

## Compensation Board Studies Silicosis Cases

### Little Boy Drowned in River Here Yesterday

Little John Noel, Three and a Half Years Old, Falls into Mattagami While at Play. Firemen, Forestry Men and Police Recover Body. Efforts at Resuscitation Unavailing.

Little John Noel, three and a half years old, drowned in the Mattagami river yesterday afternoon just after three o'clock. Son of Mr. and Mrs. Joseph Noel, 159 Main avenue, John had been playing with some other children near the Riverside pavilion. He fell into the river. None of his companions were old enough to make any attempt at rescue, so the little fellow sank in the ice cold water almost immediately.

Captain James Morton and Fireman Gordon Pooley were at the scene of the accident within a few minutes of a telephoned call for help. The town's dragging equipment was put to use at once and two Forestry department men, Charles Smith and Mark Gagnon soon had the drag from the forestry office in service too. Sergeant Leo Gagnon and Constable Anderson of the local police and Constables J. W. F. Pretorius and George White of the provincial assisted in dragging operations.

It was about half an hour after John fell in the water that his body was brought to the surface by the forest rangers' drag. Then he was rushed to the operating room of St. Mary's hospital where Dr. M. J. Kelly, the two firemen, and T. H. Richards and B. Ash of the Hollinger, St. John Ambulance men, began artificial respiration with the aid of an oxygen inhalator.

For more than two hours the five men worked to save the child's life. A stimulant was administered to the heart, but it was too late. All signs of life had gone before six o'clock.

The funeral service will be held tomorrow afternoon.

### Canadian Attacked

Dr. T. A. LAMBIE

With Addis Ababa in flames as native tribesmen revolt against whites, foreigners' lives are in great danger. A former Canadian, Dr. T. A. Lambie, now a naturalized Ethiopian and his wife, formerly of Toronto had a narrow escape when natives attacked his Red Cross hospital.

Henry Ostrowski, chemical engineering student at the University of Toronto, returned to Timmins this week.

### New Time Table for T. & N. O. May 17th

No New Trains Established and None Withdrawn. Only Slight Changes in Times of Trains.

The following official announcement was made from the office of A. J. Parr, general freight and passenger agent of the T. & N. O. Railway, North Bay, this week:

The Temiskaming and Northern Ontario Railway and the Nipissing Central Railway announce change of time in passenger train schedules effective Sunday, May 17th. New time tables are now being prepared and will be available with all agents in the course of a few days. No new trains are being established nor are any withdrawn.

The service which has been available throughout the winter months and which has proven, from close study, to have satisfactorily taken care of passenger traffic available will be continued with some slight alterations which should prove beneficial.

### Represent Timmins at Meeting of Mayors

H. E. Montgomery, Clerk-Treasurer, Left Yesterday for Sudbury to Represent Timmins at Conference of Northern Mayors.

When the mayors of Northern Ontario meet in Sudbury to-day, to-morrow and Saturday, Town Clerk H. E. Montgomery will represent Timmins. Mayor J. P. Bartleman told The Advance yesterday afternoon. Mr. Montgomery has been authorized to act and vote on behalf of the municipality. He left yesterday at noon for the Nickel City.

Among the most important questions to be discussed is that of relief administration, about which most Northern municipalities have had some objection during recent years. Too great a burden has been cast on the towns and cities, it is said by most of them.

Most towns of the North have agreed to send representatives to the Sudbury conference and it is expected that a number of resolutions will be passed on to the provincial and Dominion Governments.

### Wins Scholarship

Leonard McFadden of 28 Floral Park, who graduated with honours yesterday at Queen's University, after specializing for four years in mathematics and physics. He won a scholarship and a medal on his work during the past year and he intends to return to Queen's next fall to study actuarial science.

### Highly Rated Golfer Professional Here

Member of Canadian Team that Defeated British Professionals Last Fall.

William Spittal member last year of the Canadian professional golfers who defeated the British Ryder Cup team, will be in Timmins this golfing season to give instructions at the Timmins Golf Club.

He is rated as one of the top notchers in the game in Canada. Being chosen as a member of the team to play the British professionals who were on a visit to the United States in the annual match for the famous professionals' trophy was an unusual honour. His brother Dave has been professional at the Sudbury golf club for some time.

