

# Programme of Dance Recital and Dress Ball

Outline of Numbers to be Given on June 3rd and 4th by the Pupils of Miss Margaret Easton. Annual Event to be Held in the Masonic Hall Thursday and Friday Next Week.

With over sixty clever and well-trained pupils taking part, and an imposing number of genuine little dancing stars, the programme of the dancing recital and children's dress ball to be given by the pupils of Miss Margaret Easton promises to be even more pleasing than the former outstanding successes of this event. The dates this year for the dancing recital and children's dress ball by the pupils of Miss Margaret Easton are Thursday and Friday, June 3rd and 4th, and the event is to be held in the Masonic hall, Tim-

mins. The following is an outline of the programme as planned, with the names of those taking part. This year the costumes are particularly attractive, while special lighting effects have been arranged.

## Council Defers Purchase Machine

(Continued from Page One)

Mr. MacLean, town engineer; that a town controller be appointed; that a bookkeeping machine be purchased; and that a new set of scales be purchased.

Mr. Laporte objected to the appointment of a controller for the town. He said that eventually this might be a good plan but that it should be gone into thoroughly before any definite move is made. Mr. Wren said that the suggestion came from the deputy-minister of municipal affairs and that he was decidedly in favour of such an appointment.

"It would not necessarily be an addition to the costs of administration," said Councillor Wren. "The additional cost for the hiring of the man would be balanced by the amount of money he would be able to save the town."

"A whole lot depends on the man hired," said Councillor DesRoches. "I think the matter should be considered more thoroughly before any decision is made."

It was decided that it might be a good move for the benefit of the town to hire a controller if the proper man could be located. All members were agreeable to carry the matter over to the next meeting.

The next item discussed was the proposed purchase of a bookkeeping machine. Mr. Laporte stated that the immediate purchase of this machine would not cut down the staff this year. He considered it would be a better plan to lay this purchase over until the rest of the equipment is purchased for the new town hall.

Councillor Wren said that complications would likely arise when the machine was first put into operation. He thought it would be a better plan to buy the machine immediately.

"I believe that we should buy it now and start saving right away," said Mayor Bartleman.

"Now is the time to act, not to-morrow or next year," was Councillor Wren's advice.

Mayor Bartleman counselled the council on the alleged "rut" they had got into. He asked that more of these important matters be decided on at the regular meetings instead of having to lay them over to private meetings. This has happened repeatedly at the last few meetings.

A resolution was passed authorizing the purchase of a new set of scales for weighing trucks, etc., at a cost of about \$1,700.

The I.O.O.F. were granted permission to hold a parade to the evening services of the United Church on Sunday, May 30th.

A gentleman met the council complaining of the presence of the pound in his district. Mr. A. Neame, president of the Humane Society, told the council that their lease on the present property will run out on June 11th, and it will be renewed. Mr. Neame said that the society is in a position to erect a pound of their own if the necessary land could be secured. The council promised to

co-operate with Mr. Neame in this regard.

The two service stations, which were recently taken over by the town, have been sold to P. M. Fleming who entered the highest bid on the properties. Accounts totalling \$4,227.58 were read and passed.

There was considerable discussion concerning the making of the proposed swimming pool on the Mattagami river. Some of the councillors have inspected this property and the others will do so in the near future.

It was decided to have the medical health officer report on the condition of the water where the children swim in the park. It was said that cyanide is present in this water but they do not know to what extent.

A private meeting of the council will be held Tuesday evening, June 1st. This meeting will be held especially to make arrangements for the building of the new town hall.

## McIntyre and Dome Had to Play Overtime

Fast-moving Soccer Game Saturday won by Dome.

Dome defeated McIntyre in a fast-moving soccer game Saturday night. The score at the end of full time was one—nothing in favour of the Dome men. The score came late in the first half when Urquhart booted a long drive up the field to Chambers who was in an open scoring position and had no trouble in slipping the ball past Brockbank.

The game was fast all the way through. Both teams had swell chances from corner kicks but were not able to take advantage of them.

The line-ups were as follows:

McIntyre — Brockbank, McAdam, Campbell, Rogers, Mair, J. Dawson, E. Dunston, R. Dunston, Searle, T. Morrison, Nagi, Sub—Eannerman.

Dome — Baxter, Foster, Hampton, Paynter, Urquhart, Cockburn, White, Cooper, Chambers, Galbraith, Woodley.

The referee for the game was Pat Larmer.

## What is True Temperance?

The Brewing Industry is an old and honorable industry.

The oldest company book in existence is in the possession of Brewers' Hall, London—the record of the brewing industry in Britain, from 1418 to 1440 A.D.

The industry is, as it has been for many years, an industry for profit. It buys materials, it sells its products, gives employment, and has a capital investment which makes it a responsible industry.

Because the industry carries on a business for profit, agitators in certain communities try to make people believe that it has no social conscience at all—that its effect is to corrupt and debauch.

Yet true temperance is obviously the only sensible policy which the Brewing Industry conceivably could have!

We believe in moderation, which is true temperance! We urge that self-control brings greater good than external control.

We deplore intemperance, if only because it threatens the return of prohibitory laws, general or local.

We don't need another experiment in prohibition to prove that words in the statute book will not change the tastes and preferences of men.

The history of prohibition all over the world has proved the contrary. It has been shown again and again that the evils prohibition caused are greater than those it sought to correct, that its effects are the opposite of its intentions.

No believer in temperance wants to bring back those days, for to do so is to play into the hands of the bootlegger.

There are still minor abuses. No people were ever perfect.

But today the bootleggers have been driven back, and operate mainly in those areas where there is local option . . .

The hypocrisy of secret drinking, the furtiveness of drinking behind closed doors, has been checked . . .

Respect for law and order has generally been restored . . .

Youth is no longer faced with the temptation of illegal drinking—once considered the "smart thing" . . .

We must not go backward!

● This advertisement is inserted by the Brewing Industry in the interest of a better public understanding of certain aspects of the problems of temperance and local option.
