

PROVINCIAL POLICE FIND BIG CACHE GOLD

Service the Keynote of Ideals of the Engineers

Members of Council of Registered Professional Engineers Entertained at Badminton Hall, Schumacher, Saturday Evening. Aims of the Association Outlined. Not a Trade Union or a Monopoly, but an Organization to Encourage High Ideals and Service.

Members of the council of the Association of Registered Professional Engineers visited the Porcupine camp last week and were entertained at a banquet in their honour at the Badminton Club hall, Schumacher, on Saturday evening. The event was an outstanding one, about 75 members of the engineering profession being present and the aims and ideals of the association being clearly set forth. Mining engineers from the McIntyre, Hollinger, Dome, Paymaster, Pamour, and other mines of the district were present, as well as civil engineers, mechanical engineers, electrical engineers and chemical engineers.

S. A. Wookey, of the McIntyre, acted as chairman for the evening, introducing the several visitors and giving hearty welcome to all present. The dinner provided for the occasion was one of regular McIntyre quality and McIntyre hospitality was a high light of the evening. The excellent service was one of the features of the dinner.

Visitors Present

After the notable repast had been enjoyed Mr. Wookey gave brief but illuminating introduction to the guests of honour of the occasion—the members of the council of the Association of Registered Professional Engineers making a tour of the North. Humorous references added to the effectiveness of these introductions. The visiting members of the council of the Association of Registered Professional Engineers present were:—

Prof. R. W. Angus, M.E., Toronto, president.
A. D. Campbell, M.E., vice-president.
R. E. Woolsey, Toronto, registrar.
A. Crealock, C.E., Toronto.
J. Clark Keith, Windsor, general manager of Windsor Utilities, a past president of the association, and one of the members appointed by the government to the council of the association.

S. R. Frost, of the North American Cyanamid Co., Toronto.
Alex E. MacRae, Consulting Engineer and Patent Solicitor, Ottawa.
C. C. Carris, chief engineer of the Watrons Co., Brantford, one of the members appointed by the government to the council of the association.

Ed. Sterne, of Sterne & Sons, Brantford, a past president of the association.
W. Patterson, with Sterne & Sons, Brantford.
S. A. Wookey, McIntyre Mine, one of the representatives of the mining branch on the council of the association.

J. Rawlins, International Nickel Co. Wilson Thomson Makes Big Hit with Mining Numbers

Piano music by J. Ormston was one of the special features of the evening, while the big hit of the night in the entertainment line was the presentation by Wilson Thomson of a number of poems of his own. The gathering could not get enough of them, each number being encored and re-encored. He was introduced as the "Miner Poet," and during the evening he gave in his own inimitable way some of the inimitable poems of his own composition, including:—"Mary had a Little Mine," "The Stock Market," "Tale of Twenty-three," "The Mucker," "The Shift Boss."

These Four Fires Not Necessary

Recent Fire Calls Might Have Been Prevented.

Every one of the four fire calls answered by the firemen since Thursday has been for a preventable type of fire. Two chimney fires, one on Thursday afternoon and the other on Friday evening would not have happened if the occupants of these houses had had their chimneys given a good fall cleaning.

There would have been no fire at 78 Elm street south, on Saturday afternoon if occupants had not put apparently dead ashes into hampers in the basement. No matter how well ashes seem to be wetted down, some hot ones seem to remain in the bunch to start trouble. The solution is to use metal containers for all ashes.

Yesterday at 37 Laurier avenue, there was a fire in a stove that had been stored in a shed. What little damage there was came from smoke. It is believed that children playing in the shed were responsible for setting fire to some material in the stove.

Closed Market Needed

Weather on Saturday Impressed on All the Need for Proper Accommodation.

A few hundred Timmins people learned on Saturday how badly the farmers of the district need a good closed market. But they didn't feel the cold as much as the farmers did who had to stand there all through the day.

Business was brisk for a while in the morning, and prices remained at about the same level. Potatoes at two dollars a bag found ready sale. Live chickens went better than at previous markets and brought the same prices, 21 to 24 cents a pound "on the hoof." Cabbage, carrots, parsnips, lettuce and other vegetables were plentiful.

There will be few more market days from now on if the weather remains cold, most of the farmers agreed.

