Charlie Hall—Manager

Felix Henderson Gives Evidence

(Continued from Page One)

There had been a roar, a crashing, and the hoist was "crushed to pieces." He could not say where the trio had been lowered to. The hoist, he said, reached only the 141-foot level and if the men had gone lower they would have had to walk.

The commission discussed a "small suitcase" the men had carried into the mine. No one knew what it was. It might have been a large camera, Higgins conceded, but J. A. Hanway, counsel for the Nova Scotia Government, asked:

"Did you ever see a man take a camera down a mine before?"

"Well, I had my picture taken in a mine once," said Higgins, "so there must have been a camera."

Members of the commission laughed and the witness was released.

John P. Messervy, inspector of mines said he had no "official information" work was proceeding at the Moose River mine, but he had "heard through some source" that "something was being done."

Donald G. Grant, counsel for the owners, was given the right to cross-examine Messervy at Halifax, where Government records could be produced.

Fahie, the mine foreman who gave his occupation as "most anything I can make a dollar it," said he accepted his orders from Henderson, but had never been told he was responsible in any way for safety of the mine.

Everything, he thought, "was being carried on as it should be," said Fahie, formerly employed in a gold mine at South Porcupine.

Witness admitted seeing cracks in timber built in former operations, but said "we never thought there were any" when asked if he ever looked for weaknesses.

"That's just the trouble," interposed the chairman, Judge W. F. Carroll.

The commission of enquiry adjourned on Saturday last after hearing evidence from more than a dozen mine workers who said they had been warned to avoid certain sections of the mine where they had noticed "bulging" and "squeezing" of supporting pillars.

"Squeezing" of the timber supports had been discovered by Smith Higgins a mine worker, the night before Dr. Robertson and his young mining partner were entombed with Scadding, their

timekeeper.

Some timbers, Higgins said, showed "some evidence of weighting," and one timber "right under" the section where the collapse occurred, "seemed to bulge in the centre."

These conditions, Higgins told the commission, were known by Mine Foreman George Fahie who "said not to let anyone over there." Other workers gave similar evidence.

Felix Henderson, mine manager was questioned regarding operation of the mine and the quantities of ore produced from the various shafts.

"That's silly," said the witness when asked concerning reports that "thousands of dollars worth of gold had been taken from the mine since January."

Henderson's son, "Shorty," told how Dr. Robertson and Magill had taken a number of photographs down in the mine.

"Was there anything spectacular where they took the pictures?" asked Norman Mackenzie, deputy minister of mines. "Any gold showing?"

"I couldn't say," Henderson replied.

The Commission questioned witnesses concerning a bag the owners had carried down the mine, and Donald G. Grant, counsel for Robertson and Magill's estate, said it had contained only photographic equipment.

"Oh, we're satisfied as to the explanation regarding the suitcase," said the deputy minister. "Are you?" he asked R. J. Hanway, government counsel.

"I'm contented," said counsel, "but not satisfied."

Then the inquiry turned to the right of the owners to operate the mine, abandoned for many years.

James A. Wall, a clerk in the Halifax office of the Department of Mines, and J. P. Messervy, the deputy inspector of mines, had been informed the mine was operating, witness said.

Magill, who Henderson said looked after all management details, had talked with Hon. Michael Dwyer, Nova Scotia minister of mines, witness told the commissioners, and he had considered permission to operate the mine had been obtained. But he was not sure on this point. He was unable to say whether Magill had the right to operate the mine.

As far as the mine manager was concerned, however, he felt he had complied with all Government regulations governing mining operations. He admitted he had warned the men to keep away from one particular part of the mine but maintained there was "no specific reason" for the caution.

At Halifax to-day (Thursday) the commission will hear the story of Alfred Scadding, one of the imprisoned men held underground for ten days by the cave-in at the mine.

Winnipeg Tribune:—"Would have all candidates for public office write exams." But suppose they can't write?