### Sunday is Mother's Day. Wear a Flower!

White Flower to be Worn in Memory of the Mother who has Passed on.

Sunday is Mother's Day on the North American continent. Now of many years' standing, the day is one on which sons and daughters, particularly those away from home, send some sort of remembrance to their mothers who guided them through their early years. For those who are fortunate enough to have their mothers with them, the custom has been to wear a boutonniere on the Sunday chosen for the day of respect, a white flower to be worn in case the mother is dead.

In Timmins Mother's Day is always one that is well observed. Church services are usually well attended and the outward signs of remembrance are usually to be seen everywhere.

### Head Office to be at Mine at Pamour, Ont.

Annual Meeting of Pamour Porcupine Mines Held at Montreal Last Week.

According to the despatches from Montreal, the annual meeting of the Pamour Porcupine Mines, Limited, held in that city last week, was chiefly routine in character, with all business and reports approved and directors re-elected for the ensuing year. Mill construction is proceeding satisfactorily, and it is expected that the work will be completed by the middle of May or early in June. The speeding up of development which got under way late in September, 1935, has been increasing steadily in the first quarter of 1936, it was stated. Development for the first quarter has been almost equal to the total developed up to the end of 1935. R. M. Macaulay, general manager, pointed out. Recent development is progressing much more rapidly since completion of the new shaft. The head office of the company is to be changed from Montreal to Pamour, Ontario.

According to word yesterday from the Ontario Agricultural College at Guelph, J. T. Gauthier, son of Mr. and Mrs. Gordon Gauthier of Timmins, was successful in passing his intermediate year examinations.

### Municipal Board to be at Timmins on May 12th

Programme Calling for Debentures to Amount of \$200,000 to be Submitted to Board on Visit Here. Paving, Town Hall, Waterworks Extensions, Included in List.

When the Ontario Municipal Board visits here on May 12th, they will be asked to allow the town of Timmins permission to issue about \$200,000 worth of debentures. The date for the visit was set this week in a letter to the town from government authorities.

Forty thousand dollars will be asked to finance a paving programme here this summer, through which the town hopes to make between four and six miles of permanent roadway in the central part of the municipality. Another hundred thousand dollars will be asked for the erection of a suitable town hall to replace the present inadequate structure. A waterworks and sewer main building programme will need a few more thousand dollars. And finally, it is expected that the board arrives here, the council will receive a request from the public school board for the building of another school here.

The council believes that all the expenditures are necessary and will offer the Municipal Board a good deal of evidence in support of their opinions. On its visit here last year the board advised the town to clear up back taxes. This has been done and it is expected that the new expenditures will be favourably received.

The members of the Municipal Board who visited here last year were impressed with the possibilities of Timmins.

### Mayor is Sponsoring Enquiry Into the Police

Private Meeting of Council Lasts Until After 2 a.m. Wednesday. Another Yesterday, and One Called for Today. Whispering Campaign Aided by Official Secrecy.

An inquiry into the police force here has been sponsored apparently by Mayor Bartleman and has resulted in unusually long sessions of private meetings of council. The meeting Tuesday evening did not conclude until after 2 a.m. Wednesday. A session called for 4 p.m. yesterday was in progress until 7 o'clock. Another session of council in special meeting is called for to-day at 4 p.m. No official information is given out by council or police, but the whispering brigade is certainly busy.

So far as The Advance can learn any charges against the police are petty things, but the whispering brigade is magnifying them to the injury of the police and the town. Stories about affidavits are twisted out of all meaning. The public in general, however, with the proof of the efficiency of the police before them in the law and order of the town, should discount all stories, and keep in mind the danger of those driven out of illegal business profiting by slander against the police. It is understood that the council intends to definitely deal with the matter at to-day's session.

### New Public School May be Built in Town

Twelve-roomed School Planned by Board to Care for Increase in Attendance.

A new public school may be erected in Timmins during the coming summer, it is expected. At a special meeting on Monday of the public school board, the overcrowded situation in Timmins public schools was considered and it was decided to ask the town for sufficient money to build a 12-roomed school.

Almost all of the rooms could be filled at present from the overflow of the present schools. The majority of 40-pupil rooms in Timmins now have well over the proper limit.

The council will pass on the board's request for money to the Municipal Board when that body sits here on May 12th. The board has power to grant the town permission to issue debentures.

