Your particular style is here. But it won't be here long at these prices so—we would advise you to be here on the stroke of nine. Sizes 14 to 48.

## South Porcupine Guides Hold Successful Event

Tea and Sale on Saturday Attracts Big Patronage. Another Successful Event by the Eastern Star Last Wednesday. Other Items of Interest from South Porcupine and the Dome.

South Porcupine, Ont., May 16th. Special to The Advance.

On Wednesday afternoon the ladies of the Eastern Star held a very lovely tea in the Masonic hall. The day was cold and wet, but in spite of the weather a goodly number patronized the affair, and made it quite a success. The hall was very nicely decorated with red tulips and the flowers with dainty linen and china and candles lent a festive air to the occasion.

Mrs. Kerr (chaplain for the Chapter) poured tea for the guests, and the very pretty sugar and cream set, which was given as a door prize was won by Mrs. Bishop.

The strong wind of Thursday blew the ice out of the lake at last, so now we may expect warmer weather. The first plane since the break-up was heard on Wednesday having found enough open water in the lake for the "take-off." Golden City dwellers tell us that the ice this year was much thinner than usual being only about three inches thick, when noticed floating down the river.

Last comment on Spring—Has everybody heard the frogs?

Mr. Howe, formerly butcher for the Workers' Co-operative here is taking over the new store in Rotondo's building in Golden City. Mr. Rotondo is building a new pool room next door.

Our sympathies go out today to the parents of little "Billy" Dickson, aged three years, of Main street, who died in St. Mary's hospital, Timmins at 6.45 p.m. on Thursday, of pneumonia. Billy, who was christened William John, was the only child of his parents and came to town with them when only a month old. Neighbours and friends were very fond of the bright little fellow, and are grieved to hear of his death. He had measles a short time ago, and did not recover well from them and last week his mother took him to Halleybury with her on a visit. While there he caught a chill and developed pleurisy. Upon his return complications ensued and pneumonia developed. He was taken to Timmins hospital on Wednesday and passed away next day. It is probable that he will be buried on Sunday from the United Church.

Mrs. Heath, of Kirkland Lake, is staying with Miss Shaw at the "Cabin" Golden City.

Miss Margaret Lloyd, of Dome Extension is teaching at the Ankerette School, taking the place of Mr. Blockley, who was formerly principal there.

Mrs. George Pirie, of the Dome, whose husband was called to Shawville on account of his mother's serious illness left on Friday for the same town. She left as soon as possible after hearing that her own mother Mrs. Stewart, of Shawville, was dangerously ill.

Mr. Cornelius Montrose, who has been a patient at Gravenhurst Sanitarium for some months, came home on Friday to spend the summer with his parents.

Mrs. Stan. Pearce left on Friday to spend the week-end in Toronto.

Proof that South Porcupine is growing, is the fact that Mr. R. A. Beamish is opening one of his chain "dollar stores" in the Dalton block shortly. This store will carry a complete line of dollar articles.

Mr. Helmer is building two new homes in the immediate future near his home.

We hear that Bob Croskey, brother to Ben (whom all old-timers in the camp will remember was involved in an accident in Welland lately and had his left hand amputated in a machine).

Mr. and Mrs. Gegg and two little daughters are expected in from Long Lac on Sunday to spend a short vacation at the home of Mr. and Mrs. Michaelson at the Dome.

Domestic Senese had the misfortune to run a nail into his foot last week. He is progressing well.

Mr. Bert Thomas left last week to make his home in Burlington.

During the high wind on Thursday the fire alarm sounded for a fire on Golden avenue. The firemen responded and found the stovepipes in the apartment house where Mr. Yeloski lives, red-hot. Yeloski had tried to put out the fire in the pipes with his hands and his hands were badly scorched and blistered. With their emergency kit all ready and prepared the boys were able to render first aid to his painful injuries. Chemicals put out the chimney fire.

The Anglican Young People had a very pleasant evening last Wednesday. It was an Educational meeting and was thoroughly enjoyed by all present. Miss Ruby Naish read an instructive article on "Religion in Soviet Russia" by Pierre van Paaseen,—which was listened to very intently. Miss Dorothy Walker gave a paper on the life and works of Rudyard Kipling. Miss B. Maxwell-Smith took charge of the A. Y. P. A. paper. Contributions were read from it. After lunch, games and community singing finished the evening.

