

## Tried to Force Girl to Come to Timmins

### Story of the Yo-Yo Told to Timmins Lions Club

Expert at New Popular Sport Toy Explains History of Yo-Yo Toy Came from Philippines. Originally a Weapon. Lions to Hold Another Frolic, October 4th.

The yo-yo came from the Philippine Islands, Joe Lang told the Timmins Lions Club on Thursday evening, when the expert gave a short demonstration of all the things the little toy could be made to do.

It seems that the Islanders didn't like to waste ammunition so they invented a missile that would do its damage and return to the hand of the user. The original yo-yos were much larger and heavier than the present-day toy, and rope was used in the place of string. On coming within yo-yo distance of the enemy, the Philippines would let loose a barrage of the heavy round wooden objects. A simple flip of the wrist was all the trained men used to accomplish the deadly object.

**Bright Boy Finds New Toy**  
A bright little boy, son of an officer of the United States army stationed there, took a fancy to the implements of war and began playing with one in the barracks. He found it too heavy and cumbersome to be much fun—it was tiring sport. But he found a way out of the difficulty by carving out a smaller replica of the large one and using a piece of string in place of the rope.

A few years ago another American, seeing the toy and believing it would be popular on this continent, brought a sample to the Pacific Coast and began to manufacture them. In the short space of a year, the yo-yo became known from one end of the continent to the other and had spread across to Europe.

The recent revival in Timmins has been the source of a great deal of fun—not only on the part of public school

boys and girls, but of the mothers and fathers as well.

**Club Activities Reviewed**  
P. J. Doyle, a past president of the North Bay Lions Club, who is now acting in the same capacity for the Timmins Lions, spoke briefly. He reviewed the progress of the club since Charter Night, touching on all the varied activities of the committees and the success of these under their chairman.

