

## Canon Judd Addresses South Porcupine Ladies

Talks on Social Service and the Ways in Which Women May Play a Helpful and Valuable Part in This Work. Other Items From South Porcupine and the Dome

South Porcupine, Ont., May 19th.—(Special to The Advance)—Mrs. Geo. White, of town, is, we hear, quite sick in Tidale hospital, her condition requiring blood transfusions yesterday. Mrs. Gaillinger, of Lakeview, is recovering from illness, we hear. We are very sorry to note that South Porcupine will soon be losing two of its citizens. Mr. and Mrs. Jack Porter, of Bloor avenue, have been here about ten years, but are leaving for their old home in Manchester, England, at the

**Visit of Dr. Judd**  
The Rev. Canon Judd (Dr. Judd) of Toronto, is in the North studying social service work in connection with his position as the general secretary of the Social Service Council for the Anglican Church throughout Canada. On Monday afternoon he gave an address to a good number of women in the Parish hall. The audience represented the three churches here, and the ladies interested in social welfare in our town. Dr. Fraser and Archdeacon Woodall were both present, also the Rev. Atkinson, of Kapuskasing. Some ladies were also present from Schumacher and Timmins. The speaker gave a most interesting address. He said that this was his first trip north to the mining camp, although he had been in the Peace River district. He wished to "catch something of the atmosphere the very ruggedness of the North creates," and to learn and

not to teach. Social service work is a specific problem, and one that has brought him in touch with the heads of all branches of the Christian Church. He spoke particularly of Father McGrath of the Roman Catholic Church, who has done some wonderful work as post chaplain in Canada and who speaks seventeen languages. Dr. Judd himself has done this work—that of meeting immigrants to Canada, greeting them and getting in touch with the parish priest of the town to which they were going. Dr. Judd spoke of the splendid work the churches had done through the social service bureau in aiding the West during the depression, and of the co-operation of the railroads in this work. He gave statistics concerning food, clothing, etc., that had been supplied. The Sunday School by post was also commented on and the good work it

was doing in those areas where it was a problem to teach the children the Christian religion. He said that the personal touch was needed in social service problems. In looking after the underprivileged and the delinquent, Christian women may find real service if they will. He touched on the social evil, common law marriages, narcotics, and the attendant evils, gambling, etc. and the object of his talk was to show that the women's groups in the churches may, by bringing personal touch, bring also the spiritual element. Dr. Judd gave the same address in Timmins late in the evening to a group of men at a "smoker" in the basement of St. Matthew's Church. The Women's Auxiliary of St. Paul's served tea at the conclusion of Dr. Judd's discourse.

GIFTS OF Traditional Silver for the happy couple

Since the beginning of time silver has been the favoured gift for weddings—and every important occasion. Gleaming silver reflects the good taste of the giver and as a treasured possession, is a lasting reminder of your good wishes.

At Halperin's you'll have no difficulty choosing a lovely piece of hollow-ware or flatware that will quicken the beat of a bridal heart.

## Hollinger Employees Strong for New Plan

(Continued From Page One)

**The First Plan**  
An organization known as the Hollinger Employees' Medical Association will be formed. The only people to belong to this association will be the employees of the Hollinger Mine, with their families and dependants. If you wish to participate in this plan you will be asked to sign a card to that effect giving permission to the management for them to deduct a specified sum each period from your wages. Your families will be registered as well as any dependants solely dependant on you. The monies deducted from your wages will be placed in a special fund to be administered by two committees, one appointed from the employees themselves and the other by the doctors. Both these committees will act together and see that every person gets a square deal. This will be your Association and it is proposed to run it as such. If you wish this plan you and your family are asked to co-operate to make it a success. This then is your side of the picture.

The Doctors of the Porcupine camp will be given a chance to do this work for you and they will be asked to sign an agreement with your Association that they will give you honest service. From this list of Doctors, you are given your choice of Doctors to look after you or your family. They will support a committee to administer this fund with your committee. They will give you medical services in the home or hospital as the case may be, and provide good surgical services under strict supervision. All major operations will receive the benefit of a consultation as well as a qualified assistant. Maternity cases will be looked after in this plan. Your hospital bill will be paid from this fund and the care you get will be carefully supervised by the Doctors' Committee. All X-rays will be taken care of by this fund, in other words a complete medical and surgical service with hospital, X-rays, etc., will be provided for you and your family. To provide these services you will be asked to contribute as follows:—\$2.65 per period for the married man and \$1.75 per period for the single man. This plan provides everything. There will be no Hospital or Doctor bills to pay at any time.

### The Second Plan

The same Organization as in the first will be formed. There will be the same committees to run it for you. The employee, the families and the dependants will be taken care of as in the first plan. To operate this you will sign permission for the management to take off so much money each period for the formation of the fund. In this the amount of money deducted is as follows:—\$2.00 each period for the married man and \$1.00 for the single man. On account of a smaller sum being deducted each period, the employee will be asked to pay part of the services supplied. Here is an outline of these:

Medical Services—These all paid by the fund.

