Town Again Asks Right for Issue of Debentures

Ontario Railway and Municipal Board to be Asked to Pass on \$51,280.74 Worth of Bonds for Sidewalks. Plumbing Inspector "Let Out." Making Record of Tax Sales. May Engage Assessment Expert.

The Ontario Railway and Municipal Board will again be asked to pass on an issue of Town of Timmins debentures. This time the municipality asks that they be granted permission to issue \$51,280.74 worth of bonds, bearing interest at 6 per cent., to be used for laying concrete sidewalks in the town. The bonds will be of 10-year maturity and will be repayable in annual installments of \$6,967.41, nearly half of which will be borne by the town and the remainder by the property owners whose places front on the proposed work.

Petitions were in from residents of Balsam street south between Kimberly and Tisdale avenues, and from residents of Cedar street north, between Seventh and Eighth, in addition to a number that have been presented at other times during the year.

Plumbing Inspector Let Out
The services of A. L'Ecuyer, plumbing and building inspector, were formally dispensed with, for a "breach of the regulations," it was explained. The matter had been taken up at a private meeting of the council and it was recommended yesterday that E. M. Stenhouse be appointed in his place at \$130 a month.

Councillor H. E. Chateauvert had not heard of the move before, he said, and thought the council should ask for applications in the ordinary way.

"The trouble is, we're without an inspector now," said Mayor Richardson. "No inspection can be made now," said Councillor J. P. Bartleman, "and it's a very important matter. There is more building going on in Timmins this year than ever before. I'm anxious that the appointment should be made to-day."

"I'm pretty sure we could wait another week for applications," Mr. Chateauvert held. "I feel that I would not like to see that resolution go through to-day."

In the end, it was decided to leave the matter for a day or so and go into it more fully at a special meeting.

Record Made of Tax Sales

S. G. Fowler has been engaged by the council to take a copy of the records of sales of lands for taxes within the last four years that have been handled by the town itself. In other words, a report on properties bought in by the town at tax sales and sold by them at a later date.

Last year's investigation concerned "lots dealt in by a certain party." Councillor Bartleman explained, but this year's is to be a complete record of all lots bought and sold by the town for four years, with the prices at which bought and sold. The prices at which the council agreed to sell the lots are marked on some of the transactions, but not the actual price at which the sale was completed. In some cases the actual amount of cash received is missing from some of the records.

"You're certainly putting the town to an additional cost," said the mayor. "What is to be gained?"

"What I'm looking for is an improved record of the lots bought and sold," said (Continued on Page Three)

Have You Any War Trophies or Curios?

Timmins Branch of the Legion Seeking Suitable Articles for Decorating the Walls of Club Building.

Again The Advance would call attention to the suggestion made in the Monday issue of this paper in reference to war trophies, curios, etc. The Timmins branch of the Canadian Legion is anxious to brighten and adorn the walls of the Legion building and for this reason would like the donation of suitable articles. The Legion would be pleased to receive any war trophies, relics, regimental badges, weapons, curios, mounted heads of game, pictures pertaining to the Army or Navy, or other suitable donations. Anyone who has any such suitable article and is willing to donate it to the good work of decorating the Legion building should get in touch with President Austin Neame or any member of the executive. Donations may be left at the Legion clubhouse on Cedar street or at Mr. Neame's office at the Mines Rescue Station, at the rear of the fire hall.

Burning Brush Causes Only Fire Call This Week

A telephone alarm to the fire station yesterday afternoon told of a brush fire at the end of Tamarack street. On investigation, firemen found everything in order, since a permit had been obtained from the fire rangers to burn the brush that resulted from clearing. Those doing the work had chosen a wet afternoon in order to be sure that there was no possibility of the blaze creeping over to the town.

Aside from that one run, the fire department have had no calls since Monday.

Horticultural Show Here on Monday and Tuesday

Notable Displays of Flowers and Vegetables Expected at Eleventh Annual Show in Timmins. Two Bands in Attendance. Judging of Gardens Saturday.