Dr. Fraser returned on Saturday from two weeks' vacation.

Miss Todd is getting along splendidly after her accident. A newcomer to town from Kemptville, Miss Todd has a good impression of our town. The young people have been most attentive to her since she hurt her foot, and she thinks South Porcupine people are O. K. So do we!

May 28th (next Thursday week) is the fifteenth anniversary of the inauguration of the Eastern Star Chapter in South Porcupine. A big "bridge-party" is to celebrate it. So will you please keep this date in mind.

Mr. Al Pierini has accepted a position as butcher with Purdon and Laflamme. The Finn boarding house on Crawford street is having an entirely new foundation built under it.

## Form Council of Youth in Timmins

(Continued from Page One)  
council believes the expenses of one delegate is all that can be borne by the present organization. Both delegates have agreed that they cannot express the opinion of the youth of Timmins as a whole on either of the big questions that are the purpose of the congress—"the youth of Canada in world peace," and "the place of youth in the Canadian economy"—since there has been no time to make a true estimation of the opinion of Timmins youth in either problem.

They will report back to the Council at a public meeting to be held, if possible, in the high school on June 8th.

**Donations Made Already**  
Donations to the council have already been received from the Finnish Youth Club, the Conservative Association, the Kiwanis Club and the Ector Club. Unofficial representatives of other organizations, including the I.O.D.E., the C.W.L., the A.Y.P.A., the United Church Y.P.S., and others, have promised to make contributions in the near future.

J. T. Jackson, under whose guidance the young people's organizations have got together and decided to go ahead with the council, suggested that application be made as soon as possible to the town of Timmins and the township of Tisdale for permission to hold a monthly tag day as a means of raising funds for the erection of a community centre. Every cent of the money, aside from that necessary for the printing of tags, raised in this manner, should be earmarked for the community centre and should not be drawn upon under any circumstances until released for building purposes. This suggestion was favourably received.

Miss Roberts went briefly over the programme for the Ottawa Congress, which will be held under the chairmanship of Principal McDermott of Upper Canada College. Discussion on Saturday, address on Sunday by prominent Canadians, and a summary of the resolutions passed on Monday are the three main divisions into which the work of this first congress falls. She also said that it would be proposed that 30 delegates from Canada attend the Geneva World Conference of the League of Nations Societies.

The council has asked the co-operation of every group of citizens in Timmins and it was pointed out several times yesterday "it is anything but a political organization."

## Dome Mine Acquires Schumacher Claims

More than a Million Cash Paid for Property Adjoining Central Porcupine, and Another Million to be Paid.

Dome Mines have acquired a property held by F. W. Schumacher for a price of more than two million dollars. It was announced this week-end. More than a million dollars in cash was paid to Mr. Schumacher when the deal was completed in New York.

The claims adjoin Central Porcupine Mine and fill out the northwest corner of the southern part of the present Dome holdings.

Mr. Schumacher, who has spent most of his time in Cincinnati since selling the Schumacher mine to Hollinger some years ago, board-d a steamer bound for Europe immediately after the deal had been closed.

Born—to Mr. and Mrs. A. Fortier, 221 Cedar street north, on May 15th—a daughter.

## How Fund for Christmas Seals is Being Expended

Valuable Work Carried on in District in Combatting Tuberculosis. People Receiving Notable Returns for Any Subscriptions Given. Explanation of the Plans Under Way.

Timmins, Ont., May 14, 1936 Kelly Abrams, Mrs. Sol. Platus and Miss McIntyre.