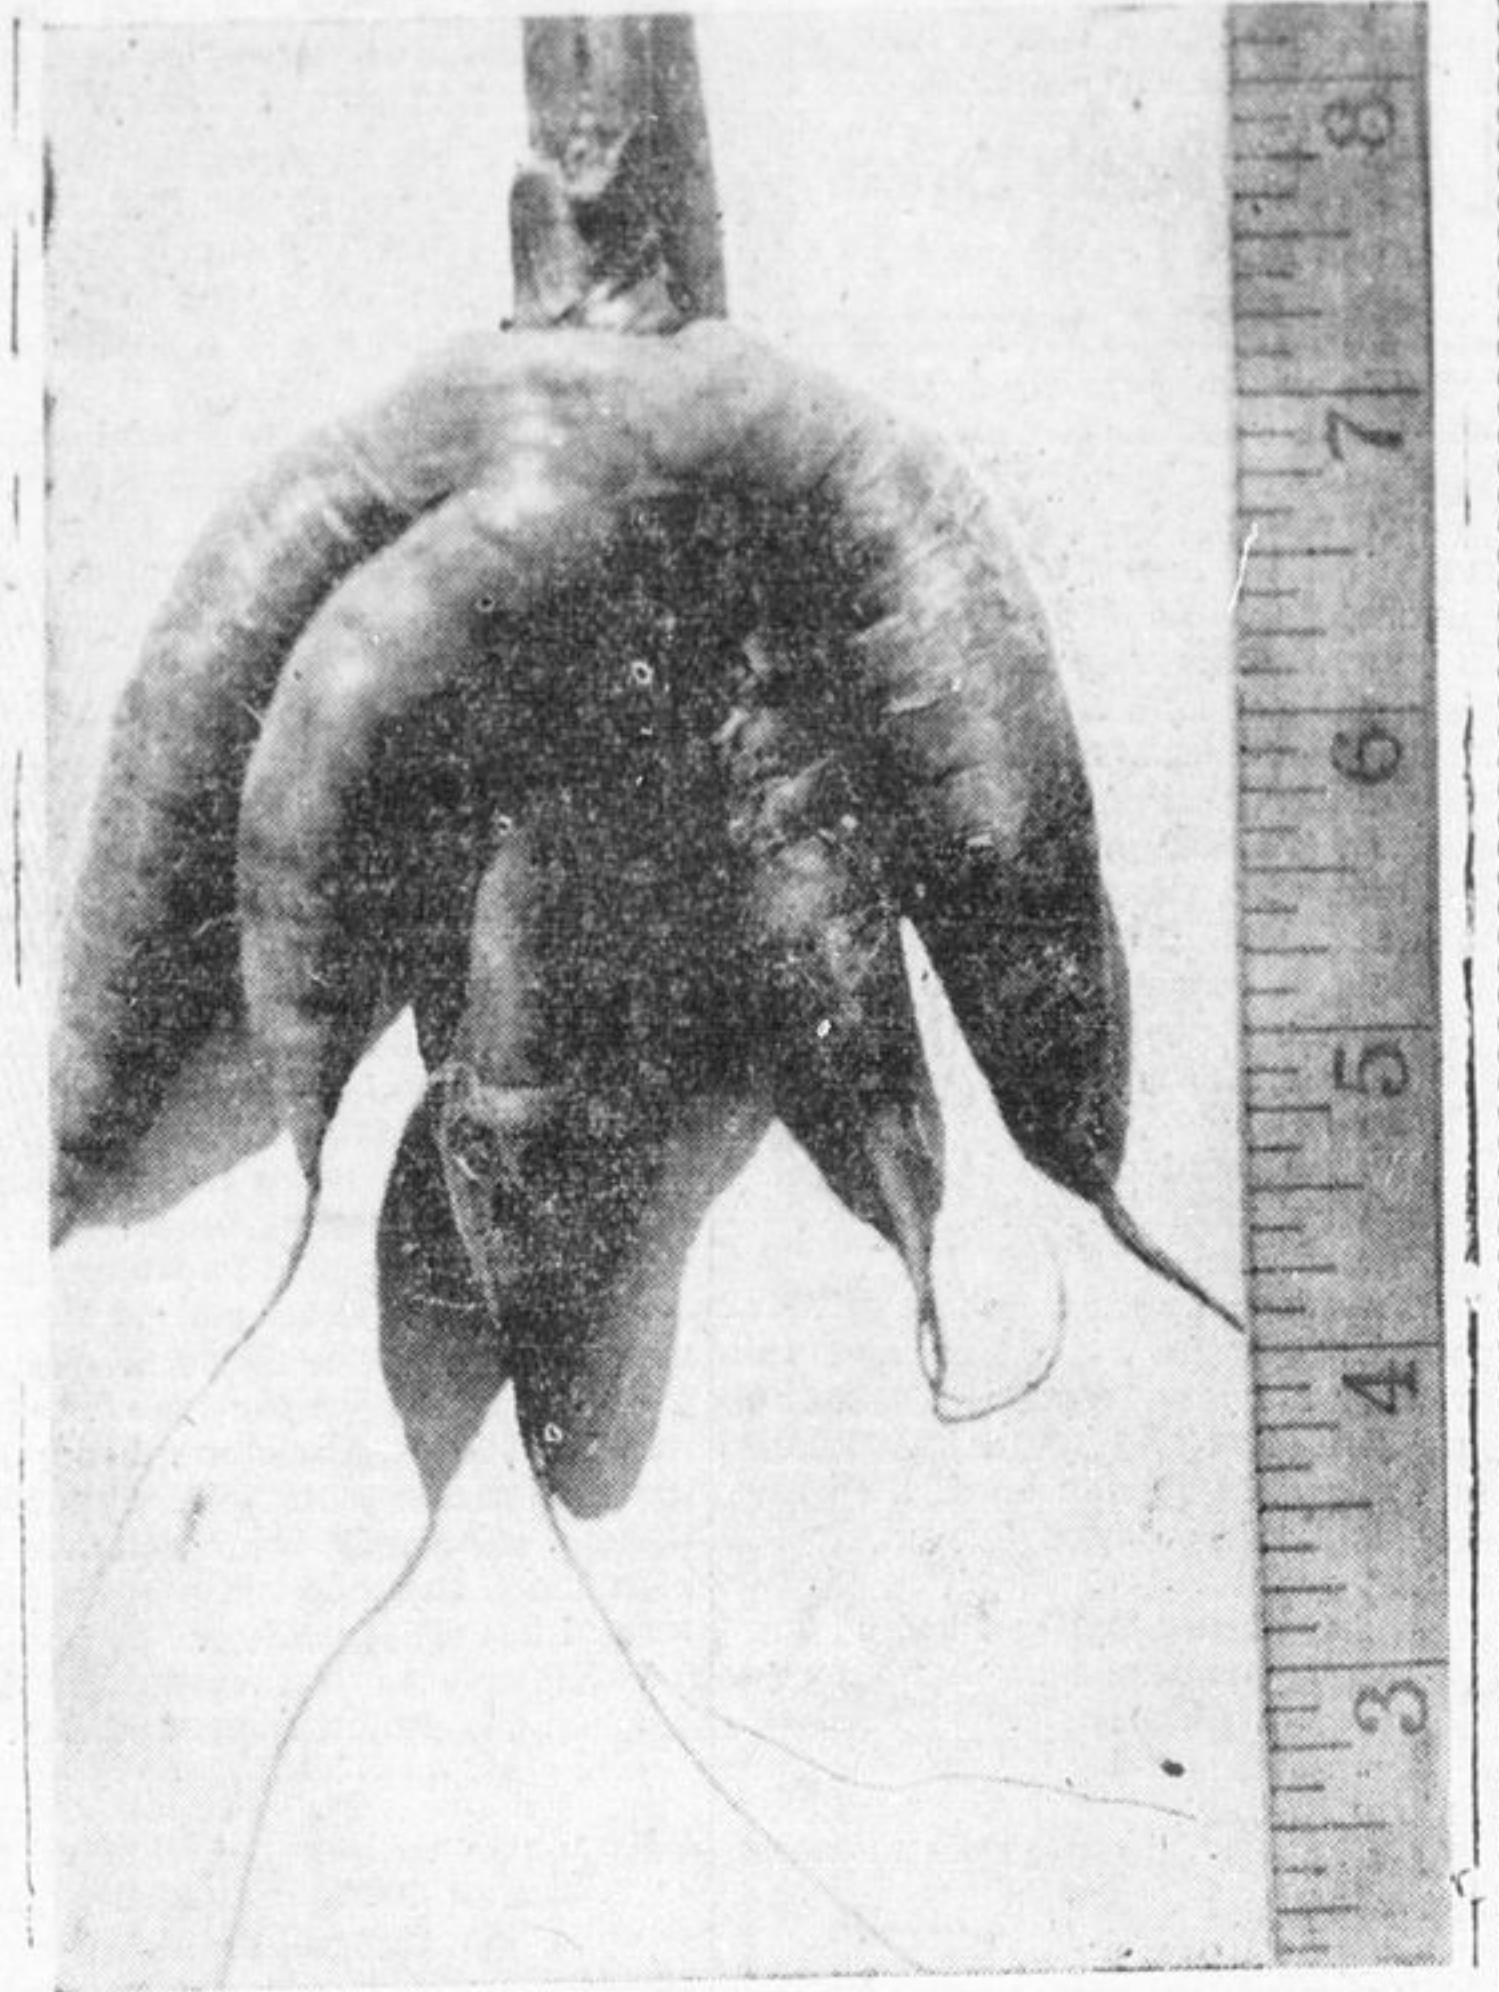

**Will Hold "Fall Frolic"**  
Progress on arrangements being made for the Lions Fall Frolic, to be held in the Riverside pavilion on October 4th, was reported by Dr. Ray Hughes. Fashion show, floor show, dancing and games will make the Friday evening affair even better than the popular summer frolics, it is expected.

The evening's entertainment was provided by two quartettes, made up on the spot by drawing eight members' names from a hat. The first four called to the piano were Lions Rose, Herrington, Hall and Scholes, who made a real hit with "Long, Long Trail." The second group, drawn at random, turned out to be a real Irish quartette—Lions Kelly, Doyle, Malone and Grady. Their "Sweet Rosy O'Grady" was a real treat.

Dr. Kelly reported that another pair of glasses had been fitted during the week and suggested that a few "magazine weeks" be held. This idea was readily taken up, and during the next few meetings, each member will bring at least one magazine to the meeting. These will be distributed to a number of places in Timmins where reading matter is at a premium.

The speaker for next week will be S. C. Platus.

