Charlie Hall—Manager

ounces; salol, 3 ounces; petrolatum, 4 ounces. The purpose of the castor oil in mixtures 1, 2 and 3 is to prevent injury to the skin by the essential ingredients.

Another popular remedy of prevention is made by mixing together 1 ounce oil of citronella; 1 ounce spirits of camphor, and 1/2 ounce oil of cedar. Still another formula is oil of cassia, 1 ounce; camphorated oil, 2 ounces; vaseline, 3 ounces. Another useful preparation is made as follows: melt together over a gentle fire, vaseline, 1 ounce; beeswax, 1 ounce and medium hard paraffin, 1 ounce. Cool until the mixture is just fluid, then stir in 1 gram, or one-quarter teaspoonful of oil of cassia and 2 grams, or a half-teaspoonful of oil of citronella.

Among the remedies for relieving mosquito bites, household ammonia, tincture of iodine, brated vaseline, glycerin and alcohol are widely used. In many cases, irritation passes away when ordinary toilet soap is moistened and gently rubbed over the puncture.

Exploration Planned at the Jubilee Long Lac Mine

Officials of Jubilee Long Lac Gold Mines, Ltd., announce that financial arrangements have been completed whereby an extensive exploration campaign will be conducted at the company's property adjoining Roche Long Lac in the Little Long Lac gold area. A crew of men will be sent to the property immediately and intensive surface work will be carried out preliminary to a program of diamond drilling to test conditions at depth.

It is stated that stripping and trenching of the known surface veins will be carried out in addition to prospecting for other ore occurrences.

Kincardine Review:—There's many a happily married man on earth whose proposal didn't sound half as sentimental as a Hollywoodite's petition for divorce.

Bankers hold Annual Golf Match at Falls

Gordon Hendrie of Noranda Takes Home Anderson Trophy in Nine Hole Competition.

Twelve managers of banks in the North took part in the annual bankers golf tournament at Iroquois Falls this week and for the Anderson Cup, Gordon Hendrie, manager of the Royal Bank at Noranda took the trophy back to the Quebec copper town after he shot 40 for nine holes. R. Anderson, manager of the Imperial Bank at Cochrane won the second flight.

Fine weather prevailed for the match and in the meeting that followed D. B. White, manager of the Bank of Montreal, Timmins, was elected president, with C. L. Grisdale, manager of the Imperial Bank, Kirkland Lake, vice-president and F. A. Burt, manager of the Dominion Bank, Timmins, secretary-treasurer.

In addition to those mentioned, the following branch managers took part: H. C. Scarth, Imperial Bank, Timmins; H. Manroe, Bank of Commerce, Timmins; C. S. Butler, Bank of Commerce, Schumacher; L. R. Anderson, Imperial Bank, Cochrane; T. L. Golden, Bank of Commerce, Noranda; Mr. Royds, inspection department of the Imperial Bank; Mr. Kelly, Royal Bank, Iroquois Falls.

The tournament will be held again at Iroquois Falls next year.

Drop Thursday Football Fixture for Dominion Cup

There will be no soccer game in the camp on Thursday night of this week, since McIntyre and Dome are playing the Dominion Cup series on Tuesday and Saturday at McIntyre park. Following that series a new schedule will be drawn up.

Mine Cricket Team Wins from Town in Long Match

The Mine's cricket team took a good win from Town yesterday when the two met at the ball park. Another match will be played next Sunday afternoon.

The cricket matches begin at two o'clock and last until 4 or 4.30. They are attracting more attention since moving to the ball park.

PLANNING ON BUILDING?

Consider Cement Blocks!

Before building let us show you the advantages of cement block construction. Phone 27 and Dalton's Taxi will drive you down to the plant and back without charge. You will have the opportunity of inspecting and testing this fireproof, weatherproof building material. See it made and see it in use in our own buildings.

20% Cheaper than other materials

While cement blocks make a finer more substantial job, it actually costs 20 per cent less than any other form of construction. Let us prove it to you by giving you an estimate on your job.

Picton Times:—The cold snap nipped everything but the mosquitoes, which are perfectly capable of doing their own nipping.

