## PAMOUR TO BE PRODUCING IN FEW DAYS

### Regular Session Here of Compensation Board

Large Number of Cases Heard and Reviewed. Some Cases Examined Before. Some Reasons Given Why Some Cases are Not Passed. Report on Cases Here to be Released in Couple of Weeks.

Concluding one of their regular visits to the Porcupine, Dr. Bell, Dr. Galbraith and Mr. Hutchison of the Workmen's Compensation Board, left Timmins on Friday to return to Toronto, from where they will issue their usual report on the cases examined.

It was not a special visit made at the request of the council, one local member of the medical profession pointed out to The Advance, but was merely a part of the regular activities of the Board in tracing down as far as possible complaints from patients and physicians concerning men who might come under the jurisdiction of the government-operated industrial insurance authorities.

Many of the local doctors had made arrangements to have patients brought to the Board representatives and in addition to that an organized group of local men, who had been informed at a recent council meeting of the proposed regular visit of the Board, were on hand.

#### Some Examined Before

Many of them were old chronic cases, examined at previous times by the board. Some undoubtedly had silicosis before they came North; some had apparently contracted the disease while not working in the mining industries. Cases have been found here where men working on dusty farms have shown first stages of the lung disease. Granite workers, sand blowers and other skilled workers who have come from the south have had indications of the disease on arrival here, it is stated.

Recognition of the disease is in itself a specialized branch of the medical profession, particularly when tuberculosis is present. The medical profes-

### Children's Aid to Hold Drive for Funds in June

Mrs. H. W. Darling and Mrs. I. K. Pierce to Direct Membership Campaign Next Month. Question of Adding Paid Stenographer and Other Field Workers Left to the Committee.

The directors of the District of Cochrane Children's Aid Society met on Friday evening and dealt with several important matters. The president, Mrs. A. G. Eyre, was in the chair at the meeting.

One of the important questions to be dealt with at the meeting was that of financing the work. It was decided to hold a membership campaign on June 10th, 11th and 12th this year. Mrs. H. W. Darling and Mrs. I. K. Pierce were given the direction of the campaign, and as both these ladies have had much successful experience in similar campaigns, the 1936 drive for members for the C.A.S. may be expected to be successful.

The question of the Department's request for a paid stenographer and another field worker to be added to the staff was left for the consideration of a committee comprised of P. H. Laporte, Mrs. Eyre, president, and A. G. Carson, the superintendent.

Mrs. Darling was elected a director of the society to fill the vacancy on the board.

### Boys Warned Not to Ride Freight Trains

Two Young Lads Took Desperate Chances the Other Day. Railway Authorities to Prosecute in Future

The Porcupine Junction-bound freight train made an unscheduled stop on Saturday afternoon just before pulling out of the Schumacher station when railwaymen saw two young Timmins boys hanging from the ladders of a box car. While the train was passing through the narrow rock cut near the Hollinger spur, the boys' position looked precarious and watchers feared that they would fall off and get crushed beneath the wheels.

Realizing that slowing the train at that point might have frightened the lads into jumping off and perhaps severely injuring or killing themselves, the engineer kept the train moving until the car was clear of the cut.

The lads, who were around 12 years old, were taken to their homes by T. N. O. Constable McGrail and A. G. Carson, Children's Aid superintendent. The parents were told of the dangerous position in which their sons had placed themselves and correction was left to the parents.

Should boys be found on freight trains in the future, they will be brought to police court, authorities have stated. Parents are asked to accept a

"Bozo," a unicorn bull! You're not seeing things! This is really a front view of the unicorn created by Dr. W. Franklin Dove, biologist of the University of Maine. The unicorn bull bellows and eats hay like any other bull.

It's a Unicorn

### Help Crippled Children to Health and Strength

Kiwanis Club Planning to Assist in Having Deformities Corrected and Injured Children Helped. If You Know of Children Needing This Help Send in Names to Kiwanis Club.

There are more needy children in Timmins suffering from deformities of one kind and another than the casual observer would believe. The Kiwanis club is learning while making a survey of the kiddies who haven't a fair chance in this world. Already a large number of cases have been reported but it is believed there must be many more who have been overlooked.

