Five-Year-Old Girl Unafraid of Snakes

Naturalist's Daughter Impresses People of Chapleau.

Snakes, blood-suckers and frogs hold no terrors for little Florence Baillie, five-year-old daughter of J. L. Baillie, who spent the last three weeks in the vicinity of Chapleau gathering species of birds. She showed genuine regret Sunday morning, at having to leave a collection of frogs behind when the party was packing up to move on to Biscotasing. While at camp at Chapleau, all day long she would play on the shores of the lake or ramble about the grounds at the camp, bringing in, in her bare hands, whatever specimens she came across. These included bloodsuckers, frogs and on Thursday morning she surprised her parents with a three-foot garter snake, holding it carefully by the head so that it could not bite her. She is able to distinguish the different frogs and before leaving was becoming acquainted with the chipmunks.

Has Slept in Open

Florence has spent part of every year during her short life in the open. Before she was a year old, on an expedition with her father along Lake Erie, she slept in the open with the sky for a canopy. In her summer travels about the province, she has been to Bruce Peninsula, Parry Sound, as well as in Northern Ontario.

She takes the same active interest in things that other children her age do, and while reluctant to have her picture taken, jumped up with alacrity and posed when promised a great big candy "sucker."

With a collection of nearly 90 species of birds shipped to the Royal Ontario Museum of Zoology, J. L. Baillie and C. E. Hope left Chapleau Sunday for Biscotasing. Mrs. Baillie and Florence Baillie accompanied them. On Friday afternoon a special lecture with coloured slides of the birds caught in this district was given by Mr. Baillie in the auditorium of the Memorial Hall.

PROCLAMATION

All Citizens of Timmins are asked to decorate their homes and business places, and use every endeavour to refrain from parking their cars on town streets during Old Home Week. J. P. BARTLEMAN, Mayor.

The last report showed that they had seen over 90 varieties, including a black-billed cuckoo, a red-wing and a pine siskin. Of these 34 were breeding. Added to the collection were a blue bird, a hermit thrush and cedar waxwing besides a number of other varieties.

Communists Find British Citizenship Very Useful

(From Sudbury Star)

Once again it has been shown that British citizenship is something greatly to be cherished.

One Bert Levy, of Windsor, recently returned from fighting on the side of the Spanish Socialists. Incidentally, at a mass meeting in Windsor last week he influenced his hearers to cough up the sum of \$48.45 which of course will be immediately converted into a money order, payable in Madrid, Valencia, Barcelona, or wherever the Leftists happen to be hanging out on that happy day.

The main point in the story, however, is that Levy, a communist who doesn't have much to say complimentary to British institutions, can thank Britain that he has a whole skin to-day. When he and a group of playmates were captured by Franco's forces they were at first taken for Russians. The firing squad, therefore, was indicated. But when the insurgents learned their prisoners were "English," they went through the motions of a court martial, then quietly dumped the boys over the French border. And so Levy arrived home safe and sound.

SPECIAL BADGES FOR THE PIONEERS OF THE PORCUPINE

Special badges will be distributed on Monday, June 28th, to all men and women who were in the district twenty years ago or who have lived here for twenty years. The badges are of gilded metal and with a transparent celluloid section in the middle for the insertion of the wearer's name, so it will be possible to recognize all the old-timers. The special badges will be distributed from a registration tent on the Central public school grounds, corner of Pine and Fourth. The badges are free and all old-timers are asked to call for them.

Township of Tisdale

NOTICE OF COURT OF REVISION

Please take notice that the Court of Revision of the Township of Tisdale will sit in the Council Chambers, South Porcupine, at the hour of ten o'clock in the forenoon of Monday, the 5th day of July, 1937, to hear and determine the appeals in the matter of the Assessment Rolls for the Municipality of the Township of Tisdale for the Year 1937.

Dated at South Porcupine, this 23rd day of June, 1937.
FRANK C. EVANS,
Clerk of the Corporation of the Township of Tisdale

Annual Report of the Dentonia Gold Mines

Annual report of Dentonia Mines, which controls Durango Gold Mines, operating the Howard Mine, Porcupine Creek, West Kootenay district, B.C., reveals current assets as at March 31, 1937, of \$272,032, consisting of \$5,258 cash and supplies, investments of \$101,774 and shares of Durango Gold Mines at cost of \$165,000. Current liabilities amount to \$3,159, with \$94,778 worth in respect of purchase of 947,775 shares of Durango. Loss on operations for the year was \$48,291, which reduced earned surplus to \$64,771.

