## TEN YEARS AGO IN TIMMINS

From data in the Porcupine Advance Files.

More than one hundred Kiwanis, Kiwanees and their guests gathered at the Empire hotel one evening during the week of ten years ago for one of the brilliant social functions of the season. The entertainment which had been carefully planned some time in advance took the form of a dinner dance. During the evening R. Smith sang two numbers after both of which the crowd insisted on encores. President Murdock was in the chair for the occasion.

A Timmins grocery store keeper was committed for trial in November of 1925 when it was alleged that he had committed serious offences against six little girls in the district in which his store was located. The magistrate agreed that there was sufficient evidence in each one of the charges to put the man on his trial.

Blake Halliday, governor of the Ontario-Quebec district in Kiwanis, was a prominent visitor to Timmins ten years ago this week. He was entertained at a Kiwanis function when C. Keddie was chairman. "President Murdock pinch-hitted well in singing," said The Advance account.

In 1925 a similar situation faced the public school board as they had to contend with this year in shortage of accommodation for the school children. It was at this time of year that Mattagami public school was first opened, giving an additional eight rooms for primary education. Before that time, pupils from the Mattagami section of the town had had to go either to Montclair or Central schools.

Pieces of a broken circular saw in use near the Mattagami were thrown more than a quarter of a mile when an accident occurred ten years ago. Although one piece went through the roof of a garage some distance away and another came dangerously close to a small boy, no one was injured.

L. Towers donated a cup ten years ago this week to be given to the best senior basketball team in the district. When won three years in succession by the same team it was to become their property.

Editorially The Advance suggested that the matter of town league hockey for the boys of Timmins be taken up seriously. Clean sport for youths is a good thing for any community. The Advance pointed out.

The power development scheme now recommended by the Ontario Hydro Commission and which would appear to be almost certain, was first brought into prominence ten years ago when it was suggested to the Associated Boards of Trade meeting at Kingston that a project to divert part of the Albany down the Nogoki river and thence into Lake Superior be approved. The estimated expenditure necessary was \$200,000,000, it was stated at that time, and it would give employment to 26,000 men for a period of six years. The cry at the time was "Why Ontario to supply Chicago?" for at that time the "drainage" canal into the Missis-

league that played in the Hollinger Recreation hall. Crusaders won from Mill A in one of the first games of the season.

Members of the Timmins Hunt Club of ten years ago had a good bag when they returned from their camp near Otter. R. Richardson, A. E. Prout, C. Alton, J. Vallancourt, E. Thompson, R. Wynne and G. Monaghan were the members of the party of that year.

There was a record crowd at the L.O.L. euchre and dance given in Schumacher during November ten years ago. Mrs. Harry Leng and Alex Mackenzie were the winners of prizes.

Hildreth Auer, of Timmins, then attending Dartmouth College, in inter-collegiate games in the United States brought honour to the camp ten years ago when he put up a good battle for the harriers' race. His time of 31 minutes and 59 seconds was just ten seconds slower than that of the winner, Semid, of Columbia university. He represented his college in the inter-collegiate cross country run in New York City, one of the big athletic events of the year.

The McIntyre baseball club, champions of the Mines' league of ten years ago were banquetted in November when they were presented with the trophy by Geo. Lake. Members of Ike Scolson's team of that year were: E. Angignon, C. Thompson, W. Small, C. Valentine, J. Chisholm, C. Chisholm, N. Theriault, Tupper Campbell, R. D. Farker, Ken Gray, Earl Monaghan, MacMillan and Bonny Bonnell. Speeches during the evening were given by: Dan Cannon, D. E. Kelley, S. A. Wookley, G. C. Bateman, Henry Sands, J. R. Todd, R. D. Parker, I. A. Solomon and H. S. Robinson.

