

Says Market Rationalized By Recent Gold Price Scare

(From Financial Post) The small but marked recovery which has taken place in the gold share market has made vital the question: "Are the dividend paying gold stocks a logical purchase at present prices?"

are in sound position and whose grade of ore places them, as far as the effect of lower gold prices is concerned, in the same class as the older mines.

Indian Charges White Man With Selling Him Beer

Halleybury, July 14—Ex-Chief Harry Baptiste and his son, Michael, from the reservation above Matachewan, went on the warpath on June 16, and they may or may not have the scalp of one Ralph Haggard added to their collection ere this is written to the story.

Naybob Planning for 500-Ton Mill

Richer Ore Being Encountered in Work Now Under Way.

A recent official release made by the authorities of the Naybob Gold Mine (formerly the Hayden Mine) states that developments in the mine may be materially changed in the near future.

bill on the drunken man but the lady thought a bill was carried to be used. Accordingly she managed to get hold of the club and she promptly applied it to the policeman's head.

T. Eaton Employees Have Annual Picnic Yesterday

About thirty members of the T. Eaton Company mail order and grocer staff had their annual picnic yesterday afternoon at Edgewater Beach Pavilion, Golden City.

A baseball game was held with the T. Eaton staff losing to a team of campers in the locality of the beach by a score of 9 to 8.

Twelfth Celebrated at Matheson Monday

About 500 Gather in Matheson for District Celebration of July 12th.

Traveller Charters Train and Gets Bill for 50 Cents

Everyone who goes to Muskoka knows "The Portage"—that stretch of a mile or more between Lake of Bays and Peninsular Lake.

Only a few members of the Orange Lodge were able to get away from their work in Timmins and travel to Matheson to celebrate the Glorious Twelfth.

There were between 400 and 500 gathered in Matheson to celebrate the Battle of the Boyne. The parade was a long, well conducted affair with the various lodges each following behind its banner.

Among the speakers were Rev. Mr. Blackburn and Mr. Dawson, of Iroquois Falls. They spoke of loyalty to one's king and country, of the necessity for a single flag and one language.

Canadian Junior Lyceum Planning Entertainments

In an attempt to meet the demands of parents and educators who have found difficulty in providing proper entertainment for their children the Canadian Junior Lyceum is making a very serious effort to provide worthwhile young people's programmes of every type, presented by the finest professional adult artists, adapted to the needs and enjoyment of children.

The Canadian Junior Lyceum expresses itself as an attempt to bring more laughter, beauty and new interest into the lives of boys and girls. "Every local child should have the finest cultural opportunities—such as are ordinarily available only to those living in a few large cities," says a letter from the Bureau.

The selection of the programmes has been based on the thought that children's entertainment should be on as high and artistic a level as that of the best adult attractions. They should be not only harmless and wholesome, but stimulating to the imagination along creative lines, and an encouragement to the artistic development of the young person.

Definite plans and dates will be available shortly, but in the meantime interested organizations and individuals may obtain further information by communicating with Mr. Harry Halperin, Canadian Junior Lyceum, at 5374 Esplanade Avenue, Montreal, Que.

Cochrane Council Sells Old Creamery Building

The Sudbury Star—That was a glowing, optimistic speech which Hon. Peter Heenan, minister of lands and forests, made at Fort William Thursday evening, when he predicted the expenditure of no less than \$44,000,000 in the next three years in construction of new pulp and paper mills and extension of existing mills in Northern Ontario.

During recent months the Sudbury Star has been stressing the need of the government doing something to assist in further promotion of newspaper manufacture in the North, and at the same time deprecated the Heppburn policy of exporting an immense volume of pulpwood to the United States to be made into paper by American workers and American capital.

However, to the ordinary mortal, Mr. Heenan's prediction looks rather extravagant. Forty-four million dollars is a lot of money in one breath, and the statement does not look consistent with the policy of the government in permitting the export of pulpwood across the border. After all, operations of private corporations have to be made profitable, and there is a limit to which they can go in new construction particularly with the competition of American companies making newsprint from Ontario raw material.

GOVERNOR-GENERAL DOES NOT ENJOY FREEDOM OF SPEECH

(From Windsor Star) Always humorous Lord Tweedsmuir can be depended on for a spark of laughter when he speaks. Addressing a group recently at Kingston, the Governor-General mentioned that he could not talk on subjects of political contention. He added he was hedged about in his speaking, saying, "In fact, I am confined to Governor-Generalities."

TOO MANY MEMBERS

Regina Star—Ever since 1930 men in touch with western conditions have advocated a reduction in the number of government members. This suggestion has sometimes been associated with recommendations for unification of prairie Governments. Public sentiment in respect to reducing costs of administration and obtaining improved service through greater centralization of government has hardened. Call it selfishness or anything else, it is a fact that many struggling people begrudge the salaries paid about 150 legislature members in these three provinces.

Northern News—Note from a mother to a Philadelphia magistrate: "My son was to have appeared before you for passing a stop sign on June 5. He was killed in an automobile accident on June 6."

Swimmer Drowned in Lake Near Cochrane on Friday

Yrjo Einar Tanninen, 37, Cochrane, drowned in the waters of Menard's Lake, about three miles from this town, Friday, when rescue efforts by his companions proved in vain.

