

## TWO NEW SCHOOLS PLANNED FOR TIMMINS

### Timmins to Entertain Party of Legislators

Members of Ontario Parliament to Visit Timmins About June 18th. According to Letter Before Council Meeting. Council May Amend Traffic Laws. Council Wants Work on DeSantis Road. Mayor Against Gambling Shows from Out-of-town. Other Council Matters.

When a party of members of the Ontario legislature visit Timmins about June 18th, the town council will cooperate in showing them the North as it really is, it was learned at yesterday's council meeting.

A letter from W. G. Nixon, M.L.S. for Temiskaming south, told of the impending visit. He asked that the town arrange some sort of public function at which the members could meet citizens of the town. They will be here for a full afternoon and evening, according to present plans, Mr. Nixon said. He had got in touch with John Rowlandson, local member of the Legislature, who will also co-operate when his fellow members arrive. Further details will be arranged at a special meeting of the council this afternoon at 4.30.

#### Will Amend Traffic Laws

Amendments to the traffic by-laws of the town will also be considered at today's meeting, when William Stewart will be present to go into more detail on some ideas he presented before the council yesterday. Mr. Stewart referred in particular to the case of a truck driver brought to court on Tuesday and charged with obstructing traffic on Vimy road near the intersection of Wilson. The truck, unloading where some building had been going on, blocked three-quarters of the road, police said. Mr. Stewart claimed that some special consideration should be given in cases of construction where there was no access from the rear. He produced sketches showing exactly what had happened, since he happened to be working on the job at the time.

"We're figuring on amending the by-law sometime," said the mayor, "and we'll be glad to have any people present with ideas for improving conditions."

Councillor Caron asked that the meeting be held this week, so it was decided to have it on the following day.

#### Ask Work on Road

The Timmins-De Santis road has (Continued on Page Eight)

### Five Months for Theft of Gold

Jury at Cochrane Recommended Clemency. Other Cases at General Sessions.

Although finding Joseph Wilfred Boileau of Timmins guilty of the theft of \$357 worth of gold concentrates from the Hollinger mill, a jury at Cochrane strongly recommended clemency in the case, heard at the general session of the peace this week. Judge Caron committed him to Haileybury jail for a term of five months.

Crown Attorney S. A. Caldbick appeared for the prosecution and produced evidence to show that Boileau had been found walking off the Hollinger property with little bags of concentrate tied about his person, Dean Kester, defence counsel, brought out evidence to show that Boileau had been employed at the mine for the past 17 years, and suffered from tuberculosis and silicosis. He has a wife and four children.

Andrew Markulin and Joe Bavik, charged with assaulting Robert Rubie at Schumacher some months ago, asked speedy trial before Judge Caron alone. This trial will likely be at Cochrane on June 26th, although no date has yet been definitely set.

William Catherwood of Cochrane, charged with assault, was found not guilty by the jury.

Five charges of breaking and entering, laid against Hilliard Greer, of South Porcupine, were adjourned to the fall sessions, since Greer is in hospital just now suffering from appendicitis.

Canadian "Health and Beauty League" Girls Off For England

A group of Canada's loveliest young women are shown aboard the Britannia as they sailed for London. They are members of the Women's League of Health and Beauty, a new idea in Canada and the British Isles. The girls are going to the British capital to participate in a huge demonstration in Olympia, London, this month.

### Relief Problems Again Before the Town Council

Two "Unemployed Associations" have Representatives at Council Meeting. Mayor Advises Men to do More "Rustling for Work." Consulting Engineer Offers Services in Town's Proposed Paving Programme.

It took the town council a solid hour to hear all the people who brought complaints of one kind and another to them yesterday afternoon.

Two "unemployed associations" had delegates present. Both complained bitterly of the treatment received and both were promised that their cases would be examined at length.

The first man started off by asking a lot of questions.

"How is the hiring done for town work?" was his first query.

"We furnish a list to the government employment office of those on relief and those most deserving of work," Mayor Bartleman told him. "We have to do this to protect our own people who might not get jobs while someone who just came in from out of town might be taken on."

"How many days work do they get each time?"

"That depends on how much work we have to do."

"How come there is so much discrimination at the employment office?"