The Cornish One-and-All Football Club had a very successful season in 1925. Receipts during the year had been \$623.05 and \$169.59 was left in the bank for the next season. Officers elected at the annual meeting in November 1925 were: Honorary president, B. Richards; honorary vice-president, J. F. Curnow; president, C. E. Richards; vice-presidents, P. Tonkin and A. Odgers; secretary-treasurer, F. J. Curnow; executive, W. J. Bright, A. Nicholls, T. Gay, H. Drew, S. Brewer, A. Truscott, S. Opie, and J. Harris.

A fruit company here wrote The Advance stating that they had not been responsible for the shutting off of the water in the building occupied then by the Cairns hospital. The town must have done so, they said.

"Three business men from the Porcupine camp were travelling south last week on a hunting trip and on the train they woke up to the discovery that they had neglected to secure the necessary deer license," said an Advance story of ten years ago. "It's all right," said one of them. "I know a man on the line who will get the licenses for us and have them ready at the station. I'll wire him." So this friend was wired accordingly. "Please get deer licenses for So-and-So and So-and-So and So-and-So." When the train reached the particular station in question the friend was on the platform. He did not seem to have any licenses in his hand and he had a rather worried look on his face. As the would-be hunters stepped from the train they were greeted by this friend with the words: "Say, what in blazes do you fellows want with deer licenses?" Explanations followed, together with tirades against the telegraphical typographical twisting that had made "deer" "beer" at a time when everybody knows that "beer" is "deer." Eventually the hunters secured the necessary licenses much to the fear of the deer in the clear."

Damage to the roads of the North was brought to the attention of motorists and others in the North through the publication of a story in The Advance stating that overloaded trucks were doing a great deal of damage. "The matter seems to be a case where the people in general must play the game and where great on the part of a few must be subordinated to the good of the general public," said The Advance.

News from Schumacher ten years ago included that of the death of Mrs. M. Feldman, one of the aged and respected citizens of that town. She had come to America from Southern Russia in 1907 with her husband and in 1911 came to the Porcupine district. She was 72 years of age.

C. R. Murdock represented the Timmins Kiwanis Club at Cobalt ten years ago when the newer town's club was the sponsor for the "best old town's" new Kiwanis Club.

## Keep Warm Next Winter with a GILSON VOLCANO FURNACE

Heat your home comfortably—economically—and with little work. Gilson Furnaces are scientifically constructed to produce even, comfortable temperature throughout the house in any weather. Sturdily built to give uninterrupted service for many years.

Here is proof of Gilson Furnace efficiency:  
"When it was 73 degrees below zero at Irons Falls, 11 miles from Val Gagne, our hotel was quite comfortably heated with the No. 5 Gilson Mammoth Furnace installed this winter."  
—Louis A. Sigouin, Val Gagne, Ont."

### FREE AUTOMATIC HUMIDIFIER

For immediate acceptance only I am authorized by the factory to install a Gilson Automatic Humidifier FREE with every new Gilson Furnace. The humidifier sells every day for \$15.00. It keeps the air comfortably moist, prevents colds and keeps people healthy and happy.

LOW PRICES — SMALL DOWN PAYMENT — EASY TERMS

It is easy to own a Gilson Furnace. A small down payment and monthly payments so reasonable that you will never miss them, and you will soon have it paid for. In many cases it pays for itself in fuel saved. For further particulars telephone:

### Ukrainian Band Has Been Organized at Kirkland Lake

(From The Northern News)

Some time after Christmas it is expected that Kirkland Lake's newest musical organization, the 26-piece brass band, formed by the Ukrainian National Association, will be advanced far enough to appear in public for concert work.

The band, formed a month ago, owns all the instruments used, according to Bill Stasiv, second vice-president of the Council of Friendship here, and has a regular organization "just like a company."

D. Metelsky, who was a band master for two years at Blenfaith, Sask., directs the playing of the new local organization, which is practicing at the Ukrainian National Association Hall at 54 McCamus avenue.

Officers of the band are: George Jacko, president; Walter Nestorowsky, secretary, and Nick Leskiw, treasurer. The playing personnel of the group is William Susla, St. Strychshyn, W. Komarnycky, J. Kivich, J. Tichyshin, J. Shushareba, S. Leschuk, T. Jacko, R. Swerlyk, J. Glueky, K. Blasko, A. Balan, W. Jawny, St. Kosteky, W. Kotynsky, W. Migus, Em. Manchulenk, Em. Antonuk, W. Maxymowich.