Dentonia's main interest now is control of Durango, which is being prepared for production, mill equipment from the Dentonia property being installed. Durango has agreed to pay back \$130,000 to Dentonia out of profits from operations in such amounts and at such times as the directors determine, and after payment of 15 per cent. of smelter returns to the vendor of the Durango properties in liquidation of property payments of \$56,313.

Young Lady Had Argument in Answer to the Referee

The following is from "Mainly for Women," in The Sudbury Star:—

We remember hearing several of the hockey enthusiasts last winter moaning about the lack of knowledge of the sport displayed by many of the girls they squared to the games. The baseball season brings them out too, say the boys. At the game between Sudbury and Frood Mine the other night, a Frood player was hit by the ball thrown by the second baseman to first, as he was being chased back to first base on an attempted steal. One fair Sudbury rooster boo-ed the umpire when he called the runner safe, and on being "shushed" by her male companion, she replied, "Well, we used to put them out like that at school and we played good baseball."

Meeting of Nationalities Called for Tomorrow Night

To-morrow night representatives of each national organization in Timmins and the Porcupine are asked to meet at the radio studio at eight o'clock in order to complete plans for International Day, Monday, in the celebration of Timmins Silver Jubilee and Porcupine Old Home Week.

Plans for International Day include the appearance of as many as possible in the costumes of their native lands. At the ball park in the evening, a number of national music groups are expected to contribute to the festivities.

Mr. and Mrs. David Larcher and children and Miss Lucy Larcher returned this week from a trip to Ottawa where little Grace Larcher was given treatment by an eye specialist. The specialist gave the opinion that with rest and a little attention the trouble with Grace's eyes would soon right itself. As part of the treatment Mrs. Larcher intends to take Grace for a camping trip for the summer months.

Haileybury Chief Did Not Hold His Prisoners

Haileybury, June 24.—(Special to The Advance)—When Chief of Police MacGirr on Tuesday tried out an emergency lockup to suit extraordinary circumstances his plan suffered the legendary fate of best laid schemes when two inebriated gentlemen whom the chief had locked temporarily in a box car thwarted his subsequent intentions by cutting their way to freedom and disappearing before the officer could return. Chief MacGirr, homeward bound at 2.30 a.m., says he saw a couple of drunks near the T. & N. O. station and when they hid in a handy freight car he simply bolted the door from the outside and went his way, meaning to come for his prisoners later, as the court house cells already accommodated five guests. But when the chief came back, the pair had gone, and investigation showed they had whittled an opening in the car door near enough to the bolt to permit a hand to be extended from the inside and draw the fastening.

Marriage at Iroquois Falls on Thursday Last

Iroquois Falls, June 28.—With snapdragons, stock and baby's breath adorning St. Anne's Church, Rev. Fr. Pelletier officiated at a pretty summer wedding Thursday, June 17, when Dora, daughter of Mr. and Mrs. J. W. Regimac, became the bride of Paul Gignac, son of the late George Gignac and Mrs. Gignac.

Wedding music was played by Miss Marquis and during the signing of the register Miss Johnston sang "O Promise Me."

Given in marriage by her father, the bride wore a gown of white satin in princess style with a mohair picture hat. The bridal bouquet was of roses and lilies of the valley.

After the ceremony, a reception was held at the home of the bride's parents where the bride's mother received in a gown of blue georgette, redingote style. She wore a corsage of roses and lilies of the valley.

The groom's mother chose black lace and wore a bouquet of roses.

Later the bride and groom left for a trip to Montreal. For travelling the bride wore a grey suit with blue accessories. On their return they will live at Iroquois Falls.

Mayor Left Yesterday and Session of Council Short

Yesterday's session of the town council got through the usual amount of business and yet was not long drawn out. No time was wasted. There were two main reasons for the prompt attention given to business. Councillor Wren did not waste council's time for advertising purposes, and the mayor wanted to catch the 5.20 train for Toronto.

