## GABLE-LOMBARD LATEST ROMANCE

Filmland's latest romance, so rumour says, began when Carole Lombard, film actress, sent the handsome screen star, Clark Gable, a unique Valentine, an old broken-down lizzie, festooned with paper hearts. But this is the first time they've been pictured in public. Even their friends didn't know where they'd been hiding-out. The inquiring cameraman discovered them at the rail at the midget auto races.

## Child Knocked Down on the South End Road

Child Not Badly Hurt but had Narrow Escape. Car Did Not Stop. Signs of Floods at South End. Other Items of News from South Porcupine and the Dome.

South Porcupine, Ont., May 6th, 1936. Special To The Advance.

Mr. Jim Boyle, old-timer of the Porcupine Camp, has been renewing acquaintances in town this week, from Toronto. He is now staying in Timmings. Mr. Hugh Boyle, of North Bay, left on Wednesday after a few days in town and Timmings.

To-night (Thursday) in the High School the play "Here Comes Charlie" is being put on by the Young People of the United Church. The youngsters who saw the dress rehearsal of this play on Tuesday evening are most enthusiastic. So a full house tonight is hoped for.

The ladies of the Eastern Star Order are holding afternoon tea at the Masonic hall on Wednesday 13th. A sale of aprons, sewing and home baking will also be held. This is not to take the place of their annual May Birthday bridge, which will be held as usual on May 28th (Thursday).

We were a little premature in our assertion last week that there will be no floods in South Porcupine this year. Each side of the creek on Railroad street the water is lying on the "flats" but there is no indication that the roadway will be even covered with the water. When the ice goes out of the lake this condition will be rectified. Mr. I. P. Wilson, of Porcupine, who keeps a record of these things tells us that last year the ice went out on May 3rd. This year he predicts from May 12th to 13th.

Mr. Howard Collins is at the home of his sister, Mrs. Hocking, of Dome Extension, suffering from bruises and an injured leg caused by an accident on Monday. While the Dome team was being loaded up with lumber, the horses bolted near the Dome school and Mr. Collins was thrown under the truck, the wheels passing over his leg. The horses were stopped after they had crashed into the fence at Mr. McCrae's house and no further damage is reported.

A little girl—four years old—namely Jean Bernard, was knocked down by a car while playing on the road at Dome and Main on Tuesday afternoon. Whether the driver saw her or not is not known as he did not stop. Some little girls picked the child up and took her home. Her face was scratched and bleeding and she was bruised, but did not require medical attention. This child was fortunate, but we wonder sometimes, when we see the cars speeding up Main street to make the hill at the north end, whether some child will not be seriously hurt there some day. Children will play on the street and some drivers certainly exceed the speed limit on this particular stretch of road.

Mrs. W. Thomas, of Dome Ex., entertained at bridge on Tuesday night. Mrs. Jay, Miss Niemi and Mrs. Allen won the honours.

A meeting of the Ladies' Guild of the United Church was held on Tuesday afternoon at the home of Mrs. Ed Harrison on Connaught Hill. Mrs. Hepburn, missionary convener read an interesting paper on northern missionary work compiled from one of the books of Dr. Cochrane. A very fine meeting, with a good turnout of ladies, was the opinion of all present.

Don't forget that the firemen of our town want your co-operation and attendance at the big dance they are putting on on Friday, May 22nd. They have a reputation to keep up and they intend this dance to enhance it. Andy Congiano's orchestra is to be in attendance and a good time is assured!

Mrs. Sky left for a few days in Toronto on business on Wednesday. We are sorry to learn that Mrs. George Helmer had bad news of her mother, Mrs. Andrew Pirie, of Shawville, on Wednesday. She left with her brothers, Mr. George Pirie, of the Dome and Mr. Wesley Pirie, of town, on the noon train on Wednesday for Shawville. A stroke is feared for Mrs. Pirie.

We hear that the Two-in-One mine at Porcupine is going to commence operations in the very near future.