Tanninen waded into the water, swam for some distance and then suddenly disappeared. The body was recovered a short time after. The deceased man was of Finnish nationality. No inquest was considered necessary by the chief coroner, after a personal investigation.

Gas Blaze Blocks Traffic at Entrance to Noranda

(From Monday's Northern News) Over 4,000 gallons of gasoline went up in smoke as two railway tanks blazed for an hour on the C.N.R. siding yesterday at the Makamik road entrance to the towns of Noranda and Rouyn holding up traffic in all directions for most of the duration of the fire.

One tank had been fully emptied and the other only partly so when a spark from a small engine nearby ignited some of the exposed gas and set fire to the remaining 4,000 gallons in the second tank.

The fire call at 5.30 brought both Noranda and Rouyn brigades who played water from three hydrants on the flaming tanks with dense clouds of smoke blackening the sky.

Two storage tanks owned by the Canadian Oil Corporation, to whom the gas was being delivered were saved by the direction of the wind and the fire fighters' efforts.

An adjacent building tenanted by Edward Larochelle operating the Gas Station situated near the storage tanks was badly charred on one side but most of the furniture was removed from the building. Both railway tanks and cars were thought to be beyond repair and useless for further service. There were no injuries suffered by anyone. J. N. Baribeau, D. Goulet and O. Perron are the joint partners in the Canadian Oil Corporation.

Men Held at Rouyn Had Odd Things in Possession

Constable Picard of the Rouyn police some days ago took Fred Nicholson, of Ottawa, and Jack Harris, of Vancouver, into charge when he found them trying to sell postage stamps in Albert's hotel. The young men had \$10 worth of stamps with them. Other articles found in the car included a toy revolver, a box of a dozen jars of ointment, a new clock, and a siphon with tap and hose. The suspicious police wanted to know what they were doing with these particular articles and why. The police even wanted to know where they got the car. Indeed the police had a whole string of questions to ask and wanted explanations of everything. The young men said that the toy revolver was carried for protection; that the ointment was for free distribution with the compliments of the Hamilton lady who made it. The clock was for telling them the time. If full explanation was given of the purpose of the siphon or the ownership of the car, the police did not pass along the explanations to the newspapers. In the meantime the two men were taken before J. H. Forget, J.P., and remanded for eight days. During the interval before the next session of court the police no doubt will be hunting up explanations on their own part as to the origin and use of the unusual articles in possession of the two men.

Donkey baseball games are being sponsored here by the Legion. The Lions Club at Kirkland Lake is the sponsor for similar sport in the Lake Shore town for three games at an early date. Donkey baseball has been very popular in many centres, the game making an especial hit in the West.

Engine Strikes Car Poor Brakes Blamed

Accident Yesterday at Noon at T. & N. O. Crossing on Pine Street South.

Bad brakes were blamed for an accident which occurred yesterday noon at the intersection where Pine street crosses the T. & N. O. Ry. spur line. An automobile, driven by Charles Godfrey, of Matheson township, collided with a moving yard engine.

Both the engine and the automobile were in full view. A brakeman was stationed on the head end of the locomotive. He motioned to Godfrey to stop but he apparently was unable to do so because he had no brakes on his car. After the impact the engine crew looked under the automobile and, allegedly, found the brake rods tied together with wire. The car was not badly damaged by the slowly moving engine. No one was injured.

Escaped Prisoner Hunted in Area Near North Bay

J. Fred Mulholland, prisoner of the Quebec provincial police in connection with prosecutions being conducted for alleged salting of Rubec Mine samples, has been the object of a police hunt in Tilden Lake district since his escape from custody of Sergeant James Haney at that place early Monday morning.

Mulholland was being returned from Amos, Que., by Sergeant Haney and another officer, to where he had been taken for identification and the gathering of evidence in preparation for his trial scheduled for Montreal Wednesday morning.

He made a getaway while Sergeant Haney was settling for accommodation at a tourist camp over Sunday. The prisoner disappeared into the bush unseen and although a search was instituted immediately and the bush searched and highway patrolled constantly since that time, no trace of the escapee has been found.

Henry Haskins, game overseer at Temagami who is familiar with the region into which Mulholland plunged, joined the hunt this week. He and Sergeant Haney were in North Bay yesterday, presumably to communicate with Quebec police headquarters and contact searchers along the T. & N. O. Railway.

Globe and Mail—Mr. Collin Brooks, editor of the Sunday Dispatch, London, Eng., sees Toronto as the Capital of the Empire in another century. What a chance Queen's Park will have to high-hat Parliament Hill then.

Lady Stages Attack on Policeman at Latchford

Constable J. Evers, of Latchford, didn't have a very nice time one night recently. He found it necessary to arrest a man for being drunk and was having an easy enough time at that duty when a lady interjected herself into the picture. She said she was not going to stand idly by and see her brother toted along by any John Law, or words to that effect. The policeman hadn't thought it necessary to use his

NEW BRITISH TRAIN BREAKS SEVERAL RECORDS

Britain's new Coronation Scot streamlined train did not wait very long before starting to break records. In its first trial run it set up four new British records and one new world's record while on a 316-mile trip from London to Crewe and back. It achieved the highest speed ever known on railways of the British Empire when it touched 114.4 m.p.h. near Stafford. Covering the 159-mile return trip in one hour and 59 minutes—an average of 80 m.p.h.—the Coronation Scot set up a new world record for the longest stretch of sustained speed.
