**Schumacher Couple Wedded on Saturday**

Stores Damaged by Fire Back to Business as Usual. Other Items of Interest From Schumacher.

Schumacher, December 3rd, 1935. Special to The Advance.  
Born—Saturday, November the 23rd, at St. Mary's hospital, to Mr. and Mrs. W. J. Sparks—a daughter.  
Mrs. G. E. Murphy, who has been visiting at the home of her daughter, Mrs. F. Warne, left Thursday for her home in Unionville.  
Dr. W. D. Robson, of the McIntyre Mine was a visitor to Toronto last week.

Mr. John Scullion, who was hit with a car while crossing the street, is still confined to St. Mary's hospital with a fractured ankle and several cuts and bruises on his hand. Apart from the ankle Mr. Scullion is making good recovery.

The concert in the high school on Friday evening by the pupils of the public school was a success and the audience were delighted by the play put on by the pupils. "The Magic

Beanstalk," as well as the other performances on the programme.

Mr. R. J. Ennis left on Saturday for Ottawa and Montreal.

The many friends of Mrs. William Green, Sr., will regret to hear of her illness at her home on First avenue.

Gordon McGary and Mrs. B. Kelsor, of the Crown Mine, were in Gravenhurst last week visiting their father, who is a patient in the Sanatorium.

The ladies of the C. W. L. are having the play "The Irresistible Marmaduke," in the Crotian hall on Monday, December the 16th at eight o'clock. The play has been put on in the Church of the Nativity, Timmins, and was a success, and those who missed seeing it will again have the opportunity to attend.

A quiet wedding took place in the United Church on Saturday evening by the Rev. M. Tait, when Winnifred Higman became the bride of Archibald Southcott, of Cornwall, England. The bride first arrived on Thursday from Cornwall, England, and was attended by A. Cory, of Timmins, while Mr. R. H. Southcott acted as best man. The young couple will reside in Schumacher.

Those from town on jury duty in Cochrane were allowed to come home for Sunday, returning on Monday morning. Mr. C. Butler, of the Canadian Bank of Commerce is up as a witness. E. Angrignon, C. W. Arnott and H. Estelle are on the jury.

Mrs. J. Sandwith left on Thursday for her home in Halleybury.

The election on Monday was rather a lively one with two candidates in the field for reeve and six for councillors, with the four successful candidates

running very close. Helmer won over Chas. Gallagher in the Schumacher polls. Mr. Cooke headed the poll here as councillor. The votes were—Gallagher, 317; Helmer, 328; Cooke, 433; Kerr, 339; Arnott, 335; Harper (Dr.) 287; Harris, 270; Lafontaine, 216. Reeve Gallagher and Dr. Harper got their majorities in South Porcupine, and it looks as though the township will have a good staff to handle the affairs in the township.

The bazaar by the W. A. last week realized a nice sum of money and yet the ladies have some articles of fancy work left, and will dispose of them at a later date.

Mrs. William Otten, of Vimy is spending the winter at the home of her daughter, Mrs. V. Cripps, Fourth avenue.

The Schumacher Hardware has again opened the store for business but have had a big loss especially the Christmas stock, but will be able to replace it before Santa Claus starts making his rounds. Mr. Rutledge is salvaging some of his stock and will if possible put on a fire sale as some of the goods were hardly water damaged and with a quick clearance sale may realize something as he, like the hardware, had only the day before gotten a new shipment for the Christmas season.

**Film Artists Now at Work Making Picture at Corbeil**

Equipment, crews, technicians and all the rest of the paraphernalia, as well as the directors, actors, etc., have arrived at Corbeil and are now busy preparing to "shoot" the films for the motion picture, "The Country Doctor." This is the film in which the famous Dienne quintuplets are to be starred. The part of Dr. Dafeo will be played by Jean Herschell, veteran character actor. The leading lady part is to be taken by Margaret Paterson. The quintuplets will be filmed "in person" but they will not be expected to do any acting of any kind but just be themselves. Henry C. King, one of Hollywood's famous directors, will direct this picture for the 20th Century Fox Films. There are 35 in the group that has arrived at North Bay to make the picture at Corbeil.

**British Motorists Give Opinions on Speed and Tests**

In the last five years the number of private motorcars, vans, trucks and motorcycles crowding onto the roads of Britain has increased by nearly 50 per cent., according to figures published in Britain by the Automobile Association after its annual road census. Another interesting part of the Association's statement is its report upon a ballot being taken among its 500,000 members to see how motorists respond to the imposition of the speed limits of 30 miles an hour in built-up areas and the new driving test. In view of the fact that many motorists and automobile associations protested vigorously when the speed limit was imposed, it is considered very significant that of the 100,000 replies already received a majority favoured both the speed limit and the driving test, comments The Barrie Examiner.

