Over 300 at Temiskaming Firemen's Banquet Event

Biggest and Best T.F.A. Convention Concluded with Notable Banquet. Officers Elected for Year. Interesting and Informative Addresses and Papers. Other Convention Notes.

In spite of the weather, which was a taste of very unpleasant winter, the Temiskaming Firemen's Association's 20th convention of Sept. 29 at New Liskeard was a tremendous success. Over a hundred delegates and guests attended, every brigade in the association being well represented. New Liskeard excelled itself in hospitality—Chief Fred Thompson and Mrs. Thompson having left no stone unturned to make the guests welcome and to provide for their entertaining and comfort.

Reconstructionist

DR. A. P. MURTAGH

Mrs. Thompson and Mrs. R. Taylor opened their homes to the ladies attending and a social afternoon was spent instead of the trip by boat to Ville Marie which was cancelled on account of the weather.

The morning session opened on Monday morning in the public library. Attending were—beside the delegates—Fire Marshall Scott, of Toronto; J. Armstrong, Fire Chief of Kingston, who is secretary for the Dominion Association; Mr. J. Grove Smith, of Ottawa, who is the Dominion Fire Commissioner.

President Joe Marcella was in the chair. A memorial service was held for the following firemen who have "passed on" during the year:—Fred Milko, of Swastika; P. A. Arsenault, of Amos; Ernest Fleming, of Halleybury.

Rev. Father Henri Paquin spoke in French and the Rev. G. R. Crag in English. Both emphasized the fact that duties well performed in the presence of danger by those who had passed on left an example for all to follow.

Mayor Armstrong, of New Liskeard, in presenting the key to the town to guests and visitors, welcomed them in a very nice speech, remarking on the very orderly and well-behaved manner in which the celebration of July 1 had been conducted there.

The guests were also welcomed by President Auger of the New Liskeard board of trade.

A most interesting lecture on "home fires" and their prevention was given by Mr. L. J. Bishop, of the Fire Marshall's Office, Toronto, illustrated by lantern slides and experiments.

The local fire chief is arranging to have this same lecture presented in the S. Porcupine High School in the near future.

The officers, members, delegates and guests were invited to dine with the Kiwanis at their regular luncheon in the curling rink, at which J. Grove-Smith, Esq., was the guest speaker.

Business resumed at 2 p.m. and the following excellent papers were well given and well received.

Phil Hoffman, of Latchford, spoke on "Forest Fires—their prevention and how to fight them."

J. H. Chevalier of the Quebec Fire Commission spoke in French on the assistance given to small municipalities by the government in fire training and fighting.

Geo. E. Fox, of Toronto (from American LaFrance Company) demonstrated the different types of chemicals used in fire fighting—Foamite, CO2, Frost, etc.

C. A. Byam, of New Liskeard, gave a paper on "Insurance Risks," and H. Beardsall, of Toronto, showed the different types of gas and smoke masks.

Maxwell Smith of South Porcupine, in his paper on fire ladders,—handling,

raising, transportations, etc.—illustrated his points with ladders in miniature.

The following officers were elected: Past President—J. Marcella. President—J. Thibeault, of Rouyn. 1st Vice-Pres.—W. Gadsby, of New Liskeard.

2nd vice-president—W. G. Skinner, of South Porcupine. Secretary-Treasurer—J. E. Thompson, of New Liskeard.

Judges of Timing, etc.—M. G. Hansman, of New Liskeard; J. A. Pelletier, of Rouyn; M. Smith, of South Porcupine.

A past president's badge was presented to J. Marcella, by C. A. Byam.

A banquet followed in the evening in the curling rink, which was attended by over three hundred guests.

W. A. Gordon, M.P., was present for a short time and after welcoming the guests spoke of the potent and helpful influence of a volunteer fire brigade—he himself having served years ago on the Halleybury V. F. D.

W. G. Nixon, M.P.P., introduced Fire Marshal Scott, who spoke briefly on his pleasure at being present and of his duties as Fire Marshal.

Each fire department was expected to give one item in entertainment after the banquet.

The Englehart P.D. gave a number by the Melody Eight orchestra. Halleybury P.D. — Recitation by George George (Habitant reading by Drummond).

Hill-Clark-Francis Dept.—Song by Miss Freda Prout. Kirkland Lake—Pat Rodie and Mrs. Rodie gave a good exhibition of tap dancing.

New Liskeard.—Dance by Miss Fox (in costume). South Porcupine—Song (the Drum-Major) by M. Smith.