As usual for several years past one of the big features for Labour Day in Timmins will be the annual exhibition of flowers and vegetables under the auspices of the Timmins Horticultural Society. The event this year will be at the curling rink, across from the T. & N. O. depot. The show will open Monday, Sept. 2nd, and continue on Tuesday, Sept. 3rd. There is no admission charge and the attendance should be a record for this year. All local people should attend the show to see what is being done in this North in the way of growing flowers and vegetables. Visitors will be amazed at the quantity and quality of flowers and vegetables grown in this area. Last year the Dept. of Agriculture judge here commented on the excellence of the exhibits and said that in over 30 shows he had visited during the season none had excelled the Timmins show. "It will be the same, only more so, this year," said one of the directors of this week.

On the first evening of the show, Monday, Sept. 2nd, His Worship Mayor Richardson will give an opening address at 8 o'clock. The Timmins Citizens' Band will be in attendance and will provide music during the evening. This was a special feature of the show last year.

On Tuesday evening a special feature will be the Porcupine District Pipe Band, this popular organization presenting a programme of pipe music for the pleasure of those attending.

The prize lists were issued early this year and several references have been made in The Advance to the classes covered and the prizes offered.

The judge for this year's show will be F. Hayward, Toronto, who is in charge of Dufferin Parks in Toronto, and is an expert of wide experience and competency.

One of the special features of the Horticultural Show each year is the garden competition. This year the town is notable for the number and excellence of lawns and gardens and the garden competition accordingly should have special interest. Mr. Hayward is expected to arrive in town tomorrow night and will judge the lawns and gardens on Saturday of this week. The prize winners will be announced at the show on Monday.

Weather to be Cool for Next Day or Two

So Says the Weatherman To-day. Expected, However, that the Sun will Shine More in Next Few Days.

It will remain cool during the next day or so, said the weatherman this morning, though it is expected that the sun will shine more than it has in the past few days.

Temperatures are still fairly low, yesterday's maximum being the lowest for the summer, at 55 degrees. Other temperatures have been: Monday, max. 70, min. 51; Tuesday, max. 65, min. 51; Wednesday, max. 55, min. 42. Last night's minimum, 40; this morning at eight o'clock, 44.

Yesterday evening's rain brought .03 inches through the intermittent drizzles that fell from about four o'clock.

Final Oiling of Streets in Town for the Season

The Department of Public Works is giving the streets of Timmins a final coating of dust-laying oil this week, following the arrival of a carload ordered by the council a short time ago.

What to do Here on Labour Day, Sept. 2

Horticultural Show and Kiwanis Sports Day Special Features Here on Monday

Labour Day in Timmins brings two big events—the Kiwanis sports day on the cyanide, when hundreds of local boys will show what they've learned about softball, lacrosse, running and jumping, in a programme that will last from nine in the morning until dusk. There are open events, too, with the district's best athletes on the track and field. Frank Chambers, former Winnipeg track star, has promised to enter the mile open race. The appearance of Famous Players softball team of Kirkland Lake with Friedmans of Timmins is to be the closing match of the day.

The Big Horticultural Society show in the Curling Rink is the other big attraction, so within a few yards of each other, there are two entertainments that should attract very nearly everybody in town at one time or another during the day. The flowers of the North on parade will make a sight well worth seeing, and one that will show the culmination of one of the best growing seasons the district has known for some time. Competition is keen in all branches.