### QUINTUPLETS IN TIMMINS, TOO

Corbell has his infants but a Timmins vicinity gardener produced a few days ago this quintuplet carrot. Charlie Paulus, Mountjoy township farmer who has 40 acres across the bridge, was more than surprised the other day when he was bringing in his crop to find this strange looking vegetable. All the carrots nearby were normally healthy, he told The Advance, and this is the first deformed one he had had. Charlie has been farming here for the past ten years, and has gone in for market gardening on a fairly large scale. He sells his produce direct to local grocery and fruit stores, he says.

### Bazaar This Week by Ladies' Auxiliary

Remarkable Array of Fine Sewing, Home Baking and Novelties, Etc.

Plans are all completed for the big bazaar to be held in the Legion hall, Cedar street south, on Wednesday of this week. The event will commence at 11 a.m. and continue till around 6 p.m. The reason for the morning opening is to give those uptown doing morning shopping a chance to patronize the bazaar.

There is a wonderful array of fancy sewing in all its varied lines. Ladies will find suitable gifts for Christmas among the selections. Home baking of a fine variety will also be a feature, and afternoon tea. All ladies of the district are extended a very cordial invitation to attend. Don't forget the bazaar is open from 11 a.m. Wednesday, September 18th.

### Opening Meeting of I.O.D.E. for Season

Event This Evening Not an Open Meeting. Address on Ethiopia to be Feature.

The opening meeting of the I.O.D.E. for the fall season will be held this (Monday) evening in the Moose hall. It is the first regular meeting after the holiday season and a large attendance of members is expected. It is not an open meeting but will be for members of the Order in the regular way. The special feature of the occasion will be an address by Mrs. W. W. Tanner on the Ethiopian situation.

### Pretty Wedding at Church of Nativity

J. D. Brady and Miss Viola Rose McGale United in Marriage This Morning.

The Church of the Nativity, Timmins was the scene of a very quiet and pretty wedding this morning at eight o'clock when Viola Rose, daughter of Mr. and Mrs. J. H. McGale of Cobalt, became the bride of Mr. J. D. Brady, son of Mrs. T. P. Brady and the late Mr. Brady, of Perth, Ont.

Rev. Father John R. Gorman said the nuptial mass; the church being beautifully decorated with autumn flowers and lights. Miss Rosary Kelly played the wedding march and accompaniment for the several vocal numbers rendered with much effectiveness by the nurses of St. Mary's hospital.

The bride was becomingly gowned in a princess model of royal blue chiffon velvet with slight train and wore a small attractive French hand-made hat of the same shade of velvet. Her corsage bouquet was of white orchids and maiden-hair fern and she carried a handsome white leather-bound prayer book with white satin streamers caught with orchids.

Miss Louise Rothwell, of Kirkland Lake, her bridesmaid, was attired in a dainty gown of phlox chiffon velvet with hat and accessories to match. Her corsage bouquet was of tulle, roses and maiden-hair fern.

Mr. T. A. MacDonald ably assisted the groom.

The breakfast reception was held at the home of one of the bride's friends where the rooms were profusely decorated with brilliant autumn flowers.

The happy couple left by motor for Perth, from where they will go to Montreal to embark on a cruise to Nassau, Bermuda and Jamaica.

The bride travelled in chic navy blue knitted suit under a smart tweed coat with hat and shoes to match.

On their return Mr. and Mrs. Brady will reside in Timmins.

During the past week Miss McGale was entertained at several social gatherings and was the recipient of many beautiful and costly gifts.

The many friends of the popular couple will extend their sincerest good wishes for a long and happy wedded life.

### Temperatures at Night Around Freezing Point

Night temperatures in the Timmins area continue to hover around the freezing point. More frost was had in both Tisdale and Mountjoy toward the end of the last week, though some spots in Timmins escaped.

Saturday's rain set up a one-day record that should stand for a few weeks when a steady moderate rain fell from 7:30 in the morning until 9:30 at night, totalling three-quarters of an inch. At 11:30 on Saturday morning, hail fell for a few minutes.

It will remain generally fine and cool during the next few days, the weatherman said this morning.

Temperatures for the period have been: Thursday, max. 53, min. 33; Friday, max. 56, min. 33; Saturday, max. 43, min. 34; Sunday, max. 58, min. 36; last night's minimum, 34; eight o'clock this morning, 43.