The tuberculosis testing of the children in the schools has been done on a totally different basis and has no relation to the money raised by the Christmas seals except in so far as this, that Dr. Wilson will examine the children who are found to be infected or are suspected of being infected. By explaining the method followed in Schumacher everybody will understand how this type of work is carried out. Dr. Easton, who is the school doctor in Schumacher, and Miss Wing, who is acting school nurse, tuberculin-tested all the children in the public school and high school of Schumacher. Of these, 58 showed positive reaction. Forty-five of these positives were x-rayed, the balance being off sick at the time this was done. Among the 45 cases who were x-rayed there were four active T. B. cases and 20 others who we feel should have a check-up. This group of 24 will be examined clinically by Dr. Wilson. The schools in South Porcupine are being tuberculin-tested by Dr. McLaren, who is the school doctor there. Everybody can readily see that this is a very quick and efficient way in which to check up a large group of children. The money for the tuberculin in Schumacher was given by the Schumacher Lions' Club and I presume the school boards gave it in South Porcupine.

In Timmins the Lions' Club has offered to buy the necessary tuberculin for doing all the tests and the medical members of the Lions' Club have volunteered their services in carrying out these tests. This service is offered to the school boards of the town of Tim-

mins gratis if they care to accept it. Unfortunately, due to the severe epidemic of mumps and measles this spring, we have been unable to carry out this plan and on the advice of Dr. Brink, director of tuberculosis activities in the Province of Ontario, we have postponed this examination until next fall. As a matter of fact the work already attempted this spring is all that can be satisfactorily handled before the summer holidays.

I hope this will satisfactorily explain the tuberculosis work being carried out and how the bills are paid.

Sincerely yours,  
Dr. N. H. Russell,  
For the Timmins Lions' Club

## Banquet of Board of Trade on Thursday

Russell T. Kelly, Hamilton, President of Ontario Associated Boards, Guest Speaker.

As noted in The Advance on Thursday last, the Timmins Board of Trade is holding a banquet in the Empire hotel on Thursday evening of this week, May 21st, with Russell T. Kelly, of Hamilton, president of the Ontario Associated Boards of Trade, as the guest speaker. The event will commence at 8 o'clock, and a programme of special interest has been prepared. It was hoped to have the event under the joint auspices of the Board of Trade and the Lions Club and Kiwanis. On account of arrangements having already been made for their own regular meetings, neither the Kiwanis nor the Lions could drop their meetings, but both clubs are giving the heartiest co-operation in the matter of the board of trade banquet.

Tickets are now on sale for the banquet, and may be obtained from W. O. Langdon, president of the Timmins Board of Trade, or from any of the members.

Business and professional men and others will find the banquet Thursday

night of special interest and value and all are heartily invited to attend and enjoy this event in the main dining hall of the Empire hotel. Russell T. Kelly, the guest speaker for the evening, is one of the best known of Hamilton's outstanding citizens. He is head of one of the large advertising firms of the city and he has always taken a keen and able interest in board of trade matters. He is a speaker of marked ability and is able to present the case for boards of trade matters in the clearest and most attractive way. Since being elected president of the Ontario Associated Boards of Trade he has made a large number of addresses throughout the province on board of trade affairs. At present he is on a tour of the North, with the double idea of getting acquainted with the facts about this country, and acquainting the North with what is being done and what may be done by the boards of trade in advancing the general interests of the country. This week Mr. Kelly is speaking at three centres in the North—Timmins, Kirkland Lake and North Bay.

The last banquet by Timmins Board of Trade was the one at which Dr. Speakman was the guest speaker. That event will be long remembered here for its interest and enjoyment. It is intended to have the banquet on Thursday evening along similar lines, so this week's feature is expected in every way to fully equal the success of the banquet last year. Arrangements are now completed for the special entertainment features of the evening so that all that remains is for a large attendance to be present to make the occasion a complete success from every standpoint.

Holtvre is the name of a new post office in Hislop township, Northern Ontario. The name is for a new town-site, in the Ramore gold area, the name being chosen because the Hollinger and McIntyre both have large holdings, and "Holtvre" is a combination of the first syllable of the name Hollinger and the last syllable of McIntyre. The Advance understands mail addressed to "Holtvre, Ontario," has been delivered regularly since April 1st.

## TWO FOLD PROTECTION

WESTINGHOUSE is the ONLY Dual-automatic electric refrigerator. Protects both mechanism and food... eliminating fuses and hand-set circuit-breakers... assuring you of adequate, efficient refrigeration even under abnormal power conditions. Let us show you how it works.