All the Kiwanians ask is that you tell them about a needy child you know who has an ailment similar to any of the following: congenital deformities such as club feet, hare lip, dislocated hips, arm palsy, wry neck, paralysed or deformed limbs resulting from infantile paralysis, spinal curvature, severe bow legs, tubercular bones or joints, dis-eased bones, and contractures resulting from burns. There are many other deformities of this kind that will be examined at the clinic to be held here on May 18th, and which will be under Dr. A. W. Farmer of the Sick Children's hospital, Toronto. No treatment will be undertaken before consultation with the family physician. The clinic is for examination only.

P. T. Moisley or J. R. Walker of the Kiwanis club will be glad to hear from you of any child in need of treatment.

### Smoking in Bed May Have Started Fire

Brigade Put Out Blaze in Short Order. Another Fire was in Tilted Automobile.

Smoking in bed is believed to have been the cause of a fire yesterday at the Maple Leaf hotel when \$35 damage was done to the contents of a room there. Firemen put out the blaze with chemical.

When a car was struck at the corner of Hollinger Avenue and Rea street on Saturday afternoon, it was tilted over on such an angle that gasoline flowed from the tank. Occupants got out to examine the car and one of them dropped a lighted match on the gaso-line-soaked ground. The fire that resulted looked threatening but no damage was done.

A chimney fire yesterday at 162 Baldwin street north did \$10 damage while one at 55 Third avenue on Friday was out before there was any loss.

### Report About Jack Dempsey Being Here

Rumor Reported Famous Fighter was Here Saturday but has Not Yet Arrived.

Rumor on Saturday had it that Jack Dempsey was coming North with a group of New York mining men but a check-up here this week-end brand-

ed the statement false at least so far as Timmins was concerned. He may have been with the directors of the Glenora mine in the Kirkland Lake area who arrived there Saturday afternoon but railwaymen doubted this very much. If the former heavyweight champion did travel on Saturday's train, he passed unrecognized by conductors and trainmen alike.

The only private car to arrive in Timmins during the week-end was one in which Julie Timmins and the directors of Hollinger Consolidated arrived. They will remain here until Tuesday noon.

The eye-test car of the T. & N. O. is spotted in the yards just now and will remain here until all railway employees have taken the "sense" tests. The railway gives all employees examination in the senses of sight, hearing, touch, taste and smell at regular intervals.

### Unsettled and Cool for Next Few Days

Weather Likely to be Showery in Next Few Days, Says Weatherman.

The next two or three days in the North will be somewhat like to-day, the weatherman predicted this morning. Unsettled, dull, a little cool, and inclined to be showery, the weather will be just about seasonable.

Although Thursday's temperature here was high for this time of year, no one suffered from the heat as was reported from Southern Ontario where the mercury soared to 90 degrees. No records were broken in Timmins for on May 5th, 1934 a high of 82 degrees was registered. Other May highs have been:

May 2nd, 1934, 78; May 4th, 1934, 77;

May 6th, 1931, 75; May 4th, 1930, 74.

The past six days have brought nearly half an inch of rainfall which did a considerable amount of good in cleaning up the town as well as melting snow in the bush.

Yesterday's heavy showers brought the largest part of the moisture when 37 inches of rain fell.

Temperatures have been: Thursday, max. 72, min. 42; Friday, max. 56, min. 38; Saturday, max. 53, min. 34; Sunday, max. 45, min. 36; last night's minimum 33 eight o'clock this morning.

### Marriage Saturday of Sergt. L. Gagnon

Quiet Wedding at Church of the Nativity at Early Hour on Saturday Morning.

The marriage of Anne, daughter of Mr. and Mrs. John Cojocar, of Timmins, to Leo Henry Gagnon, son of Mr. and Mrs. Philip Gagnon, was solemnized at the Church of the Nativity on Saturday morning at five o'clock. Father O'Gorman officiating. Witnesses at the ceremony were Romeo Bolsonault and Miss Lena Sylvester.

