Inspectors Named for Ontario Dept.

Mines Dept. Enlarges Staff to Meet Needs.

The Ontario Department of Mines announced last week the appointment of two additional inspectors. This follows the establishment last year of a district inspectorate for Western Ontario. It has been found, however, with the great activity in the western and northwestern areas, as well as the long stretches between active sections, that one man cannot adequately cover the field and that a subdivision of the territory is necessary for this purpose. This is being effected by the setting up of a separate inspectorate comprising mainly the Kenora district, including the Patricia portion.

Increased activity in the Kirkland Lake-Larder Lake area has resulted in the appointment of a second man to the staff for this purpose.

The present additions are A. E. Cave, who is taking over the Kenora district, and D. A. Macleod, who will be stationed at Kirkland Lake. As at present constituted the mines inspection staff follows:

Toronto, D. G. Sinclair, chief inspector; A. R. Webster, electrical inspector.

Timmins, E. B. Weir, Kirkland Lake, W. O. Tower and D. A. Macleod.

Sudbury, D. F. Cooper, Port Arthur, A. S. Bayne, Kenora, A. E. Cave.

Mr. Macleod is a graduate from Queens with degree of B.Sc. and comes to the department from the Hollinger Consolidated Gold Mines, Ltd. where he has been connected for the past eight years, specializing in the control of dust. During 1936 Mr. Macleod spent three months in British Columbia investigating dust conditions in the mines there and advising the British Columbia Mining Association on dust abatement and control.

Mr. Cave has served with the International Nickel Company since 1926. He is a graduate of McGill, from which university he obtained the degree of B.Sc. and M.Sc., as well as devoting a post-graduate year to research work.

Paymaster Mine Showing Increased Production

Paymaster Consolidated reports gold production in May at \$105,538 from the milling of 13,284 tons averaging \$7.95 per ton. This compared with \$104,523 from 13,084 tons averaging \$7.99 in the previous month and \$77,376 from 11,811 tons averaging \$6.55 in May, 1936. Production for the first five months of the current year amounted to \$503,209 from the milling of 66,664 tons of ore averaging \$7.55 per ton as against \$362,803 from 54,076 tons, averaging \$6.71 in the same period a year ago.

BOY SCOUTS IN TIMMINS

With summer vacations coming on, the dreary, staring-out-of-window days already here, the thoughts of many of us turn to the wide open spaces. It is quite easy for most of us to convince ourselves that we want to make a trip to Fondun to see the wonderful sights and to enjoy the peculiar advantages that surround such a trip, but deep down in our hearts we know that it isn't Fondun that is calling but an unexplainable urge to uproot ourselves for a time and move out into space. Fondun is just an excuse, what for? After all, the usual effect of such an effort is to return home, more appreciative of our homes, and friends, and neighbours and general local conditions than when we started out. The urge for the travel urge is to travel! The secret of successful travel is intelligent planning.

Because of the splendid record that Scouting has built up through the years in demonstrating Scout preparedness, efficiency and safety, something extra is expected of Scout groups when they are "on the road." They are "Scouting on parade." It is up to us all to see that the whole group keeps fit and in step; that we know where we are going and why.

Scouter Wright of the 1st Troop is going out to-day (Saturday) on a short tour of inspection for the trip to be taken by his troop this summer in their camping programme. Theirs will be a moving camp, and no doubt a very fine one. Scouter Webb of the 2nd Troop has been making arrangements to have his troop out on a trekking camp this year. It wasn't so many weeks ago that the 6th Troop went out on a week-end hike and took no tents. While out they made their own lean-to shelters. All these things point to pioneering. And a good Scout is a good pioneer.

Scouts give assistance as a district good turn in the Tag Day in connection with the Institute for the Blind, Saturday.

In another demonstration of debating ability two members of the 2nd Troop earned their debaters' badges. To complete this test they put a bill through "Parliament," stating the school "kids" should have every Wednesday afternoon off. Needless to say the bill was passed unanimously.

Scouts Webb, Carson, Pritchard, Burt, and Lawry, of the 2nd Troop, have taken over duties to be known as "Den Chiefs" in the Wolf Cub Pack connected with their group. This is a new system in Canadian Cubbing circles and it is hoped that the experiment will prove satisfactory so that other packs may adopt it. I (the District Leader) am acting as the Akela for the Pack during the experiment.

According to my calendar it is only 73 more days till the Jamboree in Iron-

High School Graduates

Ambitious young men are now enabled to receive approved training for Canadian Government Licenses in AVIATION and MARINE COMMUNICATION also courses in BROADCASTING and RADIO ENGINEERING. Train with a complete resident course at the College, or home study plan with final period at Toronto. Applicants for these courses should have two years high school, or equivalent. Reservations are now being taken for summer term beginning June 28th. Limited number only being accepted. Write today! RADIO COLLEGE OF CANADA 863 Bay St., TORONTO

First Defeat of the Season for the Tuxis

Police Take Them in Charge on the Count of 16 to 7.

