Badminton Opened at the Falls Oct. 1st

Large Number Attended the "Open Night." Other Iroquois Falls News

Iroquois Falls, Ont., Oct. 5th, 1936. Special to The Advance.
The local badminton season opened officially, Thursday evening, October 1st, a large number attending the opening "open night." A highlight of the evening was a mixed doubles game, an unnamed team consisting of a gentleman player dressed in overalls and equipped with a tennis racket and a lady player, clothed in a dress of unknown vintage and armed with ping pong rackets, opposing Miss Alma Wilkes and Bob Armstrong, whom they challenged. The club president, Gordon Allo, was a very striking-looking lady-player in his blue dress, and Doug Lough, the club secretary, looked right at home in his overalls. Lunch was served at the close of the evening.

A Tuxis Boys' group was organized locally Friday evening at a meeting held in the United Church study, attended by 11 boys from Iroquois Falls, Ansonville and Montrock. Officers elected were Chester Harbottle, Pretor; Harold Cross, Deputy-Pretor; Harold Dowe, Scriptor; and Danny Rennie, Comptor. The group will meet in the Sunday school rooms each Friday evening at 7.30.

Mr. and Mrs. C. Bird, Smooth Rock Falls, visited in the Falls with friends over the week-end.

W. M. Ritchie, Schumacher, was a business visitor to the Falls Friday. The Very Rev. A. U. Depencier, Westminster, B.C., Archbishop of British Columbia, is visiting in town the guest of his sister, Mrs. F. K. Ebbitt. Chief of Police Ed Olaveson is spending a week's vacation on a hunting trip, North of the Transcontinental Railway.

Mr. and Mrs. Colin Campbell, for years residents of the Falls, will leave shortly for Gatineau, Quebec, where Mr. Campbell has accepted a position.

Review of Weather During September

Weatherman Advises Getting the Storm Windows Ready. Frosty Nights

Although September had some exceptionally warm days and had less really frosty nights than usual, the average temperature for the 30 days was only slightly higher than in the North's usual first month of fall. Sunshine was below normal—170 hours, or about five and a half hours a day. Fall officially commenced on September 21st when the sun crossed the equator and the days and nights were of the same length—12 hours each. From now until December 21st, daylight will lessen gradually until the school children will have to get up in the dark.

Get Storm Windows Ready
It's time now to turn off any outside water lines, at night at least, get the storm windows shined up and ready to put on, for fall has begun in earnest and the weather for the next few weeks may be expected to be chilly, if not cold.

The month's average or mean temperature was 53½ degrees. Just a shade higher than usual; the average of daily maxima temperatures was 63 degrees, which is just about normal; and the average of daily minima was 44 degrees, a little higher than usual. The highest temperature reached was on the 23rd, when the thermometer went to 85. After noon it began to fall rapidly and in less than 12 hours had gone to 30 degrees—a drop of 55 degrees. The coldest day of the month was the next day when the thermometer failed to climb above 38.

Five Frosty Nights
September's lowest temperature was on the 25th when during the night the mercury fell to 26 degrees. On four other days there was real frost: the 24th at 30 degrees, the 26th at 28 degrees, the 28th at 32 degrees and the 29th at 30 degrees. The warmest night of the month was the 15th, when the temperature did not go below 68 degrees. The maximum that day was 79, making the average for 24 hours 73½ degrees.

The first trace of snow fell on the 24th, early in the morning. Again on the 28th, there was a bit of a flurry. Last year the first snow on the 22nd but on the 30th there was a real storm—four inches.

It rained on 13 September days, bringing a total of 2.40 inches, less than the average amount, and giving the North's second consecutive month of that sort. Heavier rainfall was on the 7th and 8th—Labour Day week-end—when 2.5 inches of rain fell.

The best days of the month for sunshine were the 4th and the 12th when Sol beamed steadily from the time he got up in the morning until he went to bed at night. Sunrise at the end of the month was at 6.00 a.m. and sunset at 5.40. Lighting-up time for vehicles is approximately 6.30 p.m. now