G. H. Gauthier Acts for District Judge

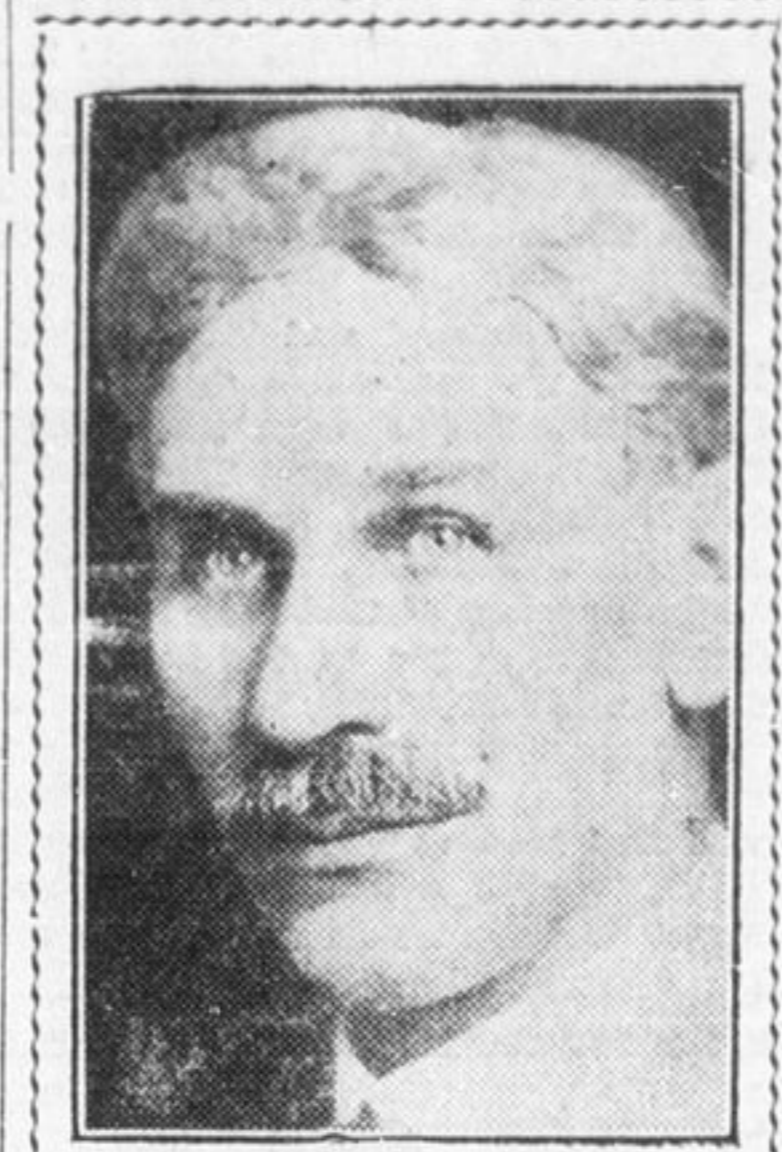

Large Number of Cases at the Division Court Here on Tuesday This Week.

In the absence of Judge Caron, of Cochrane, Gordon H. Gauthier presided at Division Court here on Tuesday, when the usual number of wage and debt disputes was on the docket.

It is the custom in Ontario that when the judge is not able to be present, the senior lawyer of the district may be deputed by the judge to take over the duties. In this case, the job fell to Mr. Gauthier. It is a rare occasion when Judge Caron finds it impossible to take charge, though this is not the first time Mr. Gauthier has occupied the position.

"His Honour Judge Gauthier" had many long and troublesome questions to deal with, but showed a patience and interest that caused favourable comment from lawyers and others in the court.

Hon. Peter Heenan Here

HON. PETER HEENAN
Minister of Lands and Northern Development, who is on a visit to Timmins to-day.

Boys Scouts to Have Two Bands for Event

Porcupine Pipe Band to Lead Big Parade to Rink on Saturday Evening. Timmins Citizens' Band Also to Play.

Boy Scouts of Temiskaming and Cochrane districts, gathering here tomorrow and Saturday for the big jamboree will stage a parade on Saturday evening at 7.15 from Gillies Lake camp to the Skating Rink, where the big events will be held. Porcupine District Pipe Band will lead.

It is expected that the Timmins Citizens' Band will provide music at the rink.