### Canada's Mines Make Big Market for Industries

Canada's mining industry is playing an important part in various other lines of industrial activity in the Dominion. In a special report on the consumption of supplies by the Canadian mining industry for 1934, prepared by the Dominion Bureau of Statistics, Ottawa, it is stated that during the past year total purchases by companies associated with mining in the year amounted to \$76,083,000. Of the above total, purchases for metal mining and non-ferrous smelting and refining comprised 80 per cent., while the gold mining branch alone contributed 39.4 per cent.; copper-gold-silver mines and metallurgical plants smelting these ores, totalled \$9,777,000; nickel-copper mining \$17,170,000; silver-lead-zinc mines, \$10,425,000 and cobalt silver mining and smelting companies, \$594,000.

### Mr. CAFFEINE - NERVES . . . he does a fade-out!

WHAT DO YOU THINK, JACK... MY OLD SCHOOL CHUM, ALICE, HAS COME TO TRY US A VISIT!

THERE GOES YOUR PEACE AND QUIET! WHAT IS THIS ANYWAY... A HOTEL?

HELLO, THERE JACK... HOW HAVE YOU BEEN?

HIS! BE AS RUDE TO HER AS YOU CAN... THAT'S A GOOD WAY TO GET HER TO LEAVE!

WELL... I DIDN'T EXPECT TO SEE YOU AGAIN SO SOON!

SAY... I'LL DRINK ANYTHING IF YOU TWO WILL JUST LEAVE ME ALONE!

CURSES! THESE WOMEN HAVE SPOILED MY GAME! I CAN'T LIVE IN THE SAME HOUSE WITH POSTUM!

YOU CAN SEE HOW IRRITABLE JACK HAS BECOME. THE POOR BOY DOESN'T SLEEP WELL, AND HAS HEADACHES AND INDIGESTION.

SOUNDS LIKE CAFFEINE NERVES! CAN'T YOU GET HIM TO GIVE UP TEA AND COFFEE AND SWITCH TO POSTUM INSTEAD?

BUT, JACK... YOU REALLY SHOULD TRY POSTUM. IF I GET SOME WILL YOU DRINK IT FOR AT LEAST 30 DAYS?

THIS POSTUM SURE TASTES DELICIOUS! AND WHAT A GOOD NIGHT'S SLEEP I HAD LAST NIGHT! I TELL YOU, DEAR, I CERTAINLY AM FEELING GREAT LATELY!

NOW AREN'T YOU GLAD YOU SWITCHED TO POSTUM? YOU'VE BEEN A DIFFERENT MAN EVER SINCE!

30 DAYS LATER

### Wandering off from in front of a Moneta store where his parents had left him "just for a moment," a little lad caused his mother and father a considerable amount of worry one day in November ten years ago. They did not report to the police that the child was lost until more than two hours after they discovered it. About supper time a woman telephoned the police station that there was a "stray child" at her place. Locals in The Advance of ten years ago included:—"Mr. T. C. Trick, of Buffalo, New York, was a visitor to the camp last week." "Miss Mildred Macfarlane left on Tuesday for a visit to her home at Boston Creek." "Born—in Timmins, Ontario, November 15th, 1925, to Mr. and Mrs. Chas. Archambault, Elm street south—a son." "Mrs. E. J. Meyers is at present in a hospital in Detroit for treatment, having been in ill health for some time past. Many friends here will wish her very complete and speedy return to health again." "Mrs. R. Glendon is visiting friends in North Bay." "Mr. S. R. McCoy has been appointed secretary of the Timmins Curling Club to succeed Mr. Black who has resigned on account of being unable to find time for the duties of the office." "Born—in Timmins, Ontario, on Thursday, November 12th, to Mr. and Mrs. Jos. Berini—a daughter." Intermediate basketball was a popular game in Timmins ten years ago. A number of teams were entered in the

## Some Old Motor Cars Shown at Hoboken

### Reference to the Progress Made in Last Year or Two. Horseless Carriage Among Souvenirs Held.

(From The New Yorker)

If you want background for the Automobile Show, you might go over to Hoboken and see the Stevens Institute's collection of antiautivium automobiles.