Petrolia Advertiser:—"For the benefit of the Amherstburg Echo we may say that in these days when cost of government is being figured out in dollars and cents and when it is estimated that government is costing us thousands of dollars per second, it is time that the people of Canada began to realize the utter futility of partisan government and that it is one of the biggest money wasters we have. Debate is all right, but when one group of men says a certain thing is white, both time and money are wasted by another group contending it is black. Parliamentary sessions would be materially shortened by less partisanship in politics and members' salaries could be correspondingly reduced."

Schumacher C. W. L. Hold Pleasing Bazaar

List of Prize Winners on Friday and Saturday. Shower in Honour of Miss Rosina Mair. Presentation Made to Mr. ad Mrs. Docking. Other Items of Schumacher News.

Schumacher, May 26th, 1936. Special to The Advance.

Mr. Bangs, of Ottawa, is visiting relatives in town.

Mr. P. B. Cameron and son, Kenneth, who have been in the Sudbury mining district for the past few months, arrived home Friday.

Mrs. A. Corrigan and children, of Noranda, visited her sons, Clem and Merwin, over the week-end.

Born—Thursday, May 14th, 1936, to Mr. and Mrs. Lloyd McGloshen, 26½ Railroad street—a daughter. (Myrtle Sarah).

Mrs. George Shippam entertained at a delightful miscellaneous shower on Wednesday evening, in honour of Miss Rosina Mair, Reg. N., of Kirkland Lake, a former resident of town, and a graduate of St. Mary's Hospital in Timmins. Miss Mair's marriage takes place early next month. The rooms were prettily decorated with pink and white streamers, and spring flowers. The evening was spent in playing cards, after which a decorated umbrella was opened up and Miss Mair received many lovely gifts. Refreshments were served by the hostess.

Mr. and Mrs. D. Kendal, of Simcoe, arrived in town last week to visit their son, who is a patient in St. Mary's hospital.

Mr. W. S. Blake, principal of the high school, visited in Toronto over the week-end.

The choir of Trinity United Church are holding a tea and sale of home baking at the home of Mrs. M. L. Urquhart, Lakeside Drive, on Saturday afternoon, May 30th, from three to five-thirty.

Mr. and Mrs. Fritz Gilbert and Miss Hazel Gilbert were in Larder Lake on Saturday. George Leck accompanied them on their return home.

The bazaar by the C.W.L. on Friday and Saturday was a splendid success. Large crowds attended each day, and the fashion show each day was an added attraction. The winners of the tombola were: 1st prize, occasional chair, donated by F. Dwyer, and won by Miss Mildred Furlong, No. 1030; second, table lamp, donated by D. E. Keeley, and won by Clarence Morris, Timmins, No. 1031; third, floor lamp, donated by P. E. Cooper, won by Mr. A. Pion, Englehart, No. 986; fourth, electric clock, donated by a parishioner and won by A. Furlong, Timmins, No. 1024; fifth, ash stand, donated by A. McKenzie and won by A. Sabastein, Timmins, No. 17; sixth, electric toaster, donated by J. J. Murphy, won by W. R. Shields, Timmins, No. 1006; eighth, knives and forks donated by Mrs. M. Furlong, won by Mr. J. Gauthier, Timmins, No. 24; ninth, five-dollar gold piece donated by Mrs. J. McGuire and won by Miss Pat Laforest, South Porcupine, No. 508; tenth, electric iron, donated by Mrs. T. Clarke, won by Jimmy Smith, No. 840; eleventh, \$2.50 goldpiece, donated by Martin Hassett and won by Miss Mary McKenzie, Ninette, Manitoba, No. 875; twelfth, electric table lamp, donated by Mrs. L. Boutet, won by Mrs. J. Smith, No. 820. Other drawings were: Bed jacket, donated by Mrs. L. Boutet, won by Mrs. Gordon Byers, No. 149; cushion, donated by Mrs. Steve Herstek, won by Mrs. C. R. Shirley (no number stated); cushion donated by Mesdames O'Donnell, O'Leary and Scullion, won by Mrs. Peter Sherbin, No. 27; Shirley Temple apron, donated by Mrs. Alphonse Fournier, won by Mrs. E. Monaghan, No. 106; rubber plant, donated by Mrs. W. Mansfield, won by manager of Commodore restaurant, Timmins, No. 243; permanent wave, donated by Mrs. Brennan, won by Mr. C. R. Smith, Gold Range hotel, No. 27; electric coffee percolator, donated by Schumacher Hardware, won by Mrs. J. Angrignon, No. 7; quilt, donated by Mrs. F. Furlong, won by Father Gabriel, Timmins, No. 82; fruit cake, made by Mrs. Eddie Smith, won by Mr. J. MacDonald (exact weight 12½ lbs.); roaster, donated by Mr. C. Fournier, won by Mr. Pluffe, No. 156; door prize, donated by the Consumers' Co-operative store, Schumacher, won by Mrs. E. Laundreville, No. 551. The ladies are very grateful to the people who helped to make the bazaar such a success, and especially to the Feldman Company for the clothing for the fashion show. Anyone seeing his or her name among the prize winners who has not received the prize will kindly call at the home of Miss N. Dillon, 127 First avenue, Schumacher.