## White Slavers Kidnap Girl to Send to North

Man Given Five Years and Woman Two at Montreal Last Week. Suggestion Made of Wholesale Traffic. Attitude of Police Here Further Justified.

Suggestions last week at the trial of a man and woman in Montreal indicate a gang in Montreal co-operating with others in the North in the white slave traffic. While Timmins was given as the destination of the girl rescued at Montreal, the local police have given the traffic from the town in large measure, though some of the lower class hotels are still believed to be operating in the traffic. The cases in Montreal, however, fully justify the attitude of the local police in their efforts to break up the traffic and kill the places here. Driven from town some of the gang have been operating near the town. Further co-operation between the town and Montreal authorities may lead to a complete break-up of the unsavoury traffic.

On Thursday at Montreal Judge Gustave Morin sentenced Alexander Brebant, aged 33, to prison for five years for his part in the scheme to drag Aida Tremblay, 19, into a life of prostitution, and send her to Timmins for immoral purposes. Mrs. Germaine St. Maurice, 35 years of age, was given a two-year term by Judge P. T. Enright at Montreal. According to the evidence the woman advertised for girls for domestic help and then held them, against their will, if necessary, to forward them to the North for immoral purposes. One of two girls treated in this way managed to escape and told the police. The man was caught putting the other girl in an auto to be taken to Timmins.

### Motion Picture Programme by Timmins Moose Lodge

Timmins Lodge Loyalty Order of the Moose has sent out invitations for a very interesting event to be held in St. Anthony's Parish hall, Timmins, on Monday evening, September 23rd, commencing at 8 p.m. Two notable motion picture films, "To-morrow's Citizen" and "Life's Greatest Mistake," will be shown. There is no admission charge but admission is by invitation only.

### Not Many Ducks Yet at Frederickhouse

More Expected Down from the North in Course of the Week. Large Number of Hunters.

The duck hunting season got under way this morning without a single casualty, so far as could be learned at noon. The birds are none too plentiful at Frederickhouse lake this year, though hunters appear to be. It is expected that later on in the week more ducks will come down from the North and the marshy lake will live up to its reputation of being the best duck hunting ground in the district.

Although the season was to have opened on the fifteenth, shooting on Sunday is illegal and few took the chance of being taken in by the game warden.

A group of local hunters will leave for their cabin at Moosonee about the end of the month. At present the camp is being used by officials of the Spruce Falls paper company, of Kapuskasing.

### MEETING THIS EVENING OF THE DAUGHTERS OF ENGLAND

The first meeting for the fall season to be held by the Timmins Daughters of England will be held in the Odd-fellows' hall this (Monday) evening at 7 p.m. At 9 p.m. there will be a whist drive, also the drawing for the doll. Good prizes for the whist. Refreshments.

## Replies Made to Motions by Associated Boards

Dept. Northern Development Says Ferguson Highway and Sault Cost About Same. Radio Commission Makes Defence. Other Replies.

W. O. Langdon, president of the Northern Ontario Associated Boards of Trade, has received replies from the resolutions sent out by the organization following its recent semi-annual meeting at North Bay. The following is the reply in reference to the routing of the Trans-Canada highway:

**Re: Trans-Canada Highway**  
Dear Sir:—Your letter of the 7th instant to the Honourable Mr. Heenan in reference to the proposed routes of the Trans-Canada Highway has been referred to this office for attention.

From North Bay to White River preliminary surveys and estimates have been made, both via Sudbury and Sault Ste. Marie and also via New Liskeard, Cochrane and Hearst. Final locations are now under way and the estimates will be prepared as soon as these surveys have been completed.

From the preliminary surveys the route via Cochrane and Hearst is 41 miles longer than via Sault Ste. Marie. There is practically no difference in cost of construction by either route but until the final survey is made definite figures cannot be given.

Yours very truly,  
C. H. Meader,  
Assistant Chief Engineer.

Toronto, Sept. 12th, 1935.  
From the standpoint of the Northern Ontario Associated Boards of Trade,

this reply is not very satisfactory, evading as it does the main part of the resolution forwarded.

**Radio Broadcasting**  
The reply from the Canadian Radio Broadcasting Commission is scarcely more satisfactory. It also seems to miss the main point of the resolution, which was that the North should be given chance to receive radio in return for the license fees paid, and that weak monopoly giving inadequate service should not be allowed to dominate the field.