His New Title

When I wrote about Sir Robert Horne's new title I asked whether it would be Lord Horne or Lord Slamannan. It seems that he has decided to have it both ways and the decision is sensible. The retention of his own name saves him from the fate of many a politician who has—so far as the public is concerned—lost his identity through the adoption of a purely territorial title. And "Lord Horne of Slamannan" still pays a nice little compliment to his native place.—Glasgow Bulletin.

Folks---

Buy a Cushioned Action Washing Machine, made entirely in Hamilton, Ontario, by the Canadian Westinghouse and you will have placed in your home the finest washer ever built.

This is not just another Washer. It is an entirely new principle of washing clothes and it is positively superior. Westinghouse engineers developed an agitator that rolls the clothes over 34 times each minute and drives 107 currents of water through them at the same time. The clothes are not touched by the agitator. All the harsh wrenching action which has kept your mending basket full is entirely eliminated. Clothes cannot tangle, the sheerest silks and fabrics may be washed indefinitely without the slightest harm and because they are always free and fluffed, Westinghouse new cushion action washers wash faster and cleaner. The mechanism is designed entirely on the opposed metal principle, without a single bushing used. The machine is built to Westinghouse precision, is absolutely silent and so vibrationless, a nickle can be balanced on the lid while under full load. Equipped with the world's best automatic wringer, finished in a variety of harmonizing colours, Westinghouse is a thing of glistening, lasting beauty. Your motor is protected by the exclusive Westinghouse Sentinel Breaker. There are no places to oil Westinghouse Washers. They are finished in DuLuxe, guaranteed for life against rust and over 200 satisfied delighted ladies in this area gladly testify and enthrone over this great machine. See one in operation. Examine the different models, priced from \$79.50 with terms on our budget plan at low as \$5.00 per month. Quality considered, Westinghouse Cushion Action Washers are the cheapest machine in the world. We will take your old machine as down payment and we ask you please see Westinghouse before purchasing any washer.

FOMENTING STRIKES

New York Times.—In the present case the trend toward strikes is greatly accelerated by the influence of two additional factors.

One of these is the adoption by congress of the very act—the Wagner Labor Relations Act—which was specifically intended, according to its own title, "to diminish the causes of labor disputes." Senator Wagner himself frankly expressed in The Times a week ago the opinion that labor difficulties have been increasing "not in spite of," but "largely because of" the enactment of the law which bears his name.

The other new factor which has been introduced into the present situation is the split in the ranks of the labour movement. Taking the field in open rivalry to the American Federation of Labour, the C.I.O. is under constant pressure to call strikes. This pressure develops in two ways. The high command of the C.I.O. is aggressively seeking new recruits, and in order to increase its membership rapidly has been driven into staging a series of spectacular strikes in the same time, the whole C.I.O. has been put together so hastily that the high command itself lacks effective control of the fringes of the movement. Hence the succession of "unauthorized" strikes which have followed in the wake of the C.I.O., and such foolhardy demonstrations of power as the capital of Michigan witnessed last week.

Middle Class Hardest Hit by Conditions Today

(Kingston Whig-Standard)

The people who are hardest hit today are the middle class people. The rich even after paying very high taxes, still have enough left to enable them to live comfortably and often luxuriously. The very poor are better looked after today than they ever were. It is the man on the moderate income who is trying to buy his little home, educate his family, keep up his insurance savings, and try to put by a little for the inevitable "rainy day" who finds the going hardest.

"POOR FELLOW"

A hen is not supposed to have much common sense or tact. Yet every time she lays an egg she cackles forth the fact. The mule, the most despised of all, has a most persistent way of letting folks know he's around by his insistent bray. The busy little bees they buzz, Bulls bellow and cows moo; The watch dogs bark, the ganders quack, and doves and pigeons coo. The peacock spreads his tail and squawks, pigs squeal and robins sing. And even serpents know enough to hiss before they sting. But man, the greatest masterpiece that nature could devise, Will often stop and hesitate before he'll advertise.

LOOKS LIKE MISTAKE

Toronto Saturday Night.—The hamburger sandwich is being introduced from the United States into Great Britain. Just when relations between the two countries had become so cordial.

QUITTING THE PUBLIC

Rev. J. A. Tuer, minister of St. James-Bond Church, Toronto, is quitting the pulpit to manage a 57-acre-farm in the Grimsby fruit district, valued at \$75,000. Oh, well, if it's that kind of farm, there'll be some hired help to exhort.—Woodstock Sentinel-Review.