The Tuxis met their first defeat at the hands of the T.P.A.A. in their first encounter with the police squad which was to be expected for you can't beat a policeman. The score was 16-7. The Tuxis put in McLaren on the mound and he was knocked out of the box in the second innings and was relieved by McLellan but twelve runs came across the plate. Theriault starting the slaughter with Roy Ostovich and Churchill doing the round twice.

Churchill on the mound for the police held the Tuxis in every inning but one when he was in a tight race. His fifth innings was the best when they went out in a row. He also stopped the perfect hitting of Mortson by making him hit the dirt twice. Only two hit perfectly—McLaren and Hornby—the former making three runs but the latter died on third twice and first twice.

Popovitch went in at the fifth for Theriault who got beamed by a pitched ball. Hatton replaced Allen in the second.

The score: T.P.A.A. 2 12 1 1 0 0 0—16 Tuxis 0 2 0 0 0 3 2—7

T.P.A.A.—Phillips, Aulustine, Van Rassel, Phipps, Capps, Theriault, Roy Ostovich, Churchill, and Popovitch.

Tuxis—A. Black, Schroeder, McLellan, Hornby, C. Black, Mortson, Easton, Allen, McLaren and Hatton.

Left on bases: T.P.A.A. 4; Tuxis 10

Huntingdon Gleaser.—Standing on top of a high tower, his clothes saturated in gasoline, Matthew Harcourt strikes a match to himself then dives into a pool of water on the ground below. He has made his living this way for years and never has been burned during his stunt. But at Albany, Ore., the other day the engine of his truck caught fire and in putting out the flames he was burned so badly he had to be taken to a hospital for treatment.

Tuxis Pull Up After Being Down 5 Runs

United Church Team Lose After Big Pitching Battle

After a great pitching duel the Tuxis Grads pulled a fine win after being five runs down in the sixth innings to win by 7-6 against the United Church.

Lefty Goulet put the United down one, two and three in the seventh to win the game.

The United Church gathered all their runs in the fourth while the Grads got one in the fourth and six in the sixth innings.

There were two home runs of the game, both were got in the fourth one by Goulet of the Grads and the other by King of the Uniteds.

Up to the first of the fourth only six men reached first base of both teams.

The United started to pound Goulet and when the innings was over six had crossed the plate.

The Grads got one in this innings when Goulet rounded the bases, V. Wallingford was the only other man to reach first.

