

## Notable Programme for Convention of Firemen

Big Event for Firemen of the North Planned to be Held at New Liskeard on Sept. 29th and 30th. Some particulars of the Items on the Programme.

There have been several references in the Advance to the annual convention of the Temiskaming Firemen's Association to be held at New Liskeard on Sunday and Monday, September 27th and 30th. For years this has been a very important event in the life of the North, and this year it promises to be of outstanding interest and value. The New Liskeard fire brigade is giving every possible assistance to making the event a success in every way, and as the success of an event of this kind does depend in large measure on the co-operation of the town in which it is held, the chances for success at New Liskeard this year may be set down as the brightest possible. The New Liskeard Speaker is right on deck with his assistance in the way of publicity for the event, and being on the spot can give out much useful information to the public. Some of this information is passed on herewith to readers of the Advance.

According to the Speaker the efforts of the Temiskaming Firemen's Association, backed by the active co-operation of the eyes of the veteran fire fighters of that part of the province, and that many of the boys have still retained of the New Liskeard fire brigade, to make the convention on Sept. 29th and 30th the biggest event of the kind ever held in the North, is almost sure to succeed because the advance information regarding the programme gives evidence of the fact that the arrangements have been most thorough. Already reservations have been booked for visitors from Montreal, Quebec, Toronto and Ottawa, included in the list being the expected presence of Mr. Rosaire Beaulieu, and Mrs. Beaulieu, of Quebec. The former is the present president of the Dominion Fire Chiefs' Association and holds the important position of Fire Chief of Quebec City.

This is the twentieth convention of the Temiskaming Association, and to those who took an active interest in these matters before the Association was organized, the time has fairly flown. The Speaker recalls the days when the New Liskeard Fire Department visited Old Ontario and opened their interest in this work is a credit to them.

The convention opens on Sunday, when registrations will begin at the Grand Union hotel, at two o'clock p.m. Visitors will arrive by train or motor during Sunday and will be made welcome by the reception committee and citizens generally. At midnight, or more definitely put, at 12:05 a.m. on Monday, a "Midnight Show" will be presented at the Empire Theatre, with an excellent programme. Business of the convention will resume at 8 a.m. on Monday, with further registrations, and the convention will open at 9 a.m. in the Public Library, the following gentlemen representing New Liskeard in the "voice of welcome" to the visitors: T. S. Armstrong, pres. Kiwanis Club; M. B. Auger, pres. Board of Trade; J. W. Kearns, chairman Parks Com., and others.

The "Memorial Address" to the firemen's deceased brethren will be featured by addresses from Rev. Father Herzl Paquin and Rev. G. R. Cragg. At 12 noon, a photo will be taken by Mr. Pringle, at the cenotaph, and it is hoped that all those in attendance at the convention will be present. The Association also invites all members of the Kiwanis Club to join in this feature of the convention, following which the ladies will have luncheon at Greenwood's, while the men will join the

## Children Find Body of Suicide at North Bay

Last week children at play on Lansdown avenue, North Bay, made a gruesome discovery in some bush at the outskirts of the city. They found a dead body lying at the foot of a tree. The youngsters notified the police and enquiry revealed the fact that the dead man was Harry Shawinski, 40 years old and of Polish descent. He had been missing since August 5th. A piece of rope around the neck of the body and another section attached to the tree told the method of death. The man also left a note to his wife and three children in Poland. Provincial Constable Wm. Noyes, who investigated the suicide, learned that Shawinski had been employed last winter with Gleason Martin Limited, contractors for one section of the Temiskaming-North Bay highway. He was hurt while at work and was taken to the hospital at North Bay. He was released from the hospital last spring, but was in a nervous state and is understood to have been acting queerly at times. A search of his room revealed the letter left for his family. Shawinski had \$130 in the Canadian Bank of Commerce at the time of his death, while his friends suggested that he also had a bank account in Simcoe, though they had no idea of its size. It was not thought necessary to hold a jury inquest. The body was placed in a rough box and taken at once to the Terrace Lawn cemetery at North Bay. Shawinski was last seen alive on August 5th, the second day of the Old Home Week at North Bay.

Kiwanis Club in their weekly luncheon, which will be served in the Club rooms of the Curling Rink.

During the afternoon the programme of the convention will be resumed when addresses will be delivered by the following experts in their various fire-fighting lines: L. J. Bishop, of the Fire Marshal's Office, on "Talk and Slides on Fire Hazards;" Phil Hoffman, Chief Forest Ranger, Latchford, on "Suppression of Forest Fires;" Harry Beardall, of Toronto, on "Gas Masks and Demonstration of Inhalator;" Geo. E. Fox, Toronto, on "Demonstration and Talk on Foamite;" J. F. Chevallier, Quebec, on "Organization and Assistance to the Fire Department in Small Municipalities;" C. A. Byam, New Liskeard, on "Insurance, Its Uses and Abuses;" Max Smith, South Porcupine, on "Handling of Ladders by the Smaller Volunteer Fire Departments."