The Sudbury station has been a help but does not meet the situation fully yet. This is particularly true after 8 o'clock at night when U.S. stations hold the waves. The letter from the Canadian Radio Broadcasting Commission is as follows:—

Ottawa, September 12th, 1935  
Dear Mr. Langdon:—Thank you for your letter of September 7th forwarding copy of resolution adopted by your organization on August 23rd.

The terms of this resolution are quite unfair. It is not true that the Commission has been guilty of inaction in connection with radio services in Northern Ontario. You are well aware that this Commission was not accorded a vote for capital expenditures on the construction of stations, but ever since

(Continued on Page Five)

### Large Attendance at Timmins H. & V. S.

High School has 434 Students as Compared with 408 Last Year. Vocational School has 290.

There is a total of 724 students at the Timmins High and Vocational School this term as compared with 720 last year. This is an increase of 4 for this year. Analyzing the figures in detail however, shows that there is an increase of 26 in the High School department and a decrease of 22 in the Vocational School.

The High School attendance this year is 434, compared to 408 last year, an increase of 26.

There are 157 in the Girls' Vocational sections, as compared to 164 last year, a decrease of 7.

In the Boys' Vocation Dept. there are 133, as compared to 148 last year, a decrease of 15.

The High School attendance and the Commercial attendance have increased somewhat, while the other departments show a slight decrease.

### Virginia Jubilee Singers at United Church To-night

The special event to-night for music-lovers is the programme to be presented by the Virginia Jubilee Singers at the United Church, under the auspices of the United Church choir. The Virginia Jubilee Singers have won wide fame and their programmes are reported as delightful events. The concert this evening will commence at 8 p.m. and should be especially well worth hearing.

### Death of Mrs. L. Zanchin at Schumacher To-day

The death occurred early this morning of Mrs. Louis Zanchin, of 51 First avenue, Schumacher. Just 34 years of age, she was a popular member of the community and was active in Italian circles. She is survived by her husband and a family.

The funeral will be held on Wednesday afternoon from the Church of the Nativity.

Born—at St. Mary's hospital, Timmins, on August 22nd, 1935, to Mr. and Mrs. Ole Warren—a son.

## Five Thousand Quarts of Milk Used Here Daily

But Farmers in District Produce More Milk than can be Taken by Pasteurizing Plants. "Fresh Milk" Means Just That in Timmins.

It might be possible for the Ontario Milk Control Board to make some improvement in the milk bottle situation here, it was admitted last week, but aside from that, Timmins' milk supply more than lives up to the Control Board standards, both in purity and butter fat content.

Farmers near here get a good price for their milk; all of it must be pasteurized, according to a municipal by-law, so that the number of outlets is limited and it is possible to make a fair operating profit. The one trouble is that the pasteurization plants cannot take all the milk produced by the farmers, even though the consumption in Timmins is 5,000 quarts per day. The public gets good clean milk, with a butter fat content usually above that required by the control board.

**Six Hours "From the Cow"**  
Some of the milk set on Timmins doorsteps during the morning, is less than six hours "from the cow." The Advance learned. It is taken from the farm to the pasteurizing plant very early in the morning, treated, and delivered before ten o'clock.

The bottle question is one for settlement among the dealers themselves. In Sudbury the control board has made it compulsory for the consumer to pay a deposit on the bottle when buying "over the counter." Restaurants and others engaged in selling milk retail, must pay the dairy the deposit, so that there is no loss to the plants. If and when the consumer returns the

bottle, his nickel is repaid. Through the dairy's neglect in charging the retailer a deposit and the retailer's neglect in charging the consumer a deposit, thousands upon thousands of milk bottles are lost or broken every year. Through the adoption of the deposit system in Toronto, it is said that the milk business has been saved more than \$100,000. Proportionately, the possible saving here would be \$5,000, but in reality, the present loss is much higher, it is estimated.

**Six Outlets Here**  
Through the six licensed milk dealers in Timmins, the local supply of that very necessary food is kept well within government standards. Pint samples are shipped to North Bay as often as three times a month by the milk inspector, I. E. Dunn. Dairies are informed of the results of the tests. The amount of sediment, the number of bacteria, and the percentage of butter fat are all carefully checked. Not since the by-law making pasteurization of milk compulsory has been passed has Timmins had an epidemic of any kind traceable to the milk supply.