Editor of Financial News on Visit to the Porcupine

Mr. Mitchell, editor of The Financial News, Vancouver, B.C., is on a visit to the Porcupine this week and finds much to specially interest him in this growing and prosperous gold camp. He expresses pleased surprise at the notable growth and development of the camp and the progressive and modern spirit of the town of Timmins. The Financial News is one of the leading financial journals of the Canadian West. It has a circulation of well over the five thousand mark and is well known in a wide area as a thoughtful and accurate newspaper for those interested in finances, business, mining and other industries.

Hon. Heenan Hopes for Better Roads for North

Cabinet Minister Here To-day on Visit Favours "Stabilization" of Highway in Cochrane District. Interviewed by the Mayor and Councillors and Others on Various Matters.

Queen of Belgium is Killed in Accident

Motor Car Driven by King Skids on Road. King Leopold III also Injured in Crash.

A despatch from Lucerne, Switzerland, to the Toronto newspapers to-day says:—

"For the second time in two years tragedy struck the royal family of Belgium yesterday, when Queen Astrid, beautiful blonde princess of Sweden, was killed in an automobile accident which also resulted in serious injuries to her husband, King Leopold III. The queen met her death when a massive, high-powered car driven by the king himself skidded off the road near Kussnacht along Lake Lucerne. "She was thrown from the car. Her body hurtled through the windshield and crashed into the trunk of a huge tree overhanging the water's edge. Her death was instantaneous."

"The king, bleeding from face wounds, extricated himself from behind the wheel and dashed to his prostrate wife, lying about two yards from the tree."

No Issue of The Advance on Monday, Labour Day

On account of Monday next, Sept. 2, being Labour Day and a public holiday, there will be no issue of The Advance. It is the policy of The Advance not to issue on public holidays. The idea is to allow holidays for the staff and to pay due deference to the law and the occasion. The next issue of The Advance will be on Thursday, Sept. 5, and thereafter on Mondays and Thursdays each week, except when public holidays intervene.

Miss Brushey, of Hearst, is visiting friends in Timmins.

Hon. Peter Heenan, Minister of Lands and Forests in the government of Ontario, arrived in Timmins late last night, and all day to-day has been busy interviewing Liberal executives and the members of the town council.

Mr. Heenan's visit has to do primarily with the coming Dominion election campaign and he has been in conference with Liberal officers all over the North on his present tour. He was to have arrived in Timmins yesterday evening but was delayed in Kirkland Lake.

The minister is having an opportunity to see the condition of the North's roads, and he is firmly of the opinion that a great deal of work should be done on them. The experiment of "stabilization" tried successfully on a road near Sudbury, will be carried in to Cochrane district, the minister intimated. It provides a dustless surface that is easy to keep in good condition.

This morning the visitor was welcomed to town by Mayor R. Richardson and was taken on a tour by him and Councillors Chateauvert, Bartleman, and the president of the local Liberal Association, Dayton Ostrasser. Leo Mascoli was speaking to Mr. Heenan for a short time in regard to the South Porcupine road.

The Timmins council has been in touch with Mr. Heenan by letter during the past few months and welcomed the opportunity of discussion with him in person of several problems that face the town. Grading of a 50 foot width on the road from Schumacher to Timmins preparatory to paving next year was one of the matters on which the minister was interviewed.

Children Said to Have Caused Fire in Garage

A fire alarm at 11.55 a.m. to-day was for a fire in the floor of a garage at the rear of 21 Laurier avenue, Box 42 was rung in. Chemicals were used to extinguish the blaze, which had been started by children, the firemen were told.

Backfill for McIntyre to Come from Sand Claims

Aerial Tram System to be Used with Junction to the Hollinger System. McIntyre will Use 500 to 1,000 Tons per Day. Work Started This Week.

Plans whereby the district's two largest mines, Hollinger and McIntyre, will both receive their backfill from the same source—the sand claims to the north of Timmins—have been made, and work on the necessary aerial tram for the McIntyre was commenced this week.