No Discrimination Shown

"So far as I know there is absolutely no discrimination," the mayor replied. "You people have brought this up before and every time we've gone into it we've found that the complaints have no foundation in fact."

The delegate claimed that a man by the name of Godin had only been working for a day and a half when he was laid off. I. E. Dunn, relief officer, was called to take notes of any names the man might mention. He recalled to the mayor the Georin case, in which the man was involved in an assault case and when the relief committee made an investigation, they decided to drop him from the relief roll.

The delegate then mentioned a man named Lebrun who had been on relief (Continued on Page Four)

### Department Exams. to Begin To-morrow

All Will be Over This Year on June 26th, when the School Term Officially Closes.

Those days for which teachers and students in Timmins public, separate and high schools have been preparing since last fall are at hand. Ontario Department of Education examinations begin to-morrow (Friday) at the Middle School, and will continue through until June 26th, on which day the school term officially concludes.

For those who did not pass on their year's work, examinations in Middle School are from to-morrow until the following Friday, June 19th. There are no recommendations in Upper School but writing of those papers will be continued until Friday, June 26th.

Lower School examinations commence on Thursday, June 18th and are finished on June 26th.

For the French-speaking Entrance examination students, the finals begin at noon on June 19th. English-speaking Entrance students start writing on Wednesday, June 24th. Between 60 and 70 per cent of Entrance students in Timmins are admitted to high school on their teacher's recommendation. These recommendations will be announced, it is expected, about Monday, June 15th.

### Many from Timmins Sail for Old Lands

Special Coach To-day Takes Passengers for Great Britain and the Continent.

A special coach was attached to the noon train to-day, bound through to Montreal and Quebec, from which ports a number of Timmins people will sail for Great Britain and the continent to-morrow. The passengers will be accompanied by W. T. Pugsley, travelling passenger agent for the Canadian Pacific steamships.

The following are included in the party: A. J. Tapper, who sails from Quebec aboard the Empress of Britain, bound for a holiday in England.

J. Razman, J. Skuly, George Sterk, and J. Gregoric, sail on the Empress of Britain and will spend a holiday in Jugo-Slavia.

Hubert Thomas sails from Montreal aboard the Alouina for a holiday in Cornwall, England.

Mrs. Robert Roy and family sail in the Letitia from Montreal to take up residence in Scotland.

Mrs. Alex Welsh and children, Mrs. James Johnston and children and Mrs. James McConnell and child sail in the Letitia for a holiday at their homes in Scotland.

Mrs. H. Backhouse and daughter sail in the Letitia for a holiday at her home in England.

### Mrs. Spinks Injured When Cars Collided

Accident on Tuesday Afternoon. Mrs. Spinks Reported This Morning as Recovering.

When the car in which she was riding with her husband collided with another car, driven by William Williamson of 21 Fourth avenue, Mrs. Wm. Spinks, of 75 Way avenue, was seriously injured. She was rushed by ambulance to St. Mary's hospital where it was found she suffered a broken pelvic bone. The accident occurred on Tuesday afternoon about 1.25 p.m. Mrs. Spinks was reported this morning as having passed a good night and is expected now to make a good recovery.

The collision happened at the middle of the intersection of Rae and Kirby. The Spinks car was turned completely over by the force of the impact. Neither of the other two persons involved was seriously hurt. No charges were laid.

### Plan New Separate School Here

Board Will Spend More than \$40,000 on Eight-Roomed Building for Moneta Section.

Plans are now being made. The Advance learned this week, for the building of a new separate school in the southern section of the town, to cost between \$40,000 and \$50,000. P. J. O'Gorman, of Sudbury, has been selected to prepare plans. A number of types of wall construction are under consideration but no final decision has yet been made. Eight rooms are planned. Land purchased by the separate school board for the new building and playground includes that between Balsam and Cedar streets at the corner of Ogden avenue.

### Thirteen Charges from Half-Holiday

Local Storekeepers to Face Court for Alleged Breach of By-law.

Thirteen local storekeepers will face charges in Tuesday's police court for selling groceries on Wednesday afternoon, it was learned this morning. Local police made a check-up yesterday afternoon and found many infractions of the Wednesday closing by-law. Most of them are stores off the main streets but several of them are shops that do large business, it is understood. Complaints have recently been made to the council in this regard, and the police have checked up on the matter.