Speeches were given by Mr. Beaulieu, Esq., of Quebec, president of the Dominion Fire Chiefs' Association; J. Grove-Smith, Esq., of the Dominion Fire Commission; and J. Armstrong, Esq., of Kingston.

Reeve C. V. Gallagher, of South Porcupine, made a material contribution to the evening's entertainment by speaking to "fire fighters and extinguishers"—mentioning that New Liskeard was his "home town" twenty-five years ago, and that he had yet to find a better place in which to live.

He also said that all municipalities should give their moral and financial support to the extent of their ability to their local fire depts. He was pleased at the invitation of the South Porcupine Fire Dept. to hold the tournament next July 1st in South Porcupine, and also the convention. While South Porcupine is not as well equipped as New Liskeard he would be pleased to see all present as visitors and will entertain them to the best of the town's ability.

The convention ended with a dance in the curling rink. This was generally conceded to be one of the best conventions ever held by the T.F.A.

Improved Service on C.N.R. Cochrane Line

Canadian National Rearranges Timetable to Benefit of Hearst, Kapuskasing and Other Points.

According to word from Cochrane, the new Canadian National time table effective Sept. 29, will mean changes in trains between Cochrane, Smooth Rock, Kapuskasing, Hearst and intermediate points.

On Tuesdays, Thursdays and Saturdays the train will leave Cochrane at its usual time of 6:30 p.m. but Mondays, Wednesdays and Fridays when there is no C.N.R. train from Quebec to connect with the T. & N. O. train arriving 4:20 p.m., the westbound train will leave Cochrane at 4:40 p.m. and arrive at the points between Cochrane and Hearst 1 hour and 50 minutes earlier.

Eliminates Wait
This will save westbound passengers two hours' waiting and will allow the residents of towns west of Cochrane to receive their mail and express earlier in the evening.

The train between Hearst and Cochrane on Mondays, Wednesdays and Fridays will run at the usual times but on the other three days of the week will leave one hour and three-quarters later than usual, arriving at Cochrane at 12:30 p.m. instead of 10:45 a.m. Thus on the three days when the eastbound Canadian National train to Quebec does not run from Cochrane, a much quicker connection will be made by southbound passengers on the T. & N. O.

APPOINTED ASSISTANT TO GENERAL MANAGER T. & N. O.
Announcement is made from North Bay by A. H. Cavanagh, general manager of the Temiskaming and Northern Ontario Railway, that effective Oct. 1st, 1935, C. O. Baker is appointed assistant to the general manager, office at North Bay.

Children at Shelter to be Guests of Chautauquas
The local committee have been kind and thoughtful enough to arrange with the Chautauquas for the free admission of all the children at the Shelter to the Friday afternoon event next week of the Chautauquas. This will be a great treat for the youngsters as Friday afternoon is the big event for children next week at the Chautauquas. The Friday afternoon event at next week's Chautauquas is Gordon Forsyth's Marionettes, presenting very unique plays and performers by means of "lovable puppet actors," who never fail to delight all children irrespective of age and equally, it may be said, to charm adults as well.

Report of Superintendent of C.A.S. for September
The following is the report for September of A. G. Carson, superintendent of the District of Cochrane Children's Aid Society work:—

Applications for children for adoption	3
Office interviews	76
Interviews out of office	43

Children placed in foster homes	1
Children admitted to shelter (not wards)	12
Children returned to parents (not wards)	5
Persons prosecuted for offences against children	1
Cases under the Unmarried Parents Act	1
Investigations for other societies	5

Dominion Radio Service Appreciated in the Arctic

The Northern Messenger Service will be resumed on November 2nd, says a report from Ottawa, head office of the government-controlled agency that takes part of the loneliness out of Canada's great Arctic regions.

Operated by the Canadian Radio Commission through station CRCO, Ottawa, on short wave, messages are broadcast every Saturday night to those stationed at Arctic outposts. A summary of the week's news, especially prepared by the Canadian Press, is sent out at the same time.

Until this summer, it was not accurately known just how much the service is appreciated by men in the Far North. Major D. L. McKeand, M.C., of the Department of the Interior, went up this summer on the Hudson's Bay Company steamer Nascopie. He took with him all the original messages broadcast last winter. He returned with more than three-quarters of them signed by those to whom they were transmitted, stating that they had been received correctly.

"At least 80 per cent of the messages transmitted by the Northern Messenger Service of the Canadian Radio Commission to persons stationed in the Arctic are received by them," he stated on his return to Ottawa. "This is an excellent showing and the radio commission is performing a very useful service which is greatly appreciated. It would be a distinct loss if anything were done to curtail this service. The people of the Far North are looking forward to the resumption of the Northern Messenger's service this season."