Mrs. M. Howard, of Cochrane, is visiting her parents, Mr. and Mrs. W. Olsen.

Mrs. P. McGarry and sons, Gordon and George, spent the week-end in Cobalt.

Mrs. Mahon, of Cobalt, visited Mrs. M. Malone last week.

Born—Tuesday, May 19th, at St. Mary's hospital, to Mr. and Mrs. Harry Nempchin—a son.

Mrs. George A. Jenkins, who has spent the past three months in England, arrived home last week.

George Henderson left Friday for Toronto for a few days' visit.

Kenneth Cameron, who has been visiting his brothers and grandmother in Cornwall for some time, arrived home Saturday.

On Thursday night at the Men's Association, when the men entertained the ladies, and at the same time made a presentation to some of their members, Mr. and Mrs. M. Docking, of Gold Centre, who are shortly leaving to take up residence in England. Since coming to town both Mr. and Mrs. Docking have been valuable members to Trinity Church and the choir. A programme was arranged for the evening, including:

a guitar solo by Mr. Campsall; a reading by Mr. Lainsbury; violin solo by Mr. Brown; a duet by Mr. C. Roberts and Mr. Taylor. Rev. M. Tait addressed the gathering. Mr. Jenkins gave a piano solo; there was a duet by Mrs. Melvin and Mrs. O. Carveth; Mr. Campsall again delighted the audience with a guitar solo. Other items were:

A vocal solo by Mrs. Jenkins; a mixed quartette, comprised of Mrs. Carveth, Mrs. Melvin, Mr. Melvin and Mr. Brown. Before singing Auld Lang Syne Mr. and Mrs. Docking were presented with an arm chair by Rev. M. Tait. In replying they said that while they were going to leave Schumacher and the friends they made here, they will always be remembered as happy years.

Mr. P. A. Boyce acted as chairman for the evening.

Miss Margaret Michaud, spent the week-end visiting in Sturgeon Falls.

Born—Friday, May 22nd, 1936, to Mr. and Mrs. Joe Verc, 10½ First avenue—a son.

Miss L. Small spent the Empire Day holiday in Kirkland Lake.

Norman Heggart, of Noranda, spent the week-end with relatives in town.

Miss Jean Connell, of Saskatoon, but now a teacher on exchange in the Moneta school, gave the pupils of the Schumacher public school a very interesting address on Friday, about Empire Day. After four Miss Connell was entertained to a tea in the teachers' residence.

Miss Doris White spent the week-end visiting in Kirkland Lake.

Mrs. S. McKetchen, who has been visiting her daughter, Mrs. McGloshen, left Monday for her home in Montclair.

Mr. R. W. Woods, of Swastika, visited at the home of Mr. and Mrs. A. Glazier Sunday.

Miss Jean Philbin, of South Porcupine, is visiting her aunt, Mrs. R. E. Eley.

