minutes the fire brigade were on the scene and

quickly had the fire under control. Had there been a wind of any kind it would have been very much worse, as the barn and a new house, also owned by Mr. Cahill were quite badly scorched. For a while the flames were very fierce and smoke covered the whole of that section of the town and it was only owing to the efficiency of the fire brigade that it was prevented becoming a much more serious matter. It was about three hours before the fire could safely be left, and it is quite unknown as to how the fire originated. There was no insurance carried on the property.

Mr. P. Lee arrived here on Monday from Montreal. He is visiting at the home of Mr. and Mrs. Walter Freeman, of Commercial avenue where his wife has been visiting for the past week.

Mr. C. G. Brown and Mr. J. Farrell, of the Ankerite Mine, left this weekend for their vacation. They are visiting various places in the south.

Mr. and Mrs. M. Verner, who have been on a vacation for the past five weeks at Mount Clemens, Michigan, U. S., arrived back in South Porcupine on Thursday, 15th inst.

Miss Evelyn Mack, of Lake View, is spending her holidays in Toronto and Hamilton.

The boys football match held at the Dome grounds on Thursday between the Dome boys and South End boys, resulted in a win for South End. They won by three goals to one.

We hear that Mr. G. Brown, express agent is going to erect a house on the lot next to the house occupied by Mr. Went on Connaught Hill.

Mr. David Cockburn (footballer) left on Friday for Toronto for his vacation.

Miss Irene Deacon spent her vacation in Toronto and returned on Wednesday.

The Rev. Archdeacon Woodall officiated at St. Matthew's Church (Anglican) on Sunday in the absence of Canon Cushing.

There will be a garden party and tea given by the girl guides of South Porcupine at the home of Mrs. F. C. Evans on Wednesday, 21st, in aid of Guide funds. As Mrs. Evans' garden is one of the most beautiful in South Porcupine and at present is in its full glory, this should be a really delightful affair.

North Bay Nugget: If every troubled motorist would act as a volunteer traffic officer, regulating himself, confusion on the city streets would be minimized if not entirely abolished.

Sound Reasons

why you should use the Star Transport

- Proper equipment to handle every type of hauling job summer or winter.
- Every load completely insured against loss or damage.
- The only transport in the district licensed to haul on the provincial highways.
- Fifteen years' experience in the business.
- All experienced men.
- Crating and storing facilities.

STAR TRANSFER

BETTER PREPARED THAN EVER TO SERVE YOU.

Timmins Youth to Attend Convention

James Lago Leaves Tomorrow for Fisher Body Craftsman's Guild Convention at Montreal and Quebec.

On Monday of last week The Advance noted that James Lago, son of Mr. and Mrs. A. Lago, Timmins, had been successful in winning one of the awards in the Junior section of the Fisher Body Craftsman's Guild's fourth annual Canadian competition. We are happy indeed that the many long hours your son put on his model will in some measure be repaid. At the present time the detailed plans for the international convention in Montreal and Quebec City are being carefully laid and we are confident the boys will find their trip very enjoyable and instructive. The greatest care and consideration is being given the arrangements for the boys' meals, sleeping accommodation and transportation, both to and from the convention. During practically all of the trip your son will be in the company of some other member of the Guild convention party, which will include, in addition to the prize winners, the director of technical education in each of the provinces. During the convention, Guild representatives will personally conduct the activities of the groups, and definite arrangements will be made for competent supervision on the return trips. We know that you will follow with interest the various activities in which your son will be participating. Complete news should be published in your paper . . . We know you will anxiously await the announcement of awards won, which will be broadcast from Quebec City on an international radio hook-up on Thursday evening, Aug. 22nd.

James Lago will leave at 1.15 p.m. tomorrow for Montreal and Quebec City for the convention.

North Bay Nugget:—Until we read a couple of those political manifestos, we never realized we were in need of so many things.