**SAY SIX COUNCILLORS ON RELIEF AT CHELMSFORD**

A rather remarkable despatch comes from Chelmsford in the Sudbury area this week. It says that every one of the six members of the Chelmsford town council elected on Monday of this week is actually on relief. Only one of the 1935 council at Chelmsford was re-elected, and he polled the smallest number of votes of any of those elected. The fact that so many at Chelmsford are on relief makes the situation less peculiar than it would otherwise be. The mayor, Louis Roy, who was re-elected by acclamation for 1936, is not on relief.

**Wawaitin Man Gives One Reason for the Earthquake**

The following witty bunch of correspondence, or bunch of witty correspondence, or both, is from the current issue of The C.N.P.C. Review, "published monthly in the interests of the employees of the Canada Northern Power Corporation, Limited," the items being under the regular head of "Wawaitin Walls":—

"A sure sign that winter is about here is that John Swanson and Tom Huntley have been out of town for the winter's provisions. Tom lost a large piece of skin off his nose, he says some kids tied a piece of rope across the steps at the church and he tripped when he was going to worship. John Swanson lost a lot of skin too, off his knuckles, that happened when that little earthquake shook some beer bottles off the top of the piano—at the church of course. Anyway Tom's face didn't fall off the piano onto John's fist.

"Charlie Burrows cut his toe with the axe and now the Compensation Board want to know whether he's male or female and whether he's on the Board of Directors of the company. Charlie answered the questions all right but he thinks they are getting a bit personal.

"G. Montpetit says the earthquake was caused by a bit of loose rock falling in his mine on Whiskey-Jack Creek in the Matachewan area.

"We are fixing up one of the finest toboggan slides in this section and expect to have lots of fun this winter."

**Red Lake Production Tops \$4,000,000 Mark**

Output is Doubled Over Previous Year which Established a New Record for Red Lake.

According to word this week from Hudson, four mines in the Red Lake mining division will have produced by Dec. 31 nearly four million dollars in gold for 1935, twice as much as in 1934, which was the highest year previously.

Based on results from the 10 months ended Oct. 31, the figures for the four primary producers for 1935 will total about an even figure of \$3,700,000 with Howey, the pioneer, still leading at a figure of about \$1,500,000 against \$1,594,000 a year ago; Pickle Crow, which came into production in April, \$860,000; Central Patricia, \$755,000 against \$220,000 in 1934; McKenzie Red Lake, a producer since March 1, \$550,000.

In 1934 there were four producers, Howey, Central Patricia, J. M. Consolidated with \$35,339 and Casey Summit (now Argosy) \$18,395, a total of \$1,867,784. Previous to 1934 Howey was the only yielder of gold. Including the approximate 1935 figure, Howey production from April, 1930, to the end of the current year totals \$6,383,289.

The year just drawing to a close has seen Pickle Crow's 200-ton mill and McKenzie Red Lake's 150-ton mill as new producers, while Central Patricia increased a 50-ton plant of last year to 120 tons this April. A third unit to increase the milling rate to about 175 tons is now going into the property.

**Cochrane Branch of the Children's Aid Re-organizes**

The branch of the Children's Aid Society for the town of Cochrane recently met to re-organize for the ensuing year. The following report of the meeting was given by last week's issue of the Cochrane Northland Post:—

"A meeting held on Monday, Nov. 15th, for the purpose of re-organizing a Children's Aid Society for the town of Cochrane was presided over by Mr. Marwick and seven others were present. Owing to the removal of the secretary, Mrs. A. Hurd was appointed secretary-treasurer pro-tem, and Mr. Carl Thorming vice-president.

"During the discussion of business the following motions were passed: "Moved by Mr. Gagne (Chief of Police) and seconded by Mrs. R. M. Smith, that the membership fee be 25 cents and that other citizens be asked to join the society.

"Moved by Mrs. North, seconded by Mr. Gagne, that an appeal be put in the paper for discarded clothing for the Children's Aid work. Mrs. Smith and Mrs. Hurd were asked to assist Mrs. North in the sorting and classifying of same.

"It was agreed that the president, Mrs. Marwick, get in touch with Mr. Carson, District Inspector, to find out when he will be in Cochrane and a meeting to be arranged at that time so that Mr. Carson can outline the work of the society. The meeting then adjourned."

Quality Not Sacrificed for Price

**Society Brand**  
**The Yardstick of Clothing Value**

Society Brand Clothes are more than ever Canada's yardstick of what a really fine suit should be. The pick of imported woollens, individual, exclusive, in good taste. Tailoring in the celebrated Society Brand tradition; the finest workmanship by skilled craftsmen but, above all Style. That's why, even a year or two from now, you'll still be glad you chose Society Brand.