On Sunday evening the congregation of Trinity United Church had the pleasure of hearing Rev. George A. Williams, of the Missionary Maintenance fund, of Toronto. Rev. Williams was for years a missionary in Pormosa, and his service on Sunday was very impressive.

Mr. M. Sherk, of New Liskard, but who has been at the Parnour, visited at the home of his son over the week-end.

Miss A. Coleman spent the holiday visiting at Porquis Junction.

Mr. N. McCartney had his leg injured on Monday while at his work at the Conium Mine, and is a patient in St. Mary's hospital.

Financial Post:—If some way could now be found to make the public realize just how much government taxation is wrapped up in every purchase made every day, we might be on our way to the great public tax revolt that must apparently come before governments endeavour to economize on a large scale.

Blairmore Enterprise:—A young lady, who had never seen a game of baseball, attended one with her escort. "Isn't that pitcher grand?" she said. "He hits their bats, no matter how they hold them."

New Idea Proposed in Health Teaching

Health League of Canada Asks Revision of Text Books from the Standpoint of Health.

Health education should not be regarded as a separate subject on public school curricula, confined to particular study periods, but should permeate every phase of education so that the growing child will learn to regard the rules of health as an integral part of all living, it is urged in a memorandum being mailed out to-day by the Health League of Canada to ministers of health and of education of the nine provinces and to the public health section of the Ontario Educational Association.

The stories of Pasteur and Lister, and other romances of preventive medicine, might well be included in public school readers, the memorandum suggests, so that pupils would unconsciously develop an appreciation of the scientific protection against disease which research has made available to them.

Geography should not only teach the exports and imports and chief rivers of foreign countries, but might also discuss the well-being of the various peoples of the world in relation to community health, so that there would unconsciously be developed an appreciation of the value of sanitation and healthy living, the Health League proposes.

Arithmetic Problems

In arithmetic text-books, perhaps problems about the amount of work done by a farmer's six sons and the sizes of the pieces of pie eaten by his four daughters, might occasionally give place to problems involving authentic public health statistics, the memorandum says, so that children would unconsciously absorb the conviction that scientific preventive medicine really does reduce death rates and prolong human life.

Above all, young children require protection against the widely published claims of quack practitioners and dangerous patented nostrums, the Health League contends.

Powers of discrimination cannot be taught, but they can be developed by indirect means, and should be developed as an inherent part of education, so that citizens of the future will be equipped to reject the spurious representations of purported cure-alls which meet the eye on all sides, the memorandum contends.

Full credit is given for efforts made to teach hygiene in Canadian public schools, but the Health League cites its own experience in health educational work in arguing that health education absorbed in childhood will provide the best possible foundation for enlightened public support of adequate public health measures in future. The memorandum urges careful study of the possibility of gradually developing the means to carry on health education by "permeation" of other school subjects as well as by the usual direct methods.

Maine University Man Produces Real Unicorn

(Edmonton Journal)

The business of debunking ancient legends has received a severe setback. An American scientist has produced a real, live unicorn. To be sure it belongs to the bovine family, but it's a unicorn none the less.

Dr. W. Franklin Dove of the University of Maine is the man who has achieved the distinction of making only one horn grow where two grew before. According to an article in the Scientific Monthly he "manipulated" the horns of a day-old Ayshire bull calf with somewhat astonishing results.

What he really did was to make the usual two branching horns grow together into a single large central one. He cut the horn buds and their connected tissues, provided them with strength facing edges, and forced edges and tissues together. All grew together into a large central mass. Now, after two and a half years, the bull struts—and well he might, for is he not a unicorn?

Dr. Dove, it should be recorded, set out to prove that horns grow not from but upon the skull out of special tissues, and that these tissues may be transplanted to other parts of the head provided the blood supply is maintained.

He has done that. But he's done more. He has made it possible for the lion and the unicorn to have fought "all around the town." And if there could have been a unicorn, why not a dragon for a Saint George to slay or a Pegasus to carry a Bellerophon in a vain attempt to scale heaven's heights?
