Cooking for the Lads and Lasses at School

Some Helpful Hints by an Expert in Culinary Art.

The children are back to school again and mothers are forcibly reminded that vacation must be forgotten and thoughts concentrated on a definite programme for the school year.

Breakfast, the starting-out-of-the-day meal, must be no-rushing and filling. It's a long time until lunch. Mid-morning fatigue results from too hasty or too scanty breakfasting.

Lunch, when served at home, should be hot but not too heavy. It can be a simple meal, and need we add, should be ready on time.

cereal again comes into its own in planning the noon meal, because ready-to-eat cereals have many practical cookery uses and are conveniently at hand on pantry shelves.

If your child carries his lunch, then lunch getting is a different problem and requires even more careful planning.

A New Coiffure Under Your New Hat

A worthy contemporary says change your hair style at least once every seven years. I'm all for changing it at least once a year, or with each succeeding season. In fact, why not a new coiffure for every new hat.

One very fascinating, easy to keep and altogether romantic coiffure calls for three semi-circular rolls placed high and horizontally across the right side of the head—the hatless, or nearly hatless side. The other side may or may not be balanced.