Marlene in London

MARLENE DIETRICH
Arrayed in costume she wears in the part of a Russian countess in her first British film play. Actress Marlene Dietrich pauses for a rest at the film production studio in London.

Moneta Adds to Property

Two Claims on South Border of Timmins Bought from Porcupine United.

Moneta Porcupine mines have added two claims to their property on the south border of Timmins through a deal made with Porcupine United Gold Mines. It was learned this morning. The deal was completed on Saturday and United took Moneta stock in payment. It is understood.

This increases the acreage of Moneta to about 200 acres from the former 120 acres, and is believed to be an important development for Moneta.

Guarding Interests of the Secondary Schools

Teachers Complain Directly to Premier Hepburn Over Autocratic Interference of Dept. of Municipal Affairs. Guests at Banquet Here Learn. Many Guests from a Distance at Event in Masonic Hall, Saturday Night.

Schumacher High School Sports Day Postponed

Schumacher High School sports day, which was to have been held last week, was postponed on account of bad weather. On the first fine day, ordinary school activities will be suspended so the athletes may have their day of sport. The Schumacher High School Sports Day is worth watching for.

Continuation, high and vocational school teachers in many parts of the province have complained directly to Premier Mitchell F. Hepburn about the treatment they are receiving from Ontario's autocratic Department of Municipal Affairs, Northern Ontario teachers learned on Saturday evening from F. H. Henry, secretary of the Ontario Secondary School Teachers' Federation.

The occasion was a banquet at the Masonic hall when 60 teachers from points as distant as Sudbury and North Bay, and including all the towns from there up to Cochrane gathered in annual conference. Mr. Henry, who came here from Toronto to address the meeting, explained in detail just what the Federation is accomplishing. Eighty per cent of all secondary school teachers in Ontario are not members of the organization, the chief purpose of which is to protect the profession from being taken advantage of by municipalities and governments.

Dictates to Boards

The department of municipal affairs has dictated in many towns just what the board of education shall do with schools and their teachers. Mr. Henry said. In one town, they forced the transfer of first year high school work to public school. "We know that the principal intimated he might convey certain information about how school affairs were being managed to the parents of his pupils. The supervisor (from the department at Toronto) told him that if he did, he (the principal) would be without a job next day."

Salaries have been ordered slashed to ridiculous figures in some municipalities. In Windsor the board of education was asked to submit its estimates for the next ten years. Mr. Henry's address had many such instances as these in which the members of the profession are being "squeezed." The Federation is the only organization through which they are able to present their cases to the proper authorities.

Pension Fund is Safe

Recently the teachers' contribution to the government-directed superannuation fund was raised from 2 1/2 per cent. to 3 per cent. of their salaries. "Some teachers evidently fear that this indicates that the fund is unstable, and that when they retire there may be no pension. This, we can assure them, is not the case; there is no cause for any such alarm. The actuary proposed making the maximum pension 50 per cent. of the teacher's salary, instead of 60 per cent. as at present, but this opinion was overruled—principally, we believe, by the influence of the recently-elected member of the Commission, who watches primarily the interests of the lower paid public school women teachers," Mr. Henry told them.

The Federation was considering this year becoming associated with organized labour, and a committee was appointed to consider the proposal. Although it has not yet been definitely decided, it is understood that the committee's findings were against such a move.

On behalf of the Timmins teachers, hosts and hostesses to the visitors, W. (Continued on Page Two)

Gun License Necessary

Unlawful to Carry Any Fire-arm in Bush Without a Permit.

Those who travel the bush these days with a gun and without a hunting license, commonly called a "gun license," are doing so at the risk of losing their firearms. Game Warden Phil Boudreau said this morning as he issued another warning to hunters.

He has already had to seize a dozen or so rifles and shotguns from those who persist in carrying firearms without the necessary authority and he will continue to seize them just as long as people disregard the law. Under no circumstances is it permissible to carry shotguns or rifles in the bush without a permit. These may be obtained at Taylor Hardware, Ideal Hardware, Schumacher Hardware or from Mr. Boudreau.

Duck Hunting Regulations

Those who shoot before sunrise and after sundown may expect to be brought to court for violating the law. The game warden promises a close check on this practice beginning this week.

Duck hunters are finding the best grounds in this vicinity this year at Moose Lake, 15 miles below Coanought. Frederickhouse has been disappointing. The season is just now at its height, after October 15th there will be few birds left in this part of the North.