At a benefit "draw" at the home of Mrs. Ducasse, of Golden City, Mr. Ar-

Roads constitute a vital factor in the development of many sections of Northern Ontario. Money expended in their construction should pay good dividends in the years to come. It is pleasing to know that the governments have come to appreciate the importance of the situation.

con Woodall for presentation.  
Born—On Sunday, May 3rd, at the local hospital to Mr. and Mrs. Ted Hutton (nee Grace Plummer of Monteth) a baby daughter (Elizabeth May Louise) Mr. Sutcliffe, of New Liskeard, is a visitor in town.

Dr. Fraser is spending two weeks in the South visiting Toronto and Kingston.  
**Monthly Meeting Tuesday of Registered Nurses Here**  
The monthly meeting of the Porcupine Chapter of the R.N.A.O. will be held in St. Mary's hospital, Tuesday, May 12th, at 8 p.m. Dr. Russell will address the meeting. All nurses are invited to attend.

## Verdict in the Death of Former McIntyre Employee

In recent issues references have been made to the death of Gordon (Mac) MacGregor, formerly of the McIntyre, who died at Frood Mine some weeks ago. Gordon MacGregor was prominent and popular in sport circles here, just as he was in the Sudbury district, where he resided in more recent years. Because of the deep interest and regret felt here at his death, there will be many who will be interested in the following from the Sudbury Star of Monday:—

"No further action is contemplated by the crown in the death of Gordon (Mac) MacGregor, Frood mine worker who died suddenly while at work April 18. Don Cooper, Sudbury mine inspector, has forwarded his official report of the occurrence to Queen's Park, and it will be released later in the month. "At the inquest held last Wednesday the coroner, Dr. G. R. Jones, reserved his decision. Dr. Jones to-day stated his decision was as follows:— "I find Gordon MacGregor died in the first aid room at the Frood Mine April 18, 1936, from hemorrhage due to a ruptured liver, received when he was injured while at work on No. 1 drift, 47 crosscut, of the 2200-foot level. It has not been shown how the accident occurred which caused his death."

Mall and Empire:—It may be hoped that manipulators of sun time also will do something about providing a little more sunshine.  
Sudbury Star:—Incidentally, spring cleaning reminds us that this time of the year there is no place like home. At least not quite like home.

## Schumacher Woman Fractures Shoulder

Mrs. V. Cripps Injured in Fall on Icy Street Saturday. Other Schumacher News.

Schumacher, May 6th, 1936.—Special To The Advance.

Walter Craig, who has been attending the O.A.C. in Guelph, returned home on Thursday for the summer.

Mrs. V. Cripps had the misfortune to fall on the icy street on Saturday and fracture her shoulder. A passerby had her taken to the hospital, where the bones were set. Later Mrs. Cripps was able to be brought home, where her condition is progressing nicely.

Mr. W. Hannigan, one of the McIntyre rescue men, returned Saturday from Nova Scotia. After the rescue was effected, Mr. Hannigan went to New Brunswick to visit his parents.

Mr. K. Blanchfield, of Sudbury, visited friends in town last week and later went on to the Sullivan Mine in Quebec.

Francis ("Tup") Gilbert, who has been attending Queen's University, returned home Sunday for the holidays.

The C.W.L. are holding a monster bazaar in the Croatian hall on Friday and Saturday, May 22nd and 23rd. Many beautiful articles will be sold during these two days, so be sure to attend.

Mr. and Mrs. V. Neeley, who have been visiting in Nova Scotia for the

past year, arrived in town on Thursday and are taking up residence in Timmings for the time being. Mr. Neeley was formerly at the Ankerite Mine.

Mr. and Mrs. Stephen Hancock, Pine street, celebrated their silver wedding anniversary on Saturday. A number of friends called and on behalf of their friends and family Mr. and Mrs. Hancock received many beautiful gifts of silver.

Miss B. Tait, who is a student at Queen's University, arrived home last week to spend the holiday with her parents, Rev. and Mrs. Tait.

Miss Marion Leng has accepted a temporary position in the P. O'Hearn stockbrokers' office at Timmings.

Mr. W. Olton, who has been at the Omega Mine, Larder Lake, arrived home Sunday.