The annual banquet will take place at 6 p.m., following which an excellent programme will be provided under unusual conditions. There will be no evidence of the usual toast list. Instead each department of the association will provide some feature at present known only to the particular department, but it is assured that the programme will be found not only unique but most interesting, while music for the noon luncheon and banquet will be provided by English's high-class orchestra, comprising seven pieces.

A special feature of the convention is the fact that from Toronto and points east and west, the C.N.R. and T. & N. O. Railway will run one of their popular one-cent-a-mile excursions to the North Country at this particular date.

**Convention Committees**  
Banquet—Jas. Paddon, W. Raymond, T. McDougall, M. Hughes, W. Carr, J. G. Mortens.

Dance—Bert Ough, J. A. Wilder, Arnold Wilder, O. LeBlanc, S. Maddock, C. David.

Programme—A. M. Douglass, W. H. Lowry, G. E. McKelvie, C. E. Bond, B. Donahue, A. Ritchie.

Decorating—R. B. Grills, S. Mallet, E. Wilder, O. Clarkson, J. Hovey, W. Baker.

Convention photo and souvenirs—J. W. Gadsby, C. E. Bond, C. D. Johnston, Fred Carr, Bruce Brown, A. Fauvelle, J. Short, A. Short, A. Rose.

## Many New Works of Fiction at Library

New Book by Governor-General in the List Added to Shelves at Timmins Public Library.

Fiction recently added to the Timmins Public Library covers a wide variety of interests. The new books soon to be released promise to be popular and many of them, particularly in the non-fiction class, are timely.

Now available are: "The Desire and Pursuit of the Whole," by Frederick Rolfe, "Baron Corvo," (The last work of an extraordinary man. The manuscript was kept under lock and key for many years, there being no publisher who would risk placing it on sale. Yet it is a true picture in some ways of modern Venice and of the author, whose talent was recognized even though he made himself thoroughly disliked by most of those who knew him.)

"Next Time We Live," by Ursula Parrott. (A girl of 18 and a boy of 21 marry. He goes to foreign lands for his newspaper and she becomes a successful actress. Their problem takes 10 years to solve.)

"The House of the Four Winds," by John Buchan. (More of the characters of "Huntingtown," and "Castle Gay.") The latest published book of Canada's new governor-general, displaying the author's recognized talent for tales of adventure.)

"They wouldn't Be Chessmen," by A. E. W. Mason. (An unusual kind of crime story in which the lieutenants don't act the way the master-mind dictates.)

"Triumph," by Charles Francis Coe. (Another of the famous American's political stories.)

"A Woman's Way," by Henry St. John Cooper.

"The Link," MacDonald. (Mystery.)

"Dark Before Dawn," Dick. (North-ern story.)

"I'll Blackmail the World," Work.