Rev. Fr. O'Gorman to Speak on Recent Trip

At Regular Meeting of the C. W. L. on Wednesday Evening.

The regular monthly meeting of the Catholic Women's League will be held on Wednesday, Oct. 7th, at 8 p.m., in the parish hall of the Church of the Nativity. After the discussion of fall activities, there will be a travel talk by Rev. Father O'Gorman on his recent trip abroad. The address will be of much interest to all attending.

Good Ore Body Located at the Moneta Porcupine

Diamond Drilling Campaign Discloses Commercial Ore. "There's Lots of Ore There Now, we Know That," Says Walter Segsworth, President and Secretary of the Company.

"There's lots of ore there now, we know that," Walter E. Segsworth, president and secretary of Moneta Porcupine Mines, Limited, told The Advance last week just after another diamond drill began to bite through ore at the company's property in the south-eastern part of Timmins.

Diamond drilling has already disclosed an ore body of commercial ore and this drilling programme will be continued for two or three months at least to determine the best place at which to sink a new shaft. There are two shafts at present on the property but neither of these will be used for underground work, which will probably get under way early next year.

Is Well Financed

With \$270,000 in the treasury, the company is in good financial condition to carry on all the drilling work and get underground work begun. Capitalized at 3,000,000 shares, there have been 2,140,000 issued, leaving a good margin for further finances when they are required.

The ore body recently discovered lies but 600 feet from the line dividing Hollinger from Moneta. Three drill holes all encountered ore at depths varying from 180 to 320 feet, apparently in the same body. It was a region never touched before, since there are no outcroppings. The geology of the area is now becoming more clearly defined and a distinct swing of the orebody to the north, still in Moneta ground, has been disclosed.

Other officers of the company are: L. L. Steindler, New York, vice-president; R. J. Jowsey, R. S. Robertson, J.

D. Conover, directors. The company also controls Straw Lake Gold Mines and holds shares in a number of other mining companies.

Three-Quarters Million New Buildings This Year

Proportion of New Buildings, Additions and Alterations in Residential Section Particularly Noteworthy. New Churches add to the Total for the Building Year in Timmins.

New building done in Timmins this year will come close to three-quarters of a million dollars in value, it was learned to-day from a summary of building permits to date.

Permission was granted at the town engineer's office during the quarter from July 1st to September 30th for \$374,299 worth of construction, a good part of which came from the building of the new St. Anthony's church (\$75,000) and the new Notre Dame de Lourdes church (\$40,000).

Permits in the first half of the year totalled \$261,506.50, and that sum, together with the total for the quarter just completed, and an estimate for the remainder of the year, brings the total of new building for 1936 close to \$750,000. The actual total at September 30 was \$635,85.50. There is to be added to this the new theatre on Cedar street at

\$75,000, and various other projects under consideration now.

Details of the permits for the quarter just ended follow:

Business Section		
	No. of Permits	Amount
New buildings	11	\$146,050
Alterations, etc.	25	64,475
Total	36	\$210,525
Residential Section		
New buildings	73	73,010
Alterations, etc.	134	85,410
Total	207	158,420
Garages and Shed		
New buildings	34	5,094
Alterations, etc.	5	260
Total	39	5,354
Grand totals: Permits, 282; Amount, \$374,299.		

Important Meeting of the Hollinger Social Club

The Hollinger Social Club will hold an important meeting on Wednesday, Oct. 7th, between the hours of 6 and 8 o'clock. Everybody welcome.

Actress Attacked

ALDA DEERY
Alda Deery, 23, attractive brunette vaudeville actress, is in a serious condition in Chicago, the result police say, of a possible criminal attack and fendish beating with a heavy instrument, probably a brick. Regaining consciousness in a hospital Miss Deery is said to have expressed herself as having no recollection of the attack.

Home Nursing Classes Starting on Wednesday

This week the St. John Ambulance Brigade announce that the Home Nursing Classes will commence on Wednesday evening at 7.30 in the Ambulance headquarters at 10 Birch street south. Ladies of 16 and over, who hold their First Aid certificates are those eligible for these classes.

Nurse Brooks, Public Health Nurse, will lecture the classes, which are under the auspices of the St. John Ambulance Brigade.

