Keep Children Off the Streets at Night

Police in Another Round-up of Youngsters Out After Curfew Bell.

Believing that the streets are not proper places for children at night and that being out at night is the first step to developing juvenile delinquency, the police are continuing their drive to enforce the curfew bell by-law. Some weeks ago the police rounded up about a dozen boys and took them home, warning the parents that the next time these children were found on street at night their parents would be liable under the curfew bell by-law. For many nights the streets were apparently free from roaming children, and so no further action was taken. Then youngsters were reported as gathering on Wilson avenue at night. A visit there by the police soon cleared that up. Monday evening of this week, however, there seemed to be a considerable number of children on street long after the curfew had been sounded. Consequently the police again took a hand. About a dozen children were taken in charge, and each one later taken home and the parents warned as to the pen-

Timmins Garage Now has Graham Motor Car Agency

Timmins Garage, Chevrolet and Packard dealers for Timmins, announced this morning that they had extended their lines to include the products of the Graham Motor Car Company. The Graham is the only car in the medium price field that is regularly equipped with a supercharger. The garage company expects a load of the new cars will be delivered here within the next ten days or two weeks.

Halleybury has revived a by-law passed in 1917 for the collection of \$7 poll tax per year. About 50 in Halley-bury are liable for the tax. It is expected that Chief of Police W. McGirr will have lots of trouble in collecting much under this by-law.

His many old friends in Timmins and district will regret to hear that E. H. Bridger, for many years a popular resident of the North in its early days, but in more recent days conducting a stock brokerage business in Toronto, is at present ill at his home in Toronto. Hosts of friends here will wish him early and complete recovery.

Wouldn't Accept Chance Given Him to Move Along

Fred Ellsworth, vagrant, whom Magistrate Atkinson granted the chance of getting out of town or finding a job on Tuesday, was picked up by police a few hours after he had left the court on complaint that the man was again begging on the street.

He was tried on Wednesday morning before Magistrate Atkinson and sent to jail for 30 days.

Shore and Romnes Winners National League Trophies

Planning to Assist Any Needy Crippled Children

Timmins Kiwanis Club Featuring This Activity. Summer Carnival, with Notable Prizes, Planned to Finance Work for Crippled Youngsters in the Town and District. Carnival to be Held July 8th.

The Kiwanis Club's most recent activity, that of helping crippled children in the town, is just one of the many ways through which they are making Timmins a better place in which to live.

They are building a fresh air camp this summer where a large number of needy Timmins children will have the opportunity of spending a week or so. All through the year they are engaged in aiding the kiddies—in the winter through supervised hockey leagues and tuberculosis prevention. Last summer

they operated supervised sports of all kinds as well as the boys' potato club.

Now they are appealing to the public of the town for financial assistance through the sale of tickets to their summer carnival, on July 8th. On that evening ticket stubs will be drawn for 30 big prizes, the first of which is a Ford V-8 deluxe Fordor sedan. As second prize a Westinghouse Dual Automatic refrigerator will be presented; third is \$100 in cash; fourth \$40; fifth, \$30; seventh, \$20; three prizes of \$10 each, 10 or \$5.00 and 10 of \$2.00.

Rumour Hollinger May Quit Baseball

League Officials to Convene and Hear Whole Story Within a Few Days.

Just when the T.B.L. got the league all straightened away for what looked like the biggest and best season for baseball, along came the rumour from the Hollinger Baseball Club that they don't like the interlocking schedule with Kirkland Lake.

Travelling expenses is understood to be the big reason behind the move. It would cost somewhere in the neighbourhood of \$450 to make three trips down to Kirkland Lake during the season. It is felt by the other clubs in the league, including those of the southern group that the additional interest in baseball and the consequent greatly increased attendance, would more than make up for the additional expense.

Should the Hollinger withdraw from the league on account of the schedule arrangements, it is believed that Timmins will be without baseball once again. League officials will confer soon to hear the whole story and make the best arrangements possible under the circumstances.

Mountie Here Transferred to Maritime Aerial Patrol

From the long patrol of the Mounties of the Timmins detachment, Constable Smith, who has been stationed here for the past few months, has been transferred to the Maritime aerial patrol. The call for volunteers for the observation service of the R.C.M.P. on the Atlantic coast came through a short time ago. Mr. Smith responded and received an appointment. He left for his new job this week.

No word has yet been received by Corporal Nelson here of the appointment of a new constable for this district.

Cold Weather Responsible for Couple of Fire Calls

Winds and cold weather on Tuesday made Timmins people start bigger fires in stoves and furnaces, with the result that the fire department had two runs for chimney and stove pipe blazes. At 5.50 p.m. they were called to 143 First avenue, and at 10.10 p.m. to 62 Maple street north.

Cross-Eyes

(one eye turning inwards)

The treatment is in three parts:
(1) Medicine to put the eyes at rest so that a precise examination can be made. According to medical authorities in eye work in no other way can this be satisfactorily accomplished.

(2) A very precise fit with glasses.

(3) Training the weak eye, the eye that has not been doing its work. This must be done in most cases in order to make its vision sharper and establish that magnetic attraction between the eyes so that they will work in unison. This attraction has been partly lost through the fact that the two eyes couldn't work together while they have been out of line. This part of the treatment is assisted materially by the use of medicine again. This is indispensable in many cases. It overcomes that tendency to turn in by putting the internal muscles of the eye at rest. The two eyes must be brought in line before that bifocal vision can be re-established.