Legion Hears Report on Provincial Convention

Local Committee Appointed by Legion for Community Work. Report of Building Committee. New War Memorial Considered. Nominations for Officers. Other Legion Business.

The monthly meeting of the Canadian Legion held on Monday in the Legion hall was the best meeting held by the local branch for a considerable time. There was a very good attendance and during the evening the members were treated to some really fine addresses. Several applications were received and voted upon and three were initiated. The financial report showed the branch to be in a very sound position.

Comrade Alex Borland gave a very complete account of the Provincial convention of the Legion to which he was one of the delegates. Quoting the principal resolutions and reports and having the full report on hand for all to review, if so desired, Comrade Borland showed that the work accomplished was of much importance to all ex-servicemen.

President Austin Neame, also touched upon some of the special committees. Some suggestions from these committees will be acted upon. Both addresses were listened to attentively and the delegates accorded a vote of thanks.

Comrade W. Devine, spoke on the work of the Extension Committee and asked the branch to sponsor some worthwhile community effort. After some interesting discussion he was appointed convener of a local committee to bring forward some definite plan.

Comrade F. E. Burt spoke on the work of the Forensic Veterans' Building Co. He reviewed in detail the management of securing the present building, the erection, the opening and the managing of the club premises. Detailed figures were given showing exactly the position of the company. Comrade Burt left nothing uncertain, his address showing the members pre-

sented the reason for the building committee having the Legion hall under its jurisdiction. One very gratifying fact could be gathered from the address and that was that all obligations will be met. In closing he asked the full cooperation of the members to use the premises as much as possible.

Owing to a member using objectionable tactics at the banquet on Saturday evening last, the members present took a drastic stand and he was voted out of the branch. The president speaking on the matter said to hold and maintain the public support the Legion had to take these necessary steps.

The matter of a new War Memorial for the district was touched upon and it now appears as if the citizens will be asked to contribute towards a fund for this purpose.

Nominations for officers being called for the first time, the following were named to stand:—President A. Neame; Executive: W. Greaves, Dr. Durkin, T. Parsons, A. Bellamy, A. Borland, Sr., J. Cowan, W. A. Devine. Voting this year will be done through the mail. After some general routine business the meeting closed with the National Anthem.

FREE INOCULATION THIS WEEK AGAINST DIPHTHERIA
On Thursday and Friday of this week, Oct. 3rd and 4th, between the hours of 3 and 4 in the afternoon, children of pre-school age will be given free inoculation against diphtheria, at the clinic rooms, 28 Fifth avenue. This inoculation gives life-long immunity from diphtheria, and is safe and harmless. All children between the ages of nine months and six years should be protected against diphtheria.

Zoological Experts Back from the Bay

Members of Carnegie Museum Staff at Pittsburgh Pleased with Summer's Work in Far North.

A three months' botanical and zoological expedition by two of the Carnegie Museum at Pittsburgh's staff into the James and Hudson's Bay area has just been concluded. Bearded but satisfied with the results of their summer's work, Dr. J. K. Doult and Dr. R. S. Friske are back in Pittsburgh now, knowing more about Canada's North than the vast majority of Canadians.

Early in June the scientists left the South by motor car, abandoning their auto at Cochrane on June 13th. After a short time at Moosonee, they went out on the Hudson's Bay Company's motor ketch "Fort Churchill" for the

Belcher Islands and other east coast island settlements. As their work of collecting specimens went on, they moved from island to island by any means at hand—sometimes a free trader and at others a Hudson's Bay boat on regular schedule. They shipped back large quantities of specimens to Pittsburgh as the boats called. On the August trip of the "Fort Churchill" they moved to their most northerly point, Whale river, and returned to Moosonee on the last boat of the season.

Both are well-known naturalists and will probably prepare a detailed report of their trip and its results.

Edgrecreek Syndicate May Install Plant, Sink Shaft

The Advance is informed that W. T. Stewart, president of Edgrecreek Consolidated Gold Syndicate, together with other officials and an interested party are making an examination of the syndicate's property in the Beatty-Munich to gold area. It is expected that following the completion of the inspection a definite announcement will be made in regard to the installation of a mining plant for shaft sinking under power.

No difficulty is anticipated in financing the proposed enlarged development campaign in view of the favourable report recently completed by J. G. Farquharson, consulting engineer. He bases his recommendation of shaft sinking and extensive lateral work on the results obtained from the intensive surface exploration work and diamond drill programme.