### Schumacher Lions Give Welcome to Rescue Crew

Bill Hannigan, Elmer Moran, Geo. Mitchell and Sinclair MacMillan Guests of Schumacher Lions. Presented with Elegant Cigar Lighters by Lions. Tell Story of Mine Rescue in Modest Way.

The McIntyre rescue squad who did such fine work at Moose River recently—Bill Hannigan, Elmer Moran, George Mitchell and Sinclair MacMillan—were guests of honour last night at the Schumacher Lions. Toasted by a gathering of about 50 prominent citizens of Schumacher and presented with expensive cigarette lighters by the Lions, they told of their part in the rescue of Dr. Robertson and Alfred Scadding modestly.

Very briefly, they described the workings of the Magill mine and the methods used in taking out the men. The matter-of-fact manner in which they spoke of their experience impressed every one at the meeting.

R. J. Ennis, manager of the McIntyre and guest speaker at last night's meeting, H. G. Skavlem, A. H. Cooke and S. A. Wookey, McIntyre department heads, all had words of praise for the men. As one of them remarked, they "were proud to work in the same organization."

Following the toast to the King by Rev. Murray C. Tait, W. S. Blake proposed the toast to the rescue squad. Herman Moscoe made the presentation on behalf of the Lions.

McIntyre Might Have Been Hollinger Speaking of the early days of McIntyre, Mr. Ennis told of when he came here from Colorado as a young man 25 years ago. The shaft was down 40 or 50 feet and after looking over the geology, the officials of the mine decided their ore was at depth. At the time negotiations were going on between Hollinger and McIntyre for the sale of the Schumacher property. Hollinger offered 25 cents a share, but the McIntyre directors hung out for 35 cents. That extra ten cents a share meant the deal was off. Otherwise McIntyre might never have been a separate mine. The shaft was deepened to 1,000 feet, the ore was found, and continuous progress has brought the mine to its present prosperous stage.

In addition to McIntyre officials, a number of prominent guests were present, including Archdeacon Woodall of South Porcupine and Rev. Father Martindale of Schumacher.

### Masonic D.D.G.M. to Pay Official Visit to Lodges

R.W. Bro. J. R. Spence, of Iroquois Falls, District Deputy Grand Master, will pay his official visit to Golden Beaver Lodge, A. F. & A. M., Timmins, on Wednesday evening next.

The D.D.G.M. is to visit Porcupine Lodge A. F. & A. M. to-night.

Maynard Raycraft left last week-end for Gravenhurst, where he will receive medical treatment. It is expected that he will be able to return to Timmins within a few months.

### Banquet of the Ladies' Auxiliary a Big Success

Tables Very Attractive, Dinner an Excellent One. Eighth Annual Banquet Followed by Social with Programme of Unusual Interest. Some Notes of Special Interest.

The eighth annual birthday banquet of the Ladies' Auxiliary of the Canadian Legion was held on Monday night in the Legion hall with seventy-two members present. This was a record attendance in the history of the Auxiliary, and the same high records were made in all the other features of the evening. There were tickets under each plate for the event, and Mrs. Harting was the lucky winner of the prize with Ticket No. 66.

The tables were very attractively set and the dinner provided by Mrs. Mackenzie who catered for the occasion drew forth much favourable comment.

The banquet opened with "O Canada" following which Mrs. France, the president, proposed the toast to the King, the National Anthem being sung in heartfelt vein in response.

Later Past President Mrs. MacMillan proposed the toast to "The Ladies." In her response, Past President Mrs. W. A. Devine gave a very comprehensive and interesting review of the organization and the growth of the Auxiliary in the eight years of its existence.

First Vice-President Mrs. Bennett proposed the toast to the men of Legion Post No. 88, after which Treasurer Mrs. Shaw moved a vote of thanks to Mrs. Mackenzie who catered for the banquet and supplied such a delicious dinner.

At nine o'clock a social evening was given by the Auxiliary to the husbands of the members and to the men of the Legion Post. This was opened by Miss Ruth Koski who sang two popular numbers.