Mr. and Mrs. Gagnon will return this evening from a trip to Kirkland Lake and will take up their residence at 113 Elm street, north. He is the sergeant on the Timmins police force.

### Porcupine's Newest Big Mill Ready to Produce

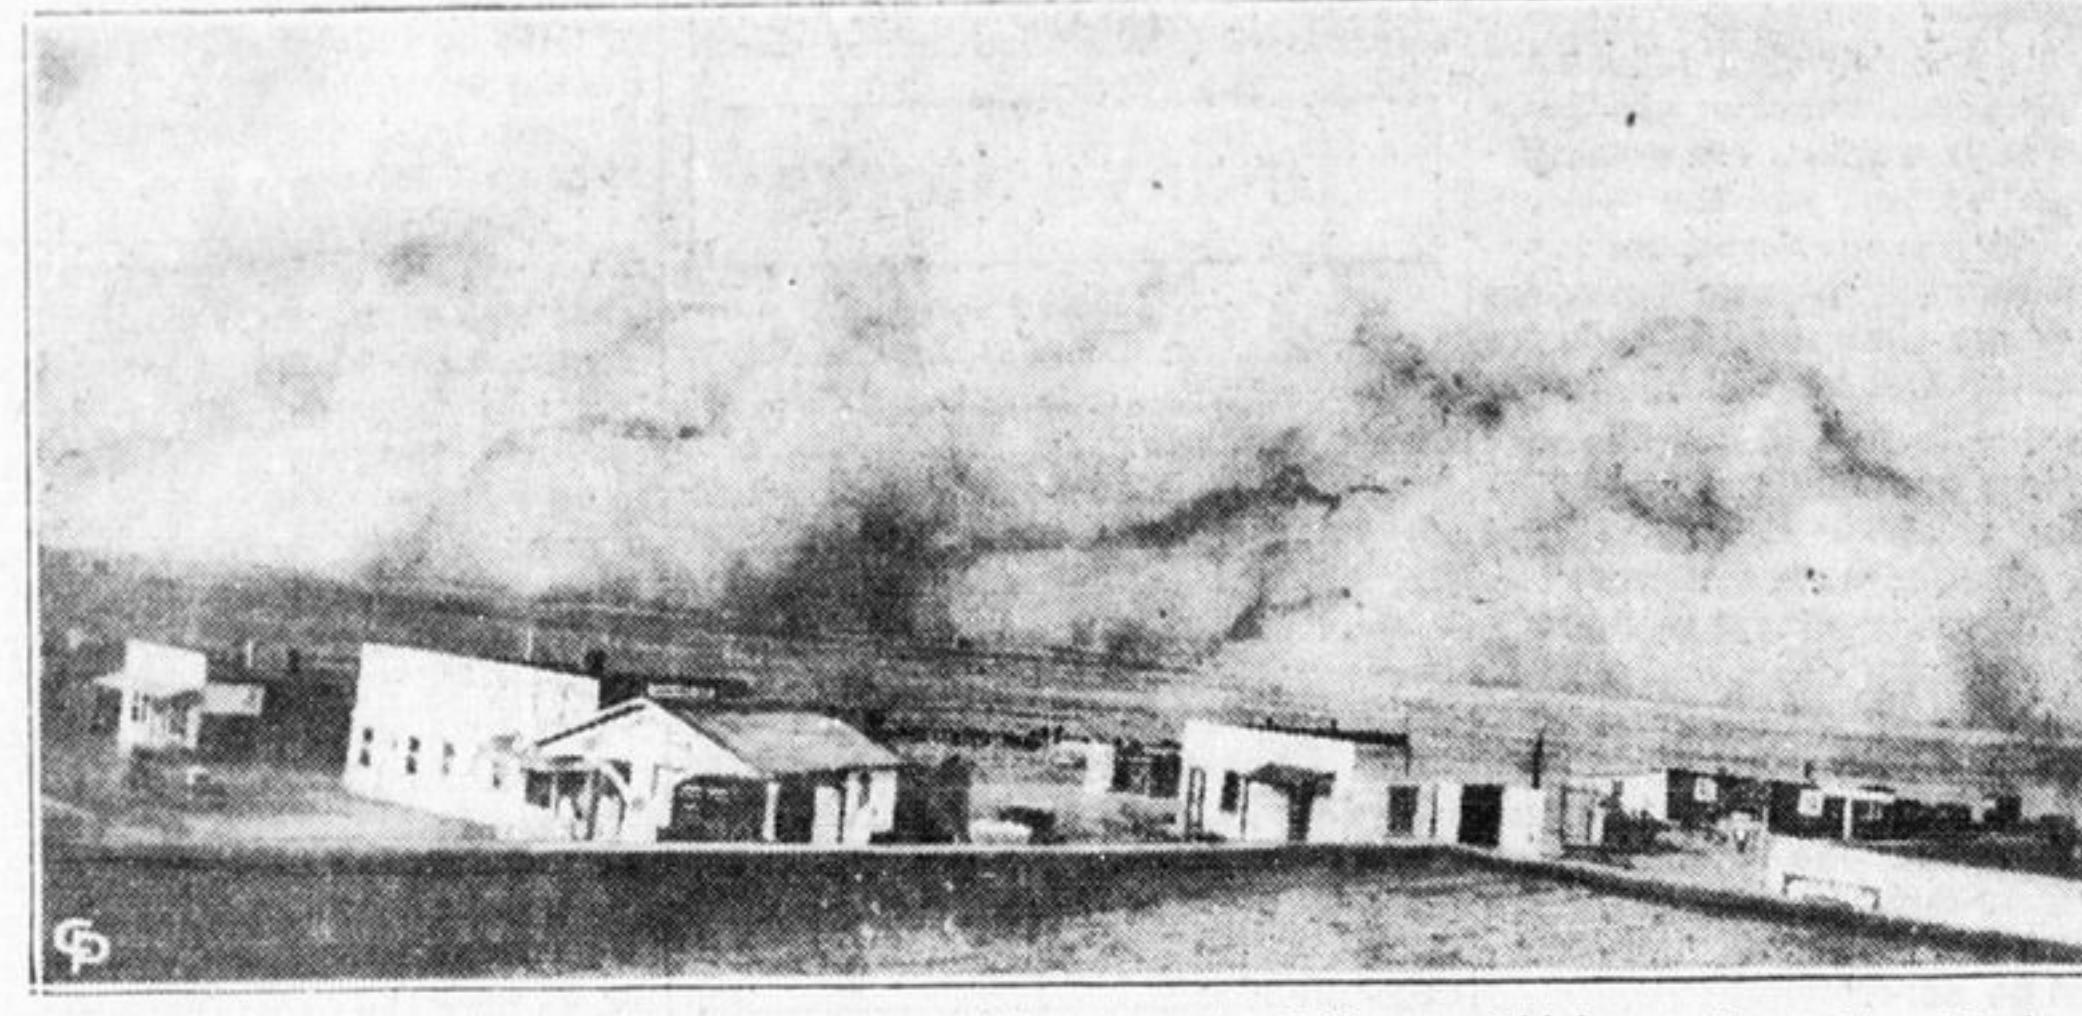

Crushing Plant Test Proves Entirely Satisfactory. Ore Immediately Available to Run Mill at 500-Tons Capacity. Opens New Horizon at East End of Camp.

The 500-ton mill at Pamour will begin turning over within a few days now. The Advance learned this morning. It may be within the week and it may not be until the beginning of next week that all the odds and ends of installation of the big unit are completed.

The crushing plant has already been tested and has been entirely satisfactory, it was stated and work on the mill has gone ahead on schedule.

With plenty of good grade ore available now, the milling unit will be started in at the full 500 tons per day, and will increase the gold output of the Porcupine a considerable amount.

### DUST STORMS DRIVE TEXAS FARMERS UNDERGROUND

Life in the great American dust bowl, an area taking in parts of Kansas, Oklahoma, Texas, New Mexico and Colorado has moved underground. Repeated years of drought and wind have driven those farmers who have remained to earth—and below. Here is an ominous black cloud of dust rolling in on an isolated settlement near Springfield, Colo.

