Hostile Indian Tribes Cunning, Says Speaker

Local Speaker at Kiwanis Club Gives Interesting Description of Northwestern India and Its People and Ways. Other Kiwanis Notes.

Men who steal the ground sheets from under sleeping soldiers' bodies are not to be trifled with, the Kiwanis club learned on Monday when Tom Glaister told of warfare and living conditions near the Khyber Pass in northwestern India. Mr. Glaister was guest speaker at this week's luncheon and as a former member of the British army in India during the Great War, he had plenty of interesting and amusing incidents on which he could give first hand information.

The business of stealing ground sheets is a ticklish performance. Members of the hostile tribes of the mountainous district move silently when they're out for plunder. They can enter an encampment and even a tent without the slightest sound. Kneeling down beside a sleeping man, they can, by tickling him in the side, make him roll over. The ground sheet is then rolled towards the man. A little carefully done tickling on the other side and the sleeping man rolls over again, leaving the sheet free to be taken away.

Block Pass With Boulders
Other playful habits of the tribes were described. The Khyber Pass, 35 miles long, is only 14 feet wide in spots. When ambushing a group of men, the tribes roll boulders down the steep sides of the pass, effectively cutting off advance. The enemy would then close in from the rear.

The weather is hot in northwestern India, Mr. Glaister assured the Kiwanians, though from high up on the mountains where the traveller can be waist deep in snow and look down upon a land virtually shimmering in the hot sun.

The speaker touched briefly on living conditions in the encampment and also on the trip from England to India, during which stops were made at African ports.

The club decided to pay the costs of an operation for a Timmins child born club-footed. It is expected that a complete cure can be effected and leave the child free to take a normal place in society.

Peas With Potatoes
A preliminary report on the Kiwanis Boys' Potato Club was received from the chairman of the boys' work committee, P. T. Moisiey, in which it was stated that the 18 schoolboys who had taken part in the scheme had raised 250 bags of potatoes on a plot of ground under two acres in area. The vegetables were free of any blemish. Detailed reference was made to this in Monday's issue of The Advance. The club members were delighted with the results and plans are being laid for a potato fair. It is likely that the work will be continued next year.

Address on Canada at Bristol, England

H. Weeks, for Many Years Mayor of Englehart, Visits His Native Town. Addresses Rotary Club.

Bristol, England, newspapers refer to an address given recently by H. Weeks, for many years mayor of Englehart, Ontario, who spoke to the Rotary Club in the noted English city. Mr. Weeks spoke on "Canada," but those who know his enthusiasm for the North will not be surprised to know that there was due reference to this section of the Dominion, its resources and its people, which few men know better than Mr. Weeks, who has spent much of his life in this North. There was incidental reference to some recent letters appearing in The Advance, natives of Bristol in this district promptly replying to what they thought to be a reflection on Bristol by another letter writer. The point made by the speaker was that the North, like all other areas on the globe, has its quota of Bristol people and the man from Bristol never forgets his regard for the city and its people.

Speaking of Bristol, the many in the North from that city may be interested to know that The Advance recently received a group of pictures of Bristol, showing that city to be a notable place with public buildings that are a credit to the enterprise and the art of the citizens past and present. Some of the photographs include places mentioned in the letters recently published in The Advance. Here is a partial list of the pictures: The Cathedral, Bristol; the Cabot Tower; University Tower; College Green; Clifton Suspension Bridge from Ashton Meadows; Tramways Centre; view from Clifton Suspension Bridge; Park Street; St. Mary Redcliffe; the Sea Walls, Durham Downs, Bristol; the Avon, from Cliffs, Clifton Downs, Bristol; Bristol from Cabot Tower, showing Cathedral and St. Mary Redcliffe Church; Clifton Suspension Bridge, Bristol.

The Advance understands that Mr. Weeks is expected back in Englehart this week after his pleasant holiday to his native city.

Sudbury Star:—Still alive at 50, there is no reason why Sir Malcolm Campbell shouldn't live forever.

Market Good Here Despite Weather

Two Meat Stalls Did Good Business at Market on Tuesday of This Week.

Despite snow and slush and rain, Timmins' outdoor market continues to attract prudent housewives. The canopy recently erected over the fronts of the market stalls in the ball park serve in keeping the ground underfoot dry.

Two meat stalls have made their appearance during the past couple of weeks and both seem to be doing a good business in freshly-slaughtered meat. Although beef predominates, a good variety is to be obtained.

Vegetable prices continue about the same with bunched stuff at 3 for 10 cents; cabbage 3 cents a pound or \$2.50 a hundredweight for the ordinary variety and 5 cents a pound for the red kind. Celery is at 10 and 15 cents a bunch.

