

PRESENTING

Fall FASHIONS

THE STYLES for fall and winter this year appear to have unusual beauty and appeal. In the following pages will be found information and sketches of new modes and styles as well as reference to materials that are very popular. The announcements by local merchants will also be of special interest to readers. The suggestion is made that after reading the Fashion Section of The Advance a visit be paid to the stores carrying announcements herein. You may be sure of a hearty welcome, courteous attention, and you will see displays of new styles and materials seldom found in a town the size of Timmins.