Many warnings have been issued to the grocery trade in particular but many have insisted on breaking the by-law. The present check-up will continue until the by-law is rigidly enforced, it is understood. Those who do close on Wednesday afternoons have recently made complaints to the police.

It is likely, The Advance understands, that tailor shops will be the next to come under surveillance. Police suspect that in more than one shop in town, measuring and fitting is being done on the half-holiday.

### New Public School to be Modern and Convenient

Local Architect Authorized to Proceed with Plans for New School Building in Northern Part of Town. Twelve-Roomed School that may be Enlarged. Some of the Special Features of Proposed New Building.

### Cyclist Not Badly Hurt in Serious Crash

Allan Tario Escapes Any Serious Injury when Motorcycle and Car Collide.

When a car, driven by Mike Rechoskie of Timmins collided with a motorbike, ridden by Allan Tario of Schumacher yesterday about 6 p.m., Tario was thrown to the road and injured and both machines were damaged.

Tario, who is about 23 years of age, lives near the corner in Schumacher where the road turns in the direction of Timmins. He had ridden his motorcycle from the rear of the house out into the road. Rechoskie, who was on his way to work at the Pamour mine, saw the other machine and swung over the wrong side of the road. It was at first feared that Tario was seriously injured but it was later found that he had only suffered cuts on his face and body bruises.

### Dancing Recital by Miss Easton's Pupils

Everything Ready for Notable Event This Evening and To-morrow Night and Saturday Matinee.

Preparations are now fully perfected for the dancing recital and children's dress ball by the pupils of Miss Margaret Easton. The event is to be given in the Masonic hall this (Thursday) evening and to-morrow (Friday) evening and Saturday afternoon matinee. The programme as published in Monday's Advance is a notable one. There will be sixty graceful and cleverly-trained children on the programme. It is an event certainly NOT to be missed.

### Scout Field Secretary Guest at Banquet Here

Dinner in Honour of Field Secretary Paddon of Provincial Scout Headquarters on Tuesday Evening at the Green Apple Pie. Field Secretary Sketches History of Scouting. Other Speakers. First Scouting in Timmins in 1917

### Suit Against Town at Cochrane To-day

George Nippers Asks \$500 for Injury in Fall on Sidewalk Last January.

The case of George Nippers, who has a suit against the town of Timmins for \$500, is on at Cochrane to-day. Mr. Nippers alleges that due to negligence on the part of the town, he slipped and fell on a sidewalk on Cedar street between Fourth and Fifth last January, when his arm was broken.

Town Engineer J. D. MacLean and other officials are in the district town to-day on the case. Dean Kester is counsel for Mr. Nippers.

### Appointments Made to the High and Vocational Staff

Appointments to the staff of the Timmins High and Vocational school, made this week, include that of D. W. Carriere, graduate of the local school, who will teach English and History to the boys of the vocational school. He attended the Ontario College of Education at Toronto this year after having graduated from Queen's University. He has been highly recommended by the college.

W. A. Fisher, specialist in English and history, has been engaged for the high school. During the past two years he has been teaching at Prescott where he has also been leader of the school orchestra. Previous to that time he taught at Fort Frances.

Miss Ena Boon will take charge of the household science department in the fall. During the past two years she has been teaching at the Forest Hill village school, and previous to that at Sudbury.

Both the latter have been highly recommended by inspectors.

Timmins' new public school, to be built either this year or next in the north-western section of the town, will strike a new note in school design here. Not only will it be a striking looking building, but it will provide the best of accommodation for the students, may have six rooms added to the twelve planned at little extra cost, may be transformed into an intermediate school easily, and will provide a real centre for community activities.

At a special meeting of the public school board on Monday night, D. R. Franklin, local architect, was authorized to go ahead with plans, after he had shown a preliminary sketch of the proposed building.

With all its style in modern design, and with all the advantages of economical upkeep, the place will cost no more than the ordinary school building, Mr. Franklin told The Advance yesterday.

#### Excavation Costs Cut

One of the principal features of the new building will be the comparatively small amount of excavation necessary for the place. Large playrooms at each end, 35 feet by 70 feet, will be entirely above ground and will require no basement under them. These may be used for almost any purpose, will have a 16-foot ceiling, so it will be possible to play basketball in them. They will have a portable stage and seating accommodation in each for about 500 people. In this manner, the playrooms usually located in the basement, have 40 per cent. additional room at the same cost. They also provide two "wings" to the building over each of which may be erected when required three classrooms.