Egg prices are up since a week ago. Grade A large bring 50 cents now, and Grade A pillets 35 cents a dozen.

Favourable Drill Results at the Bidgood Kirkland

Favourable results are being obtained from the diamond drill programme at the property of Bidgood Kirkland Gold Mines, Ltd., according to S. A. Pain, consulting engineer in charge of operations. Diamond drill hole No. 47 has intersected the downward continuation of the No. 5 vein at a depth of 50 feet below the 500-foot level. He states that the ground was fractured considerably and the following core assays were obtained: \$44.10 over 24 inches, 40 cents over 60 inches and \$6 over 24 inches. The estimated true widths of these intersections would be, he states, 18, 44 and 18 inches. In the case of the high assay, the split section of the core was checked at an independent assay laboratory and returned \$120.75.
Stope sampling of the No. 5 vein on the 500-foot level assayed \$45.10 over 32 inches, \$15.80 over 36 inches and \$9.90 over 34 inches. A portion of the millfeed is being extracted from this section. Drifting on this vein shows indications of improving in value as the drift is advanced. The last several feet of the drift assayed \$14.40 over 46 inches, \$50.60 over 30 inches and \$24.31 over 30 inches. Crosscutting on this level of late has resulted in three new veins being intersected.

Sudbury Star:—"I can say this, that no one in Canada has been allowed to go hungry, and everyone has been provided with shelter and clothing," declares Hon. R. J. Manion. Most of the people would prefer work to shelter and sustenance. But the strange thing is that so many of those who have received food and housing do not appreciate it a bit.

He Failed—But Lives

LIEUTENANT WAITKUS
In an attempt to establish a new long-distance record for a non-stop flight, Lieut. Felix Waitkus, veteran U.S. army flier, hopped off alone from Floyd Bennett field, New York city, for Kaunas, Lithuania. The distance of the projected flight was 4,500 miles. He was forced down in Ireland with but one gallon of gas remaining after flying "blind" for hours over the Atlantic.

Legion Again Asks for Shoes, Clothing

Starting Again Their Generous Work of Providing Help to Needy Families of Returned Men.

For years past the Timmins branch of the Canadian Legion has been giving notable assistance to the families of returned soldiers who are in need. Clothing has been supplied for children so that they might attend school, and to adults so that they might be able to take work offered. This work by the Legion has been of benefit not only to the returned soldiers and their dependents but also indirectly to the community which has not been called upon for relief in these cases.

The Legion wants to continue this good work this winter, and so makes its annual appeal to the people in general for any clothing of any kind that they may be able to give. Shoes in good shape will come in particularly acceptable. So will underwear, also suits, coats, pants, hats, overcoats—anything, indeed, in the clothing line. Clothing for women and children, as well as for men, will be gratefully accepted, so that there may be none of the returned men or their dependents to suffer need during the coming winter. Any articles of shoes or clothing that can be spared may be left at the Legion hall, Cedar street, or with the president, Austin Neame, Mines Rescue Station, at the rear of the fire hall, Cedar street.

Outline of Programme of Chautauquas Here

Plays Featured This Year. Kentucky Harmony Singers will be Popular. Dr. Arthur D. Carpenter, the Lecturer. Forsyth's Marionettes a Special for the Youngsters.

First Aid Course for Police and Firemen

Series of Lectures and Training in St. John Ambulance Work Starts on Wednesday.

Members of the fire brigade and the police department will begin a series of first aid lectures next Wednesday evening, October 9th, in the fire hall, it was announced Tuesday morning.

The St. John Ambulance Corps is sponsoring the work and Dr. Kelly is to lecture every Wednesday for six consecutive weeks. At the end of the course all the firemen and police who wish to may try for their St. John Ambulance Corps badge, the mark of distinction for a man properly trained in the work.

First aid, the local protectors of life and property realize, can save many a life. Resuscitation alone, in cases of supposed drowning and electrocution may be brought into use often by both departments. Stopping blood flows, setting limbs temporarily and placing splints for protection may often result in saving life or preventing loss of limb. All these things and many more will be explained carefully and practice with the simple first aid kits supplied by the corps will be undertaken.

Matachewan Pioneer to Incorporate as Company

Development work which has been proceeding since May, 1934 on the property of Matachewan Pioneer Syndicate, in Matachewan, has now reached a point where the management feels justified in making preparations for incorporation and it has been decided to incorporate a company of 3,000,000 shares, \$1 par. Holders of syndicate units are to receive 400 shares for each unit.