Following this, Mayor Bartleman addressed the ladies and men present, thanking the ladies on behalf of himself and Mrs. Bartleman for the invitation to be present. He mentioned that it was the first time he had ever attended a Ladies' Auxiliary event, but hoped it would not be the last. (Continued on Page Three)

### Having Samples Now of Warmer Weather

To-day's Temperature will Make a Record for the Year to Date, it is Thought

To-day will probably make a record high temperature for 1936 to date. Last night was the warmest the North has had this year when the thermometer remained at ten degrees above the freezing mark. Heavy mist covered Timmins from late last night until early this morning. The warm air coming in contact with the cold earth was the cause.

The next couple of days will be somewhat like to-day's beginning—dull, damp, but mild. Thunder storms may be expected any time now, the weatherman said this morning.

Temperatures this week have been: Monday, max. 51, min. 32; Tuesday, max. 46, min. 21; Wednesday, max. 52, min. 26; last night's minimum 42, eight o'clock this morning 48.

### Likely Big Vote for the Power By-Law in Tisdale

Passing of By-law Will Mean Same Rates for Tisdale at Same Time as Timmins. Tisdale Votes on Monday, May 18th. All Should Vote on the By-law.

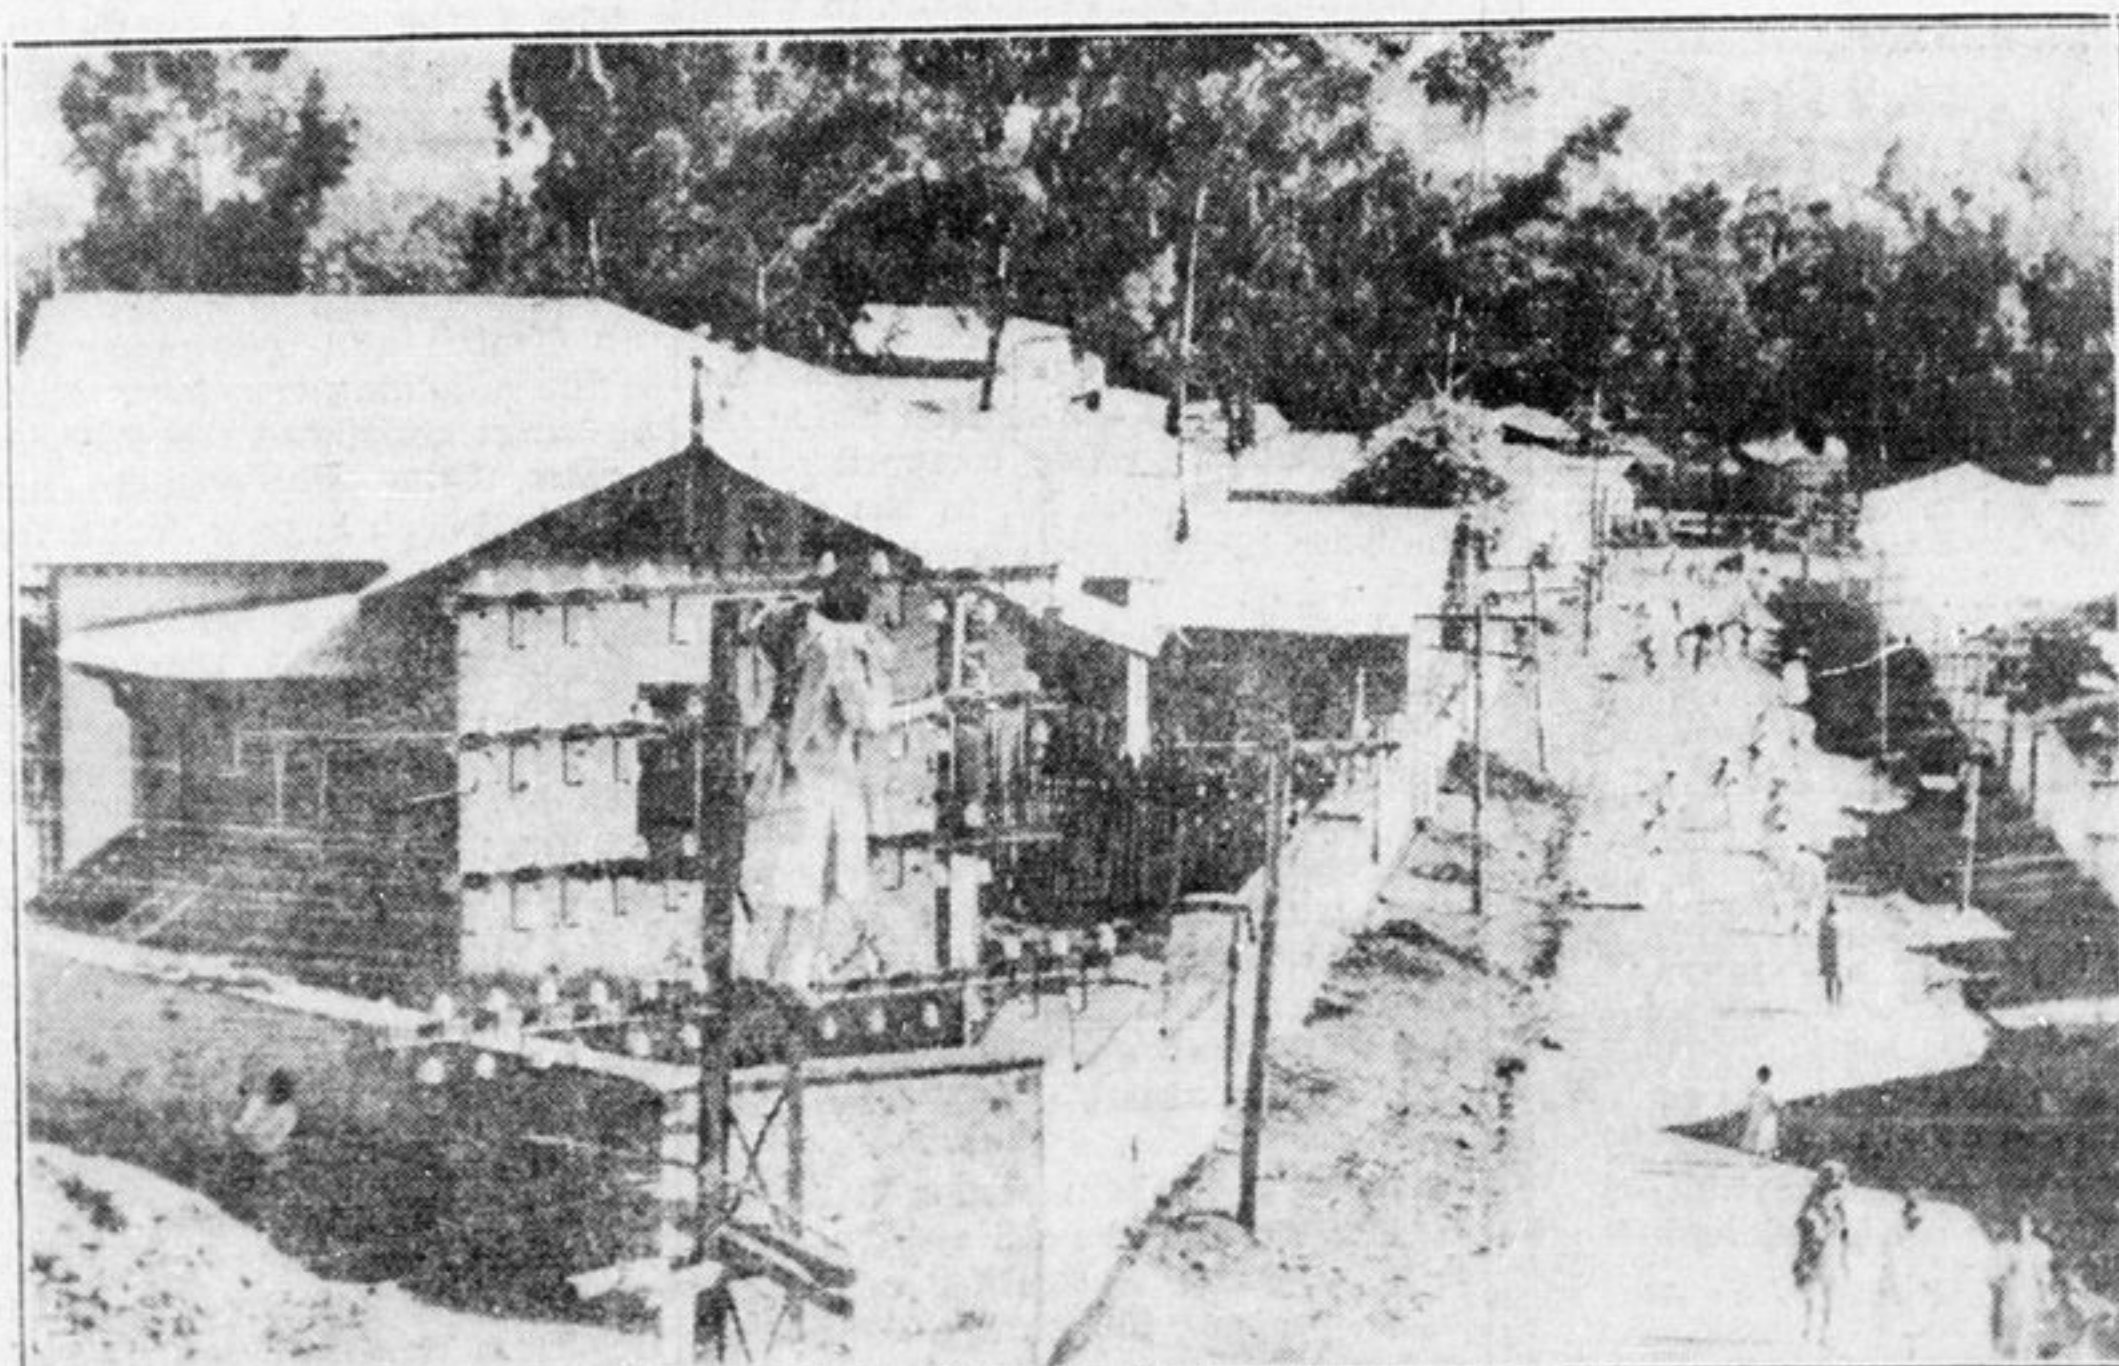

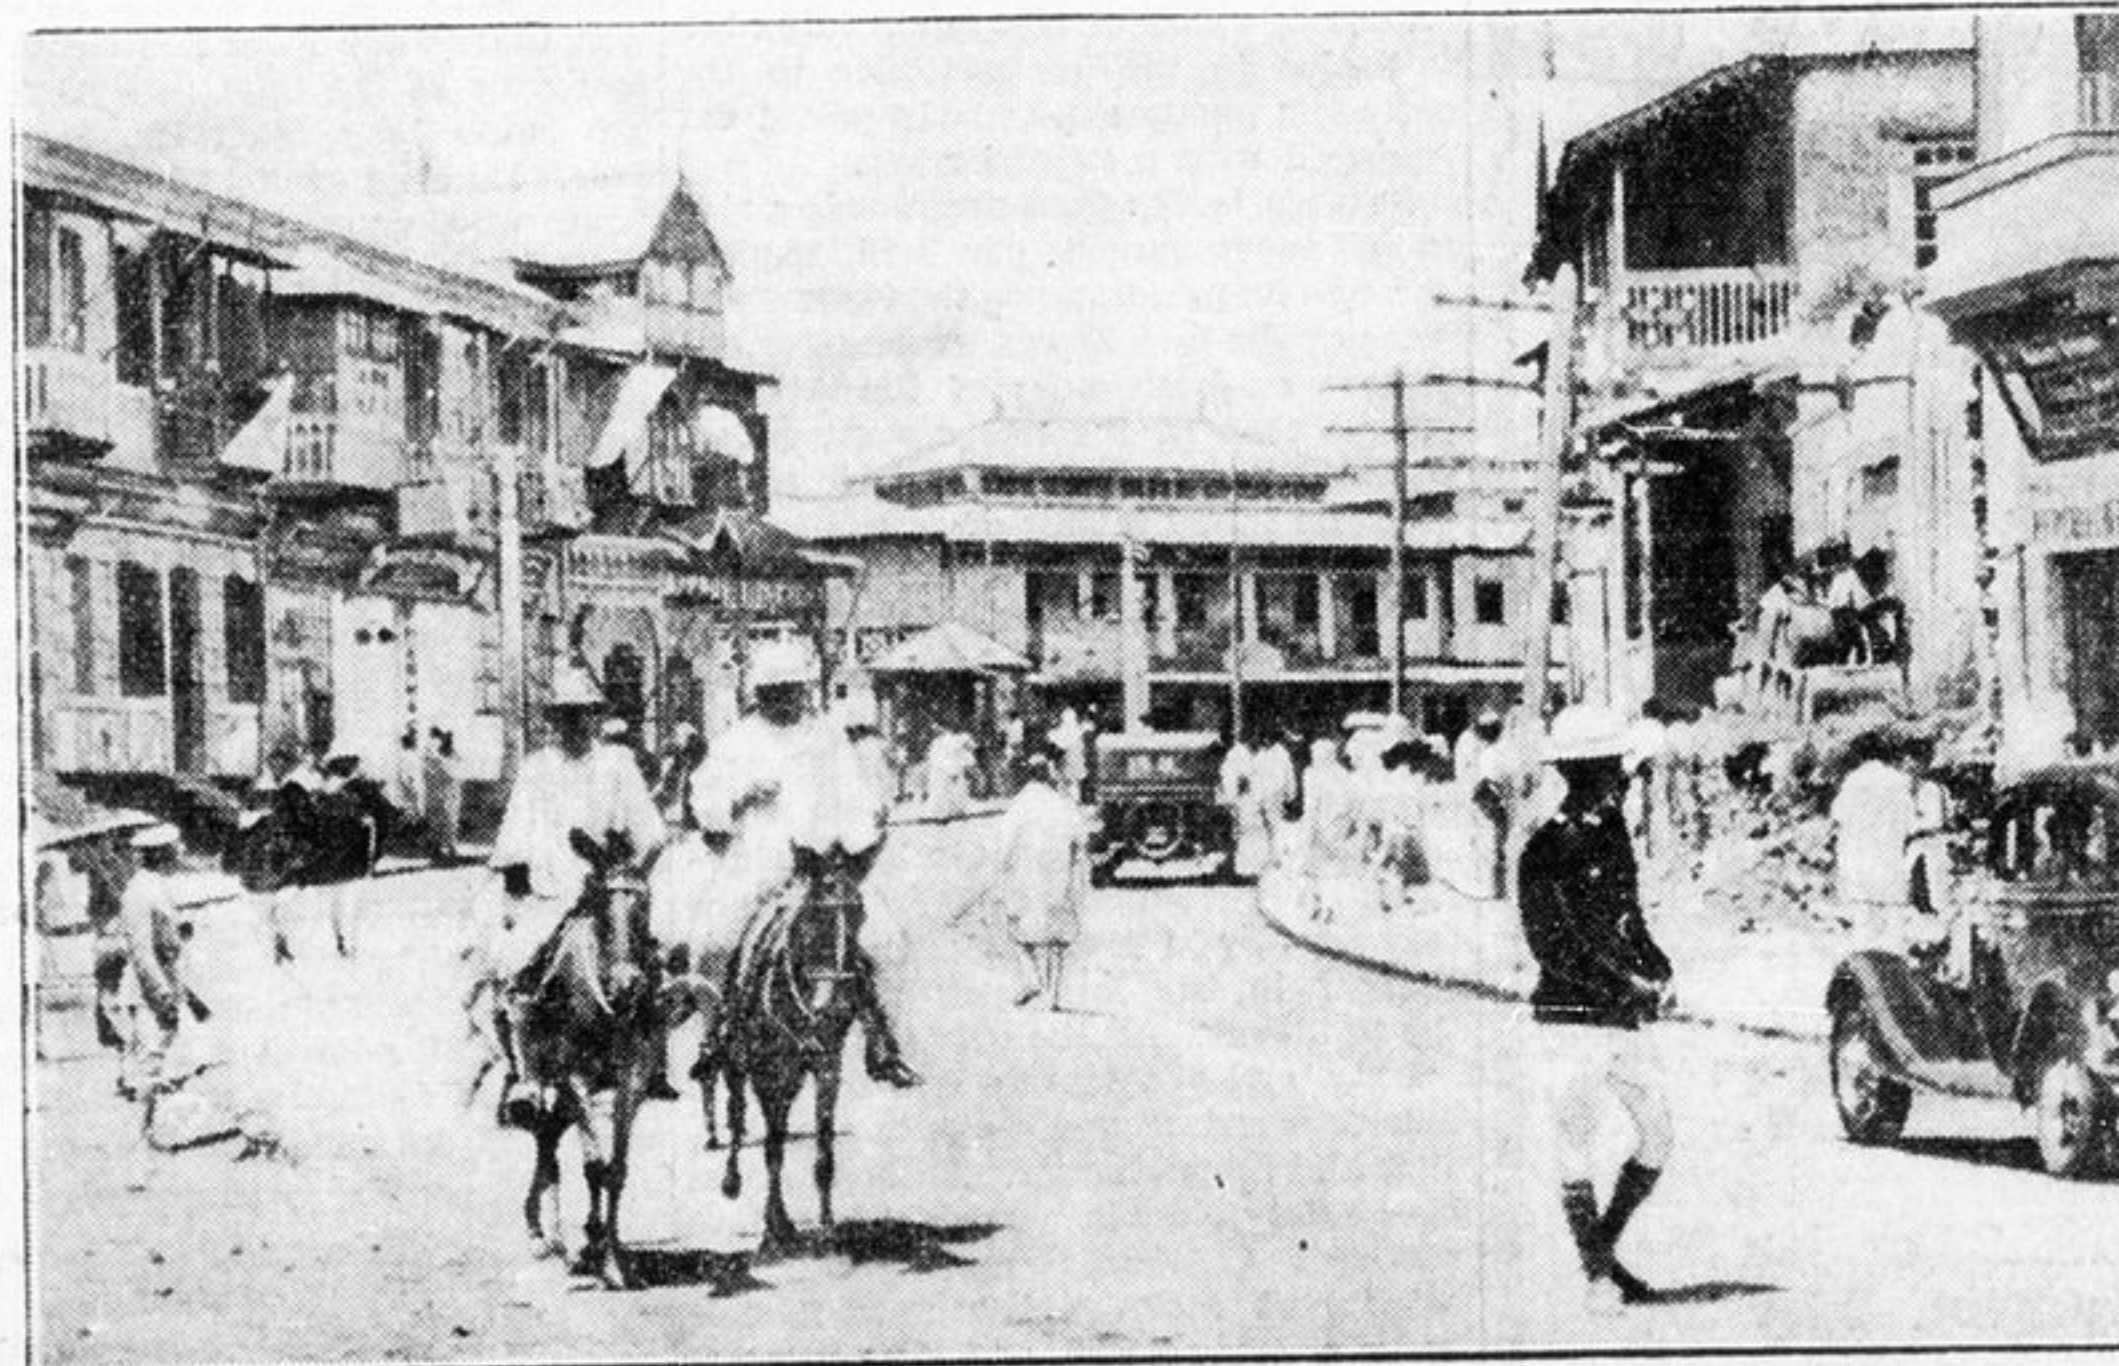