The exterior is to be of a grey shade and concrete material moulded in blocks, having an insulating value equal to two inches of cork. Inside that wall is brick tile.

Pupils entering the school in the morning go directly in side doors to each of the two playrooms, one for girls and the other for boys. Until a few minutes before nine o'clock, the doors leading from the playrooms to the school proper will be kept closed. Two exits lead from these big rooms, one directly into the main corridor and the other to the north end of a branch (Continued on Page Eight)

### Cody-Porcupine Group Claims to be Developed

Engineers Now at the Property Making Examination and Survey with the Purpose of Outlining an Extensive Development Campaign. Results So Far Justify Early Start on Development.

Recently the township of Cody has come in for special attention in the general expansion in mining development in the Porcupine area. For years it has been known that Cody township has rich promise as a gold area. On Saturday last officials of the Cody-Porcupine Gold Mining Syndicate, with their engineers, left for the property, the plan being to outline a programme of development for the immediate future. Work already done on the claims fully justify more extended development and the present examination and survey of the property follows after the favourable results from exploration of the property. Information from the engineers on the claims after examining the exposures there fully warrant steps for an extended development campaign. There are 41 claims in the group held by the Cody-Porcupine Gold Mining Syndicate, and these claims not only are favourably located but have also been proven to have the right geological formation. The Advance is informed that work on extended scale on the Cody-Porcupine property will be started at once and operations in the line of further exploration and development carried on this summer on a comparatively large scale. The work in Cody township is confidently expected to confirm Cody as an important sector of the Porcupine gold line.

### Stores to Close All Day Here June 23rd

The King's Birthday, June 23rd, is to be generally observed in Timmins and Tisdale this year. The birthday of His Majesty Edward VIII is June 23rd. The day has been proclaimed a statutory holiday throughout Canada. Mayor Bartleman has issued a proclamation calling attention to the holiday and asking all good citizens of Timmins to duly observe the day. The stores will all close on June 23rd, all day, but will remain open on the Wednesday afternoon that week.

Tuesday, June 23rd, is the day of the big street carnival and sports day under the auspices of the Schumacher Lions, so there will be a real happy holiday for the public of the district with interest, entertainment and happiness crowding every minute of the big day.

### Notable Meeting of Eastern Star Here

Visitors from Many Lodges of the North to Greet Worthy Grand Matron and Other Officers.

The regular meeting of Arbutus Chapter No. 123, Order of the Eastern Star, held in the Masonic hall on Tuesday evening, June 9th, was one of the most delightful occasions in the history of the chapter. With Worthy Matron Mrs. Jean White presiding, the chapter had the honour of welcoming Mrs. Esther Wilkes, of London, Worthy Grand Matron, who was accompanied on her trip through the North by Mrs. May Jackson, Toronto, Grand Organist; Mrs. W. K. Eastman, Ottawa, Grand Trustee.

The meeting was one of the largest gatherings of out-of-town visitors it has ever been the pleasure of Arbutus Chapter to entertain. Mrs. Lily Spence, D.D.G.M., of Iroquois Falls, Mrs. Fingland, Worthy Matron, Cochrane, Mrs. Mitchell, Worthy Matron, Kirkland Lake, were accompanied by quite a large number of the officers and members of their respective chapters. Miss Ruby McCarthy, Worthy Matron, and Mr. John Mason, Worthy Patron, of South Porcupine, were also among the visitors.

Fifteen Presiding and Past Matrons and four Presiding and Past Patrons, were present.

The evening was concluded with a most enjoyable luncheon, during which a programme, including solos and community singing was enjoyed. The soloists were Mrs. Gurnell, Miss Cotcher, Mrs. McGhie, accompanied at the piano by Mrs. Richardson and Mrs. Phelps.

While visiting in town the Grand Officers were the guests of Mr. and Mrs. W. H. Pritchard.

Wednesday morning was spent on a visit to the Hollinger Mine, which interested the visiting ladies very greatly. They were then entertained at luncheon by Mr. and Mrs. W. W. White.

They left at 1.30 yesterday en route to New Liskeard.
