The whole speech was an attack on the Hepburn administration. Mr. Hepburn had promised new and better roads in the North, and new roads to open up promising mining areas. "The \$5,500 spent north of Kirkland Lake wouldn't even build a lane from the Hepburn farm back to his new Laurier lake."

Mr. Hepburn had promised to spend all the money derived from gasoling taxes and the sale of motor drivers permits on highways, Mr. Rowe said This he has not done and the only real road building that has been done was "to take a portion of the speedways down past some of his Liberal friends." Four and a half miles of this road had cost more than a highway from here to Kirkland Lake, Mr. Rowe said. He told public school supporters and took a story about "Bump" signs, "a thous-