Monday, May 18th, is the day on which the electors of the township of Tisdale are to vote on the power by-law, granting an extension of the franchise to the Northern Ontario Power Co. Limited. It is expected that a large vote will be polled in favour of the by-law. There ought to be a big vote for the by-law as it offers an excellent bargain to the people of Tisdale. Some months ago the electors of the town of Timmins endorsed a similar by-law by a vote in favour of the by-law, 4 to 1. The same rates and terms as given to Timmins are offered the township of Tisdale. The rates thus made available to Tisdale are 30 per cent. less than the Hydro promised the town of Timmins under the Hydro plan. As the Hydro told the town of Timmins on one occasion, both Tisdale and Timmins are fortunate to be in a mining com-

munity where the power company is able to provide power under the exceptionally low rates made possible because of the mining contracts. Timmins and Tisdale are also lucky to be able to escape the responsibility of large debenture debt for the community that would be inevitable under Hydro Commission plans.

With the passing of the by-law in Tisdale the reduced rates will go into effect for the people of Tisdale at the same time as they are given to Timmins—June 1st.

It would appear that the by-law having been endorsed by the council, generally approved by business men, rate-payers and the public generally in Tisdale, the people would do well to turn out and vote on May 18th, voting for the low rates and the good service of the company by voting for the by-law.

### ADDIS ABABA IN FLAMES AS TRIBESMEN RUN AMOK

Here is the once peaceful city of Addis Ababa, capital of Italy's new colony. As tribesmen ran amok through the city previous to the arrival of Italian troops under General Badoglio, looting, killing and burning were reported. Attack on the strongly fortified British embassy was prevented by the massing of troops there. The staff of the American embassy and other prominent members of the European section of the capital were ordered to take refuge in the British grounds during the fighting. All is reported as quiet at Addis Ababa now as Italians have taken complete control.