### Six Nominations for Queen of the Carnival

Five Young Ladies of Schumacher and One from Timmins Accept Nomination to Contest Honours in the Big Carnival to be Held by Schumacher Lions This Summer.

### C. W. L. Committees Elected for the Year

Delegates Appointed for the Annual Diocesan Convention of C.W.L., to be held at Cobalt.

The C. W. L. held their regular monthly meeting on Wednesday, May 6th, with the new executive presiding. The purpose of the meeting being chiefly to appoint the standing committees for the coming year, namely:

Membership—Mrs. H. Egan  
Social Welfare—Mrs. F. Carrere  
Education—Mrs. P. J. Murray  
Travellers' Aid—Mrs. A. Dorschener  
Magazine—Mrs. Carlin  
Entertainment—Mrs. J. Subert  
Press—Mrs. A. Moran

Delegates were appointed for the annual Diocesan convention to be held in Cobalt, and it was also decided to send a delegate to the National Convention in Regina.

The semi-annual rummage sale will be held on Saturday, May 16th in the basement of the Church of the Nativity at 8 a.m.; convener, Mrs. Dorschener.

There will be a bridge party on Thursday, May 28th, in the same place, convened by Mrs. Dorschener and Mrs. See.

An interesting item was a short talk by Miss Roberts, of the Progressive Club of Timmins, stressing the need of a community recreation and educational club.

A representative was invited to attend the general meeting in the town hall to further study the subject.

Born—to Mr. and Mrs. A. Gordon Browne, 2 Smith street, South Porcupine, at St. Mary's hospital, on May 6th—a son. The infant died a day later.

### Death of Tony Matymitz After Illness of Some Time

The death occurred yesterday afternoon of Tony Matymitz, 42 years of age, who had been ill for some time. He is survived by his wife and four children, living at 204 Spruce street north.

The funeral service is to be held at the Labour Temple at four o'clock on Wednesday afternoon.

### Another Happy Smoker at Legion on Saturday Night

Another of the series of enjoyable smokers that have been so pleasant and successful under the auspices of the Timmins branch of the Canadian Legion will be held on Saturday evening. The programme for the evening will be under the direction of Comrade Tommy Parsons, so the Legion members are expecting another "extra special," and in view of the success of previous events over which Comrade Parsons has had direction they are likely to have their anticipation fully realized.

### Deputy Chief Dropped From Police Force Here

No Appointment Made in Place of Retired Officer. Same Excuse Given for Change as in 1934 when Nearly Whole Police Force was Changed.

After three protracted meetings of the members of council last week, sitting as a committee of the whole in private session, and after all sorts of stories were current as to changes to be made in the police force, announcement was made on Friday by Mayor Bartleman that the matter had been settled and that Deputy Chief Salley was dropped from the police service, the deputy chief being the only man to lose his place. The reason given by the mayor for the change was inefficiency.

In view of the excellent record of the police force here in recent times the public will find it difficult to accept this reason. It will be recalled that a former chief of police here, Chief Rich, gave the same reason for the discharge of practically a whole efficient police force, Chief Rich being the favourite choice of Councillor Bartleman, as he then was. Mayor Bartleman apparently has led the battle for the dismissal of the deputy chief just as he led in the dismissals in 1934. It is understood that this year effort was made to secure the dismissal of other members of the force, but that council voted this down. Further than the announcement by Mayor Bartleman as to the dismissal of the deputy chief, the public have been given no information on the question. There have been countless reports and rumours, however, around town. The facts of the case will be brought out in due course.

### Olympic Head

COUNT LATOUR

President of the International Olympic committee which rules the 11th Olympic games at Berlin, is Count De Baller-Latour (ABOVE), called "Father of the Modern Olympics." He is a Belgian and is seen as he arrived in America from Japan where he went to study Nipponese bids for the 1940 games. The site will not be selected until after the Berlin meet.

Dr. Russell to Address Registered Nurses Here

The monthly meeting of the Porcupine chapter of the R.N.A.O. will be held at St. Mary's hospital on Tuesday evening, May 12th, at eight o'clock. Dr. Russell will address the meeting. All members are requested to attend.