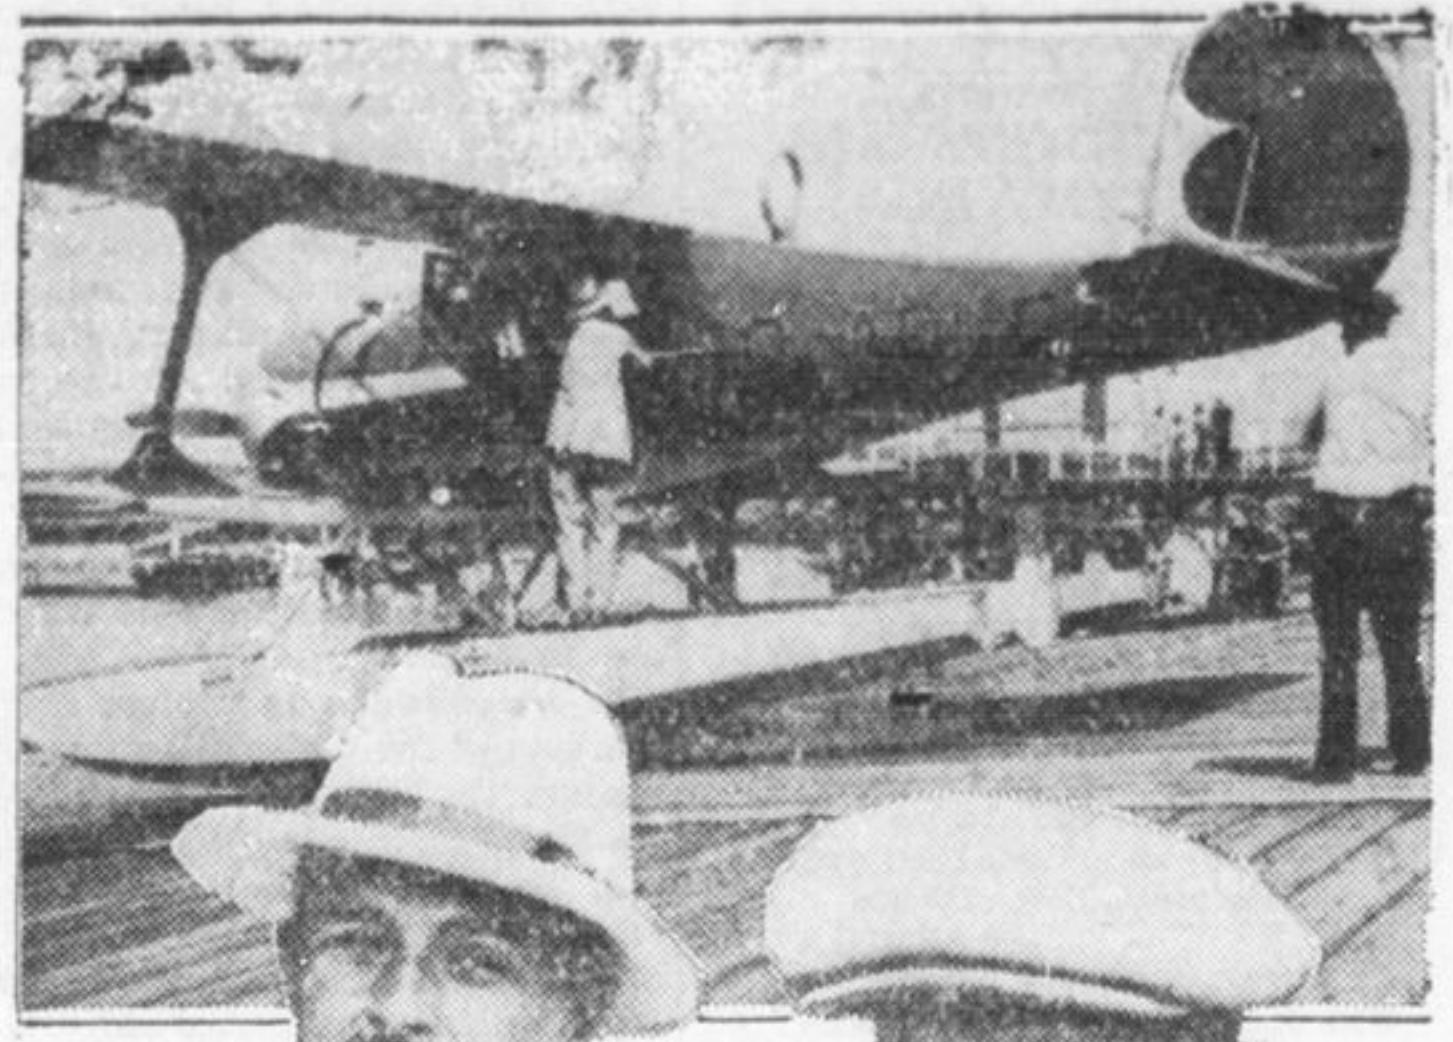

"Storm Comes to Stay," Merrel.

"A Palace in the Clouds," by Pauline Warwick. (A girl's dream of an important place in the world has every chance of coming true, until real romance interferes.)

"Wendy's Family," Starr.

Mail and Empire—Ethiopian troops have been moved back 18 miles from the border of Eritrea in order to avoid a frontier clash that might mean war. But one of the alleged frontier clashes about which Italy complained formally to the League of Nations happened more than 50 miles in Ethiopian territory.

## British Legation Attache Safe in Siberia

**HAROLD FARQUHAR** **FRITZ BIELER AND PLANE**  
Harold Farquhar, LEFT, wealthy first secretary of the British Legation in Mexico City and Fritz Bieler, German pilot, missing for many days on their aeroplane flight from Nome, Alaska, to Russia, were reported safe after landing at Cape Wellen, Siberia. The men are flying from Mexico City to London in easy stages. Farquhar's plane is pictured TOP

## Appeals Penalty in Haileybury Car Case

Magistrate's Decision in Accident Appealed by Wesley Liscumb at Haileybury.

An appeal from a conviction registered against Wesley Liscumb, in police court at Haileybury on Friday by Magistrate S. Atkinson, and when he was fined \$100 and costs for 30 days, with his driver's permit suspended for 30 days, has been entered by W. C. Inch, counsel for Liscumb.