It was started 30 years ago and has been added to every time a Stevens man has run across an ancient powered vehicle which has significance in the development of the motor car. The gems of the lot are two horseless carriages, designs for which were originally patented in 1877, which actually ran when their inventor, George R. Seiden got the money to build them in 1905.

Professor Eugene H. Fezandie, a husky young teacher of mechanical engineering, who shows the collection between classes, told us he'd had one of the engine's turning over about a month ago and that it sounded pretty good.

Seiden was a patent attorney of Rochester, and early in the century got Wall Street backing to levy tribute on the whole automobile industry for patent infringement. He built the two vehicles, a pleasure car and a truck, following exactly the blueprints he had filed in the administration of Rutherford B. Hayes, and they worked.

With these he went to law. He collected from some companies, but lost his most important suit, against Henry Ford. Originally he got an award of one cent from Ford, but this was reversed on appeal. After the suit one of Seiden's lawyers, a Stevens man, presented the cars to his alma mater.

The pleasure carriage is simply an old high-wheeled barouché with a heavy engine—two sets of three cylinders—slung underneath, and a tiller rising out of the floor in front of the coachman's box. For fuel both cars used kerosene.

In the collection is a Columbia electric, which worked all right on its first trial but couldn't be stopped until the batteries ran down, and a 1903 Toledo steamer, with which is exhibited a certificate from the New York City inspector of steam boilers and five type-written pages of instructions to buyers. We copied off one brief passage: "We are only asking you to do what the locomotive engineer does in starting his engine. If you do this, you will quite likely be very sorry."

Professor Fezandie's pet is Old Napoleon, a French Panhard-Levassor, built in 1899, which, in contrast with American cars of that period, looks strangely like an automobile. It belonged to Lucky Baldwin, the mining millionaire. He bequeathed it to a man named Devantrey, who took it to Stevens under its own power in 1922. Another French specimen, a Darracq, has a one-cylinder, two-stroke engine; the car advances by a series of lunges

A decade ago, the Professor told us, some of the advanced students took out five of the old cars to drive them in an automobile show in New York. They had a hard time with a De Dion, Bouton runabout (1900), nicknamed the Flea. This machine proceeded almost entirely by skidding, and to complicate its handling the driver had to steer it with five or six levers while looking straight down at them. He couldn't look ahead, and had to depend upon a companion for guidance.

On Fifth Avenue, in front of the Library, the Flea suddenly plunged forward against the lights, completely betraying its driver. When a traffic cop holliered at it, it made for him and chased him up to the curb. It then skittered up the Avenue gaily. Professor Fezandie, who had been accompanying the procession in a car of modern make, crossed over to Madison Avenue and pretended he had nothing to do with the whole business.

### Ashley Makes High Record for the Month of October

Ashley Gold Mining Corporation, with production of 1,305 ounces of gold valued at \$46,556 in October, established a high monthly record for the year at the property in the Matachewan district, officials advise. For September production totalled 1,153 ounces, valued at \$40,543. During the month the mill was stepped up to 150 tons daily and a considerable tonnage of dump ore was cleaned up. For the ten months ending with October production totalled 9,995 ounces of gold and 1,638 ounces of silver, valued at \$353,822, from 38,831 tons of ore milled.

## TRY THIS ON YOUR BREAKFAST TABLE

TRY two oven-crisp, golden-brown Shredded Wheat Biscuits every day for 10 days. You'll like them and you'll be surprised how much better they'll make you feel. Shredded Wheat is just the choicest Canadian whole wheat, ready-cooked, ready-to-eat. Try it hot or cold, with milk or cream, in any of a dozen different ways you may prefer.
