Boy Scouts Jamboree at South Porcupine July 4-5

Notable Dominion Day Activities of Northern Ontario Boy Scouts. Programme Outlined by the Boy Scout Committee at South Porcupine.

Below will be found an outline of the programme for the Northern Ontario Boy Scout Jamboree to be held at South Porcupine on July 4th and 5th, as sent out by the South Porcupine Boy Scouts Committee:

Activities
Saturday morning July 4th (weather permitting)

Water Sports
Swimming, Diving, etc., at Porcupine Lake 9.30 a.m. to 11.30 a.m.
Saturday afternoon 2.00 to 5.00—Wolf Cubs will carry out part one of their programme.

Woodcraft Patrols (One from each troop) eight scouts per patrol to erect an overnight campsite and will exhibit such things as laid out in programme.
The remainder of all troops including S.M.'s and A. S. M.'s will participate in a Grand Wide Game—Stalking, Trailing, Compass Points, Nature Study, etc., may all be included in the game. Game finishes at 4.00 p.m. to permit troops to prepare supper. Do your best to help your troop win.

At 6.45 p.m. all Scouts and Cubs will assemble at Public School Grounds for inspection. The smartest appearing troop and pack in uniform will each receive a silver cup to be held for one year. Have your Scouts and Cubs pay attention to their uniforms and come to the Jamboree "Full Strength and in Uniform."

The Skating Rink will be opened to the public and to Scouts and Cubs at 7.00 p.m. for inspection of the Camp Sites. At 8.00 p.m. the Grand campfire will be opened and all Scouts and Cubs will participate.

Campfire Programme
Cubs will form a circle within a circle of Scouts, then the fire will be lighted, the flag unfurled, and the whole Group

will sing "O Canada." Troops and packs will then fall back a few paces while picked Scouts from each troop compete in tree-felling, log sawing, and log-chopping. The logs are finally cut up the circle will close in and all be seated while the fire-by-friction competition is put on. Each troop may enter as many competitors as they wish. During this stunt the rest will be asked to sing the song on page 23 of the Scout Camp Fire Song Book—"Pack Up etc." The next will be a knot tying contest for Scouts. Each scout who competes will need three ropes, one 3/4" sash cord 12 feet long and two 1/4" sash cord 6 feet long. The knots will be tied as follows:—The 12 foot rope first. The rope end will be passed through a 1 inch hole in a plank and a figure eight knot will be tied in end of rope, then a Fireman's Chair knot is tied in 12 ft rope, a Sheet bend joins the next two rope ends and a Reef comes next, a Scout ties a bowline around his body and ties a Sheepshank in the centre rope. Each troop is permitted to enter two Scouts.

The next song is on Page 39; "Mary Had, etc" and the Cubs have a wheelbarrow race followed by a Scout game which will require three Scouts from each troop.
A Cub game requiring 6 Cubs per pack is next. A pair of Round Songs, "Little Tommy Tinker" and "Are You Sleeping" (page 36).

The South Porcupine Troop will demonstrate the Master-at-Arms Badge followed by a Jungle Dance and another Scout game.

The Dome Troop will demonstrate artificial resuscitation, followed by "The Maple Leaf for Ever" (Page 16). It is hoped that a demonstration of Rope Spinning will be possible. All Rope

Spinners are asked to bring their ropes. It is hoped all troops and packs will practice the above songs.

If possible the committee would like troops to bring their own camping equipment, however endeavour is being made to secure some tents. As Cubs will be billeted, it will be necessary that the committee know how many are planning to attend and stay overnight. It is hoped that Timmins Cubs will plan to return home each night. Each troop should get its axe and cross-cut saw sharpened and bring it along.

Foies and boughs for the woodcraft patrol will be supplied and an alder swamp is just outside the rink where extra sticks may be cut.

The Model bridge should be large enough to properly demonstrate all lashings. The "Trees" for tree felling will likely be 6" butts.

A chance for all Scouts and Cubs to meet and play together.

Claims Road Grants Slashed to Minimum

Despatch from Toronto Fears Virtual Shut-down of Work in the North.

It is not exactly a bright picture that is painted by the following despatch from Toronto. Fortunately, however, there is still hope to believe that things will not be quite so bad as painted here. The following is what the despatch says:—

"The limiting of road work expenditure in the province to slightly more than \$6,000,000 for both Northern and Southern Ontario means almost a complete shut-down of public works in the North, it is indicated.

"Expenditures for Northern development alone last year were \$19,000,000, and early indications are that the total for maintenance and new work will be limited to \$3,500,000, which includes \$1,500,000 for ordinary maintenance of existing highways.

"While new roads to mines are not included in the foregoing total expenditures upon highways, Hon. T. B. McQuesten announces that about \$500,000 will be the total expended in this direction. Of this sum the Dominion will contribute approximately two-thirds and the province one-third.