The conviction was the aftermath of an accident near Cobalt on the night of August 31, in which passengers in a car driven by Lyman Merritt, Kapuskasing, received serious injuries. It was alleged that Liscumb's truck was travelling at an excessive rate of speed when it crashed head-on into the Merritt car. Mrs. W. Twatlo and a sister-in-law, Miss Twatlo, Rouyn, Que., passengers in the Merritt car, were seriously injured and were only recently released from hospital.

A. D. Morley, Kapuskasing, told the court that the truck had passed him at an excessive rate of speed and continued on the wrong side of the road until it struck the Merritt car. Both Merritt and Mrs. Twatlo admitted having visited a beer parlour in Haileybury before the accident.

Mrs. Lena Phillips and a daughter, Miss Annie Phillips, travelling in the Liscumb truck, swore that Liscumb was not driving fast, and that the Merritt car was on the wrong side of the road when struck.

## Timmins Market Shows Steady Improvement

With the Majority of Market Garden Crops in, Farmers Have Time and Goods for Market Here. Good Displays of Vegetables This Week.

Timmins market is steadily improving, now that the biggest part of the market garden crops are in. The period of greatest variety is probably just past, but there is still a remarkable amount of stuff from which to choose. The price of potatoes, fresh from district farms, sound and absolutely free of any kind of blight, remains steady at \$1.25 a bag. Eleven-quart baskets sell for 30 cents.

The last of the tomatoes sell for 30 cents a six-quart basket and find a ready market. Big, clean-looking cauliflowers, crisp and fresh, are going at 5, 10 and 15 cents.

Savory cabbage, the crinkly kind, sells at 10 cents a head; ordinary cabbage 3 cents a pound, and the red variety for 10 and 15 cents a head.

Endives at 3 bunches for 10 cents; parsley at 3 bunches for 5 cents, lettuce, 2 heads for 5 cents; celery from 5 to 15 cents a bunch; spinach at 10 cents a pound; and radishes at 3 bunches for 10 cents, are all popular sellers.

Carrots, beets and parsnips may be bought at either 3 bunches for 10 cents or 30 cents an 11-quart basket.

A few citrons bring 15 and 20 cents; squash of various kinds run from 25 to 35 cents, and vegetable marrow brings 10 cents each.

Tuesdays, Thursdays and Saturdays are market days at the Timmins ball park. More and more citizens are taking advantage of the opportunity to buy really fresh produce.

Huntingdon Gleaner:—A news report told of Mrs. Julia Finchpaugh and Mrs. Louis Weaver, 91-year-old twins, who made a trip from Denver to Tacoma, Wash., by motor car, as being the oldest twins in the United States. To make a 1500-mile trip by auto in four days at the age of 91 is an achievement of note, but these twins do not hold the record for this. This record is held by Mrs. L. V. Whitelock, Los Angeles, Calif., and her twin brother, J. M. Shafer, Plainview, Tex., who were born in Warren, O., Dec. 12, 1842, and so will soon be 93 years old.

## News and Notes of Timmins Girl Guides

Girl Guides Enjoyed Pleasant Hike to Miller's Lake on Saturday, with "Treasure Hunt."

The weekly meeting of the Timmins Girl Guides was held last Friday evening. The attendance and inspection were taken by Captain Cranston.

Horseshoe was formed. Kathleen Starling raised the flag. The Guides then went to their Patrol Corners. Those who are going to be Rangers read over some of the Ranger work.

Captain Cranston and Lieutenants Habib and Tilley went to a convention of the Dominion executive of the Canadian Girl Guides held at North Bay.

Thirteen Guides went on a hike on Saturday afternoon to Miller lake. A fire was made and the girls cooked their supper over the open fire. After supper marshmallows were roasted. The tracks for a treasure hunt were laid by Helen Landers. The treasures were found by Maisie Doling and Grace Lawrence. The hike was under the supervision of Anisee Assad.

A circle was formed for campfire. Songs were sung and a new song was learned. The meeting was brought to a close by the singing of "Taps."

## Dean of Canterbury on Social Credit Crusade

Very Rev. Hewlett Johnson will Tour Canada and Perhaps the United States, Preaching the Gospel According to Aberhart, Douglas and Other Prophets of the Day.

By Central Press Canadian  
Toronto, Sept. 25th—Dean of the Anglican diocese of Canterbury in England, apostle of Social Credit and prominent organizer of the "League to Abolish Poverty," white-haired Very Rev. Hewlett Johnson has arrived in Canada for a lecture tour which will carry him across the length of the Dominion. Starting in the east, the 61-year-old prelate who started as a civil engineer and fulfilled a youthful ambition by becoming dean of the Anglican Church's most important cathedral, will carry the gospel of Social Credit to all provinces. Plans are under way for continuance of his lecture tour throughout the United States.