Windsor Star:—Adopting an Amherstburg suggestion, the Ontario department of education will permit secondary schools to teach automobile driving. We may yet get around to special classes in how to keep up the payments.

Fergus News-Record: Toronto papers note that there wasn't a single fatality in the city during the holiday. Those who drove over the highways on Sunday and Monday know the reason—there wasn't a car left in the city.

The Household by Lydia LeBaron Walker

DARK RICH-TONED GLOSSY TABLE LINENS AND GAY TABLEWARE A NEW IDEA.

The tableware is set off to advantage by the rich hue of the tablecloth.

Rich colours in table linens are a noteworthy item in dining-room table decorative features. While the colours are deep, as well as full-toned and rich, they do not make the setting for brilliant semi-porcelain, pottery, stoneware, etc.

The colours that lend themselves admirably for napery are Burgundy red, plum colour, Chinese reds, blues and yellows, deep pumpkin, green the shade of dark grape leaves, rich russet, ritz blue, violet and deep orchid and lilac. Whatever hue is chosen it must be deep, and form the wanted harmony with the tableware. Any preferred colours may be used that conform to these requirements.

The striking novelty in this type of decoration is the combination of colours dark and gay, the first being in the napery, the second in the ware. It would be difficult to find a more pleasing table treatment for summer homes in contemporary architecture. for sun parlour or verandah dining rooms of homes in more classic styles of architecture, for summer bungalows, country and seaside cottages. The brilliance of the pottery may be monochrome, which is the most striking, or peasant pottery of elaborate design and many colours. The contrast of plain tablecloth and napkins and such table

services is very striking, and touches a note of artistry of a sort not hitherto stressed in just this way.

Colours
The colours that lend themselves admirably for napery are Burgundy red, plum colour, Chinese reds, blues and yellows, deep pumpkin, green the shade of dark grape leaves, rich russet, ritz blue, violet and deep orchid and lilac. Whatever hue is chosen it must be deep, and form the wanted harmony with the tableware. Any preferred colours may be used that conform to these requirements.

Description of Napery
A glossy surface is noticeable in the napery which may be damask, mercerized linen or cotton, artificial silk, etc., or even mercerized sateen. Table cloths and napkins can be all of one colour, and hemmed or fringed, or bordered with a contrasting colour, preferably one matching the colour of the tableware. While this sort of table linen is

Sudbury Star:—We like the one we read the other day about the night club which had installed a midget fan dancer for the benefit of patrons under the table!

Some Good Recipes for Mosquito Dope

Department of Agriculture at Ottawa Gives Suggestions for Fooling the "Skeeter."

To workers in the open during the summer months and to campers in the woods, to fishermen, and to picnickers, existence is made uncomfortable by mosquitoes, blackflies, midges, sandflies and punkies ("bite-um-no-see-ums"), deer-flies, moose-flies, or dog-flies, and horse-flies or "bulldogs." Blackies and mosquitoes are the most numerous and annoying.

With regard to personal protection, various essential oils applied to the skin are of great value in warding off attack. None of the protective mixtures as yet evolved are absolutely effective, but several are of great value, especially when the insects are very numerous.

The majority of the patent protective mixtures obtained at drug stores are effective but are usually rather expensive. Equally good ones can be made by the individual at lower cost, and the amount of the ingredients may be varied to suit individual requirement, according to the sensitiveness of the skin. The following recipes, and many other methods of making mosquito "dope" are taken from the bulletin of the Dominion Department of Agriculture on methods of protection from pests of the forest. The bulletin may be obtained free from the Publicity and Extension Branch, Ottawa:

No. 1 recipe—Oil of citronella, 3 ozs.; spirits of camphor, 1 ounce; oil of tar, 1 ounce; oil of pennyroyal, 1/2 ounce, and castor oil, 4 to 6 ounces, depending on the sensitiveness of the skin.

No. 2 recipe—Oil of citronella, 2 ozs.; castor oil, 2 ounces; oil of pennyroyal, 1/2 ounce.

No. 3 recipe—Oil of tar, 2 ounces; castor oil, 2 ounces; oil of pennyroyal, 1/2 ounce.

No. 4 recipe—Gum camphor, 3