"Southern Ontario members of the legislature have been demanding increased expenditures on roads in the South for the past year and in any division of the \$6,000,000 joint expenditure by Dominion and province the South likely will receive the major proportion.

"The present is the initial occasion which the Dominion has contributed to roads in Southern Ontario.

"Premier Hepburn said that no definite plan had yet been formulated regarding the allocation of expenditures on the road works as between the northern and southern parts of the province.

"He stated that Mr. McQuesten would work out a programme and submit it to Ottawa for approval.

Dominion Gives Half

"Three million dollars is the amount the Dominion will contribute this year to the Hepburn government's roads programme in old and new Ontario, it was learned at Queen's Park. An additional \$300,000 will be put up by Ottawa to assist the province in the construction of roads into established producing mining areas.

"In the first case, according to agreements reached at the recent Ottawa conference attended by Premier Hepburn and Hon. T. B. McQuesten, minister of highways, the province will match the federal contribution dollar for dollar. But in the case of the mining roads, it will be required to expend only \$200,000.

"Locating these mining roads will be done with great care, it was learned. No decisions in regard thereto have yet been reached although roads into the Pickle-Crow area and the Little Long Lac area have given under consideration for several weeks, and are almost certain to be built in some form or other. They will not be of very high standard, it is understood, but will be laid down for the sole purpose of facilitating transport of materials to the areas they tap.

"In connection with the general road programme of Mr. McQuesten's department, considerable survey work remains to be done, it is said, before any start is made. Trans-Canada construction will be almost entirely suspended. In the southern half of the province one of the chief new pieces of construction which Queen's Park has under consideration is a highway paralleling Yonge street, running west of that road from Lake Ontario, via Brown's Line, Schomberg, etc., into Barrie, to provide a new avenue of approach to the Muskoka district."

Visiting Parliamentarians Delighted with the North

A despatch yesterday from Kirkland Lake says:—"Requesting that his appreciation of the welcome accorded his guests while in Kirkland Lake be expressed publicly, Walter Little, M.P., for Temiskaming, through whose efforts the visit of a party of members of the House of Commons was made possible over the week-end, telephoned his thanks to citizens of Kirkland Lake immediately upon his return to Ottawa. Mr. Little expressed gratification at the cordial welcome extended his guests and expressed himself as being particularly desirous of thanking Reeve R. J. Carter, the Kirkland Lake Kikanis Club and management of local mines. "On return journey," Mr. Little said, "the members of the party were enthusiastic and surprised at the heartiness of welcome they had received."

Perth Courier:—The men who try to do something and fail are infinitely better than those who try to do nothing and succeed.

White Bags

—for summer, in a number of smart cool looking materials—silk or cotton crocheted, linens, beaded bags and tweed mixtures. Many are zipper fastened while others have novel clasps. THEY ARE ALL DECIDEDLY SMART.

South African Veterans to Meet at Kirkland, May 30

The South African War Veterans in the North plan to have another of their annual re-unions at Kirkland Lake at the Legion headquarters on May 30th. Every year for several years past these veterans have held their re-union in the North, usually at Kirkland Lake. Last year, however, the re-union was at Timmins, but a number of the Veterans from the Kirkland Lake area were unable to be present, while for some odd reason there are not as many South African Veterans in this camp as at Kirkland. Probably it is because this is a young man's country. In any event any South African War veterans here look upon the veterans of other wars as mere youngsters. Some of the S.A. men were also in the Great War, but they still say: "Oh, yes, the Great War was a struggle, all right, but for a real war, you had to be in South Africa. That was a war." The re-union last year was a very happy occasion throughout and the S.A. Veterans from all over the North were delighted with the visit to Timmins and the several Veterans in this part played the part of hosts in very pleasing way. This year's re-union at Kirkland Lake is hoped to be the biggest and best yet. General Swift, president of the Canadian Legion at Kirkland Lake, is president of the South African War Veterans of the North. A. C. Brown, of Timmins, and J. Cotcher, Schumacher, are among the S.A. Veterans in this camp.

Work Now in Progress at the Golden Gate Property

S. A. Pain, consulting engineer for Golden Gate Mining Company, is now on the property with a crew of men rehabilitating the surface plant. Mr. Pain, who is largely responsible for bringing Biggood Kirkland through to its present advanced stage, reporting to local officials, stated that he expects to have the plant ready for full scale operation early next week. The shaft will be dewatered immediately and active underground development may be expected to get under way within the next two or three weeks.
Mr. Pain further reports that the surface crew has uncovered a vein of considerable length in which appreciable quantities of free gold were in evidence. Further work will be done on this showing to determine its true length and width and values.
Junior Gold Securities, sponsors of Biggood Kirkland, has made available sufficient funds to carry out the enlarged development campaign, and work in this connection is well under way.