Rev. Mr. Johnson will confer with Alberta leaders, including Premier William Aberhart while in the west. He has already stated his approval of the policies upon which the new Alberta government was elected. Furthermore the clerical economist believes that the doctrine of the Aberhart party will eventually sweep through all of Canada and reach out into other dominions. The proposed plan to pay each adult in Alberta a monthly dividend by the government, he considers practicable.

"I hope," he says, "during my Canadian visit, to expound the Social Credit policy and the demand based upon it. I consider Social Credit to be a religion, a means of implementing a religious passion for ending poverty."

**Thinks Church Should Lead**

Poverty, viewed in many phases, from the London slums to famine areas in China and mass suffering in other foreign lands, have given the Rev. Mr. Johnson his zeal for a "new deal" for the poor, he maintains. He believes that the church should take the lead in approaching means of ending poverty and to that extent, that each minister should know the broad principles of economics. Canada, he says, thrills him with its willingness to absorb new doctrines and should the Aberhart ministry in Alberta fall in its promise to provide a \$25 per month bonus for its citizens, the theory will be intact. "It would only be a temporary setback," Mr. Johnson avers.

The dean of Canterbury was careful to point out that his visit has no political significance as far as the pending election in Canada is concerned and that he does not intend to campaign in support of specific candidates who may be selected to contest federal seats.

Engineer and editor, economist and world-traveller, he has come in close personal contact with starvation and poverty in connection with his work. Known in London as "the benefactor of the poor" and seeing conditions, which he deems unwarranted, at first hand, it is his intention during his Can-

adian visit to secure recruits to the army of those who are determined to better general living conditions.

He believes the burning of cattle,

**REV. HEWLETT JOHNSON**  
**DEAN OF CANTERBURY**

the dumping of coffee into the sea and the plowing under of cotton to create artificial shortage for the upholding of prices while millions of men are idle is a scandalous state. Poverty, with its poor living quarters, sickness, misery and grinding toil are unnecessary in these modern times, the dean maintains.

**Had Busy Life**

He comes to Canada following a recent visit to Norway where he was amazed at the evident ability of Norwegian audiences to grasp the essentials of a novel set of ideas even though these were presented in a foreign language which had to be interpreted into the Norwegian tongue.

The dean's life has been an active one. Born in Manchester, he later graduated from Victoria university with a B.Sc. degree and became a distinguished geologist. Attending Oxford during 1900-1904, he graduated with honours in theology and entered the church. Appointed dean of Canterbury in 1931, he went to China the following year in connection with the Chinese famine relief fund and engaged in administrative work during the debacle which attended the great flood which had left millions homeless. After traveling through inner Mongolia, penetrating the heart of China and crossing down into Tibet, he saw further evidences of a social system which needed rectifying. This has been his aim for a number of years, and he is now devoting much of his time and energy to the betterment of social conditions.

## Plea Made to Kiwanis for Crippled Children

Reginald W. Hopper, Executive Secretary of Ontario Society for Crippled Children Makes Earnest Address to Timmins Kiwanis Club. Work of the Society Outlined.

Urging co-operation in the work for crippled children, Reginald W. Hopper, executive-secretary for the Ontario Society for Crippled Children spoke to the Timmins Kiwanis Club on Monday at the regular weekly luncheon.

The society is trying to interest service clubs—Kiwanis, Lions, Rotary and so on, in supporting the work in their community at least in part. It is possible that a clinic will be formed here next year by the Kiwanis Club in co-operation with the local medical association. A survey will probably be made and if the plan is carried through, arrangements will be made to help in certain cases.

Photographs of crippled children were passed around by the speaker, showing their condition before and after operations and other helps. Some 1800 children were helped last year partially by the society and partially by other organizations who have worked in co-operation with the society. Operations and care in the society's hospital at Toronto, fitting of artificial limbs and general re-habilitation are among the most important parts of the work.

**Has Dual Purpose**

In addition to vastly increasing the happiness of the child, the speaker said, the care makes them economically useful to the nation as a whole. Where nothing is done, they become dependent upon others, whereas if helped and taught carefully, they may become useful, self-supporting citizens. The mental outlook of a crippled child can be altered to bring hope from despair.

Municipalities are really liable for any treatment given a crippled child at the society's hospital, although the society prefers to have the greater part of the expense shared by service clubs and others, rather than on over-taxed towns.

President Arch Gillies introduced the speaker, who was accompanied by R. G. Cameron, president of the society

Kiwanian Fred Burt thanked the guest of honour on behalf of the club.