The syndicate's property is located on the Montreal River within half a mile of the town of Matachewan. The work carried on for the past 16 months has consisted of surface prospecting, trenching and the sinking of a shaft to a depth of 50 feet, at which depth a crosscut has been carried for a length of upwards of 40 feet. Sampling over the shaft and crosscut is said to have indicated substantial ore indications which warrant a larger development programme than the funds of the syndicate can provide for.

The syndicate management has already been approached by financial interests with a view to taking over a substantial block of the new company's stock when incorporation is completed, it is stated.

Powassan News:—In the good old days the man who could run his business without borrowing from the bank was considered a financier. To-day the man who can borrow from the bank is a financier.

Monday, Oct. 7th—Evening, commencing at 8 p.m.—the comedy drama, "Whittlin'," by the L. Verne Slout players.

Tuesday, Oct. 8th—Evening, commencing at 8 p.m.—Little Miss Spitfire," by the L. Verne Slout players.

Thursday, Oct. 10th—Afternoon, beginning at 3 p.m.—Prelude, by the Kentucky Harmony Singers. Lecture, "The Great Universe," by Dr. A. D. Carpenter.

Thursday evening, commencing at 8 p.m.—Lecture, "Old Mother Earth," by Dr. A. D. Carpenter. Melodies from the Southland, by the Kentucky Harmony Players.

Friday, Oct. 11th—Afternoon, commencing at 3 p.m.—Children's Entertainment Extraordinary, by Gordon Forsyth's Marionettes.

Friday evening, Oct. 11th, commencing at 8 p.m.—"Big Ideas," a three-act comedy by Joan Dixon's Dramatic Artists.

A season's ticket for an adult brings the price of each of the wonderful entertainments provided to less than 35 cents including the tax, while the cost to children on season tickets is less than 17 cents per event. Single admission may be obtained at rates correspondingly low and unless the programme is much different from other years any one feature will be considered by most as worth the whole price of admission for the series. Tickets may be secured from R. Elston or from other members of the committee.

"Whittlin'" is one of the popular plays of the year and is making a decided hit wherever shown. It is written, acted in and produced by L. Verne Slout, noted playwright and actor. It has humour, pathos, philosophy, human nature and a general appeal to all.

"Little Miss Spitfire" is a rollicking comedy that will please any crowd that likes humour well handled in wholesome way.

The Kentucky Harmony Singers are making a very decided hit wherever they appear. This Southland quartette includes Mrs. Louise Melone Broxton, basso and manager, who possesses one of the most unusual voices ever heard. "She has a range of more than three octaves and can reach with ease tones ordinarily considered possible only to male voices," says one newspaper notice. The other three members of the group possess excellent well-trained voices, pleasing personalities, and have had wide professional experience as singers. Not only the singers but their selections of Southland melodies are sure to please.

Dr. A. D. Carpenter is one of the best known of the scientists in the United States, his specialty being astronomy and allied sciences. His lectures have interest and appeal, apart from their educational value.

Forsyth's Marionettes will delight adults as well as children. They give a theatre in miniature, with action, fun, adventure, everything.

The Joan Dixon Dramatic Artists, who present "Big Ideas" on Friday evening, are certain to make a hit, all being talented artists who know just how to present this excellent entertainment. "Big Ideas" is a human, humorous, story of a young lad who struggles to get along on a small salary, with all the adventures and whatnot that are implied by such a plot.

As in other recent years, a group of local citizens make possible the visit of the Chautauquas to Timmins this year. The sponsors this year are:—Ralph Elston, R. Allen, R. M. Asseltine, J. S. Kitchen, Geo. S. Drew, H. Jones, Dr. J. A. McInnis, Vincent Woodbury, E. Cantor (South Porcupine), Chas. E. Kemsley, W. H. Wilson, W. C. Arnold (Schumacher), W. H. Pritchard, J. Beattie, R. L. King, P. C. Estelle, W. W. Tanner.

The secretary of the local committee this year is W. W. Tanner.
Through the interest of these local sponsors the Chautauquas come to Timmins. If the event is not a profitable one the members of the committee have to make up any deficit from the guarantee. If money is made from the Chautauquas they do not profit, but instead turn over any surplus to some worthy local cause. Last time the Chautauquas visited Timmins the District Children's Aid was given over \$130, being all the profits from the occasion. It will be the same way this year so the Chautauquas should have the fullest support for the double reason—that it is a worthy cause, and that the entertainments themselves are the biggest value offered to the public.

The Chautauquas this year will be held in the Church of the Nativity hall, where the accommodation will be found to be excellent.