**North Now Leading the Way to Recovery**

Upward Trend Plainly Shown by Traffic Records of the Three Railways.

A despatch this week from North Bay said distinctly and definitely that the North is leading the way, showing the way, to recovery. So far as the railway picture is concerned North Bay is in position to know, because three of the railways have centres there.

The North Bay despatches say that from the heads of the three railways with administrative offices in North Bay comes optimistic accounts of conditions as they are at present, and as they will be in the immediate future, the like of which has not been heard since the onset of the depression.

Executives of the three railways go back four and five years to find comparable employment and traffic records as they sit back and prepare for what has all the appearance of being a banner winter, and the man behind the throttle and in the shops looks forward to a minor boom period.

From a digest of the reports given by the three railway heads, Northern Ontario will lead the way for Canada on the road to normal times during the coming winter, as it has done in the past.

As Northern Ontario becomes busier, the whole province benefits, so that these reports may be taken as an indication of brighter economic horizons for the whole province and for all of Canada.

"Our net ton miles record from October, the yardstick for measuring railway business, was better than in any month since May of 1930." W. T. Moodie, general superintendent for Northern Ontario, Canadian National Railways, stated this morning.

"And our employees—that is the junior men—are working more steadily now than at any similar period in the past three years. Of course our senior employees work steadily all the time, but it is the man with less seniority who is benefitting now."

An unusually heavy movement of livestock from Western Canada to Toronto and Western Ontario points, which has been steady for the past two months, was revealed by Mr. Moodie. This, naturally, has aided "through traffic" on Northern Ontario C.N.R. lines which have experienced heavy mixed freight movements at the same time.

"The coming lumber season gives every indication of being a brisk one." Mr. Moodie predicted, as he agressed for a moment from records to a glimpse into the future. It was indicated also that in lines aside from lumbering record or near-record activity could be looked forward to.

"Our passenger business has been most satisfactory, and our excursions have been particularly well patronized," continued Mr. Moodie, as he concluded with the statement: "I am happy to be able to give you a very optimistic story today, more optimistic than at any time in the past several years."

An increase of approximately 15 per cent. in freight traffic during the months of October and November over the same period last year, was experienced by the T. & N. O. Railway, it was stated by General Manager A. H.

**ZEBRA LIQUID or PASTE STOVE POLISH**

LASTING BRILLIANCE

Cavanagh as he reviewed prospects for the heavy winter business anticipated by his railway.

As indication in increased activity in at least the pioneer Cobalt mining camp, a new freight shed was opened there last Wednesday by the T. & N. O., built partly because of cramped facilities for handling the increasing business at the camp, and partly to provide more efficient handling of shipments from a supervisory angle.

The recently inaugurated night train service between North Bay and T. & N. O. points has met with gratifying response, Mr. Cavanagh intimated, with the prediction that as highways in the T. & N. O. region become blocked still further traffic will be created for this train.

At the Canadian Pacific Railway, T. Hambley, general superintendent of the Algoma division, told a reporter that men who had not been working since 1931 were now back on the trains, largely due to increased traffic, but partly attributable to retirements among older employees.

For the week ending November 24 freight traffic in the Algoma district was at a level 17.6 per cent. higher than in the same period last year, Mr. Hambley stated.

Shop employees of the Canadian Pacific are continuing on the 17 working days per month schedule inaugurated some months ago when it was found that necessary work could not be handled on the 15-day schedule then in force.

While there is little indication that this schedule will be lengthened, there is every indication that it will be maintained for the time being, at least, it was intimated.

**COCHRANE'S POPULATION SHOWS INCREASE OF 332**

Assessment figures for the town of Cochrane show that the population of the county town of this judicial district has increased some 332 over last year's figures. On the other hand the assessment is down over \$25,000, the new figure for this year being \$1,839,991. The public school assessment has increased by \$23,910 to a total of \$1,278,740, including \$24,300 from the township of Lamarche. The separate school assessment is \$585,561, being \$52,050 less than last year. There is little change in business or income tax assessments. The population of Cochrane, according to the assessor's figures, is 3,404, as against 3,072 in 1934.

**LARYNGITIS PROMPTLY RELIEVED**

**BUCKLEY'S MIXTURE**  
REFUSE SUBSTITUTES

Singer Testifies  
Mrs. Ethel Gillett, 189 V. Broadway, Tillsonburg, writes: "Laryngitis developed just before I was to sing at an important function. In desperation I tried Buckley's and the first dose eased the inflamed larynx and I sang without discomfort. Now, at first sign of throat trouble, I reach for Buckley's. It has never failed to give relief."