Harry Jeffers, Deputy Supreme Secretary of the Royal Order of the Moose, and Roy Ptolemy, Past Grand Dictator of the Ontario Moose Association, were also guests for the day.

## Site Selected for Kirkland Post Office

Proposed New Building at the Lake Shore Town to Cost Close to \$100,000.

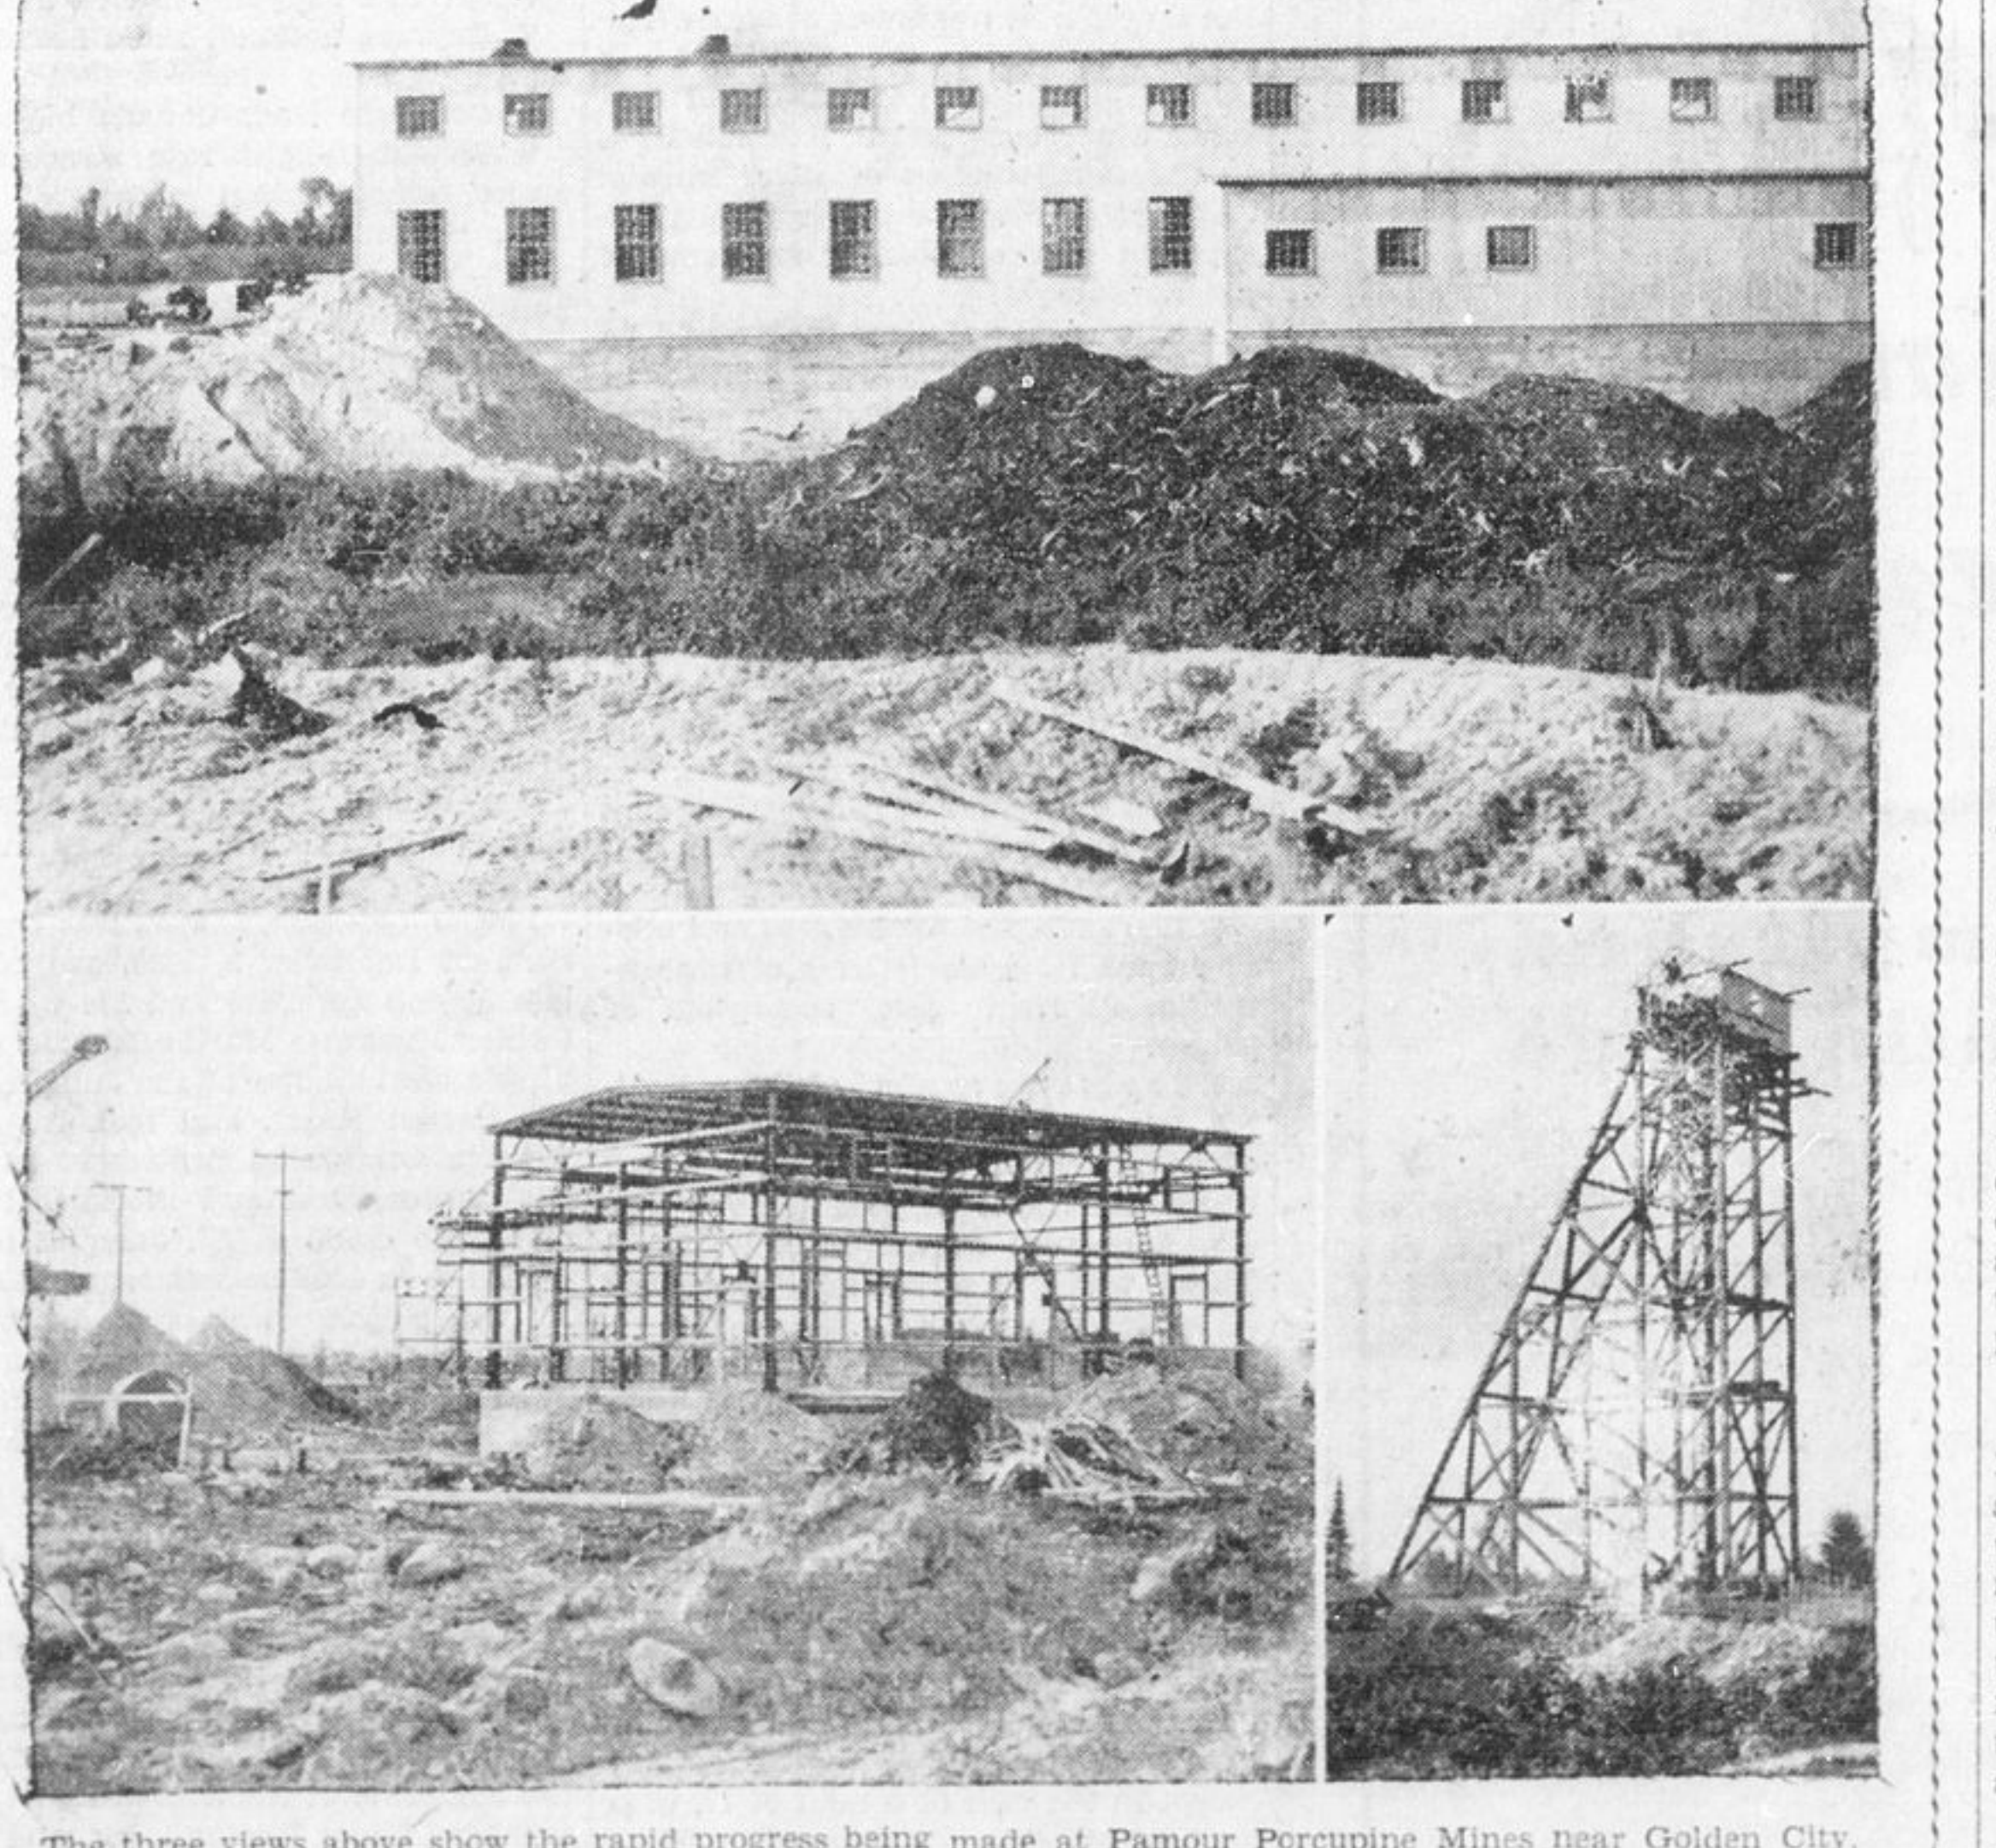

Announcement of the selection of location for the proposed \$92,000 post office and Federal building to be erected in Kirkland Lake was made this week by L. A. Lilloco, township solicitor and president of the Kirkland Lake Conservative Association according to a despatch from Kirkland Lake.

The Duncan avenue, Kirkland street corner, owned jointly by George James and F. Duncan, with a frontage of 94 by 80 feet, is the site selected Mr. Lilloco explained and added