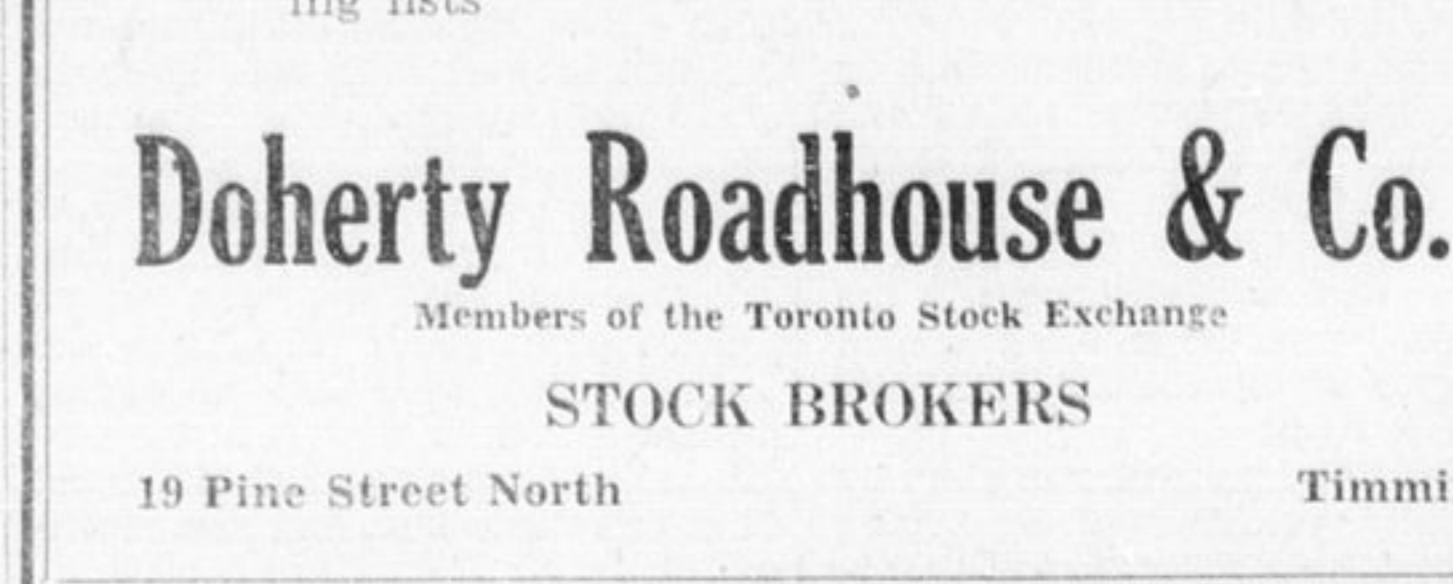

In the remaining three innings the Uniteds were only able to get two men

Winners of Golf Handicap Sweepstakes on Saturday

Thirty-three took part in the handicap sweepstakes at the Timmins golf course on Saturday afternoon last. The following are the winners—N. Ward 96-26-70; S. A. Wookey, 97-14-73; A. W. Pickering 95-22-73; G. S. Lowe 91-16-75; A. G. Irving, 99-24-75; J. H. Sandwich 91-16-75; F. W. Stock 103-32-77; J. W. Fogg 99-20-79; J. W. Doherty 103-24-79; D. Leggett 99-20-79; Geo. Lake 89-10-79; A. H. Munroe 97-18-79; J. E. Sullivan 99-20-79.

39,000 Truck Owners Can't be wrong

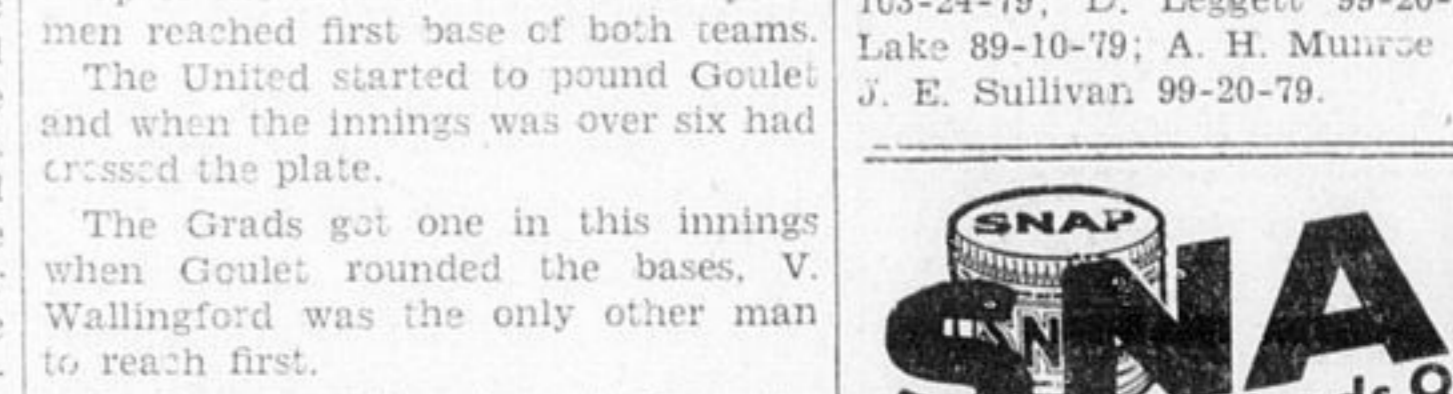

IN Canada, there are, it is estimated, about 39,000 owners operating Chevrolet trucks. Some are individual operators, others control whole fleets.

In the hands of these men, Chevrolet trucks are daily demonstrating the stamina, dependability and economy which General Motors builds into them on special truck assembly lines. They are establishing outstanding performance records.

With so many owners getting so much satisfaction from Chevrolet commercial vehicles, perhaps you, too, would find it to your advantage—and profit—to investigate the 1937 line. In it there is a low-priced model for every purpose.

Talk it over with your Chevrolet dealer—now! He is prepared to make a liberal allowance on your present truck or trucks... and to arrange convenient financing through the General Motors Instalment Plan.

THEY BOUGHT CHEVROLET Trucks

FEATURES
Entirely new valve-in-head six-cylinder truck engine
Increased Power—78 horsepower at 3,200 r.p.m.
Increased Torque—170 ft. lbs. at 800-1,600 r.p.m.
Completely new, streamline design
All-Steel Turret Top coupe-type cabs
Larger selection of Factory-Built Bodies
New, lowest-priced Cab-over-engine model
Perfect Hydraulic Brakes
New design steering gear

Brave Rescue of Boy at South Porcupine

Twelve-Year-Old Lad Displayed Rare Presence of Mind. Other South Porcupine and Dome News

South Porcupine, Ont., June 12th, 1937.—(Special to The Advance)—A hero un-mourled and unsung, but none the less a hero, despite the fact that his best clothes are damaged, is with us in the person of 12-year-old Victor Hills, of Cornnaught Hill. On Sunday last at noon, a little boy—Jackie Gagnon—was sitting at the dock with his legs dangling over the edge, watching some other lads fishing. Suddenly he lost his balance and fell in. The water is pretty deep there, and could easily have drowned the little chap, but Victor wasting not a second of time, jumped in—best clothes and all—and had him out in a jiffy. We commend this lad's presence of mind—others were there who probably would have done something if Victor had not—but quickness of thought and action were necessary, and to Victor belong the laurels. (And we sincerely hope that his parents will commend the boy's action and not be too hard on him on account of the clothes.)