Miss Gladys Gammon, of Belleville, is visiting at the home of her aunt, Mrs. Gordon Byers.

Sunday, May 10th, will be observed as Mother's Day. In the United Church Rev. M. Tait is devoting the day to mothers and children. (Notice elsewhere in the paper.) At the morning service, those desiring to have their children christened may do so by getting in touch with the Rev. M. Tait before Sunday.

Toronto Globe:—Judging by the number of hold-ups they are experiencing, Toronto druggists are in the hazardous class of occupations.

Hawkesbury Echo:—The easiest thing in the world for a man to do is to think of the right excuse at the wrong time.

## New Budget Against Some of Newer Mines

Those Recently Going into Production Suffer Discrimination.

The first feeling in regard to Hon. Mr. Dunning's budget address seemed to be that the mining industry was receiving better treatment than in some past budgets. Further discussion, however, brings out some instances where discrimination against mining appears to exist. The fullest consideration should be given here and now to the whole case so that the best may be decided upon for the country at large. The question is dealt with at some length in the following editorial article in The Sudbury Star on Monday of this week:—

"The mining industry last week heard two satisfying announcements—both coming out of Ottawa. One was that new mineral production is to be encouraged by allowing three years' exemption from federal corporation income tax to mines that come into production between May 1 this year and January 1, 1940. The other was that an agreement has been reached between the Federal Government and Ontario whereby construction of roads into areas that give promise of mineral production would be jointly undertaken.

"The particular nature of the assurance of helpful legislation for mineral development came as a surprise. It is not thought that this unusual method had been counted upon as a likely eventuality. Leaders in the mining industry had expressed themselves to government officials as being desirous of a return to the old basis of taxation, which permitted a 50 per cent. depletion allowance to mining companies before application of the corporation tax. Mining being hazardous and speculative, it was considered that a larger proportion than one-third, as at present, should be exempted from the income levy.

"But mine operators are not inclined to grumble because this feature of the tax was not adjusted to their satisfaction. They know that government revenues are necessary, and as G. C.

Bateman, secretary-treasurer of the Ontario Mining Association says, "we only complain if the mining industry is subjected to discrimination."