Surgery—For major operations you will pay from \$15 to \$25 depending on the operation performed.

For minor surgery you will pay \$5 to \$10.

For anaesthetics in major operations you will pay \$5.00.

For anaesthetics in minor operations you will pay \$2.50.

Maternity cases—You will be asked to pay for each confinement—\$12.50.

Hospital rates—You will have to pay one-half of the standard rate per day.

This rate will be determined by your committee and the doctors' committee.

X-rays—You will have to pay from 25 per cent. to 50 per cent. of the standard fees for such as approved by the two committees.

Fractures, Specialists, etc.—You will pay one-half of the standard fee for such services as approved by the Committee.

Under this plan the Doctors will provide the same honest service under supervision but on account of a lower fee collected from you each period, you will be asked to pay extra for the services as outlined above.

### Mother Unaware of the Death of Quadruplets

At Montreal on Tuesday of this week four tiny graves received the little bodies of the quadruplets born prematurely to Mrs. Paul Martel, French-Canadian wife of a bakery wagon driver.

The babes—dead within 17 hours after birth Sunday afternoon—were buried while a sorrowing father looked on and pondered how to break the news to a sick wife, believing the children she bore still are alive.

Ill before childbirth though now in hospital "resting comfortably," Mrs. Martel was not considered sufficiently recovered to be told of the deaths.

At the hospital it was said the babies were two months premature and probably would have survived "had they been of normal birth." The quads were a girl and three boys.

## Sponsor Red Cross Nutrition Course

Another Activity of the Timmins I.O.D.E.

The regular meeting for the month of the Timmins Golden Chapter, I. O. D. E. was held on Monday evening in St. John's Ambulance hall, Birch street south.

The Regent, Mrs. L. Traver, in opening the meeting made fitting comment on the recent coronation of Their Majesties and stated that their example of so suddenly and unexpectedly being called upon and accepting the onerous duties of Kingship and Queenship, coupled with their sterling qualities of character ought to be a splendid example to this organization of Imperial Daughters of the Empire and an inspiration and encouragement to them in their work. "Long and happy may Their Majesties reign over us," said the Regent. Mrs. Traver also expressed the hope of the stabilizing effect the Coronation would have within the Empire and the influence for good it might prove on world conditions.

Affirmation to His Majesty King George VI was then made.

The Chapter undertook sponsoring the Red Cross nutrition course of eight lessons which will be given locally in the High School beginning in October.

Mrs. Dorway, convener of the I. O. D. E. Committee for the Blind advised the meeting of the Tag day for the Blind to be held June 12th.

The Chapter had presented the float "Britannia" in the Coronation Day parade and returns from the Coronation dance were very satisfactory and would be used to carry on the Chapter's programme of Educational, Child and Family Welfare and Girl Guide work.

Girl Guide Convener, Mrs. Morin, reported that six Guides had become First Class Guides.

The Chapter expressed special thanks to Marshall-Ecclestone Co. for their kind donation of drivers services and truck for the I. O. D. E. float and also to J. Dalton for permission to use his garage for the decorating of the float which was under the committee convener by Miss Terry, assisted by Mrs. Keane.

Usual business was proceeded with. The report of the provincial convention will be given at the June meeting.

## Driver of Car Committed for Trial at Hamilton

Gordon G. Nichol, driver of the car in which Steve Conick, young Sudbury hockey star, met his death at Hamilton on April 24, was committed at Hamilton on Tuesday by Magistrate McKay for trial on a manslaughter charge.

Granting the motion of John Evans, defence counsel, Magistrate McKay dismissed a charge of criminal negligence against Sam Felker, of Saltfleet, driver of the car which was in collision with Nichol's.

Gerald Lazerte, member of the Conick party, described the reunion of the hockey player with his family, during which some of the party, including Nichol, consumed some beer in a beverage room.

"I don't feel that there is any prospect of a successful prosecution of this charge," admitted Crown Attorney Ballard. "There is so much room for reasonable doubt, no jury would convict."

Sudbury Star:—A fellow in Toronto has been convicted of stealing a circular saw. It is a thing that is hard to conceal unless you try hiding it in an angel food cake.

## RECIPES TO END CONSTIPATION

Every woman can protect her family from common constipation by careful menu planning. Often the cause of illness from constipation is lack of "bulk" in the diet. Kellogg's ALL-BRAN supplies this "bulk" in generous quantity.

You can use ALL-BRAN in so many delightful ways. As a ready-to-eat cereal with milk or cream, fruits or honey added. Or make delicious bran muffins and breads—put it into griddle cakes, salads or soups, or over other cereals.

Just be sure each member of your family gets two tablespoons every day—and forget the illness caused by constipation. Serve three times daily, in severe cases.

You can also forget pills and drugs that nobody likes to take—and that so often fail unless the dose is constantly increased.

Kellogg's ALL-BRAN also supplies vitamin B to help tone the intestines, and iron for the blood. Sold by all grocers. Made and guaranteed by Kellogg in London.