E. W. Todd President of Kirkland Lake Golfers

Directors of Kirkland Lake Golf club have chosen as president for 1936 season E. W. Todd to succeed C. Earl Rodgers, who piloted the organization last year. Other officers elected at the annual directors' meeting were: M. G. Hunt, vice-president; H. H. Hawley, C. Earl Rodgers, M. W. Summerhayes, George Doggett, A. L. Bloomfield, M. W. Hotchkiss and Archie Hoves, directors. George Homer was appointed secretary-treasurer, Thomas Royman, captain, and Jock Stokes, vice-captain.
Chairman of various committees were selected as follows: M. W. Hotchkiss, greens and maintenance; H. H. Hawley, entertainment; M. W. Summerhayes, House committee; A. L. Bloomfield, handicaps; Archie Rows, membership; George Doggett, finance and C. Earl Rodgers, caddies. The meeting also decided that the share price would remain as last year, as will membership dues.
Brampton Conservator:—The duty on sugar so much complained of is retained by the present government, but the duty on brandy is reduced \$1.00 a gallon.

Generally Fair and Warmer Hoped Now

Weatherman Sees Probability for Some Light Showers.

This morning the official weather report says that the weather will be generally fair and warmer, with probably some light showers.

At 8 a.m. to-day the temperature was 34. On Tuesday, the 19th, there was light snow from 9 to 9.30—just a "trace." The following are the temperatures for the last few days:—

Mon, max. 47, min. 38; Tuesday, max. 37, min. 32; Wednesday, max. 45, min. 23; Thursday, max. 27.

Nothing Found Wrong in Northern Development Dept

Elsewhere in this issue will be found an item from The Mail and Empire suggesting that there are grave rumours at Queen's Park, Toronto, of irregularities in the Northern Development. Of course, there is another side to this. Here is the other side. This is what The Toronto Star has to say on Tuesday of this week:—

"Cheques for creosoted timber ordered for use in building bridges in Northern Ontario have been held up pending a study of the need for this material. Hon. Mitchell Hepburn stated to-day. This investigation is being conducted by Hon. T. B. McQuesten, minister of highways. The department of northern development which formerly looked after road building in the North was recently amalgamated with the department of highways. It is this amalgamation that is leading to investigation into various activities of the old department. Mr. McQuesten told The Star. "Of course, we are investigating everything as we take it over," the minister declared. "I can truthfully say we haven't discovered anything out of the way yet. So I don't know what the papers are talking about when they say that there are rumours that grave irregularities have been uncovered. We certainly haven't discovered them. Or if we have I don't know about them." Mr. Hepburn, who just returned from the North, stated he was further satisfied of the need for roads into mines. These roads will be built by the federal and provincial governments with a view to opening up sections of the North where large ore bodies are known to exist."

SIDNEY SCHMERLING MAY GIVE RECITAL IN KIRKLAND

In a first page item in its Tuesday's issue The Northern News, of Kirkland Lake, says:—

"A visitor in the city this week-end who may return to give a concert here was Sidney Schmerling, concert violinist, a native of Regina, who in the course of his career has played with the Seattle and Los Angeles Symphony orchestras, and who has also toured the Orient, playing in such cities as Yokohama, Tokio and Shanghai. He has also played on international radio programmes. Mr. Schmerling, a personal friend of Dr. Harry Magder, stated that he was delighted to see the progress his disciple had made in music since he saw him last. Anne, his sister, travels with him, and he is now staying with his parents at Schumacher."

Portland Oregonian:—A report on progress in the Dionne nursery says the girls are acquiring judgment of their own. Look out any day for a three-to-two decision.

There will be a service held in the Golden City schoolhouse Sunday afternoon at 2.15 p.m.

Dr. R. C. Wallage, of Alberta Named Principal of Queen's

According to despatches from Kingston, the appointment of Dr. R. C. Wallage, president of the University of Alberta, as principal of Queen's University, Dr. Wallace was announced to-day by Dr. W. E. McNeill, vice-principal of the university. Dr. Wallace will assume his new duties when the fall term opens in September.

Dr. Wallace, who some years ago was honoured with an honorary LL.D. degree from Queen's, will succeed Dr. W. Hamilton Fyfe, principal for five years, who accepted the appointment as principal of Aberdeen University.

The new principal of Queen's, who comes to the university with a wealth of experience as an educationist, was one of many who were considered by a special committee of the board of trustees of Queen's. His name was prominently mentioned almost immediately after the resignation of Dr. Fyfe was announced.

Dr. Wallace will follow a long line of illustrious men who have presided over Queen's University.

INVIDIOUS

Two doctors lived together, one a doctor of medicine, the other a doctor of divinity.

A caller from the village, asking the man-servant if he might speak to the doctor, was asked: "Do you mean the doctor who preaches or the doctor who practises?"

TOWN of TIMMINS NOTICE

1936 Tax Notices are now in the Post Office. Please take notice that ratepayers are requested to make payment on due date, May 28th, to Save Penalty.

Taxes unpaid on Due date will be collected by distress.