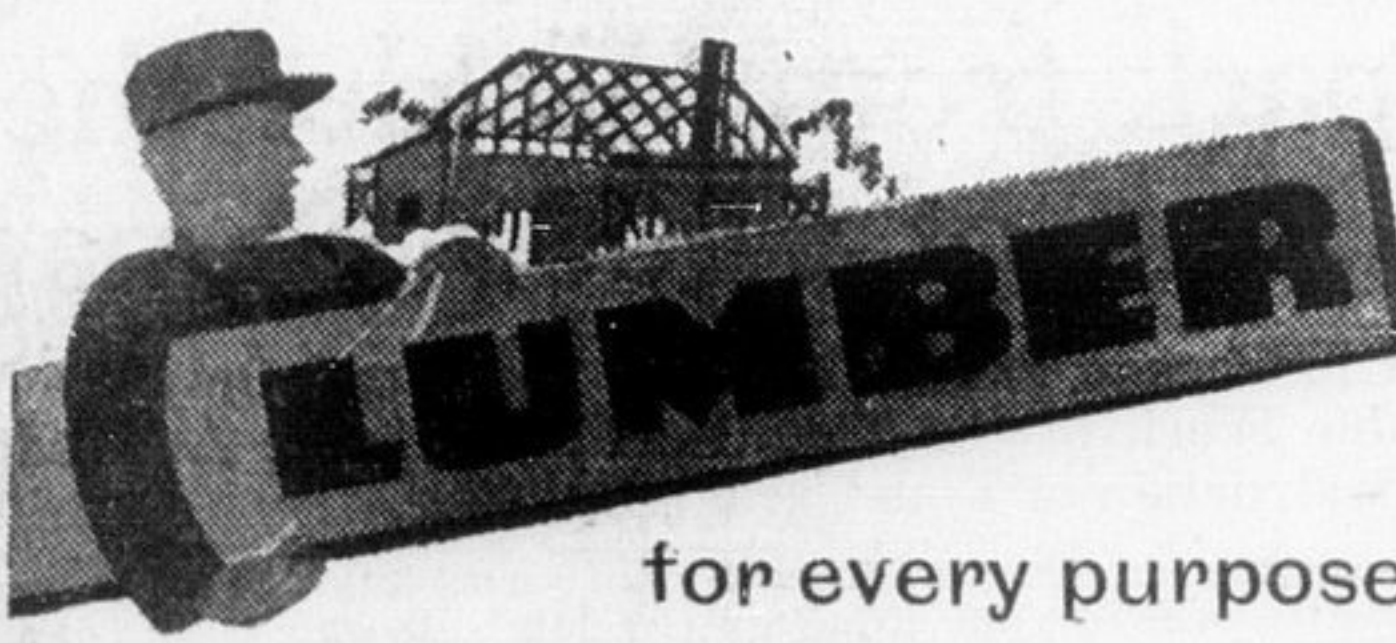

"As it is, of course, the new mines are to get the tax preference. That will be generally accepted as a worthwhile concession. There are already quite a number of young mines whose programmes call for production during the next few months, and before the dead line of January 1, 1940, arrives, there will probably be scores of properties explored, developed and brought to the profitable stage, in a position to take advantage of Mr. Dunning's scheme of assistance.

"The finance minister undoubtedly realizes that it takes a lot of money to get a real mine going; that it is only fair to give some measure of protection to the efforts of investors who are taking the risk, and in view of the large element of chance should have preferential treatment rather than the opposite. The point is well taken, and few will quarrel with the principle.

"There is one feature of the new budget that works a hardship. No provision seems to have been made for mines that have just come into production, during the last two or three months, and which obviously have as much right to the exemption as one that commences mill operations this month or next. It is appreciated that Mr. Dunning had to draw the line somewhere, but there it is; several new mines have recently joined the producing lists, and they were a few months or weeks too soon in their own interests.

"The construction of roads to outlying areas where minerals are in evidence will prove a big help in getting exploration and development under way, saving extraordinary costs inseparable when transportation facilities are not available. The importance of providing proper access to these favourable areas has been stressed of late before provincial and federal authorities, and emphasis also placed upon the opportunity that the situation affords of placing a large number of unemployed men at gainful work.

"Many a promising mining prospect, now only subjected to half-hearted survey, could be developed, with the possibility of becoming a producer, adding to the aggregate payroll of the industry, if transportation facilities were at hand.

# Meet the MODERN Cinderella

NO longer tied down to the cook-stove . . . no longer a prisoner in her own kitchen . . . her new Westinghouse dual-automatic Range has opened up the way to freedom she never enjoyed before.

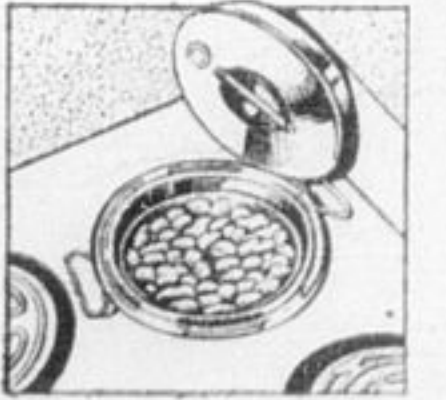

No more soot-blackened pots or pans to clean . . . no more fumes to make the kitchen uncomfortable or to soil the walls and curtains . . . and, best of all, no more need to watch over every meal while it is being cooked.

You, too, should accept the freedom which Westinghouse offers. There is a model, size and price to meet your needs.

Ask your dealer about special term - payment plan.

**THRIFT COOKER**  
Cooks an entire meal on one 600-watt element.

## THE RANGE THAT NEVER NEEDS WATCHING

Westinghouse dual-automatic Range automatically produces uniformly satisfying results. No guesswork! No uncertainty! No attention on your part once the food is in the oven! Only Westinghouse gives you completely automatic cookery by all three methods good cooks demand—maintained heat for baking; Dutch-oven for pot-roasts, etc.; and two temperatures for roasts. No other range has ever been able to do so much for you!