\$14,000 Gold Found and Man and Wife Arrested

Mr. and Mrs. Mike Klemovich to Face Charge of Having Gold Illegally. Released Saturday Night on \$40,000 Bail After Arrest by Squad of Provincial Police Officers and Chief Hitch of the Hollinger.

When a squad of provincial police descended on the home of Mr. and Mrs. Mike Klemovich, Elm street north, on Saturday evening at nine o'clock, they uncovered one of the largest caches of gold ever found in Timmins. Thirty-seven pounds of almost pure metal were in the house, according to police. The value is set at about \$14,000.

Both Mr. and Mrs. Klemovich were arrested, to be released the same night on \$40,000 bail. They will appear in police court to-morrow morning, charged with illegal possession of gold. An adjournment will be asked by Dean

Kester, attorney for the defence, it was learned this morning.

Those in the raiding party were Chief Hitch of the Hollinger police, and Provincial Constables Peter, of Chatham, Hayes of Kitchener, Johnson and Adair of Toronto. It is understood that the provincial men have been in Timmins for some time past, investigating.

Although the charge against the Klemovich couple is laid by mine officials, Hollinger men would not comment on the case this morning. It is entirely a provincial police matter they said.

Gillies Lake Porcupine Making Good Progress

Rumours Regarding the Mine Denied by Officials. Directors Turned Down Two Recent Offers to Sell the Stock at Double Present Market Quotations. Some Particulars About the Property.

Sixty-four Register at Evening Classes

Attendance at the Classes in English for New Canadians Proving Very Popular.

There are now 64 registered at the classes in English for new Canadians at the Central public school. At present the classes are divided into three groups, Junior, Intermediate and Senior. There are 40 in the Junior class; 18 in the Intermediate, and 6 in the Senior or advanced class.

Classes are being held every night from 7 to 9.30, except Saturday and Sunday. Each grade has its lessons every second night.

The increase in attendance is very gratifying and indicates the special value of the classes. All interested are invited to attend and enrol.

The annual dance of the Schumacher Firemen is to be held on October 28th this year.

Directors of Gillies Lake Porcupine mines have turned down two recent offers to take over the remainder of the treasury stock at a price more than double the present market quotation. Bernard N. Hyman, general manager of the company said to-day in an interview with The Advance.

Mr. Hyman said the company officials had been mystified as to what had caused the recent steady drop in the value of the stock and that they had finally traced it to rumours current in Timmins.

"These rumours are malicious lies," he said. One rumour was to the effect that Gillies Lake was milling tailings from the dump because the mine was out of ore. Another said that the mine was on the verge of re-organization and that wages had not been paid for some time.

Tails From First Operations

"The tails are those from the first milling operations," said Mr. Hyman, "when we were running strictly amalgamation and were never able to make fine recovery since we had no cyanide. We always had it in mind to run these tailings through. When we got our some time."

New \$75,000 Theatre to Be Built Soon in Town

Property on the West Side of Cedar Street has been Purchased by the Houson Theatre Corporation, Owners of About 20 Theatres in Canada. Work on Foundations Start at Once.

Timmins is to have a new \$75,000 theatre within the next few months.

Property on the west side of Cedar street has been purchased by the Houson Theatre Corporation Limited, who own a string of about 20 theatres in Canada. Plans are now under way and will be completed within a short time. Work on the concrete foundation is to begin almost at once. The Advance has learned.

The new theatre will have a frontage of 65 feet and will be 114 feet long. Ground floor, mezzanine and balcony are provided in the plans. Brick, concrete and steel will make construction fireproof, conforming to Ontario theatre regulations.

H. S. Kaplan, Toronto architect, was in Timmins last week and will return before actual construction begins.

There will be a meeting this (Monday) evening of the Timmins Young Set in the White Eagle hall, Sixth avenue, at 8 p.m. All members requested to attend.

Old Entrance to the Golf Club to Close

New Entrance Across the New Hollinger Park to be Only Entrance.

The Kirby avenue entrance to the golf club, in use ever since the club began, is to be closed in the near future, it was learned to-day. The new entrance, across the new Hollinger park by Park road, is to be the only one from now on. The gate at the Kirby street entrance will be replaced by a fence.

Trucks and cars running across the new park, especially from the brewery to the curling rink have already done inestimable damage to the new grounds. Hollinger has spent \$10,000 so far on the park and is prepared to spend a good deal more—if the people of Timmins show that they are willing to help.