Don't forget the supper bridge being held in the parish hall on Wednesday at 6.30 p.m., under the auspices of St. Paul's W.A.

There is also another treat in store on June 25th when the ladies of the United Church are putting on a strawberry tea in the church.

Little Elizabeth, four-year-old daughter of Mr. and Mrs. J. McCrae, had a lovely birthday party on Thursday. She invited a number of little people around her own age to celebrate with her, and they all thoroughly enjoyed the happy afternoon and the lovely birthday cake, at her home at the Dome.

Visitors at the Empress hotel this week included Mr. H. Wiber, manager of the Dominion Stores, North Bay; Mr. R. A. Beamish, of Ottawa; Mr. R. Cochrane, of Sudbury, and Mr. J. Bartlett, of Cobalt.

Mr. J. Gibson and daughter, Rose, of New Liskeard, were in town this week renewing acquaintances.

Mrs. J. Kingston and daughter, Miss Muriel Kingston, of New Liskeard, are visiting at the home of Mr. and Mrs. T. Kingston.

Mrs. T. Callan, of Toronto, is visiting her cousin, Mrs. Stanley Pearce, for a few days.

Mr. and Mrs. Barnes, of the Buffalo-Ankerite Mine, left on Friday with the Lions Club excursion.

Mr. T. Scan, who has been visiting his daughters, left on Wednesday for his home in Vinton, Que.

Mr. H. C. Smith flew in to Winnipeg to-day with a party of men to attend the annual fur market there. They expected to do the trip in seven to eight hours.

Mr. and Mrs. C. Pritchard and daughter, of Joplin, Missouri, visited their cousin, Mrs. H. C. Smith, this

week on a motor tour of the North. The new houses at Dome Extension have been started. The contractors are building the preparatory sheds.

Mrs. R. Jones, of Parry Sound, is visiting her sister, Miss B. M. C. Shaw, at the Cabin, Fortville.

On the King's Birthday the public school teachers held a picnic at the Cabin, and a presentation was made to two of the staff who will not be returning to teach here after the summer holidays. Wedding bells are in the air for both these young ladies, so the teachers of both Dome and South Porcupine combined to give a lovely gift to each. Miss I. McGavin, who is going to England (York) to marry Mr. Bryn Saunders, was made the recipient of a silver well and tree pattern meat platter, and Miss Rapsey, who is to be Mrs. Frank Huggins shortly, was presented with a bridge set or four spoons and saucers and plates; with the best wishes of the donors.

From The Ottawa Journal:—"An interesting wedding was solemnized at the home of Mr. and Mrs. John Cunningham, of Starks' Corners, when their daughter, Ethel, became the bride of William Edward, son of Mr. and the late Mrs. William F. Millens, of South Porcupine. Rev. A. F. Phillips, of Shawville, performed the ceremony. The bride, given in marriage by her father, wore a gown of white satin and carried a bouquet of Talsman roses. The bride's sister, Gladys, was bridesmaid, the flower girls being Eleanor Farrell and Jean Palmer, of Starks' Corners. Mrs. W. Palmer presided at the organ, the best man being Lloyd Qualle, of Morehead, Quebec. Following the ceremony a buffet lunch was served to immediate friends, after which bride and groom left for Eastern Ontario, before taking up residence in South Porcupine. The bride's going-away suit was of white flannel with white accessories."

Under the auspices of the C.W.L. and in charge of Mrs. LeRoy, president, the children of the Catholic Church held a basket picnic on the ball grounds on Saturday afternoon. The youngsters had a lovely time with plenty of ice-cream, etc., and sports.

Mr. A. Ewing left on Sunday to attend J. D. Locke's clinic at Williamsburg.

Mr. T. Strain left on Sunday with his daughter, Edna (Mrs. Miller) for a few weeks in Charlton.

Payore Opens Vein at the 250-foot Level for 20 Feet

Payore Gold Mines has opened the main vein on the 250-foot level for a length of 20 feet with assays of \$14 across full drift width of five feet. L. W. MacKenzie, resident engineer, stated in a wire to the company's head office late last week. According to officials, this makes a total of 10 or 11 veins intersected during the limited amount of underground work accomplished to date, all of which carry gold values.

Erection of the sub-station has been completed, and it is expected that full electrical equipment, capable of sinking to 2000 feet, will be in operation by July 1st.