that tenders will undoubtedly be called for immediately and construction started as soon as possible. Plans for the building, prepared by Harle B. Long, local architect, are already on file at Ottawa.

Queried as to the possibility of the customs house, at present located in Cobalt, being moved here upon completion of the new building, Mr. Lilloco said he did not believe any such move was being contemplated, but agreed the idea would be a good one.

The Royal Canadian Mounted Police will likely find quarters in the building, Mr. Lilloco said. Application had also been received from the Kirkland Lake Library Board for library space. It is also understood space will be allotted to the local post of the Canadian Legion.

## PORCUPINE LOOKS TO ANOTHER BIG PRODUCER—PAMOUR

The three views above show the rapid progress being made at Pamour Porcupine Mines near Golden City, where the erection of a large modern gold mining plant is proceeding swiftly under the direction of experts. TOP shows the machine shop, now almost complete. Sheeted with steel and lined with copper, in between which is laminated insulating board, the structure offers a new type of mine building that is expected to prove ideal. Four inches of special insulating board make its roof a warm one. LOWER LEFT shows the red-lead steel framework of the new hoist room. This building, like the machine shop, has a deep, solid concrete foundation. To the left of the photo is the site of the new central heating plant. A motor shovel can be seen at work excavating. LOWER RIGHT is a view of the wood framework for the new shafthouse.