Hollinger has for years been obtaining gravel and sand from the claim by the use of an aerial tram system, and the additional supply to McIntyre will mean an increase in the fill taken out, of between 500 and 1,000 tons a day.

Work has already been commenced on an overhead cable car line from the McIntyre property to meet the Hollinger line, and a junction will be made whereby fill can be sent at will to either mine.

Provides Cheap Fill
The system of obtaining fill to replace the rock taken out from underground at present in use by Hollinger, is one of the cheapest in the North. Other mines, notably those in Kirkland Lake have had to use railway cars to transport the material a considerable distance. With the aerial tram, a steady supply of gravel and sand is possible.

The use of the line by McIntyre will decrease backfill costs to McIntyre to a considerable degree, it is expected.

Arrest Made Here for the Police at Brighton

Yesterday Arthur Cornell, who has been in town about a week, was arrested for the Brighton, Ont., police on a warrant charging him with false pretences. It is understood that the charge arises from a cheque that appeared to be of the bouncing variety. An officer will arrive from Brighton tomorrow to take the accused back to Brighton for trial.

After being taken to the station here Mr. Cornell became ill and eventually it was necessary to secure medical assistance for him. The trouble seemed to be due to a heart condition. To-day he is reported as recovered, though still ill from the effects of the attack.

Mr. and Mrs. Carl Raymond, of Vancouver, B.C., were Timmins visitors this week.

TIMMINS MEN IN VETERANS' BAND OF NORTH

This is the band organized by the 159th Battalion for the North Bay Old Boys' Reunion in the week of August 4th, 1935. With the 159th Band as a basis this unique band was confined exclusively to men of the North who were also returned soldiers and had played in bands overseas. The band included F. J. Wolno, bandmaster of the Timmins Citizens' Band, and G. Blake, also of the Timmins Band. P. Gallagher, of North Bay, but formerly of South Porcupine where he was a valued member of the Porcupine Goldfields Band, was also one of the Veterans' Band, though he does not appear in the picture.

This notable war veteran band made a great hit at the Old Home Week. Though having no opportunity for practice together the music they provided was notable for its excellence. They played the old army airs often without music and it was remarkable the successful skill they showed. The success of the band was no doubt due to the fact that practically every member of the band was particularly skilled and experienced in band work.

It is proposed now that this Northern War Veterans' Band accompany the Vimy Pilgrimage next year and active steps are successfully being taken to this end. Under the active and able leadership of Frank Saun-

ders, of North Bay, a former Timmins bandsman, the band was organized for Old Home Week. It looks now as if he would be equally successful in organizing the "band accompaniment" to the Vimy Pilgrimage.

The following are the war veterans in the War Veterans' Band of the North:—Reading from the top, first row (left to right): D. Dunbar, A. Gimpoll and L. Steele, Sudbury; S. Lavery, H. Wicks and George Fernie, North Bay; F. J. Wolno, Timmins; second row (left to right): A. Meecham, (North Bay); N. Briggs, Englehart; L. Ouellette and Jules Van-Savant, Sudbury; L. H. Saunders, Toronto; N. Lindburg, North Bay; E. Gray, Englehart; third row (left to right): A. Stanton and E. E. Wonch, North Bay; A. Tunney and J. Walker, Englehart; E. Endicott, Toronto; G. Blake, Timmins; T. Burton, North Bay; fourth row (left to right): R. Gauthier, North Bay; G. Baden, Sudbury; J. Waller, Cochrane; L. Tunney, Newmarket; F. Saunders, organizer and director, North Bay; F. Farker, Englehart; W. Saunders, North Bay; E. Smith, Englehart; front row (left to right): S. Chamberlain and George Griffiths, North Bay. Harold Walton, Kirkland Lake and J. Gallagher, North Bay do not appear in the picture.

Continental Star

TUTA ROLF
The continent sears with Tuta Rolf, Scandinavian star, who makes her debut in Hollywood movies in "Dressed to Kill."