Should unfair competition of any kind arise in the Timmins district, or should prices to the dairymen be forced downward through a milk war, the Milk Control Board of Ontario has full power to step in and clarify the situation. They have already done this in other Ontario centres, but there has not been occasion here yet for the using of this authority.

### Col. Lang has Faith in the North Country

Here at Week-end on Way to Moosonee

On their way to Moosonee to further investigate reports of oil, Col. Malcolm Lang, chairman of the T. and N. O. railway Commission; G. L. Jarstone, of the Canada Crushed Stone Company, Hamilton; O. D. Peat, K.C., of Hamilton; and Dr. Arthur, of Sudbury, were in Timmins from yesterday afternoon until noon to-day.

Col. Lang is even more enthusiastic about the prospects of the country north of Cochrane on the extension and sees no reason why there should not be oil in the saucer-like basins whose surface has been musked for thousands of years.

The others have never been to Moosonee before and are looking forward to learning a great deal of Ontario's outlet to salt water.

## Charged with Selling Goods at Illegal Hours

Two Charges Against Corner Groceries Reply of Police to Complaint Made to Council Last Week. Other Cases to be at To-morrow's Police Court.

Last week complaint was made to the town council about small grocery stores not observing early closing and Sunday hours. The police were asked to check-up. As a result of a check-up, last night two charges were laid, one against F. Trumble, Toke street, and the other against Geo. Bychuck, the former being said to have sold goods at 1:50 p.m., and the latter at 9:30 p.m. Sunday night. In both cases leaves of bread were the articles sold.

For to-morrow's court there will be a list of other charges, several of them being traffic cases, the police continuing their close check-up on the rules to assure public safety. Two men are charged with operating motor cars without the necessary license. One man had only one headlight and no tail lights on his car. Another man faces a reckless driving charge. There is one charge for double parking.

There are eight common garden variety drunks on the list.

Harry Jackuk is charged with the theft of a sweater coat from a local store on Saturday night at 9:30 p.m.

Two men, while under the influence of something or other, were fighting in the ball grounds. They will have a chance to tell the judge about it.

The charge against one man is that he is mentally ill.

Among the cases remanded from last week are the high-grading cases in which A. J. Moore, Arthur Goulet and G. St. Pierre are accused. Willie LaRose will also be on the list being remanded last week on the charge of contributing to the delinquency of his children by habitual drunkenness and neglect.

### Men Formerly Here Charged at Rouyn

Paul Lajeunesse Arrested Here for the Rouyn Police. Jos. Roy Another of Seven Arrested.

Two stores and a private house in Rouyn were entered and robbed and an unsuccessful attempt made to burglarize a third store by burglars on September 7th. The Rouyn police traced the robbers and succeeded in capturing six of them as well as those covering some of the loot. Among those arrested by the Rouyn police was Joseph Roy, formerly of Timmins. He was convicted here not long ago and could not have been long out of jail when he was taken in charge at Rouyn. The Rouyn police asked the Timmins police to look for Paul Lajeunesse, who was also one of those wanted by the Rouyn police in connection with the robberies. The police here picked up Lajeunesse on Saturday and the same day an officer came here to take him to Rouyn for trial. Lajeunesse is said to have been in company with some of the men now under arrest but had evaded the police and reached Timmins. The seven are said to have worked in two gangs in the robberies. In one case \$75 worth of tobacco was stolen.

### Col. Lang has Faith in the North Country

Here at Week-end on Way to Moosonee

On their way to Moosonee to further investigate reports of oil, Col. Malcolm Lang, chairman of the T. and N. O. railway Commission; G. L. Jarstone, of the Canada Crushed Stone Company, Hamilton; O. D. Peat, K.C., of Hamilton; and Dr. Arthur, of Sudbury, were in Timmins from yesterday afternoon until noon to-day.

Col. Lang is even more enthusiastic about the prospects of the country north of Cochrane on the extension and sees no reason why there should not be oil in the saucer-like basins whose surface has been musked for thousands of years.

The others have never been to Moosonee before and are looking forward to learning a great deal of Ontario's outlet to salt water.
